> "That all of the rights and property in and to said performances, recordings and interpretations, including the common law right of property therein are the property of, and belong to, the plaintiff herein, with the exception of the right to sell and the right to perform said records on home phonographs for private purposes only."

Looking to the contract between the plaintiff and the RCA Manufacturing Company, it is clear that there is no reservation contained in that contract of any rights by the plaintiff. He gave to the RCA Manufacturing Company "the right to sell, lease or otherwise dispose of" his recordings.

This case on the pleadings differs greatly from *Waring* v. *WDAS Broadcasting Station, Inc.* (No. 9053, Court of Common Pleas No. 1, County of Philadelphia). RCA-Victor Company had stipulated with Waring that the records which he made would not be sold for broadcasting purposes. The records as made by the RCA-Victor Company contained a stamped restriction against such use on each record. When Waring sought to enjoin the broadcasting company from the use of his records, the court held that he was entitled to injunctive relief on the theory that Waring had not parted with his right to the control of the records for radio broadcasting, and that the defendant broadcasting company violated the express restriction stamped upon the record and reserved by Waring.

Considering the contract between Noble and RCA Manufacturing Company, it is apparent that Noble for a consideration granted to the company the absolute right to "sell, lease or otherwise dispose of" his records throughout the world. This is a broad and all-inclusive grant. Had the recording company seen fit to limit the use of its records to home use it might have acquired rights which it could protest as against this defendant. No such limitations having been made by RCA, to whom Noble had granted all rights, this plaintiff has no standing to question the use by this defendant of the records in the manner indicated in the bill.

The defendant's motion to dismiss is therefore allowed.

INCREASED POWER RECOMMENDED FOR KIEM

Broadcasting Station KIEM, Eureka, Calif., applied to the Federal Communications Commission to increase its power from 500 to 1,000 watts. The station operates unlimited time on 1450 kilocycles.

Examiner P. W. Seward, in Report No. I-429, recommended that the application be granted "if the applicant will select a proper transmitter and antenna site, subject to the approval of the Engineering Department of the Commission." The Examiner found that a need exists for additional radio service in the area proposed to be served. The hearings indicated, the Examiner states, that the present and proposed site for the transmitter and antenna "seems to be too near the city of Eureka, and, operating as proposed, would include a greater percentage of the population within the blanketing area than is permitted by the rules."

RECOMMENDS AGAINST CONTROL CHANGE

Roy L. Albertson applied to the Federal Communications Commission to transfer station WMBO, Auburn, N. Y., to the Auburn Publishing Company. The station operates on 1310 kilocycles, 100 watts, unlimited time.

Examiner P. W. Seward, in Report No. I-430, recommended against the application to transfer. He states in his report that the granting of the application would be in conflict with the provisions of Section 310 of the Communications Act of 1934. He found that the proposed sale price "is far in excess of the valuation of the properties proposed to be transferred as a going concern. * * * The spread between the value of the properties and the sale price appears to be consideration for the transfer of the frequency involved."

NEW OREGON STATION RECOMMENDED

The Bend Bulletin applied to the Federal Communications Commission for a construction permit for a new station at Bend, Ore., to use 1310 kilocycles, 100 watts night and 250 watts LS, and unlimited time on the air.

Examiner George H. Hill, in Report No. I-432, recommended that the application be granted "subject to the selection of an approved transmitter site." The Examiner states that there is a definite need for the services proposed to be rendered by the applicant and no interference would be caused by granting the application.

RECOMMENDS AGAINST TIME CHANGES FOR WKBV

The Curtis Radiocasting Corporation applied to the Federal Communications Commission for a construction permit for the erection of a new station at Indianapolis, Ind., to use 1500 kilocycles, 100 watts night and 250 watts LS, and specified time. Also Station WKBV, Richmond, Ind., operating on 1500 kilocycles, 100 watts, and specified hours, asked that it be granted unlimited time on the air.

Examiner Robert L. Irwin, in Report No. I-431, recommended that both of the applications be denied. He found that there is no need for additional radio service at Indianapolis and the operation of the proposed new station would cause interference with WCKY during daytime operation. He found also that granting WKBV unlimited time on the air would cause objectionable interference to several stations.

TEXAS APPLICATION RECOMMENDATIONS

Applications were made to the Federal Communications Commission by the West Texas Broadcasting Company for a construction permit for a new station at Wichita Falls, Texas, to use 1380 kilocycles, 1,000 watts and unlimited time on the air. Also by the Wichita Broadcasting Company for a construction permit for a new station at Wichita Falls, Texas, to use 620 kilocycles, 250 watts and 1,000 watts LS and unlimited time; and the Faith Broadcasting Company to erect a new station also at Wichita Falls, Texas, to use 1380 kilocycles, 1,000 watts and 5,000 watts LS and unlimited time. Also C. C. Baxter of KFPL, Dublin, Texas, asked to voluntarily assign the station to WFTX, Inc. Also WFTX, Inc. (KFPL), asked to change the frequency from 1310 kilocycles to 1500 kilocycles, and its power to 100 watts and 250 watts LS.

Examiner John P. Bramhall in Report No. I-435 made the following recommendations:

1. That the application of the West Texas Broadcasting Company be granted upon condition that a site be specified which meets the requirements of the Commission and the Aeronautical Division of the Department of Commerce.

2. That the application of the Wichita Broadcasting Company is denied.

3. That the application of the Faith Broadcasting Company, Inc., be denied.

4. That the application of C. C. Baxter (KFPL) be dismissed, as provided in Rule 103.8.

5. That the application of WFTX, Incorporated, (KFPL) be dismissed, as provided in Rule 103.8.

RECOMMENDS NO CHANGES FOR WMBH

Broadcasting station WMBH, Joplin, Mo., operating on 1420 kilocycles, 100 watts night and 250 watts LS, unlimited time, applied to the Federal Communications Commission to change its frequency to 1380 kilocycles and to increase its power to 500 watts all time.

Examiner P. W. Seward in Report No. I-434 recommended that the application be denied. He found that with the changes suggested the station would reach fewer listeners than it does now. The Examiner stated that "the only benefit that might accrue would be to the applicant corporation by granting it the use of a regional frequency upon which it expects to predicate increased advertising rates, when in fact the service area will not be increased."

IDAHO STATION RECOMMENDED

Clarence A. Berger and Saul S. Freeman applied to the Federal Communications Commission for a construction permit for the erection of a new broadcast station at Couer d'Alene, Idaho, to use 1200 kilocycles, 100 watts and daytime operation.

Examiner P. W. Seward in Report No. I-436 recommended that the application be granted "subject to the approval of the Engineering Department of the antenna and transmitter site." He found that there is a need for additional daytime service in the area proposed to be served and "that the operation of the proposed station would not be expected to interfere with the efficient operation of an existing radio broadcast station."

RECOMMENDS NEW TEXAS STATION

The Beaumont Broadcasting Association applied to the Federal Communications Commission for a construction permit for the erection of a new station at Beaumont, Texas, to use 1420 kilocycles, 100 watts unlimited time.

Examiner Melvin H. Dalberg in Report No. I-433 recommended that the application be granted. The Examiner found that the proposed new facilities are needed, and that the proposed station would cause no objectionable interference with any existing station. It would be in the public interest he states.

BROADCAST ADVERTISING IN APRIL

HIGHLIGHTS OF THE MONTH

Total broadcast advertising during the month of April amounted to $11,309,319. Gross time sales for the month were 2.7% below the level recorded for last month, the usual seasonal decline. While national network and national non-network business showed declines in volume, regional network and local advertising experienced gains. Total sales were 28.1% ahead of the level as registered during April of 1936. The principal gain over last year occurred in the national non-network field, the volume of sales in this portion of the medium rising 53.8%.

As compared to last month, other major media followed the usual seasonal tendencies in experiencing slight increases in advertising volume. As against last April, national magazine volume increased 17.6%, national farm paper volume 11.8%, and newspaper lineage 3.4%. These increases compare to the 28.1% gain experienced by broadcast advertising.

Non-network broadcast advertising remained at approximately the same level as was recorded for March. Local station volume showed the only increase, rising 5.5%. All sizes of stations showed marked increases as compared to last April, the principal increase being a 47.2% gain recorded by regional stations. Of the geographical districts, the South Atlantic-South Central Area showed the only increase of any importance as compared to last month. All sections of the country recorded gains in business as against last April.

Electrical transcriptions continued to show the principal gains of any type of rendition as compared to the preceding month. Transcriptions rose 8.0% in the national non-network field and 9.3% in the local field. Compared to last April, live talent business rose 45.1%, announcements 25.3%, transcriptions 24.1%, and records 12.5%.

The following sponsor groups showed the principal gains as compared to last month: national network soap and kitchen supplies and tobacco advertising, regional network toilet goods and financial advertising, national non-network tobacco advertising, and local household equipment advertising. As against last April, principal increases occurred in the following groups: national network household equipment, financial, soap and kitchen supplies; regional network drug and clothing; national non-network foodstuffs, beverage, and confections; and local foodstuffs, department store and tobacco advertising. Retail broadcast advertising amounted to $1,252,430, an increase of 6.4% in volume over last month and a gain of 14.5% as compared to April of 1936.

TOTAL BROADCAST ADVERTISING

Total broadcast advertising for the month of April is found in Table I.

Total........	$11,628,154	$11,309,319	$43,489,354

Total broadcast advertising experienced the usual seasonal decline, dropping 2.7% from the level of the preceding month. National network volume declined 5.2%, while national non-network advertising decreased 1.8%. Regional network volume increased 10.7% over the level of March. Local business followed the usual seasonal upswing in rising 2.6% in volume.

Compared with the corresponding month of last year, gross time sales of the medium increased 28.1% in volume. While regional network volume remained at approximately the same level, national network volume rose 24.4%, national non-network business 53.8%, and local advertising 12.9%.

COMPARISON WITH OTHER MEDIA

National magazine volume gained 9.6% as compared to the level of March. Newspaper lineage increased 3.9% and national farm paper volume rose nearly 1.0%. These increases are normal seasonal tendencies.

Radio broadcasting continued to show the greatest gain in advertising volume of any major medium as compared to the corresponding month of last year. Compared to the 28.1% gain in broadcast advertising, national magazines rose 17.6%, national farm papers 11.8%, and newspapers 3.4%.

Advertising volume by major media is shown in Table II.

SPONSOR TRENDS IN APRIL

Compared to March, declines were fairly general in the national network field, clothing and radio set advertising declining to the greatest extent. Soap and kitchen supplies and tobacco advertising registered the principal gains. In the regional network field, toilet goods and financial advertising showed the greatest increases. Most important changes in the national non-network field were a 26.8% drop in the automotive group and a gain of 20.1% in tobacco advertising. Gains were fairly general in the local field, with household equipment advertising recording the greatest gain.

In the national network field, principal increases occurred in the household equipment, soap and kitchen supplies, and financial advertising as compared to last

April. Drug and clothing volume led the other sponsor groups in the regional network field. Gains were general in the local and national non-network fields, with local foodstuffs, department store and tobacco advertising and national non-network foodstuffs, beverage and confectionery advertising recording substantial gains.

Broadcast advertising during April by major product and sponsor groups is shown in Table VI.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

Nos. 3138 and 3140. Alleging unfair competition in the sale of candy complaints have been issued against **Ira W.** and **Clayton A. Minter,** trading as **Minter Brothers** and as **Douglass Candy Co.,** 3917 Lancaster Ave., **Philadelphia,** and against **Peck-O-Fun Co.,** 1428 West Thirty-seventh St., **Chicago.**

The complaint against the Minter firm charges the respondents with selling to wholesalers and retailers certain assortments of candy so packed and assembled as to involve, or which are designed to or may involve, the use of a lottery scheme when such products are distributed by retail dealers.

No. 3141. Charging use of unfair methods of competition in selling dresses which allegedly were falsely advertised as being composed of silk a complaint has been issued against **Lord & Taylor,** 5th Ave., and 38th St., **New York; Biberman Bros., Inc.,** 15th and Mt. Vernon Sts., **Philadelphia,** and **Galey & Lord, Inc.,** 57 Worth St., **New York.**

The complaint alleges that Lord & Taylor, a department store, purchased the dresses in question from the manufacturer thereof, Biberman Bros., Inc., which bought the fabrics from which such dresses were made from Galey & Lord, Inc.

In order to facilitate sales, the complaint alleges, Lord & Taylor, with the cooperation of the other two respondent companies, advertised the dresses, in newspapers and by other means, as being composed of "Soft, silky Seal crepe woven from Enka yarns," and as being "made from Seal crepe."

No. 3142. Four **New York** companies selling cosmetics, perfumes and drug notions to the retail and peddler trade, and certain of their officers, are charged with unfair competition in violation of Section 5 of the Federal Trade Commission Act, in a complaint issued by that Commission.

The corporate respondents are: **Rex Merchandise Corporation of America,** and **Crown Laboratories, Inc.,** both of 48 East Twenty-first St.; **Sheray, Incorporated,** and **Wilshire Sales Corporation,** both of 33 Union Square, **New York.**

The respondents are alleged to have entered into a combination and effected an agreement to sell tooth paste, shaving cream and other toiletries and notions marked and branded with fictitious prices and to have advertised them in a false and misleading manner.

Various items of merchandise described in their price lists and other printed matter are alleged to have been represented as of superior value because of the excessive fictitious prices marked thereon, when in fact, such articles were of values lower and had actual selling prices lower than the prices marked thereon would indicate to buyers, according to the complaint.

No. 3143. Violation of Section 5 of the Federal Trade Commission Act through use of certain unfair methods of competition is alleged in a complaint issued against six individuals trading as **National Optical Stores Company** and **Dr. Ritholz Optical Company,** 1148-1160 West Chicago Ave., **Chicago.**

The individual respondents, engaged in the interstate sale of spectacles and optical supplies, are Benjamin D., Morris I., Samuel J., Sylvia, Fannie and Sophie Ritholz. They have branch offices in Berwyn and Peoria, Ill.; Cleveland, Canton, Akron, Dayton, Youngstown, Columbus and Springfield, Ohio; Indianapolis, Gary, South Bend, Hammond and Evansville, Ind.; Nashville, Memphis, Knoxville and Chattanooga, Tenn., and Atlanta, Ga.

The respondents are said to have represented and implied in advertising matter that, in offering certain spectacles for sale at stated prices, they were making a special offer for a limited time, and that the stated prices advertised were much less than the regular retail prices and retail values of the spectacles, and much less than the prices at which products of the same kind and quality could be purchased elsewhere.

According to the complaint, the respondents did not make a special offer for a limited time, the prices advertised were the regular prices at which the spectacles customarily were sold and were not less than the retail values of such products.

Nos. 3144 and 3145. Complaints have been issued against a **Chicago** candy company and a **Detroit** chewing gum manufacturer, alleging the use of lottery methods in the sale of their products. The respondents are **Frank, George A.,** and **E. T. Urban,** trading as **Close & Co.,** 2021 Fulton St., **Chicago,** and **Wolverine Gum, Inc.,** 5625 Lauderdale Ave., **Detroit.**

The Chicago candy company is charged with selling assortments of uniformly sized candies, together with other articles of merchandise to be given as prizes to purchasers drawing certain pieces of candy having centers colored differently from those of most of the pieces, and to purchasers obtaining the last piece in an assortment.

The Detroit company is alleged to sell assortments consisting of several sticks of chewing gum and other articles of merchandise, so that customers drawing chewing gum with wrappers different from the majority of wrappers receive a prize.

No. 3146. Charging unfair competition in the sale of "Cosray Vitamin D Soap", a complaint has been issued against **Los Angeles Soap Co.,** trading as **Cosray Products Co.,** 617 East First St., **Los Angeles.**

Advertising in newspapers, over the radio and in pamphlets, the respondent company is alleged to have represented that the Vitamin D in its soap is a wonderful discovery of science to increase natural beauty, and that science has proven that this vitamin content will enable users of this soap to smooth out premature wrinkles, reduce large pores, eliminate blackheads and pimples, correct subnormal skin conditions and restore youthful color and elasticity.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 01644. Von Schrader Manufacturing Co., 16th St. and Junction Ave., Racine, Wis., selling the Von Schrader Portable Carpet Washer, stipulated that it will cease advertising that the machine restores colors or shades to and removes microbes or germs from carpets or rugs.

No. 01645. Henry and Sigmund Sacks, trading as Metal Cast Products Co., 1696 Boston Road, New York, agreed to discontinue advertising that they are the "only dealers" in casting forms or molds for manufacturers; that they sell the molds on a half-cost basis, or for any amount less than the regular price, unless such is a fact; that they furnish to purchasers of their molds all the necessary equipment for the manufacture of toys, novelties and other articles, and that they remunerate customers for any financial loss incurred.

No. 01647. William Jonason, trading as Bill's Music Shop, Clay Center, Nebr., agreed to cease representing that the study of any of the correspondence courses he sells will enable one to play any musical instrument within any definite period of time, or that any article is offered free to the purchaser of a course, when the cost of the article is included in the purchase price of the course.

No. 01650. The Sparks-Withington Co., Jackson, Mich., engaged in the sale of Sparton radios, will discontinue representations that Sparton radio tone control makes reception possible under any condition, and that by use of the Sparton, programs are received clearly and distinctly from all American stations or from various foreign countries or from outpost stations in remote parts of the world.

No. 01654. Wilhelmina Wittigschlager, trading as Indian Root & Herb Co., 150 N. E. Third St., Miami, Fla., will discontinue using the word "Indian" as part of her trade name or in the trade name of any of the various medicinal preparations she sells. She also will cease certain false representations as to the therapeutic value of preparations recommended as treatments for the nose and throat, rheumatism, skin ailments, high blood pressure, nervousness, and liver and stomach disorders.

No. 01655. French Lick Springs Hotel Co., French Lick, Ind., agreed to cease advertising that Pluto Water is the "only" laxative and will correct constipation, unless the latter representation is limited to indicate acute constipation; that it is of itself a competent treatment for gall bladder and liver troubles, and that it provides a sure way of cleansing the system of health-destroying poisons, unless such claim is limited to the intestinal tract.

No. 01656. Willard Mathias Moore, trading as Mooremade, 77 Turrill Ave., Lapeer, Mich., selling plans for an amusement park device, methods of engaging in mail order business, and other money-making schemes, stipulates that he will cease advertising that his plan for making money enabled him to accumulate $40,000, and that such plan will make easy money for anyone. Moore agrees to stop asserting that "Celebrated Magic Cologne" is in universal demand; that several hundred dollars' worth of "Magic Grease Eradicator" can be sold in a single township in a week's time; that "The Roadman's and Streetman's Guide" contains real plans for making big money, and that the book "Famous Secret Formulas", will enable one to clear $20 a day, and contains formulas for various accomplishments such as making inkless pens, an everlasting black ink, and a preparation that will cure the tobacco habit.

No. 01657. The Institute on Mentalphysics, Second St. at Hobart Blvd., Los Angeles, in the sale of correspondence courses, books and other literature on "Mentalphysics", agrees to cease the representation that the institute's founder was taught by masters of the Far East in Tibet, and is today an authoritative interpreter of the ancient wisdom.. The respondent also will cease representing that it offers a secret method of the actual technique of rejuvenation; that old age is only a chemical change which the respondent is able to instruct its students to overcome; that "Mentalphysics" enables one to cure appendicitis, sinus trouble and certain other ailments, and to attain a perfect supply of the right kind of food.

No. 01658. Jim Bourland, trading as Star Products Co., 1901 Runnels St., Houston, Tex., will cease making assertions in advertising that his Blue Star Ointment is a positive relief for itchy skin, will penetrate the pores or will kill common itch, tetter, rash, eczema, foot itch or ringworm.

No. 01659. Red Sea Balsam Co., Inc., 450 Broadway, Taunton, Mass., stipulated that it will cease advertising Red Sea Balsam as competent in the treatment of bruises, sprains, burns and sunburn, or that it is an effective remedy for colds, unless limited to the conditions associated with colds.

No. 01660. Crown Products Corporation, 1237 Minnesota St., San Francisco, agreed to discontinue advertising that Sani-Clor kills germs, is a sterilizer, or destroys odors, unless the latter representation is limited to the destruction of odors by application at the source of the odor or upon the object from which it emanates. The corporation also will cease representing that Sani-

Clor is a disinfectant, unless directions are given for first cleansing the surface to be disinfected, and then thoroughly wetting such surface with a proper solution of the product.

No. 01661. G. H. Glitzke, trading as Ulgo Co., 125 Wirthman Building, Kansas City, Mo., will stop advertising that Ulgo is a competent remedy in the treatment of leg or arm sores, or that it does other than control, but not cure, some cases of leg sores when caused by trichophyton tinea germs.

No. 01662. Dr. A. L. Barth, trading as Central Laboratory and as Central Laboratory Service, Pana, Ill., is engaged in the sale of a health service which includes his analysis of a body excretion as a means of diagnosing certain diseases. He agreed to cease representing that the findings of his analysis are an index to the state of one's health or indicate whether all the vital organs are performing their work properly or require attention, and that by the use of his health services the causes of dropsy, tonsillitis, tumors, goiter, indigestion and other ailments may be determined and the conditions relieved.

No. 01663. James Austin Co., Greenfield Ave. and Kaercher St., Pittsburgh, will stop representations that Austin's A-1 Solution will disinfect cuts, wounds, and insect bites; that when used for laundering clothes the use of bluing will not be necessary, and that the product will serve as a disinfectant for household purposes, unless such claim is qualified by the direction that the articles to be disinfected must be thoroughly washed or cleansed before application of the solution.

No. 01664. Farmaide Products Co., 2637 Randolph St., Lincoln, Nebr., will stop asserting that its Ex-Tone Poultry Worm Tablets or Ex-Tone Poultry Worm Powder will, alone or in combination with each other, constitute a competent treatment or an effective remedy for worm infestation of chickens or turkeys, or that either of them will save a flock from worms. The respondent company also will desist from advertising that Chloraide is suitable for all sanitation purposes in the home and on the farm, is non-poisonous, destroys bacteria, and will insure freedom from disease germs.

No. 01665. Thomas J. McBride, trading as The Entromul Co., 2147 West Washington Boulevard, Los Angeles, will discontinue advertising that Entromul is effective or competent in the treatment of inflamed stomach, nervousness and distress caused by acid secretions. Use of testimonials stating that the preparation will effect the cure of any disease or malady of the human body will be stopped.

No. 01666. Pacific Coast Borax Co., 510 West 6th St., Los Angeles, selling 20-Mule Team Borax, stipulated that it will desist from representing that the product will destroy all odors, banish insect pests and cure athlete's foot.

No. 01667. Francess Kable, Inc., 400 North Michigan Ave., Chicago, will discontinue representations that the respondent's product, Hollywood Contour Neck Band, is Hollywood's most guarded secret, and is used and endorsed by famous stage and screen stars, unless such celebrities actually use and endorse it; that the product rebuilds relaxed neck and contour muscles, builds up a receding chin or creates and protects the perfect contour. The respondent corporation also agreed to cease using the word "Hollywood" in designating its product.

No. 01668. Scientific Medicinal Products, Inc., Russ Building, San Francisco, agreed to cease advertising that its product, Slendrets, will enable one to get rid of fat and that its results are guaranteed. The company also will stop representing, inferentially or otherwise, that the product has been used in the reducing clinic of any hospital, unless such is a fact.

No. 01669. Elizabeth May and George W. Haylings, trading as National Folio Service, Los Angeles, agree to quit representing that their Treatise No. 5 on business methods is a remarkable plan telling a person how to earn a remarkable wage every week, and that in order to succeed with the business described in this treatise, it is not necessary to canvass and one need work only a few hours each day.

No. 01670. Towertown Studios, Inc., 520 North Michigan Ave., Chicago, agrees to stop advertising that in the sale of its correspondence course in art and commercial drawing, special cash offers are made or prizes are given for promptness, and that as a result of studying the course a person can begin selling his drawings as soon as he is able to produce them. The respondent also agrees to discontinue representing that the price of the course is fluctuating and subject to increase, or that such price is special, and that a reduction in tuition may be obtained by promptness in enrollment, unless such price increase actually takes place. The respondent admitted in its stipulation that expediting enrollment would not afford a student a special reduction in tuition.

No. 01671. Paul Gardinier, Newark, Mo., engaged in selling Vitality Tonic, Antiseptic Douche Powder, and roots and herbs, agreed to cease certain false representations concerning the therapeutic value of such products. Gardinier also will stop misrepresenting the results to be obtained from the use of other products he sells, including gazing crystals, booklets and novelties. The respondent does business under five trade names, each containing the words "Smythe Company."

No. 01674. W. M. Robbins, trading as Ray-Zem Laboratories, St. Paul, Minn., stipulated that in advertising Ray-Zem, a poultry remedy, he will discontinue assertions that the product is non-poisonous, harmless, and indispensable in making a success of poultry raising.

No. 01675. Hollywood Hygienic Products, Inc., Hollywood, Calif., will discontinue the following representations concerning certain products it sells: That use of Hollywood Dainties gives assurance of quality not found in other preparations for marriage hygiene, and that its germicidal qualities become active at once; that Glandex is a tonic and a competent remedy for nervousness and sleeplessness; that Ur-Gard is a Medical Corps prophylactic having properties fully effective for the prevention or treatment of social diseases generally, and that Retardex is a gland tonic, is harmless, and has been used with success where other remedies have failed.

No. 01677. H. D. Sandstone, trading as Rol-A-Ray Sales Co., Portland, Ore., stipulated that he will cease advertising that Rol-A-Ray, an electrical appliance, has performed miracles in relieving persons who had lost all hope of enjoying normal health; that it gives a miracle electrical massage, and is a competent treatment for anemia, arthritis, paralysis, pneumonia, influenza, ulcers and other ailments.

No. 1989. Illinois Nut Products Co., candy manufacturer, 613 West Lake St., **Chicago,** has entered into a stipulation to discontinue using any method or plan of sale or of promoting the sale of its candy products, which method or plan involves the use of any gift enterprise, lottery or scheme of chance whereby an article is given as a prize or premium in consideration of the purchase of any other article.

According to the stipulation, the company employed a certain punchboard method in promoting the sale of its products, and all of the prizes awarded were received by the purchasing public wholly by lot or chance.

No. 2355. An order to cease and desist has been issued against **H. N. Heusner & Son, Hanover, Pa.,** cigar manufacturer, requiring it to cease certain misrepresentations in the sale of its products.

The order directs that the respondent company stop representing, through use of the words "Havana" or "Habana," alone or with other words, or through use of other representations of similar effect, that cigars not made entirely from tobacco grown in Cuba, are Havana cigars. The use of such representations was held to be in violation of Section 5 of the Federal Trade Commission Act.

No. 2634. Kienzler Distilling Corporation, 3032 West Twenty-fourth St., **New York,** has been ordered to cease and desist from representing that it is a distiller of alcoholic beverages, when such is not a fact. Findings are that the company is engaged in the liquor business solely as a wholesaler and rectifier.

The respondent company is ordered to discontinue representing, through use of the word "Distilling" in its corporate name, in advertising, on labels, or otherwise, that it is a distiller of whiskies, gins or other spirituous beverages, that it manufactures such products through the process of distillation, or that it owns or operates a distillery, unless and until it does own or operate such a place.

No. 3074. Kolynos Co., New Haven, Conn., has been ordered to cease and desist from making certain false and misleading representations in connection with the interstate sale of Kolynos tooth paste.

Among representations prohibited in advertising are that Kolynos tooth paste conquers bacterial mouth allegedly caused by germs which attack tooth and gum; cleans and polishes teeth down to the naked white enamel and erases and removes tartar; gives teeth a double cleansing not to be obtained with ordinary or other dentifrices, and restores all teeth to sparkling or natural whiteness.

Nos. 3095 and 3098. Respondents in two cases have been ordered to cease and desist from using lottery methods to promote interstate sale of blankets, bedspreads or other merchandise.

In one case the respondents are **William F. Allen, Charles H. Wolf, Edward M. Mullen** and **Charles H. Clark,** individually and trading as **Miller, Bain, Beyer & Co.,** 1001 Filbert St., **Philadelphia;** in the other the respondent is **George J. Nothnagel,** trading as **The Stanley Store,** 734 Haddon Ave., **Collingswood, N. J.**

Findings are that these respondents sold their merchandise, along with their sales plan, to clubs, fraternal organizations, hospitals and charitable institutions, while Miller, Bain, Beyer & Co. sold to wholesalers and retailers as well.

The respondents' method of selling their merchandise is described in the findings as a club plan, the clubs organized having a fixed number of members 60 or 100, each of whom pays weekly dues, generally 25 cents, for a given number of weeks.

FCC GRANTS FOUR NEW STATIONS

The Federal Communications Commission this week granted construction permits for four new broadcasting stations as follows:

To the Owensboro Broadcasting Company, at Owensboro, Ky., to use 1500 kilocycles, 100 watts, unlimited time, effective July 13.

To Harold M. Finley and Mrs. Eloise Finley, at La Grande, Ore., to use 1420 kilocycles, 100 watts night and 250 watts day, and unlimited time, effective July 13.

To Edwin A. Kraft, at Petersburg, Alaska, to use 1420 kilocycles, 100 watts, unlimited time, effective August 10.

To the Okmulgee Broadcasting Corporation, at Okmulgee, Okla., to use 1210 kilocycles, 100 watts and daytime operation, effective July 20.

NEW RELAY STATION PROVISIONS

The Federal Communications Commission this week made the following official statement in connection with relay broadcast stations:

The Broadcast Division on June 15 deleted the provisions in the rules and regulations pertaining to the requirement of two-day notice and approval from the Commission for operation required of relay broadcast stations.

The following changes were made in the rules governing relay broadcast stations:

Rule 1002 was deleted in its entirety;

Rule 1001 (f) was amended by striking out in the sixth and seventh lines "and the information specified in Rule 1002 (b), 1, 2, 3, 4"; and

Rule 1004 was amended by striking out in the second and third lines "and have been authorized to operate under Rule 1002 (b)".

In the future, the operation of relay broadcast stations that may cause interference to other relay stations shall be governed by the provisions of Rule 1004. All the licenses of existing relay broadcast stations will be corrected in accordance with these amendments when the next renewals are issued.

SOCIAL SECURITY TAX RESPONSIBILITY

"Statement of custom with respect to employment of musicians, orchestration writers and orchestra leaders on sponsored radio programs:

"A sponsor may or may not engage an advertising agency to make arrangements for the program. The sponsor, or the agency, engages an orchestra leader specifying the number of musicians needed. The orchestra leader then deals with the musicians through a 'contractor', as required by union rules. This 'contractor' is usually a musician and union member, and in most cases he plays in the orchestra receiving double pay, one salary as a musician and another as a 'contractor'. The musicians can be discharged for unsatisfactory services by the 'contractor', orchestra leader, advertising agency or the sponsor. Ordinarily, musicians are engaged for several different programs during the same period of time. When an orchestration is needed the orchestra leader hires an orchestration writer, also a union member. These orchestration writers 'free lance'; they are hired only for one orchestration at a time, but they may work for many employers during the same period. The money for salaries is paid to the orchestra leader who in turn pays the musicians, 'contractor' and orchestration writers.

"Ruling: The orchestra leader, 'contractor', orchestration writers and musicians are all employees of the sponsor. They are employees as distinguished from independent contracts because they are members of a voluntary union, which requires a specified amount of compensation and regulates the conditions of employment, and because they perform services subject to the direction of the

CAIRO CONFERENCE COMMITTEE APPOINTED

A report to the Department of Commerce from American Commercial Attache, James T. Scott, at Cairo, regarding the International Telecommunication Conference to be held beginning February 1, states that an organizing committee has been formed in the Egyptian capital under the chairmanship of the Minister of Communications.

The organizing committee has nominated an executive committee under the chairmanship of the general manager of the Egyptian state railways, telegraphs and telephones, to take charge of the general arrangement for the conference, according to the report.

DENIAL RECOMMENDED

The Valley Broadcasting Company applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Youngstown, Ohio, to use 1350 kilocycles, 1,000 watts, and unlimited time on the air.

Examiner Melvin H. Dalberg in Report No. I-437 recommended that the application be denied. The Examiner contended that the applicant did not demonstrate at the hearing "a very definite need in the area to be served for the type of service proposed to be rendered, nor that such proposed service is not duplicated by broadcasts received from other stations." He found also that the proposed station would receive severe interference from other existing stations at night.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3147. A complaint has been issued against **H. E. Wagley,** 508 South Dearborn St., **Chicago,** trading as **National Sales** and as **Paramount Sales.** The complaint alleges unfair competition in the sale of clocks and other merchandise through use of sales methods involving lottery, in violation of Section 5 of the Federal Trade Commission Act.

Charged with distributing certain merchandise to ultimate purchasers entirely by lot or chance, the respondent is said to have used push card devices by means of which some retail customers received prizes for drawing names of girls appearing under disks on the card, the lucky name corresponding to the name under a master seal at the top of the card.

No. 3148. Alleging unfair competition in the sale of pipes and smokers' supplies, a complaint has been issued against **Wally Frank, Ltd.,** 10 East 45th St., **New York.**

The respondent company is alleged to have advertised in periodicals, on labels and in its publication, "Pipe Lore Monthly," in a manner implying that it is a British concern or has an office and a business in London, dealing exclusively in goods imported from foreign countries; that some of its pipes are prepared in accordance with certain famous processes, and that it sells established brands of pipes at prices greatly reduced from the customary and standard prices. The respondent is also charged with indicating in its advertising that it is a manufacturer.

No. 3149. A complaint has been issued against **Les Parfums d'Isabey, Inc.,** 312 East 32nd St., **New York,** alleging unfair methods of competition in connection with the sale of perfumes in interstate commerce.

Appearing in price lists and on containers, it is alleged, are representations and descriptions in the French language which serve to lead purchasers into the erroneous belief that the respondent company's perfumes are manufactured in France and imported into the United States. According to the complaint, the perfumes so described are made in the United States.

No. 3150. A complaint has been issued against **Schenley Distillers Corporation,** 20 West 40th St., **New York,** a holding company controlling 13 subsidiary liquor companies in various parts of the country. The complaint charges the respondent company with violation of Section 7 of the Clayton Act, through purchase of the capital stock of the Bernheim Distilling Co., Louisville, Ky., a competitor.

This acquisition by Schenley is alleged to have the effect of (1) substantially lessening competition between Bernheim Distilling Co. and the Schenley subsidiaries, (2) restraining interstate commerce in the sale of whiskey in certain sections of the United States, and (3) tending to create a monopoly in Schenley Distillers Corporation and its subsidiaries in the sale and distribution of whiskey.

Schenley Distillers Corporation, according to the complaint, organized the Bernheim Distilling Co., a Delaware corporation with headquarters in New York, on or about March 2, 1937, and on or about March 11, acquired all outstanding capital stock of Bernheim Distilling Co., the Kentucky corporation, with headquarters in Louisville, and thereupon transferred the Kentucky corporation's capital stock to the newly organized Delaware corporation in exchange for the latter's outstanding capital stock. According to the complaint, it also caused the Kentucky corporation to transfer and assign all of its assets and business as a going concern, including trade marks, good will, accounts receivable, machinery, equipment, and stocks of whiskey in bonded warehouses, to the Delaware corporation. Since on or about March 11, 1937, the Delaware corporation allegedly has operated the business theretofore conducted by the Kentucky corporation, and Schenley Distillers Corporation owning all outstanding capital stock of the Bernheim Distilling Co., the Delaware corporation, controls operations of that subsidiary.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 01673. The Grove Laboratories, Inc., Pine and Beaumont Sts., **St. Louis,** has entered into a stipulation to discontinue certain misleading advertising representations in the sale of Grove's Emulsified Nose Drops.

This product, according to the stipulation, will not be advertised as affording relief in cases of asthma and sinusitis and as relieving nasal pains and irritations or congestion of the nasal mucosa, unless the latter representation is worded so as to indicate clearly that it refers to pains, irritation or congestion due to or usually associated with the progress of head colds.

No. 01678. William A. and Myndall Cain Wickland, trading as The Myndall Cain House of Beauty, 808 LaSalle Ave., Minneapolis, will cease representing that either Myndall Cain Cleansing Cream or Myndall Cain Nourishing Cream are penetrating oils, or that they will serve as a diet for the skin, revitalize or rebuild the skin, banish wrinkles, or restore those youthful secretions that have been taken from the skin by time and exposure.

No. 01680. G. Bernardi, 1015 Euclid Ave., Cleveland, agreed that in the sale of Bernaris, a medicinal preparation, he will cease advertising that the product is a competent treatment or effective remedy for colds, catarrh, bronchitis, sinus ailments or throat irritations, or that it will afford a cure or prevent any disorder or disease of the body.

No. 01681. Elmer C. Rice, trading as **Plymouth Rock Squab Co., Melrose, Mass.,** has entered into a stipulation to discontinue false and misleading advertising representations in the sale of pigeons and pigeon supplies.

Rice agrees to stop representing that more than 100,000,000 or any other number of squabs are produced by his customers, unless he possesses reliable information showing this to be true, and to cease asserting that with an order for pigeons or any other products, additional pigeons or products will be given free, when in fact a price therefor is included in the purchase price of the products ordered.

No. 01682. Charles C. Merriam, trading as Caswell Agency, New Haven, Conn., will stop representing that his Hollywood Nights Perfume is a new sensation in perfume, that it originated in Paris, has been endorsed by Hollywood's most discriminating stars, and that a $1 introductory bottle is sent postpaid for 25 cents and the return of a coupon. The respondent admitted that the introductory bottle does not have a value of $1.

No. 01683. Collins Laboratories, 523 Franklin Ave., St. Louis, agreed that in the sale of Nuro-Sheen Dandruff Eliminator Shampoo it will cease advertising that the product is guaranteed to give relief from dandruff, will maintain a healthy condition of the scalp, remedy dandruff trouble, and revive dead and lifeless hair. The respondent company also will cease using the word "eliminator" as a part of the trade name for the preparation, or from otherwise representing that the product eliminates dandruff.

No. 01684. Frank H. Jones, trading as Britelite Co., Greenfield, Mass., will discontinue representing that his polish, designated "Brite-Lite", restores antiques, brass and pewter ware, and other articles to their original luster or brightness, and "makes old things new". The respondent also will cease representing that his sales agents are assured of repeat orders, or that any territory is open to them.

No. 01685. Mary C. Hogle Foundation, Scott Building, Salt Lake City, agreed to cease advertising that a booklet entitled "Build Up With Foods That Alkalinize and Heal" tells the things one may do to keep well when in health and to regain health when ill; lists the foods that protect, revitalize, soothe and heal, and contains food regimes for digestive disorders, cancer, arthritis and other ailments. The respondent also will stop representing that carrot juice and celery juice offer the body the essential food materials for good blood and healthy cells.

No. 01686. Scott-Phillips, Inc., 211 West Wacker Drive, Chicago, selling Eye-Gene, will discontinue advertising that the preparation is an essential of eye hygiene and relieves strained eyes regardless of the cause; that it is a competent treatment for inflamed eyes and lids, unless this representation is limited to relief of inflamed eyes and lids when due to a minor local condition, and that it does not contain boric acid, or that the latter is an old-fashioned solution.

No. 01687. H. W. Eakins, trading as Long-Eakins Co., 1128 South High St., Springfield, Ohio, selling a potato chip fryer, agreed to cease advertising that he will help finance prospective purchasers of his machines, that any profits in the potato chip business are certain, or that the profits to be realized from the operation of his machine are up to 80 cents of each dollar taken in. He also will stop representing, by use of such expressions in advertising as "Wanted—Men", that he has employment to offer.

No. 01688. The Compagnie Parisienne, Inc., trading as H. U. Rhodius, Perfumes, Parisienne Building, San Antonio, Tex., will stop representing that its Madam Roxy cosmetic preparations protect youthful complexion or restore texture to older skins; penetrate the pores or oil glands, hold or restore contour of the chin, and are effective for sallow or muddy complexions, sunburn, and skin discolorations. The respondent company further stipulated that it will cease using the words "deep-pore" and "nourishing" as a part of the trade names of any of its products.

No. 01689. Arwell, Inc., 1119 Glen Rock Ave., Waukegan, Ill., agreed that in the sale of insecticides known as Arwell, Arwellex and Arwellmist, it will not represent that any of these products will "free the camp of insects" or banish odors, or that if these preparations are used, one will not be bothered by flies or mosquitoes.

No. 01690. Zerbst Pharmacal Co., Zerbst Building, St. Joseph, Mo., stipulated that it will not advertise that its Ulypto Cough Drops stop coughs and end colds quickly, or that Zerbst Capsules stop colds before they get started, and keep colds from becoming dangerous.

No. 01691. Lockhart Drug Store, Inc., Lockhart, S. C., will stop representing that Red Star Liquid and Red Star Ointment are competent treatments for the various forms of eczema, ringworm, athlete's foot and itch, unless such representations are limited to palliative relief from itching and burning.

No. 01692. The Howdy Co., 4545 Olive St., St. Louis, Mo., will discontinue representations that its preparation, known as 7-Up, settles the stomach, dispels the ill effects caused by excessive use of alcoholic drinks, banishes distress after eating, speeds digestion, and slenderizes.

No. 01701. Selling premium merchandise and punch boards, **Jay Zelle** and **S. Fischman,** 329 Loeb Arcade Building, **Minneapolis,** trading as **Variety Sales Co.,** have entered into a stipulation to discontinue certain false and misleading advertising representations.

The respondents agree to stop advertising that a person can make "big money" giving away the respondents' motion picture cameras, admitting in their stipulation that only in connection with the sale of other merchandise can a person make money in giving away these cameras. The respondents also will cease asserting that everybody wins in their punch board deals and that such deals are legal in every State or that there is no gambling in connection with the deals. Another representation to be abandoned is that the respondents' merchandise is a sensational new business stimulator.

No. 1947. Owens Staple-Tied Brush Co., 901 Buckingham St., Toledo, Ohio, manufacturing tooth brushes, hair brushes, clothes brushes and finger nail brushes, agrees to stop representing, through the medium of labeling or stamping on the handles of tooth brushes, that such products are made entirely in the United States, when in fact the handles have been imported from a foreign country, the name of which has been obliterated and obscured. This company agrees to stop representing, by imprinting upon the brushes or the cartons or other packages in which they are placed for sale, the phrase "Made in U. S. A.", or other words of similar import, meaning that the brushes are manufactured in the United States, when, in fact, the handles have been imported from a foreign country.

No. 1949. Maison Blanche Co., Canal & Dauphin Sts., New Orleans, a department store, will cease employing in advertising matter or on labels the words "Solid Mahogany" or "Mahogany", or any abbreviation or imitation of the word mahogany so as to imply that certain furniture products are manufactured of wood derived from trees of the mahogany family, when such is not a fact.

No. 1951. Levy Bros. & Adler-Rochester, Inc., Hand St., Rochester, N. Y., maker of men's and boys' ready-made suits, agrees to stop using or furnishing others for their use, labels or advertising matter bearing the words "Royal Warrant", alone or in connection with a typically English script, pictures or simulations of the British Coat-of-Arms or Crown, or in any other way implying that the respondent company's suits or the fabrics of which they are composed are manufactured in England or by the holder of a British or other Royal warrant, when such is not a fact. The respondent company agrees to stop using in advertising matter which it furnishes dealers for their use in selling products, representations to the effect that owners of the mills in the United States producing the worsted material designated "Royal Warrant" are lineal descendants of British manufacturers, or that this worsted originated in England. It will cease asserting that superiority of English fabrics is due to the fact that they have been treated by washing in English or West English streams of water allegedly possessing chemical qualities or properties particularly applicable to treating woolen fabrics. The respondent company will stop asserting that the water used by the manufacturer in producing the "Royal Warrant" worsted in the United States possesses and was chosen because it has the same chemical properties to be found in streams of water in the west of England, when such are not the facts.

Nos. 1948 and 1952. Rainier Brewing Co., Inc., 1550 Bryant St., **San Francisco,** manufacturing beer, ale and stout, and **Seminole Bottling Co.,** 102 Hamilton St., **LaGrange, Ga.,** selling carbonated beverages, have entered into stipulations to discontinue certain unfair methods of competition in connection with the sale of their products.

Advertising its products in newspapers and in radio broadcasts, the San Francisco brewing company agreed to discontinue representations implying that lager beer, to be real or true beer, is dependent upon lengthy ageing, and that the company's storage capacity is the largest or in excess of any in the West, when such is not a fact. The company also will cease advertising that it has been a brewer of ale and stout since 1878. According to the stipulation, the brewery has been making ale and stout only since 1934.

No. 1953. J. F. Friedel Paper Box Co., 215 Wallace St., Syracuse, N. Y., also trading as J. F. Friedel Co., and engaged in the manufacture of paper boxes and kindred items, will discontinue the use in circulars or in other advertising matter of representations which, in effect, may tend to cause purchasers to believe that the method of protecting garments against moth damage as used in its Pro Tex Wardrobe has been endorsed or approved by the United States Government or any of its departments, when such is not a fact.

No. 1954. Ajax Tire & Rubber Corporation, 601 West 26th St., New York, engaged in the sale of tires and tubes, stipulated that it will stop making assertions in advertising implying that it was founded in 1904 or has been in business for more than 30 years, and that it is now engaged in either the manufacture or sale of its fiftieth million series of tires and tubes. The company also agreed to cease using the word "factory", or any other words or representations, to create the impression that it manufactures the products it sells.

Other representations to be discontinued are that the company formerly had factory branches in the United States or in foreign countries or that it has spent up to $1,000,000 annually for advertising, when such are not the facts.

According to the stipulation, Ajax Tire & Rubber Corporation was organized in 1934, fills orders with products manufactured in factories which it neither owns nor operates, and is merely a distributor.

No. 1955. Webster Co., North Attleboro, Mass., manufacturing tableware, toilet ware and novelties, agrees to cease using the expression "Mir-A-Gold" as a brand name for its products not composed of gold, and from use of the word "gold" in connection with the letters "Mir-A" or in any way in advertisements to imply that the products are composed of gold, when such is not a fact. The Webster Co. also stipulates that it will stop using as a trade brand for or in its advertising matter relating to its products, the word "Syl-van-ite", or other words simulating the word "Silver" so as to imply that certain articles are made of or contain silver in whole or in part, when such is not a fact.

No. 2404. Provincial Distilleries, Ltd., Inc., 1-27 Forrest St., **Brooklyn,** has been ordered to cease and desist from representing that it is a distiller of alcoholic beverages, when such is not a fact.

The respondent company is ordered to discontinue representing, through use of the word "Distilleries" in its corporate name, in advertising, on labels, or otherwise, that it distills whiskies, gins or other spirituous beverages, that it manufactures such products through the process of distillation, or that it owns or operates a distillery, until it does own or operate such a place.

No. 2476. L. Musil Distilling Co., 1228 Buchanan St., **Racine, Wis.,** has been ordered to cease and desist from representing that it is a distiller of alcoholic beverages, when such is not a fact. Findings are that the company had been engaged in the liquor business solely as a wholesaler and rectifier.

The respondent company is ordered to discontinue representing, through use of the word "Distilling" in its corporate name, in advertising, on labels, or otherwise, that it is a distiller of whiskies, gins or other spirituous beverages, that it manufactures such products through the process of distillation, or that it owns or operates a distillery, unless and until it does own or operate such a place.

No. 2530. Prohibiting certain price fixing agreements in the sale of uniform caps, an order to cease and desist has been issued against the **Cap Association of the United States, Inc.,** and the **Uniform Cap Manufacturers Institute, Inc.,** both of **New York City,** certain of their officers, eleven manufacturers of uniform caps, and four manufacturers of visors and trimmings.

These respondents are directed to cease entering into agreements or understandings among and between themselves for fixing prices at which they sell uniform caps. They are also ordered to stop maintaining by concerted action, coercion and persuasion, a boycott against and refusing to purchase visors and trimmings from any visor manufacturer failing to abide by their program of withholding supplies from non-participants in their uniform price fixing agreement.

The order further bans publication of lists containing names of only the so-called regular or recognized members of the two associations entitled to procure visors and trimmings used in manufacturing uniform caps.

No. 2650. Six Middle Western manufacturers selling more than 90 per cent of the total volume of new butter tubs produced in the United States, and their trade association, the **Butter Tub Manufacturers' Council, Cleveland,** have been ordered to discontinue certain concerted efforts to maintain uniform prices, terms or discounts, resulting in restraint of trade in violation of Section 5 of the Federal Trade Commission Act.

Orders to cease and desist from these practices have been served on the following manufacturers: **Menasha Wooden Ware Corporation, Menasha, Wis.,** said to be the largest manufacturer and distributor of butter tubs in the United States; **The Creamery Package Mfg. Co.,** 1243 West Washington Blvd., **Chicago; Elgin Butter Tub Co., Elgin, Ill.; Wisconsin Butter Tub Co., Marshfield, Wis.; Bousfield Wooden Ware Co.,** 2524 Marshall Ave., N. E., **Minneapolis,** and **Storey City Butter Tub Co., Storey City, Iowa.**

The respondent manufacturers are directed to cease and desist from entering into combinations, conspiracies or agreements, express or implied, with each other and by and through their trade association, to restrict, restrain and suppress competition in the interstate sale of butter tubs by any one or more of six specific methods detailed as follows:

No. 2854. An order to cease and desist has been issued against **Allura, Inc., Sacramento, Calif.,** directing discontinuance of certain unfair methods of competition in the sale of Allura, an eye lotion. Findings are that the company made false and misleading representations in advertising matter and radio broadcasts in violation of Section 5 of the Federal Trade Commission Act.

The order prohibits representation, directly or by implication, that use of the respondent company's preparation will take the place of the wearing of glasses, relieve astigmatism and general weakness of the eyes, and overcome irritating and painful conditions.

No. 2909. Under an order to cease and desist, **National Kream Co., Inc.,** and **National Foods, Inc.,** 360 Furman St., **Brooklyn,** are directed to discontinue certain unfair methods of competition in the sale of preserves and jams or imitations thereof.

Findings are that the respondents sold certain preserves and jams prepared under formulas at variance with the commercially recognized ratio of actual fruit content in relation to sugar. This proportion is said to be a minimum of 45 pounds of actual fruit to each 55 pounds of sugar in preserves or jam and to be based on the housewife's formula of one cup of sugar to a cup of fruit.

The respondents' products are said to have been adulterated by substitution of a mixture of water, sugar and pectin for part of the fruit content required in pure preserves and jams, with the result that, in selling such adulterated products as genuine, they have saved considerable expense in manufacture and gained an unfair competitive advantage over competitors selling the pure products.

No. 3041. Use of unfair methods of competition in connection with the sale of a type of piano formerly designated as the "Haddorff Vertichord Grand" is prohibited in an order to cease and desist entered against **Haddorff Piano Co.,** 1900 Harrison Ave., **Rockford, Ill.**

The respondent company is ordered to discontinue use of the word "grand", alone or with other words, as a trade name to designate any piano not having its strings placed horizontally, and not having gravity action of hammers, shifting soft pedal, and those tonal and other qualities associated by the trade and the general public with grand pianos.

No. 3070. Mills Sales Company of New York, Inc., 901 Broadway, **New York,** and its officers, have been ordered to discontinue fictitious price marking and certain other unfair methods of competition in connection with the sale of peddlers' and retail dealers' supplies, including tooth brushes, dental creams, razor blades, perfumes and other drug sundries and notions.

The order to cease and desist directs the respondents to discontinue marking cartons and containers, in which their merchandise is offered for sale, with retail prices in excess of the actual and usual selling prices at which such merchandise is sold by retailers to the consuming public; and to stop representing in advertisements, catalogues, radio broadcasts, or in any other manner, that the prices marked on their products are the regular or customary retail prices when they are fictitious and greatly in excess of the customary prices at which such products are retailed.

FTC DISPOSES OF TWO CASES

No. 2868. The Federal Trade Commission has dismissed without prejudice its complaint against **Associated Rubber Corporation,** 517 West 57th St., **New York,** charged with unfair representations in the sale of rubber tires.

Dismissal was ordered following receipt of information that the corporation had been dissolved.

No. 3126. The Commission has also issued an order closing its case against **M. J. Levinson,** trading as **J. Lewis, Francine Laboratories and Superior Products Co.,** 539 State St., **Hammond, Ind.,** charged with unfair competition in the sale of the "Circe Line" of cosmetics, and of packaged drugs, chemical specialties and feminine hygiene products, in violation of Section 5 of the Federal Trade Commission Act.

The closing order was issued following receipt of information that Levinson had been convicted and sentenced for violation of the postal laws upon charges similar to the allegations of the Commission's complaint. It was also reported that the respondent's place of business had been closed.

In the District Court of the United States for the District of Columbia:

Case No. 64232—Black River Valley Broadcasters, Inc., vs. Anning S. Prall et al.

NEW STATION RECOMMENDED

Chase S. Osborn, Jr., applied to the Federal Communications Commission for a construction permit for the erection of a new station at Fresno, Cal., to use 1440 kilocycles, 500 watts and unlimited time on the air.

Examiner John P. Bramhall in Report No. I-439 recommended that the application be granted "on condition that an antenna site be selected which meets with the approval of the Commission." He found that "need for additional service in the area proposed to be served has been established." The Examiner found that the granting of the application would not cause any interference with any existing station.

DENIAL RECOMMENDED FOR NEW STATION

The Waterloo Times-Tribune Publishing Company applied to the Federal Communications Commission for a construction permit for the erection of a new station at Waterloo, Iowa, to use 1370 kilocycles, 100 watts and daytime operation.

Examiner George H. Hill in Report No. I-441 recommended that the application be denied. He found, among other things, that "the financial showing of the applicant is unsatisfactory." The Examiner found also that "it does not appear that there is any substantial need for the proposed station."

RECOMMENDS NEW STATION

Elmira Star-Gazette, Inc., applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Elmira, N. Y., to use 1200 kilocycles, 250 watts and daytime operation.

Examiner Robert L. Irwin in Report No. I-438 recommended that the application be granted. The Examiner states that "there is need for the daytime service proposed to be rendered in the area by the applicant." He states also that the operation of the proposed station would not result in objectionable interference "to the recognized good service area of any existing station."

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them:

No. 3151. Allegedly engaged in a conspiracy to represent falsely the quality and value of certain pianos sold in interstate commerce, **W. W. Kimball Co.,** 306 South Wabash Ave., **Chicago,** and **Victor G. Williams,** trading as **Williams Music Store,** 30 East Broad St., **Columbus, Ohio,** are respondents in a complaint. The Kimball company manufactures pianos, and Williams is a retailer and sales agent for Kimball products in the Columbus area.

The Kimball company's sales manager, Ben F. Duvall, and one of its employees, George H. Kranz, also are named in the complaint, which charges use of unfair methods of competition in violation of Section 5 of the Federal Trade Commission Act.

In newspaper advertisements, the respondents allegedly represent that they have for sale repossessed pianos on which purchasers had been unable to finish payment; that to return the pianos to the factory would be very expensive, and that they will sell them at sacrifice prices for the unpaid balances due.

In answer to inquiries concerning the pianos so advertised, Williams, the complaint charges, transports them from his place of business to persons making inquiry, each piano exhibited having a purported regular retail price stamped on a tag affixed to the instrument.

No. 3152. General Motors Corporation and **General Motors Sales Corporation, of Detroit,** are charged with unfair competition and practices tending to create monopoly in the sale of automobile parts, accessories and supplies, in a complaint. The complaint alleges violation both of Section 5 of the Federal Trade Commission Act prohibiting unfair competition and of Section 3 of the Clayton Act forbidding exclusive dealing contracts.

Principal unfair practices alleged are the use of intimidation, oppression and coercion to compel dealers handling General Motors cars, against their will. to purchase parts, accessories and supplies for use on such cars only from General Motors subsidiaries or affiliates.

These practices are alleged to have been effected by six General Motors subsidiaries for three years prior to October, 1936, and by General Motors Sales Corporation subsequent to that time, the Sales Corporation having acquired the assets of the dissolved subsidiaries, Chevrolet Motor Car Co., Buick Motor Car Co., Pontiac Motor Car Co., Olds Motor Works, Cadillac Motor Car Co., and General Motors Parts Corporation.

No. 3153. Mutual Rosenbloom Corporation, 498 Seventh Ave., **New York,** a garment manufacturer, is charged with unfair competition in the sale of women's dresses in a complaint.

Representations of the respondent company are alleged to have deceived buyers into believing that certain of its dresses are made of silk, when such is not a fact and to have created the impression among buyers that when they order dresses from the respondent company specifying that such garments be made of silk jersey they actually receive dresses so manufactured, when in fact they receive merchandise made from material other than silk, according to the complaint.

No. 3154. Charging a conspiracy to fix prices, control sources of supply and channels of distribution in window glass, and to bring about a system of discriminatory prices, a complaint has been issued against a group of manufacturers and distributors said to dominate the window glass industry in the United States.

The Window Glass Manufacturers Association, 19 West 44th St., **New York,** and **The National Glass Distributors Association,** 2217 Tribune Tower, **Chicago,** and their officers, directors and executive committeemen also are named respondents.

Violation of both the Federal Trade Commission Act and the Robinson-Patman Anti-Price Discrimination Act is alleged in the complaint.

Manufacturers named as respondents, who constitute the membership of the **Window Glass Manufacturers Association,** are **Pittsburgh Plate Glass Co.** and **American Window Glass Co., Pittsburgh; Libbey-Owens-Ford Glass Co., Toledo, Ohio; Harding Glass Co., Fort Smith, Ark.; Adamston Flat Glass Co.** and **Rolland Glass Co., Clarksburg, W. Va.; Scohy Sheet Glass Co., Sistersville, W. Va.,** and **Blackford Window Glass Co., Vincennes, Ind.**

The Fourco Glass Co., Clarksburg, W. Va., is joined as a respondent and is said to be the owner of Harding Glass Co. and the exclusive selling agent for the Harding, Adamston, Rolland Scohy and Blackford companies.

The complaint alleges that the respondent manufacturers own practically all the factories making window glass in the United States and produce most of the window glass sold and distributed.

Distributors specifically named as respondents, and who are described as representative members of the **National Glass Distributors Association,** are **Postlewait Glass Co., Kansas City, Mo.; Patek Bros., Inc., Milwaukee; Schrenk & Co., Hoboken, N. J.; Bennett Glass Co., Salt Lake City; Pritchard Paint & Glass Co., Charlotte, N. C.; Hires Turner Glass Co., Philadelphia; Toledo Plate & Window Glass Co., Toledo, Ohio; W. P. Fuller & Co., San Francisco,** and **Binswanger & Co., Richmond, Va.**

The complaint also is directed against all other members of the distributors' association, numbering about 150, who are alleged to constitute a group so large and influential as to be able, by themselves and in cooperation with manufacturers, to control and influence the window glass industry in the country.

No. 3155. A complaint has been issued alleging unfair methods of competition on the part of **Jules Chain Stores Corporation,** 315 Fourth Ave., **New York,** operating the **Liberal Credit Department Store** at 415 Seventh St., N. W., **Washington, D. C.**

Engaged in the sale of wearing apparel for men, women and children, the respondent company, in newspaper advertisements and handbills, allegedly offered free gifts, such as blankets and silverware, to customers purchasing a specified amount of merchandise.

The complaint charges that such advertisements are false and misleading in that the gifts advertised are not free, their cost being included in the price to be paid by purchasers of the amounts of merchandise specified.

No. 3156. Golden Peacock, Inc., Paris, Tenn., engaged in the sale and distribution of toilet preparations, is charged in a complaint with the use of certain false and misleading representations in advertising two of its products, Golden Peacock Bleach Cream and Miracream.

Among representations made by the respondent company in radio broadcasts, newspapers and other advertising matter, and which the complaint charges are false, are that Golden Peacock Bleach Cream contains costly, refined ingredients imported from France and Spain which revitalize the skin and change it to a child-like whiteness and texture, and that it is a new discovery developed after many years of experimentation by eminent doctors and skin specialists.

The complaint further charges that use of either of the preparations will not, as allegedly advertised, remove deep-seated skin discolorations and blemishes over-night or in any other period of time; and will not bleach the skin white and keep it so in all cases, or nourish, revitalize and rejuvenate the skin.

No. 3157. Hay & Peabody Cement Vault Co., 201-05 Arlington St., **Watertown, Mass.,** in a complaint is charged with unfair methods of competition in the sale of its products.

The respondent company is alleged to have advertised its burial vaults as insuring positive protection for all time and as being absolutely water-proof, sweat-proof, vermin-proof, and air-tight, when, according to the complaint, these are not the facts.

The respondent company is also alleged to have represented that while wood decays and metal rusts and disintegrates, concrete improves with age, and the longer a cement vault remains in the ground the better and stronger it becomes because moisture and other underground conditions further solidify cement. The complaint charges that these results do not take place in all cases, and that the respondent company's vault will, and often does, disintegrate and permit both air and water to enter, under burial conditions.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 01693. Raymond Stotter, trading as The Raymond Press, 313 Madison Ave., New York, in selling a book designated "Beauty Unmasked", agreed to cease representing that the book reveals secrets that have brought astounding beauty to many men and women, and that the information it contains will enable a person to learn how to change his facial features and to remove scars, signs of age and skin blemishes.

No. 01694. B. C. Burden, trading as Lincoln Engineering School, Lincoln, Nebr., will stop advertising that his correspondence courses of instruction in radio and electrical engineering are more than equivalent to any other courses now being offered and are sold for only a fraction of the cost of comparable courses; that graduates of his school are so trained as to be able to obtain hundreds of thousands of positions paying $125 to $350 a month; that the courses cover the complete electrical field, and graduates are equipped to compete successfully with college-trained men.

No. 01695. The Filbertone Co., Inc., 608 Hoyt St., Saginaw, Mich., agreed to cease representing that Filbertone Powder or Filbertone Pills, when used separately or in combination, will constitute an effective remedy for rheumatic aches and pains, nervousness, neuritis, indigestion, skin eruptions, and bladder or stomach troubles.

No. 01696. R. Flores, trading as Sana-Cutis Chemical Co., Joplin, Mo., will cease representing that Sana-Cutis is a competent remedy in the treatment of eczema, ringworm, athlete's foot, or dry, itching skin. The respondent further stipulated that he will not use the words "chemical company" in his trade name until he operates a chemical company, or the word "manufacturer" unless he manufactures the products he sells.

No. 01697. Wecker Laboratories, Inc., 3859 Broadway, New York, selling Klearol Acne Lotion, agreed to stop representing that the product will banish pimples and acne and clear up the skin, and that it contains costly ingredients.

No. 01698. Donald S. Kenyon, 2608 Nicollet Ave., Minneapolis, trading as Kondon Manufacturing Co., will cease representing that Kondon's Nasal Jelly will stop a head cold, or is other than a palliative treatment for the pains and discomfitures of head colds, or that it will protect against chest colds, and bring immediate relief in all cases.

No. 01699. Use of certain false and misleading representations in advertising poultry remedies will be discontinued under a stipulation entered into by **S. R. Johnson, D. V. M.,** 2030 Broadway, **Kansas City, Mo.,** trading as **Johnson Laboratories.**

The respondent's products are designated generally as Johnson's Poultry Remedies, but have individual brand names.

Among the representations to be discontinued are that Kamala Nicotine Tablets will remove tapeworms or all species of roundworms; that Iriquin or Mercolated Tablets will restore poultry to the best of health, stop coccidiosis, and prevent intestinal disorders; that Avispray or Ivacol will prevent roup, colds, brooder pneumonia or respiratory infections, and that Mercolated Tablets or Mixed Bacterin (Avian) will constitute a competent treatment for chicken cholera, fowl typhoid, or other bacterial diseases of the digestive system.

No. 01700. Bristol-Myers Co., International Building, Rockefeller Center, New York, agreed to stop representing that its hair tonic, Vitalis, retards falling hair, unless limited to indicate excessive falling hair; that the product, combined with a massage treatment, brings new life and looks to the hair by giving it a chance to grow at the roots and scalp, and that it contains oils that hair requires for health.

No. 01702. Forty-second Street Sales Co., 820 North Michigan Ave., Chicago, stipulated that it will discontinue representing that Forty-second Street Super Cleansing Cream will condition and reduce the size of the pores and prevent dryness of the skin or prevent wrinkles; that Forty-second Street Tissue Cream is deeply penetrative, will refine skin texture, and is an effective treatment for helping banish signs of age, and that Forty-second Street Hand Cream penetrates the pores almost instantly and will enrich the skin.

No. 01703. R. S. Agnew, trading as The Genuaid Co., Clarion, Pa., will discontinue advertising that Genuaids will remove the cause of minor aches and pains and rheumatism, and that by its use a person can guard against colds, indigestion, fatigue and high blood pressure.

No. 01704. Cosmos Chemical Corporation, 81 Washington St., Boston, selling Sanovan, a deodorant, stipulates that it will stop advertising that this product will permanently rid any place of any odor. In its stipulation, the respondent company admits that although the preparation is a deodorant while being used, it will not protect against recurrence if the source of the odor is not removed. The respondent company will not represent Sanovan as being the only deodorant capable of completely eliminating odors.

No. 01705. Atkins Chemical Co., Inc., 44 East 63rd St., New York, engaged in the sale of Bonnox, stipulated that it will cease representing that the preparation is a competent treatment for kidney, bladder or prostate disorders; that it will prevent any ailment from developing into more dangerous stages, and that it is a competent home treatment for nervousness, neuralgia and other ailments.

No. 01706. Laura Phillips, 4532 Murdock Ave., New York, in the sale of Laura's Rapid Tonic and Hair Formula, agrees to desist from the representation that 18 treatments will grow new hair; that use of these preparations will stimulate dormant roots and stop falling hair, unless, in connection with the latter assertion, the representation is limited to the stopping of excessive loss of hair. The respondent will cease asserting that Laura's Realization Face Cream will eliminate wrinkles, make the skin firm, smooth and white, or do away with sallow complexion.

No. 01707. John F. Coleman, trading as Typists' Information Service, Smithboro, N. Y., selling a folio of instruction designated "Typing Tips for Typists", will discontinue asserting in advertising that all details explaining how typists may earn $15 to $20 a week are furnished by him upon receipt of a stamp. Coleman admitted that upon receipt of a stamp he merely furnishes information concerning the booklet he sells. He also agreed to cease representing by publication of advertisements in "Help Wanted" columns or otherwise that he has employment to offer, and to stop making unmodified claims of earnings in excess of the average earnings of purchasers of his folio of instruction.

No. 1708. Dr. J. F. True & Co., Inc., Auburn, Me., agrees to quit advertising that Dr. True's Elixir is useful in treating the ordinary ailments of children, and that it safeguards health, gives children double protection and contains no harmful ingredients.

No. 01709. Chas. H. Phillips Chemical Co., 170 Varick St., New York, agrees to stop advertising that Phillips' Milk of Magnesia Texture Cream helps to correct certain ugly skin blemishes and that this preparation and Phillips' Milk of Magnesia Cleansing Cream help to neutralize the fatty acid accumulations on the skin, unless, in this latter representation, the language is qualified to mean excess fatty acid accumulations. The respondent company stipulates that it will not advertise Phillips' Milk of Magnesia Tooth Paste as providing the best way yet discovered or as science's latest discovery for cleaning teeth. The respondent company will also cease asserting that its tooth paste contains more milk of magnesia than any other tooth paste, unless such representation is true at the time it is made. The respondent company admits in its stipulation that there is no evidence that its dentifrice contains more milk of magnesia than any other tooth paste.

No. 01710. A. Carolus Becker, 22 Hale Ave., Brooklyn, is engaged in the sale of pamphlets, variously designated, containing information relative to astrology and numerology. He stipulated that he will cease representing that any booklet sold by him will enable the purchaser to become a medium, or to construct his own horoscope or arrive at his own astrological predictions; that any of his booklets covers the subjects of numerology thoroughly, or contains information on astrology or forecasts and enables the purchaser to determine his vocation, financial prospects and psychic powers.

No. 01711. J. M. Simmons, trading as J. M. Simmons & Co., 19 West Jackson Boulevard, Chicago, also dealing in pamphlets on the subjects of astrology and numerology, entered into a stipulation substantially the same as that signed by A. Carolus Becker.

No. 01712. The Methusa Co., 10427 St. Clair Ave., Cleveland, agrees to cease stating that its preparation Methusa will enable the user to get rid of nervousness, rheumatism, arthritis and certain other ailments of different degrees of seriousness, unless the assertion is specifically limited to temporary, palliative relief from symptoms. Other representations to be discontinued are that through the use of Methusa the weight of years and age are removed, and that this product will completely recondition the human system. The term "Manufacturing Chemists" or any other term implying that the respondent company manufactures Methusa or any other preparation, will no longer be used, according to the stipulation.

No. 01713. W. J. Latimer, trading as The Midwest Art Co., 514 North Prior Ave., St. Paul, Minn., selling pictures of motion picture stars, in connection with which a missing word contest is conducted, will cease representing that it is possible for a person supplying the missing word to win $1000 without expenditure of "one red cent", and that in event of a tie for any one prize, there will be as many prizes reserved as there are participants tied.

No. 01714. Bristol-Myers Co., International Building, Rockefeller Center, New York, in the sale of Ipana tooth paste, will cease advertising that this preparation and massaging will correct any unhealthy gum condition; that Ipana and the use of a tooth brush will restore to the gums the stimulation they need to remain firm and healthy; that modern dental science or the country's dentists urge or approve the use of Ipana and massaging in the care of teeth and gums, and that Ipana and massaging will prevent one from becoming a "dental cripple".

No. 01715. United Milk Crate Corporation, trading as The Lifetime Portrait Society, 1041 Evans St., Cincinnati, selling pictures enlarged and processed by a method designated as "Por-Ce-Lite Process", will stop advertising that three motion picture studios have ordered pictures of their stars treated by this process, and that the bonus offered by the respondent will pay sales agents $140 extra a month. It is further stipulated that the respondent company will cease using the words "Society" and "Lifetime" in its trade name or otherwise, and will discontinue representing that portraits treated by its process will never fade, warp or soil, and will last for generations.

No. 01716. Alfred J., Paul, and Arthur Smith, trading as Johnson Smith & Co., 6615 E. Jefferson Ave., Detroit, entered into a stipulation to cease the following representations: That their book of instruction in piano playing, entitled "The Vamping Tutor", will enable one to play the piano without lessons or personal instruction, and without any knowledge of music, and to play by ear the accompaniment to any song; and that their book on hypnotism enables one to strengthen his will power, banish fear and worry, and overcome bad habits. The respondents also will stop advertising that Japanese rose bushes grown from seed they sell will bloom "all the year round" or every 10 weeks, winter or summer.

No. 01717. H. M. Cheney, 1218 Adams St., Toledo, trading as Cheney Medicine Co. and as F. J. Cheney Co., stipulates that, in the sale of Hall's Nasal Catarrh Medicine, he will stop asserting that it is a competent treatment for sinusitis or an effective remedy for the symptons of sinus troubles, unless this latter assertion is limited to relief of headaches occurring in cases where an excessive amount of nasal congestion prevents the proper drainage of the sinus cavities.

No. 01718. Herman Nagel, 633 Plymouth Court, Chicago, engaged in selling Formula B, a so-called vitality restorer, will quit asserting that use of its tablets will restore vitality and bring back one's youth, and that this preparation consists mainly of extracts of tropical herbs which have been used for centuries for their vivifying effects.

No. 01719. The Cream of Wheat Corporation, 730 Stimson Building, Minneapolis, agrees to stop representing that by eating Cream of Wheat a person may increase resistance to disease, unless this assertion is limited to the cereal's value as a nourishing food. The respondent company will also cease advertising that Cream of Wheat has been especially created to help youngsters escape contagion, and that a child burns up as much or more energy than a full-grown athlete unless a comparison is made between an active child and an adult and in proportion to weight.

No. 01720. Bristol-Myers Co., International Building, Rockefeller Center, New York, will cease representing that its preparation, Sal Hepatica, is used in cases of constipation to prevent more serious physical conditions or trouble, and that it is a competent treatment for headaches, indigestion, and certain other ailments, unless this claim is limited to such conditions when due to hyperacidity or constipation. The respondent company agrees to cease asserting that Sal Hepatica will clease the system thoroughly, unless this is limited or qualified to indicate cleansing of the intestinal tract, and that Sal Hepatica will correct or counteract acid conditions, unless this is qualified or limited to indicate gastric hyperacidity. In its stipulation, the respondent company admitted that, according to scientific opinion furnished the Commission, Sal Hepatica is an effervescent salt which, when taken in small doses, will act as a laxative, and in larger doses as a cathartic, and that therefore it can be relied upon neither as a competent treatment for colds, headaches, indigestion, upset stomach, or unnatural fatigue, nor as a preventive of more serious physical conditions in cases of constipation.

No. 01721. Louis J. Schuck, 155-65 One Hundred Sixteenth Drive, Jamaica, N. Y., selling certain designated medical preparations, stipulates that he will cease representing, inferentially or otherwise, that any of his preparations or any of the ingredients thereof, are imported from Indo-China or any other country, unless this is true. He will also cease asserting that Kandu Tabs will be of benefit to one in need of "pep" or that either Kandu Tabs or a specified tonic or a combination of both will stir up, wake up or strengthen weak or tired glands.

No. 01722. B. W. Rucker, trading as DeSala Enterprises and Vincent DeSala, Buechel, Ky., in the sale of a book entitled "This Power Called Hypnotism", will stop representing that persons studying this book will gain dynamic power and become masterful, successful and happy, and that its price formerly was $10 or any other price different from that at which it was regularly sold.

No. 01723. C. E. Richards, 404 Morase St., Lewistown, Mont., selling Nu Way Method, agrees to desist from the representations that his prescription, called a system cleaner, will clean the system, break up a case of typhoid, remove gall-stones and has other accomplishments, or that it has any therapeutic value except as a laxative and that there is no danger of spreading tuberculosis when the respondent's treatment is used. The respondent will also cease asserting that Indian Root Treatment treats the body by means of medicated air, or that he, through the use of his preparations, can do more for a person than can a Doctor of Medicine.

No. 01724. Spear Brand Mills, Inc., Kansas City, Mo., selling Spear Brand Chick Feed, will discontinue advertising that this product is capable of producing healthier, sturdier chicks quicker and at less cost than any other feed on the market and that it contains all the vitamins and minerals necessary for rapid, healthy and sustained growth.

No. 01725. E. B. Graham, trading as Golden West Co., Knoxville, Tenn.; "Golden West Compound", for stomach, kidney, blood and liver disorders, indigestion and rheumatic pains.

No. 01726. Western Chemicals, Inc., Vance Building, Seattle, Wash.; "Alcoban", for alcoholism.

No. 01727. E. L. Morris, trading as Nuway Products, Frankford, Del.; "Vim Tabs", a stimulant for glands or nerves.

No. 01728. W. F. Young, Inc., 111 Lyman St., Springfield, Mass.; "Absorbine, Jr.", for inducing sleep.

No. 01729. Chemm, Incorporated, 245 Fifth Ave., New York, agrees to stop representing that Chemm is a balanced food drink. Other allegations to be discontinued are that Chemm develops healthful beauty, causes children to drink more milk and supplies all required amounts of Vitamins A, B and D.

Nos. 01730-01733. A dealer in machines to stamp impressions on coins and a distributor of book matches and other printed material have entered into stipulations to discontinue certain false and misleading advertising practices in the sale of their products.

The respondents are **H. W. Boetticher,** 124 East Larned St., **Detroit,** trading as **Blue Dot Stamp Co.,** and **Bannen Printing Co.,** 110 North Second St., **Rockford, Ill.,** known also as **All-Trades Printing Service.**

Both respondents agree to stop making representations that opportunities exist for prospective salesmen to earn amounts in excess of those actually earned by their regular salespersons under normal conditions.

No. 01731. W. M. Akin Medicine Co., 108 N. Governor St., Evansville, Ind.; "Dr. R. A. Armistead's Ague Tonic", for colds and influenza.

No. 01734. Omar Baking Co., Omaha, Nebr., a subsidiary of National Baking Co., Omaha, also named as a respondent, will quit advertising that Omar Bread is balanced as a diet is balanced, is capable of furnishing tremendous over-generosity of calcium and is a daring contribution to the science of bread-making. The respondent company will also stop asserting that calcium is the sole requisite for strong, hard bones and sound, white teeth, and that lack of it is the cause of malnutrition.

No. 01735. Northwestern Yeast Co., 1750 N. Ashland Ave., Chicago, stipulates that it will desist from representing that the typical every-day diet is sadly deficient in Vitamin B, and that the use of the respondent company's yeast foam tablets will restore a person's digestive and eliminative system to normal, healthy function, provided the latter claim is limited to such conditions when due to a deficiency of Vitamin B complex. The respondent company will no longer advertise that its yeast preparation is capable of correcting skin blemishes, and that its Animal-Poultry Yeast Foam when fed to dogs, has a capacity to help a dog get all the nourishment available from his food, or when fed to chickens, can cause coccidiosis or other intestinal diseases to disappear.

No. 01736. Charles Keller, trading as Keller Co., Mechanicsburg, Ohio; "Bukots", for weakness and irritation of the bladder.

No. 01737. Margaret Vorhees Doyle, trading as the Estate of C. A. Vorhees, M. D., 426 Chelten Ave., Philadelphia; "Bumstead's Worm Syrup", for worms in either children or adults. This respondent also will discontinue representing that the manufacturer of this preparation is a practicing physician or that the originator of the formula is now alive.

No. 1956. Trading as **United States Marble & Granite Co., Asa L. Wooten, Oneco, Fla.,** has entered into a stipulation to discontinue representations in advertising matter implying that he manufactures the tombstones and monuments he sells in interstate commerce.

According to the stipulation, the products sold by Wooten are manufactured at plants which he does not own or operate, although his advertising matter contained assertions such as "Sell Direct From Factory To You" and "From Stone Quarry To Monument Factory Direct To You."

No. 1994. Wayne County Produce Co., Green Point, Long Island, N. Y., agrees to stop using a so-called gift offer of a skillet having an alleged value of $1.25 or other purported value, when in fact such designated value is greatly in excess of the price at which the article is regularly sold. The respondent company manufactures bottled, canned and packed food products, including cider, vinegar, jelly, preserves and apple sauce.

No. 1995. Fragrant Perfumers, Inc., 40 East 19th St., New York, engaged in assembling perfumes and in the sale thereof as well as of other toilet articles, stipulates that it will stop the use on labels of exaggerated or misleading representations concerning the value of a perfume or the price at which it is sold or intended to be sold. Fragrant Perfumers, Inc., also stipulates that it will quit using the word "France" in connection with its sale of this perfume so as to imply that it is made in France, when such is not a fact.

No. 1996. Reliable Stores Corporation, 1 South Howard St., Baltimore, distributor of furniture, house furnishings, jewelry and related commodities, and operating retail stores in different States, including the National Furniture Co., 7th and H Sts., N. W., Washington, agrees to cease use in advertising matter of the words "free" or "gift" alone or in connection with each other or with other words as descriptive of certain articles represented to be given with the purchase of other merchandise, when in fact the price of the so-called "free" or "gift" merchandise is included in the price asked for the goods sold. The corporation also will stop employing the words "free" or "gift" in any wav implying that the articles to which such words refer are in fact gifts or are given free or as a gratuity to the buyer of other merchandise, when such is not a fact.

No. 2004. B. Altman & Co., 5th Ave. and 34th St., **New York,** department store, has entered into a stipulation to discontinue certain unfair representations in the sale of women's blouses.

Certain blouses were designated as "Diagonal Crepe Shirts" and "Diagonal Crepes", when in fact, according to the stipulation, they were not composed of silk but of materials other than silk.

No. 2420. American Grain Distillers, Inc., 634 Lafayette Building, **Detroit,** has been ordered to cease and desist from representing that it is a distiller of alcoholic beverages, when such is not a fact. The order does not apply as to gins produced through a rectification process in which alcohol purchased by the respondent company is redistilled over juniper berries and other aromatics.

Findings are that the company formerly engaged in the liquor business solely as a wholesaler and rectifier, and that it is now insolvent, but still maintains its corporate existence and the Commission is not assured that upon a reorganization the name might not be resumed in the absence of a prohibitive order.

No. 2706. J. G. McDonald Chocolate Co., Salt Lake City, Utah, has been ordered to cease and desist from selling and distributing to dealers, candy so packed and assembled that sales to the public mav be made by means of a lottery, gaming device or gift enterprise.

The order also prohibits packing in the same assortment pieces of candy of uniform size and shape having centers of a different color, together with larger pieces of candy to be given as prizes to purchasers procuring pieces of candy with centers of a particular color.

Nos. 2708-2837-2848. Cease and desist orders have been issued requiring three candy companies to discontinue selling and distributing to dealers, candy so packed and assembled that sales to the public may be made by means of a lottery, gaming device or gift enterprise.

The respondent companies are **Shupe-Williams Candy Co.,** 2605 Wall Ave., **Ogden, Utah; Ostler Candy Co.,** 143 South State St., and **Glade Candy Co.,** 232 South Fifth East St., both of **Salt Lake City.**

The orders also prohibit the Shupe-Williams and Ostler companies from packing in the same assortment pieces of candy of uniform size and shape having centers of a different color, together with larger pieces of candy or a small package of candy or other merchandise, to be given as prizes to purchasers procuring pieces of candy with centers of a particular color.

Nos. 2704-2697-2699-2705. Under orders to cease and desist, four candy companies are required to discontinue selling and distributing to dealers candv so packed and assembled that sales to the public may be made by means of a lottery, gaming device or gift enterprise.

The respondent companies are **Williams-Crahan Co., Woody Candy Co.,** and **Fine-Reding Candy Manufacturing Co., Inc.,** all of **Oklahoma City, Okla.,** and **Startup Candy Co., Provo, Utah.**

The orders also prohibit the Williams-Crahan and Startup companies from packing in the same assortment pieces of candy of uniform size and shape having centers of a different color, together with larger pieces of candy or small packages of candy, to be given as prizes to purchasers procuring pieces of candy with centers of a particular color.

No. 3114. Prohibiting certain unfair competitive methods in the sale of an herb tea and an orange pekoe tea, an order to cease and desist has been issued against **Germania Tea Co.,** 608 First Ave., North, **Minneapolis,** and **Consolidated Drug Trade Products, Inc.,** 544 South Wells St., **Chicago.**

The respondent companies are directed to stop representing that Germania Herb Tea performs any functions in a reducing program other than those of a laxative or purgative, and that Germania Orange Pekoe Tea performs any function or has any value in treating obesity, or in a reducing program, other than in the caffeine supplied through its consumption.

FTC CLOSES TWO CASES

No. 1846. The Federal Trade Commission has issued an order vacating and setting aside an order to cease and desist issued in September, 1933, against **Magnecoil Co., Inc., Salt Lake City,** manufacturer of blankets and other appliances with electrical connections, for use in treating certain diseases.

The Commission directed resumption of testimony on the charges of the complaint in this proceeding. The former order to cease and desist prohibited certain misrepresentations concerning the therapeutic value of the respondent company's product.

No. 1856. The Commission has also closed its case against **J. V. Linehan** and **C. A. Weldt,** trading as **Lion Manufacturing Co., Chicago,** for the reason that the respondents have discontinued the unfair methods of competition alleged in the complaint.

The respondents were charged with misrepresentation of certain blankets they sold in interstate commerce, and with use of a lottery scheme in promoting the sale of such blankets. The Commission closed the case without prejudice to its right to reopen it should the facts warrant.

FEDERAL COMMUNICATIONS COMMISSION ACTION

There was no meeting of the Broadcast Division of the Commission this week. The next broadcast meeting is scheduled for June 29.

The Commission granted the petition to withdraw from the Commission files the petition of WLWL for reconsideration of the action of the Broadcast Division of November 24, 1936, in granting the application for the transfer of control of WOV.

PRESIDENT ELMER WILL SPEND ONE DAY EACH WEEK AT HEADQUARTERS

The new President of NAB, John Elmer, announced this week that he will spend one day each week at NAB headquarters. Mr. Elmer plans to be available to members between the hours of 10 and 4 each Thursday at 960 National Press Bldg., Washington, D. C. The President extends a cordial invitation to all members to visit their headquarters office.

A WORD OF APPRECIATION

I want every member to know of the deep, warm gratitude which I feel for the confidence expressed in my election to the presidency of NAB. I assume the duties of the office with every intention to serve fully the best interests of our organization—and with a consciousness of the responsibility. No motive of mine in any action shall ever be selfish. To our whole membership I address my thanks and this promise.—John Elmer.

SYKES SAYS SILENCE CRITICS WITH SERVICE

"The best answer to make to those who are not satisfied with our American system of broadcasting is to render such a wonderful public service that these critics may, in the course of time, be silenced," said Judge Eugene

RESOLUTIONS ADOPTED AT NAB CONVENTION

The following resolutions were adopted by the Convention:

Resolution No. 1

RESOLVED, That the National Association of Broadcasters sincerely thanks Hon. Judge Eugene Octave Sykes, Chairman of the Broadcast Division, Federal Communications Commission, for the helpful address delivered by him at its fifteenth annual convention, and that the membership is confident that his message will aid greatly in enabling broadcasting stations to carry out the responsibilities placed upon them by the Federal Communications Commission.

Resolution No. 2

RESOLVED, That the National Association of Broadcasters hereby extends its appreciation to Mr. Glenn Snyder, Mr. H. Leslie Atlass, Mr. Ralph L. Atlass, Mr. H. C. Crowell, Mr. Gene T. Dyer, Mr. W. E. Hutchinson, Mr. Quin A. Ryan, Mr. F. A. Stanford, Mr. Niles Trammel and Mr. Clinton R. White of the Local Convention Committee for their services in helping to make the fifteenth annual convention of the National Association of Broadcasters a success.

Resolution No. 3

RESOLVED, That the National Association of Broadcasters hereby extends its hearty thanks to the management of the Sherman Hotel, and to Mr. Wm. P. Hennessy, Director of Conventions, Chicago Association of Commerce, for their splendid service in making the fifteenth annual convention of this Association an outstanding success; also to the management of the Sherman Hotel and other hotels for their courtesies in accommodating so many of our guests.

Resolution No. 4

RESOLVED, That the official acts of the Managing Director since the fourteenth annual convention be and the same are hereby approved.

Resolution No. 5

RESOLVED, That the National Association of Broadcasters thank Mr. Arthur Pryor, Jr., of Batton, Barton, Durstine & Osborn, Inc., of New York City, and Mr. Marvin Oreck of Oreck's, Inc., Duluth, Minnesota, for their helpful participation in this fifteenth annual convention of the National Association of Broadcasters.

Resolution No. 6

WHEREAS, the Federal Radio Education Committee, acting through a select committee, has agreed that certain specific projects should be carefully studied,

WHEREAS, at a cost aggregating approximately $250,000.00, certain foundations have agreed to contribute approximately $167,000.00, it is resolved that all broadcasting stations should be invited to contribute a total of approximately $83,000.00 over a period of two years as the broadcasters' share of the expense of these investigations. Resolved further that the Board of Directors devise a formula whereby the contributions of each broadcaster will be on an equitable basis.

Resolution No. 7

RESOLVED, That the National Association of Broadcasters encourage the prosecution of the United States suit against the American Society of Composers, Authors, and Publishers.

Resolution No. 8

RESOLVED, That the National Association of Broadcasters, as an organization, use all legitimate means to further the passage of the Duffy Copyright Bill, and urge its membership to encourage members of the Congress from their districts to support this bill.

Resolution No. 9

RESOLVED, That the NAB reiterate its position as favoring the issuance of radio station licenses for a term of at least three years.

Resolution No. 10

RESOLVED, That the Board of Directors of the NAB be directed and are instructed to carry on negotiations with copyright owners to the end that a per-piece or measured service plan be obtained.

Resolution No. 11

RESOLVED, That the NAB approves of the action taken by the Board of Directors in respect to the organization of the NAB BUREAU OF COPYRIGHTS, INC., and the transferring of the property and activities of the Bureau of Copyrights to the new organization and urges the wholehearted support to that organization of all our members.

Resolution No. 12

WHEREAS, there has been introduced into the Congress of the United States a bill known as the Celler Bill, which would authorize the construction, maintenance, and operation of a government broadcasting station,

Whereas, the existing system of broadcasting in the United States makes available to the various departments of the government ample time for broadcasting either domestic or foreign programs,

Whereas, the existing system of broadcasting in the United States affords to the departments of the government the greatest possible radio audiences,

Whereas, the operation of a broadcasting station by the Office of Education is opposed by all existing Federal and State laws respecting education,

Whereas, due to its official status, there would be great danger of utterances over such a station giving offense to friendly nations, and creating unnecessary international incidents,

Whereas, the enactment of the bill would result in a useless and extravagant expenditure of public funds,

Now, therefore, be it resolved, That the National Association of Broadcasters express its opposition to the passage of this bill, and instruct its Board of Directors to use all legitimate means to cause its defeat, and urge the members of the National Association of Broadcasters to encourage their members in Congress to oppose the passage of this bill.

RESOLUTIONS REFERRED TO NAB BOARD OF DIRECTORS

The following resolutions were referred to the Board of Directors:

A. Whereas, we believe it is for the best interests of the National Association of Broadcasters, as a trade organization, to promote the broadcasting industry of the United States at all times in the best possible manner,

Therefore, be it resolved, that a Director of the Advertising Bureau of NAB be employed by the National Association of Broadcasters, to work under the supervision and direction of the managing director, to advance the art of radio broadcasting in the minds of the people and to portray a true picture of the value of the radio industry, in its present form, to the United States.

B. Whereas, the Copyright Act of 1909 was enacted at a time when Radio Broadcasting was unknown and in the application of such act to Radio Broadcasting as it exists today, numerous injustices have been complained of by both user and owner of copyrighted material, and

Whereas, the diversity of state legislation affecting copyrights and other problems of the broadcasting industry makes it advisable to coordinate information on these subjects for the benefit of all,

Therefore, be it resolved, That a committee composed of one member of the National Association of Broadcasters from each state be appointed and that each such member be pledged to respond to committee call, each such committee member to serve without compensation but with traveling and hotel expenses to be set and paid by the National Association of Broadcasters when such committee members are traveling pursuant to official call, and it shall be the duty of each such committee member to gather and furnish information on questions of copyrights and other problems of broadcasters, and that the activities of this committee shall be coordinated by suitable counsel engaged for that purpose.

C. Whereas, at the 1936 meeting of the National Association of Broadcasters, the following recommendation was adopted:

"Whereas, as the radio broadcasting industry continues to grow in size, it becomes more and more apparent that if broadcasters are to handle their state, regional and national programs intelligently, they must be organized in state, regional and national units, as such organizations will serve to keep the rank and file better informed and give the numerous broadcasters more of a voice in the affairs of the industry.

"Now therefore be it resolved, the Board of Directors of the NAB be and are hereby instructed to bend every effort during the year 1936-1937 to foster such organizations as chapters of the NAB."

And whereas, one year has elapsed since that date and no effective action has been taken to carry out the purposes of that resolution, and

Whereas, the problems of radio are greater and more numerous than ever before, and

Whereas, the Radio Broadcasting Industry is threatened with unjust legislation, racketeering, taxes and program difficulties both locally and nationally, and

Whereas, the need for the Radio Broadcasting Industry to reorganize in keeping with the suggestions contained in the resolution adopted unanimously at the convention one year ago is greater today than ever,

Now therefore be it resolved, that it is the sense of this Convention that the National Association of Broadcasters be recognized in such a manner and to such an extent as to encourage the growth and functioning of local and state-wide chapters.

Be it further resolved, that to expedite such reorganization, it is hereby ordered that a reorganization committee consisting of seven members be and is hereby appointed in the following manner:

The delegates present at this convention from each of the five radio regions as set up under the old Radio Act shall elect one of their number to represent their region on this Committee. These five to in turn elect two additional members from among the delegates present, one of whom must be the President of the National Association of Broadcasters and the other when elected shall serve as Chairman of this Committee.

Be it further resolved, that to finance this work a fund of $5000 be set aside to defray the actual expenses of this Committee and its work, and the Committee is hereby instructed to proceed at the earliest possible moment to work out the details of a reorganization plan in keeping with the following suggestions:

1. Local chapters are to be organized or chartered wherever a sufficient number of radio stations are grouped geographically in such a manner as to make a local chapter feasible. Example, northern California, southern California, Oregon, western Washington and eastern Washington.

2. Local chapters to be chartered only by the National Association of Broadcasters and each local chapter to be allowed one director in the National Association for each five stations or major fraction thereof plus one delegate for each station member, which delegate shall have all the rights and powers of a director save the right to vote and introduce motions.

3. The National organization to be divided into five or more regional organizations, which organizations shall be made up of the regular directors and delegates to the national organization from chapters in that particular region. These directors and delegates to have the same rights and powers in the regional organization as in the National Association.

4. Each Regional Organization to be presided over by a Regional Director, who shall be elected from and by the directors from that particular region present at the Annual Meeting of the National Association each year.

5. The Executive Committee of the National Association shall have charge of the affairs of the National Association in the same manner and to the same extent as does the present board of directors, and shall consist of the Regional Directors plus the President-elect and the Past President of the National Association.

Be it further resolved, that as soon as the committee has prepared such a plan in sufficient detail the committee shall submit it to the membership by mail and when a majority have approved it by mail, then the committee is hereby empowered to put said plan into operation to the end that the National Association of Broadcasters may be able to function under such plan of reorganization when it meets in annual convention in 1938.

(Voted that the Board of Directors appoint a committee to study the proposal and submit recommendations in the form of amendments to the constitution, if the committee deem it necessary.)

D. Be it resolved, by the Executive Board of the National Association of Broadcasters, that we express interest in the purpose of the American Foundation for the Blind to commemorate the fiftieth anniversary of the first meeting of Helen Keller and her teacher, the late Mrs. Anne Sullivan Macy, on March 3rd, 1887, and that we endorse the nationwide celebration to be conducted during the remainder of this year and the first part of 1938, as a tribute to these two great Americans.

E. Whereas, considerable progress has been made during the last few years by the radio engineering profession, and a great deal of data has been obtained concerning the laws governing radio propagation, interference, receiver selectivity, and the operating characteristics and efficiency of radiators, and

Whereas, the Federal Communications Commission through its engineering department has demonstrated its progressiveness and aided the broadcast industry greatly by its actions in holding hearings, and otherwise, in accumulating advanced engineering information and correlating the same, and

Whereas, the "Preliminary Engineering Report on Allocations" made public by the Commission's Broadcast Division on January 14, 1937, meets with the general approval of the engineering profession, and

Whereas, the National Association of Broadcasters approves this report because it is based on sound and basic engineering principles, and

Whereas, there is a definite need in the broadcast industry for such improvements as will be possible by the adoption of these principles in the Commission's regulations,

Now, be it therefore resolved by the National Association of Broadcasters:

The Federal Communications Commission is hereby petitioned by the National Association of Broadcasters to accept the report and to incorporate into its regulations the basic principles of said report.

(Referred to the Board of Directors with instructions that this resolution be given consideration before the Havana Conference.)

F. Whereas, the present broadcast frequency band, 550-1500 kilocycles, is now occupied by an almost maximum number of stations, and

Whereas, there is at present no satisfactory allocation agreement between the United States and other North American countries, and

Whereas, in the present situation interference exists on some broadcast channels,

Now, therefore, be it resolved by the National Association of Broadcasters:

That the Federal Communications Commission be requested to use caution in granting applications or in making changes in allocations in the frequency band 1510-1600 kilocycles, or in other new bands that may be used for broadcasting, in order to prevent action which would interfere with a satisfactory solution of the problem of North American allocation pending the Pan American Conference called for November, 1937.

G. The Sales Managers Division of the Commercial Committee in meeting in Chicago, January 18 and 19, 1937, respectfully direct to the attention of the Commercial Section of the NAB that considerable confusion exists in the broadcasting industry with respect to whether announcements or spots should be combined with program units of time of five minutes or longer in the matter of figuring discounts.

It is our recommendation that announcements or spots of less than five minutes' duration should not be combined with units of five minutes or longer in the matter of figuring discounts.

We propose that announcements or spots of less than five minutes' duration should be combined in figuring discounts and that units of time of five minutes or longer should be combined in figuring discounts.

H. The Sales Managers Division of the Commercial Committee of NAB registered its approval of the purpose of the resolution passed by the NAB in convention at Cincinnati in 1934, which proposed a standardized sale of units of time for sale and quantity discounts.

Since that time considerable progress has been made by the broadcasting industry and there is now a definite attitude on the part of the broadcasters, as well as an expressed desire by many advertising agencies, to standardize even more definitely the matter of units for sale and quantity discounts.

Therefore, the Sales Managers Division in meeting in Chicago, January 18 and 19, 1937, respectfully submits to the Commercial Section of NAB for early consideration the following units of time for sale and quantity discounts:

a. Units of time for sale	b. Quantity discounts
1 hr.	13 times—5%
½ hr.	26 times—10%
¼ hr.	52 times—15%
5 min.	100 times—20%
	300 times—25%

Regarding announcements, we believe that further consideration should be given toward standardization. We further believe that all rate cards should be printed to show the actual rate or cost after application of the above quantity discounts.

RECENT DEVELOPMENTS ON COPYRIGHT LEGISLATION

Since the May 20 issue of the NAB Reports listing developments on state copyright legislation the Tennessee music copyright bill became law upon its approval by the Governor May 21, and the states of Florida, Michigan and Wisconsin have enacted laws affecting music copyright pools. These states, together with Montana, Washington, and Nebraska, make a total of seven states which have enacted music copyright legislation during the present year. The Florida bill, which is similar to the Nebraska law, was approved by the Governor, June 9. The Michigan bill, patterned after the Montana law, has passed the House and Senate and is awaiting approval by the Governor. In Wisconsin the Governor, on June 16, signed a bill imposing a 25% gross receipts tax on music brokers and requiring all investigators of public renditions of music to register with the Secretary of State and pay a $20.00 license fee. A joint resolution of the Wisconsin State Senate and House memorializing the Federal Congress to enact legislation prohibiting racketeering on copyrighted music received the Governor's approval June 2.

Only five state legislatures, namely Illinois, Michigan, New Hampshire, New Jersey and Wisconsin, are still in regular session, and the Minnesota and Ohio legislatures are presently convened for special sessions.

In Washington, D. C., due to extended hearings on patent bills, the Senate Patents Committee does not expect to reach the copyright bills of Senators Duffy, Sheppard and Guffey before the latter part of July.

MORE POWER RECOMMENDED FOR WABY

Broadcasting station WABY, Albany, N. Y., operating on 1370 kilocycles, unlimited time, applied to the Federal Communications Commission to increase its power from 100 watts to 100 watts night and 250 watts day.

Examiner Robert L. Irwin in Report No. I-446 recommended that the application be granted. He found that "there is a need for the additional daytime service proposed to be rendered in the area by the applicant." The Examiner found also that the granting of the application would not cause any interference with other stations and it would be in the public interest.

RECOMMENDS NEW STATION

The Schuykill Broadcasting Company and the Pottsville News and Radio Corporation both applied to the Federal Communications Commission for a construction permit for a new station at Pottsville, Pa. Both applied for 580 kilocycles, 250 watts power and daytime operation. The question was whether a station should be erected at Pottsville and if so to whom the permit should be granted.

Examiner Melvin H. Dalberg in Report No. I-442 recommended that the application be granted to the Schuykill Company and therefore that the other application be denied. The Examiner found that there is a need for additional service at Pottsville. He says:

"It is believed, however, that the applicant Schuylkill Broadcasting Company is, on the whole, better qualified to hold this construction permit than the applicant

Pottsville News and Radio Corporation in view of the fact that the individuals constituting this proposed permittee are more closely allied with and are more familiar with the broadcasting needs of the people in the area sought to be served. It is also felt that by comparison this applicant is better qualified financially to continue the operation of the station over a substantial period of time, should the same not result in an economic success in the early period of its operation."

DISMISSAL WITH PREJUDICE RECOMMENDED

Phillip Jackson applied to the Federal Communications Commission for a construction permit for the erection of a new station at Brunswick, Ga., to use 1420 kilocycles, 100 watts, daytime operation.

Examiner John P. Bramhall in Report No. I-445 recommended that the application be dismissed with prejudice. When the hearing was called no one appeared representing the applicant.

RECOMMENDS NEW STATION DENIAL

William M. Ottaway applied to the Federal Communications Commission for a construction permit for a new station at Port Huron, Mich., to use 1370 kilocycles, 250 watts and daytime operation.

Examiner John P. Bramhall in Report No. I-444 recommended that the application be denied. It is stated that the Port Huron Broadcasting Company has an application pending before the Commission for a construction permit requesting the same facilities as requested in this application. The Port Huron Company's application has been heard and the Examiner submitted a report recommending that it be granted.

NEW WASHINGTON STATION RECOMMENDED

The Twin City Broadcasting Corporation applied to the Federal Communications Commission for a construction permit for the erection of a new broadcast station at Longview, Wash., to use 780 kilocycles, 250 watts and daytime operation.

Examiner R. H. Hyde in Report No. I-443 recommended that the application be granted "subject to the condition that the site for construction of the transmitter be approved by the Commission before construction is begun." The Examiner states that "while the evidence discloses that there is program reception service available in the applicant's area from stations located in other cities, there appears to be a need for reception and transmission service adapted to the requirements of local interests."

RECOMMENDS NEW STATION

W. E. Whitmore applied to the Federal Communications Commission for a construction permit for the erection of a new station at Hobbs, N. M., to use 1500 kilocycles, 100 watts and daytime operation.

Examiner Melvin H. Dalberg in Report No. I-449 recommended that the application be granted. He found that there is need for the local service proposed to be rendered by the new station and the operation of the station would not cause any objectionable interference with any existing stations and that the proposed station would serve public interest.

DISMISSAL RECOMMENDED

C. S. Gooch operating as the Amarillo Broadcasting Company applied to the Federal Communications Commission for a construction permit for a new station at Amarillo, Texas, to use 1500 kilocycles, 100 watts, unlimited time on the air.

Examiner Melvin H. Dalberg in Report No. I-447 recommended that the application be dismissed without prejudice. When the hearing was called counsel for the applicant appeared requesting that he be allowed to withdraw the application without prejudice.

RECOMMENDS APPLICATION DISMISSAL

John D. Fields, Inc., applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Las Vegas, Nevada, to use 1370 kilocycles, 100 watts and daytime operation.

Examiner P. W. Seward in Report No. I-450 recommended that the application be dismissed with prejudice. Following the hearing the applicant filed a motion asking for a dismissal of his application.

NEW STATION RECOMMENDED

The Columbia Radio Company, Inc., applied to the Federal Communications Commission for a construction permit for a new station at Columbia, S. C., to use 1200 kilocycles, 100 watts, unlimited time. Also the Carolina Advertising Corporation applied for a construction permit at the same place to use 1370 kilocycles, 100 watts and 250 watts LS, and unlimited time on the air.

Examiner George H. Hill in Report No. I-448 recommended that the application of the Advertising Company be granted and that of Columbia Radio be denied. There is a definite need for additional radio service at Columbia, the Examiner found. Granting of the application of the Columbia Radio Company, said the Examiner, would result in objectionable interference while no substantial interference would result from the granting of the advertising company's application.

RECOMMENDS DENYING KROY CHANGES

Broadcasting station KROY, Sacramento, Cal., applied to the Federal Communications Commission to change its frequency from 1210 to 1340 kilocycles, to increase its power from 100 watts to 250 watts and 1,000 watts LS, and to increase its time from daytime operation to unlimited time on the air.

Examiner Tyler Berry in Report No. I-451 recommended that the application for changes be denied. In suggesting the denial of the application the Examiner stated that:

"The operation of the station on the proposed assignment would provide an increased useful service for daytime operation and furnish a new and useful service at night, to the area to be served; however, such operation would cause objectionable interference to and a curtailment of the service of an existing station in an area now free of interference and which area does not enjoy equal radio broadcasting facilities with the area proposed to be served; and the increased service proposed would not exceed in importance to the Sacramento area the value of the service curtailed to the Butte area, and the applicant presents no special circumstances which would require that his application be granted to the detriment of an existing station. A grant would, therefore, result in an unfair distribution of radio facilities as contemplated by the Communications Act of 1934."

WSMB POWER INCREASE RECOMMENDED

Broadcasting station WSMB, New Orleans, La., operating on 1320 kilocycles, unlimited time, applied to the Federal Communications Commission to increase its power from 1,000 watts to 1,000 watts night and 5,000 watts LS.

Examiner P. W. Seward in Report No. I-455 recommended that the power increase be granted "subject to the final approval by the Engineering Department of the Commission of the proposed transmitter site." The Examiner found that a need exists for additional daytime radio service in the area proposed to be served.

RECOMMENDS TIME CHANGES FOR KFUO

Broadcasting station KSD, St. Louis, Mo., operating 1,000 watts and 5,000 watts LS sharing time with KFUO applied to the Federal Communications Commission for unlimited time on the air. Also KFUO, Clayton, Mo., operating on 550 kilocycles, now sharing time with KSD, applied for a license renewal and one half time.

Examiner P. W. Seward, in Report No. I-452, made the following recommendations:

"1. That the application of Station KSD for unlimited time operation on the frequency of 550 kilocycles be denied;

"2. That the application of Station KSD for renewal of license be granted, subject to the hours hereinafter designated for the use of Station KFUO;

"3. That the application of Station KFUO for one-half time operation on the frequency 550 kilocycles be granted; and

"4. That the application of Station KFUO for renewal of license be granted authorizing the use of the following hours: Monday to Saturday, inclusive, 7:00 a. m. to 10:30 a. m.; 12:30 p. m. to 2:00 p. m.; 3:00 p. m. to 5:45 p. m.; and 8:00 p. m. to 9:00 p. m. Sunday, 8:30 a. m. to 12:30 p. m.; 3:00 p. m. to 5:00 p. m.; and 8:00 p. m. to 9:30 p. m."

DENIAL RECOMMENDED FOR OWNERSHIP CHANGE

Broadcasting station KOOS, Marshfield, Ore., owned by the Pacific Radio Corporation, applied to the Federal Communications Commission for a voluntary assignment of its license to KOOS, Inc. The station operates on 1,200 kilocycles, 250 watts, daytime.

Examiner P. W. Seward, in Report No. I-453, recommended that the application be denied. He states that the granting of the application "would be in violation of Sections 301 and 310 of the Communications Act of 1934" and it would not be in the public interest.

DENIAL RECOMMENDED FOR NEW STATION

T. E. Kirksey applied to the Federal Communications Commission for a construction permit for the erection of a new station at Waco, Texas, to use 930 kilocycles, 250 watts and 500 watts, LS, unlimited time.

Examiner Tyler Berry, in Report No. I-454, recommended that the application be denied. He states that "there is no satisfactory evidence in the record which would indicate that the applicant has any well defined plans for the construction and operation of the proposed station or that he may reasonably expect any local commercial support for the station." Also the Examiner states that the operation of the proposed new station would cause objectionable interference.

ADDRESS OF JUDGE EUGENE O. SYKES, CHAIRMAN BROADCAST DIVISION OF THE FEDERAL COMMUNICATIONS COMMISSION, BEFORE THE FIFTEENTH NAB CONVENTION

Mr. President, Members of the Association, Ladies and Gentlemen:

I deem it an honor and a privilege to address you upon this occasion. I congratulate and rejoice with you upon the successful work your Association has done during the past year. I also am happy over the prosperous year you have enjoyed as broadcasters.

I wish to talk to you this morning about the duty and responsibility of the broadcaster. In legislating upon this subject, our Government, contrary to that of most of the countries of the world, decided to license persons to render this service rather than for governmental ownership and operation.

The entire theory of the Radio Act and its successor, the Communications Act, is that broadcasting licensees are made trustees of the Federal Government to render a public service to the communities their stations serve; that this license is a privilege granted by the Government for just such time as this service is rendered and in no way constitutes a vested right to the use of a frequency. For instance, quoting a part of Section 301 of the Act:

> "It is the purpose of the Act * * * to maintain the control of the United States over all the channels of interstate and foreign radio transmission; and to provide for the use of such channels, but not the ownership thereof, by persons for limited periods of time, under licenses granted by Federal authority, and no such license shall be construed to create any right, beyond the terms, conditions, and periods of the license."

And in this connection may I also call to your attention Section 304 of this Act which reads as follows:

> "No station license shall be granted by the Commission until the applicant therefor shall have signed a waiver of any claim to the use of any particular frequency or of the ether as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise."

Section 307(a) provides that:

> "The Commission, if public convenience, interest or necessity will be served thereby, subject to the limitations of this Act, shall grant to any applicant therefor a station license provided for by this Act."

Section 309 is an important section and I quote it in full:

> "If upon examination of any application for a station license or for the renewal or modification of a station license the Commission shall determine that public interest, convenience, or necessity would be served by the granting thereof, it shall authorize the issuance, renewal, or modification thereof in accordance with said finding. In the event the Commission upon examination of any such application does not reach such decision with respect thereto, it shall notify the applicant thereof, shall fix and give notice of a time and place for hearing thereon, and shall afford such applicant an opportunity to be heard under such rules and regulations as it may prescribe.
>
> "(b) Such station licenses as the Commission may grant shall be in such general form as it may prescribe, but each license shall contain, in addition to other provisions, a statement of the following conditions to which such license shall be subject.
>
> "(1) The station license shall not vest in the licensee any right to operate the station nor any right in the use of the frequencies designated in the license beyond the term thereof nor in any other manner than authorized therein.
>
> "(2) Neither the license nor the right granted thereunder shall be assigned or otherwise transferred in violation of this Act.
>
> "(3) Every license issued under this Act shall be subject in terms to the right of use or control conferred by section 606 hereof."

Section 606 of the Act, referred to in the last paragraph, is the War Emergency section providing for the taking over of these facilities by the President if he deems wise during the period of war.

The criterion set up in this law for the issuance and for renewal of licenses, is "if public convenience, interest or necessity will be served thereby," or as stated in another section of the Act if "the Commission shall determine that public interest, convenience or necessity would be served by the granting thereof." In the one phrase, the word "convenience" is placed first, while in the other the word "interest." However, they mean the same thing.

While another section of the Act expressly states that a broadcasting station is not a common carrier yet, by the terms of the Act above quoted, and by its very nature, it is a business clothed with a public interest.

The Commission, having determined that you are a proper party to serve the public of your community and having granted you this gracious privilege in the form of a license, this duty then devolves upon you to render the best public service to your community that you can. You assume, by the acceptance of this license, a great responsibility of public service. How then is the best way in which you can fulfill this duty and responsibility? You are thereby accorded a wonderful opportunity for service which necessarily carries with it a grave responsibility. You are invited to enter the homes and firesides of your listening public for practically sixteen hours a day. These programs reach the men, women and children of the entire nation. They reach those who are now steering the destinies of our communities, state and nation, and those who are being trained to assume these reigns of government when the present actors pass from the stage. These thoughts should ever be present with you and your programs should be so built that our younger generations who have the privilege of listening to the radio should be improved and be better equipped for their responsibility to be so soon assumed by them.

While under our plan of broadcasting the stations must be self-supporting by their sale of time, yet you must bear in mind that this is but an incident and that your main object and purpose is one of public service. In fact, the better service you render the more popular becomes your station and the larger becomes your listening audience, hence the easier for you to obtain the necessary advertisement.

You are still a young industry and Federal regulation thereof is still young, yet within this period of a little over ten years we have seen a wonderful growth in the industry and have had wonderful improvements not only from a technical nature but also in the programs and the character of public service being rendered. Yet, like all young industries, there is room for greater improvement not only in our regulation of this art and industry but in the nature and character of the programs of the stations. The best answer to make to those who are not satisfied with our American system of broadcasting is to render such a wonderful public service that these critics may, in the course of time, be silenced. The needs of our various communities differ. Therefore, what will be a public service in one community might not be in another. You should carefully familiarize yourself with your communities and see what local service you may render them and since your programs are going into these homes you must consider good taste. Certainly when broadcasting a dinner program it should not be interspersed with advertising announcements which would tend to destroy the appetites of this audience. You must be just and fair to everyone in your community and your editorial policy should be one to bring about closer cooperation and not to stir up strife therein. You should build up and not tear down.

I now desire to congratulate you upon the great and unique public service you rendered during the flood on the Ohio and Mississippi Rivers last February. The broadcast stations were a source of inestimable assistance in preventing loss of life and property and by keeping the public posted on the exact stage of the flood. Broadcast stations offer a very excellent means of acquainting the public almost instantly with any message the relief authorities may desire to disseminate. Many stations coordinated emergency units, procured supplies, directed relief activities, and raised many thousands of dollars through appeals to the public for the Red Cross. While broadcast stations were not alone in rendering this valuable service, they did their share and must be complimented highly for the efficient manner in which this service was rendered. Our engineers are now studying plans for the better cooperation of all radio facilities and relief organizations in times of emergencies. I feel sure we can always count on the broadcasters cooperating fully and to do their share. Service of this character is indeed public service of the highest order and which service I am sure was appreciated by our entire citizens.

Another public service in which progress is being made is that of the Committee on Federal Radio Education headed by Dr. J. W. Studebaker, Commissioner of Education, and composed of an equal number of broadcasters and educators. I shall not go into the details of the work of this committee and its numerous sub-committees, as I imagine Mr. Baldwin, your very able Managing-Director will make some report of it to you at some of your meetings. I understand, however, that two of the large foundations are very much interested and are willing to materially help in financing the work of this committee. I believe a successful conclusion of the labors of this committee will be of the greatest benefits to both radio and education.

At this point I should like to briefly refer to some of the matters in which we are all interested which have developed since your last meeting a year ago.

Last October we had the informal engineering hearing in which the industry cooperated very fully with the Commission and gave us a complete picture of the engineering, social, and economic phases of broadcasting. The testimony taken at this hearing covered some 1741 pages and in addition there were numerous exhibits. The presentations were indeed interesting although some of the more technical phases will have to be analyzed by our engineers. I wish to take this opportunity to extend further our appreciation to the industry for its splendid cooperation in giving the Commission such a comprehensive picture which will enable it to determine if any changes in the existing policies or rules of the Commission should be made in order that broadcast stations may improve their service to the listening public.

Our engineers have made a preliminary report on the hearing to which we are giving careful consideration. There are certain other data we have asked the engineers to supply before we make any changes in the existing policies. The general feeling is that our engineers have done an excellent job on reporting the testimony of this hearing and their conclusions appear to be very favorably received in the industry. I can assure you also that we are not contemplating any drastic reallocation of broadcast facilities, but we will make whatever changes in policies and regulations that are deemed advisable step by step so that all interested parties may be given full opportunity to be heard on any changes that may adversely affect their interests.

Last September 15th, the Broadcast Division promulgated regulations governing all classes of broadcast stations except the regular stations with which we are all familiar. It may surprise you to learn that of the 1108 broadcast stations licensed by the Broadcast Division, 408 are other than regular broadcast stations. Of this number, by far the greatest number are relay stations used in transmitting programs from points where wire facilities are not available. On June 15th, the Broadcast Division repealed the rule requiring 2-day notice for the operation of relay stations. This requirement had been imposed so that the Commission could authorize operation that would not cause interference on the then very limited number of frequencies, but now more frequencies are available and this provision is not considered necessary. It is believed that the repeal of this rule will be to the advantage of broadcasters in building special-event programs.

Two other classes of stations governed by these regulations are television and facsimile stations. The new regulations made available three frequencies exclusively for facsimile stations and carry a provision that such stations may be licensed on any of the several experimental frequencies. The new rules also provide that facsimile broadcasting can be carried on after midnight on regular broadcast stations, under the condition that a program of development of facsimile broadcasting is presented to warrant such operation. The Broadcast Division is very interested to know whether the general public wants a facsimile broadcast service and if such a service can be supplied at this time.

International broadcast stations, of which there are only a few—12 in number—occupy a unique position in the broadcast structure in that the signals from these stations are transmitted throughout the world. By selecting proper frequencies and employing directional antennas, it is possible to render service in practically any foreign country. While the government has authorized the operation of this class of stations since 1925, in the last several years there has not been a general expansion either in technical advancements or international program service by the licensees of these stations. In the past two years other countries of the world have developed this service which has resulted in stations in European countries rendering better service in South America countries than is received from the United States stations.

The Commission recently authorized the Engineering Department to investigate the international station problem with the view of making a report to the Commission on means of improving our stations so that their service will compare favorably with that of other countries of the world. We shall be pleased to have the report from our engineers and I feel sure that the broadcasters will accept their responsibility in rendering an international service comparable with the national service now rendered by regular broadcast stations.

Next November there is to be held at Havana, Cuba, an Inter-American radio conference for the purpose of discussing allocation of radio facilities between countries of North and South America. We have several very important problems as respects allocation of regular broadcast stations as well as international stations. Between the North American countries, as you know, we have a very unsatisfactory arrangement at this time resulting in mutual interference, as well as unsatisfactory exchange of program service. It is expected at this conference that these pressing problems will be discussed at length looking to an agreeable solution. The frequency assignment of international stations will also be a problem because certain countries have crowded so many stations rendering a national service on frequencies available that the international service is being materially impaired. It is hoped that an arrangement can be made for a better allocation of these frequencies to provide for an exchange of programs to promote better understanding among the republics of the American Continents.

At the international Conference at Cairo, Egypt, which is to be held next February, will be taken up the matter of international broadcast stations since their service and interference is world-wide in range. We have always taken the attitude that these frequencies offer an opportunity to contribute materially to the development of closer acquaintanceship among the countries of the world, and they should be used exclusively to render an international service.

In conclusion, Mr. President, may I say that your Association deserves our congratulation upon the efficient and splendid way it has met and cared for problems that confront it and its members and I wish for you and it a continuation of this splendid work.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3158. Trading as **Rightway Institute, Joseph Rosenfeld,** 815 South Hill St., **Los Angeles,** is charged in a complaint with using certain unfair methods of competition in the sale of books and pamphlets, which he allegedly advertises as describing an effective and competent method of curing or relieving indigestion, heart-burn, excess gas in the stomach, and other intestinal and stomach conditions.

According to the complaint, the method the respondent recommends consists principally of a series of body movements, which allegedly will not have any effect in overcoming the factors causing gas either in the stomach or in the intestines. Use of such method, it is alleged, will not afford permanent aid and is not in all cases a reliable procedure for the relief of the ailments and conditions mentioned in the respondent's health literature.

Nos. 3159-3160. Two **New York** department store companies have been served with complaints charging false and misleading representations in the sale of certain merchandise. The respondent companies allegedly used advertising designations containing the word "silk" as descriptive of products not made of silk.

The respondent companies are **Abraham & Straus, Inc.,** Fulton and Hoyt Sts., **Brooklyn,** and **Oppenheim, Collins & Co., Inc.,** 33 West 34th St., **New York.**

The Brooklyn store is said to have advertised certain pillows as silk or as heavy silk, and certain items of wearing apparel for women as "Seraceta Taffeta," "Pure Dye, Pure Silk Prints," "Imported Silks," "Washable Crepes," "Muffler Silks" and "Silk Jerseys." The pillows and apparel so advertised were not composed of silk, but of other materials, according to the complaint.

Oppenheim, Collins & Co., Inc., allegedly advertised evening wraps as "Silk Crepe," and other wearing apparel for women as "Made of Quality Silks," "Taffeta," "Crepe," "Luxurious Silks" and "Dark Satins Sprinkled with White Dots." The complaint charges that these products were not composed of silk, but of other materials.

No. 3161. Alleging monopolistic practices in the golf ball industry through a uniform price fixing policy on the part of leading manufacturers in concert with large and influential retailers, a complaint has been issued against the **Golf Ball Manufacturers' Association,** the **Professional Golfers' Association of America,** their officers, and various members of each group.

Violation of both the Federal Trade Commission and Robinson-Patman acts is alleged.

Principal members of the manufacturers' association named respondents are **A. G. Spalding & Bros., New York; John Wanamaker, Inc., Philadelphia; L. A. Young Golf Co., Detroit; Worthington Ball Co., Elyria, Ohio; Wilson Sporting Goods Co., Chicago; U. S. Rubber Products Co. and Dunlop Tire & Rubber Co., both of New York, and Acushnet Process Corporation, New Bedford, Mass.** These manufacturers are said to own and control practically all factories producing golf balls in the United States.

No. 3162. Alleging use of certain unfair methods of competition, a complaint has been issued against **National Silver Co.,** 61 West 23rd St., **New York,** engaged in the sale of silver-plated ware under brand names such as "King Edward", "Devotion", "Condor" and "Martha Washington". **Samuel E. Bernstein** and **Philip J.**

Bernstein, president and vice-president, respectively, of the company, also are named respondents.

By means of price lists, newspaper and magazine advertisements and radio broadcasts, the respondents allegedly announce retail prices which are greatly in excess of the normal or reasonable retail prices or values of their products, and are in excess of the prices at which such products are regularly and actually sold at retail.

Prior to or concurrently with the publication of these advertisements showing high and fictitious retail values, the respondents, the complaint charges, solicit the cooperation of retail dealers in the sale of their wares to the public at prices greatly reduced from those advertised. Typical of the representations allegedly made by the respondents to retail dealers was the assertion that "Millions who have seen 'King Edward' nationally advertised at $50 will come in throngs to buy at ½ price."

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 01732. Frank Cremona, trading as Valley Soap & Chemical Co., Turtle Creek, Pa., agreed to stop representing that Valox Bleacher cleans and disinfects in the same operation, is effective as a treatment for aching feet and is a germ killer.

No. 01738. Gate City Manufacturing Co., trading as Foot Health Products, 11 East 12th St., Kansas City, Mo., in the sale of Air-O-Matic Eze Arches, will cease representations that they give relief in all cases from metatarsal pains, burning callouses, bunions, flat feet, weak and fallen arches, and swollen ankles. The respondent also will stop asserting that its product is offered at a special price for a limited time only, unless orders at such price are refused at the end of a time determined.

No. 01739. Woonsocket Nash Co., trading as Blue Moon Products Co., Woonsocket, R. I., will stop representing that its lubricant, Blue Moon Miracle Lube, will enable an automobile to be operated on less oil or gasoline, or with increased power, speed and smoothness, regardless of the mechanical condition of the motor; that it affords perfect protection against friction, wear, sticky valves, and scores of other motor troubles due to faulty lubrication, or that it affords any protection at all, unless this claim is expressly limited to those certain conditions where it is of some value.

No. 01781. J. W. Eiss, 509 Fifth Ave., New York, selling "Crucifix Wondrous Luck Ring", agrees to stop asserting that this article is a jewel or set with a jewel, and to cease representing, by inference or otherwise, that the ring will bring to the wearer good luck or happiness.

No. 01782. Eugene and Max Sonkin, Chicago, engaged in the sale of Formula 120 and Formula 120 Special Tablets, will cease advertising that these preparations are safe or harmless, that they are an effective remedy or competent treatment for weakness, debility and nervousness, and will help restore the normal functions of the nerves, blood or various glands. The respondents trade as Perso Products Co. and as Personal Products Co.

No. 01783. James C. Bailey, trading as James C. Bailey & Co., 600 Blue Island Ave., Chicago, stipulated that in advertising Herb-Lax Tea he will stop representing it as a competent remedy in the treatment of stomach, bladder, liver and kidney troubles, sick headache and constipation, and that it reaches the very root of practically all human ailments.

No. 01784. Isabelle Rothschild, operating as The Belle Co., Santa Monica, Calif., stipulates that no longer will she advertise that motion picture actresses use her Bella Foundation Cream, the respondent admitting in her stipulation that this article is not used by such actresses to any appreciable extent. Other representations to be discontinued are that the product's regular retail price is greater than that at which it is actually sold or that the current price is a special offer for a short time only. The respondent agrees not to represent to prospective salesmen that there is a possibility of earning amounts in excess of those actually earned by her regular salespersons under normal conditions.

No. 01785. Tom Boom, 3923 West 6th St., Los Angeles, trading as National Press Syndicate, in the sale of his "press clipping and picture manual," agrees to stop advertising that purchasers can earn "big money" weekly by clipping and preparing material. Other allegations to be discontinued are that to be a successful feature writer, or writer of trade journal items or a newspaper clipper, one needs no special ability, training, previous experience or "connections" and that a "press card" issued to purchasers of the clipping and picture manual, is the "Open Sesame" for gaining admission to places otherwise closed to the general public. The respondent agrees to stop using the words, "Press Syndicate," as a part of his trade name.

No. 01786. Frank Lotreck, 711 North Grove Ave., Oak Park, Ill., agreed to discontinue representing that Pedix Bunion Plaster is an effective remedy for bunions, unless this claim is limited specifically to relief from the pain thereof; that it stops bunion pain almost instantly or at all, and that wonderful results "surely" are awaiting prospective users of the product.

No. 01787. Bradley's Laboratory, Inc., Matoaka, W. Va., in the sale of Hy-Phen Tablets, will cease representing that they relieve all types of pain and headache, are safe in all instances, and constitute a competent treatment for colds. The respondent also agreed to desist from the use of the word "Laboratory" in its trade name and the word "Manufacturers" on its letterheads, or from otherwise representing that it owns or operates a laboratory or manufactures Hy-Phen Tablets.

No. 1997. Tressol Laboratories, 87 Pine St., Maplewood, N. J., in selling Tressol shampoo, agrees to stop using on labels, cartons or in advertising matter, representations to the effect that the product contains no soap, when in fact it does have ingredients which, in combination, are recognized to be soap; that shampoos which contain alcohol are drying to the hair, scalp and hair roots, when, according to the stipulation, such shampoos, necessarily being diluted with sufficient water, do not have such drying effect; that the respondent's preparation is a blend of oils or contains oil, when this is not true, and that use of the product as a hair shampoo will promote the growth of hair, when such is not a fact.

Nos. 1999-2000-2002. Under stipulations entered into, an individual, a partnership and a corporation selling their products in interstate commerce will discontinue certain unfair representations in such sale.

The respondents are **Louis J. Orlando,** trading as **American Bank Equipment Co.,** 5737 Vine St., **Philadelphia; Ezra, David** and **Menno Neuhauser,** trading as **Neuhauser Chick Hatcheries** and as **Neuhauser Hatchery, Napoleon, Ohio;** and **Buschs Kredit Jewelers,** 35 West 14th St., **New York City.**

The respondent engaged in repairing check cancelling machines, and in their sale, agrees to cease selling his products as new, or without disclosing the fact that they are second-hand, repaired or reconditioned machines. He also stipulates that he will desist from use on printed matter of the words "Makers of," or any other words of similar meaning implying that he manufactures the products he sells or owns and controls the factory in which they are made, when this is not a fact.

The Neuhauser firm in the sale of chicks, agrees to cease representations to the effect that: Every "Good Luck" flock is raised on open ranges containing acres of fresh-sodded slopes sowed in alfalfa and clover; more than 5,000,000 of such chicks are shipped each year; David Neuhauser personally supervises the blood-testing of 250,000 or any other number of chicks during a year or other period of time; this blood-testing has been carried on for 9 years, or the copartners see to it that the flocks of chicks they sell get the feeding program consisting of the Purina Embryo Feeding Program as a supplement to their own feeding system, when such are not the facts.

Buschs Kredit Jewelers, in the sale of certain radio receiving sets, will quit using the words "all-wave" as descriptive of such sets, when the products are not capable of reception of the entire meter range of broadcasts and commercial transmission. The corporation also will desist from representing or implying in its advertising matter that users of its radio sets can receive European and other foreign stations easily or at will, and with satisfactory volume, and from representing the merits and value of its products in such way as to conceal the difficulties and deficiencies of short-wave reception, inherent in the present state of the art but unknown to the purchasing public.

No. 2001. A. Joncaire, Inc., 145 South St., Boston, agrees to discontinue use in its advertising matter of the phrase "Blended in France," alone or in connection with other words, implying that its perfumes are compounded in France and imported as finished products into the United States, when such is not a fact. The respondent corporation also agrees to desist from representing that it is the American representative or distributor of a perfumer in France, when such is not a fact, and from using on its stationery or in any other way the purported address "338 Rue St. Honore, Paris," when in fact the company has no such Paris address. The word "Importers" will no longer be used on the corporation's stationery or otherwise, according to the stipulation.

Nos. 1998-2003-2006-2007. Three companies in **New York City** and one in **St. Louis** have entered into stipulations to stop certain false and misleading representations concerning the composition of wearing apparel which they sell in interstate commerce.

The **New York** companies signing the stipulations are **Van Raalte Co., Inc.,** 295 Fifth Ave., manufacturer of women's wearing apparel; and two department stores, **Best & Co., Inc.,** 5th Ave. at 35th St., and **Franklin Simon & Co.,** 5th Ave. at 38th St.

These three companies agree to cease using one or more of such words as "crepe," "silk" or "satin," either alone or in connection with any other words, so as to imply that the wearing apparel so designated is composed of silk, when such is not a fact.

According to the stipulations, **Van Raalte Co., Inc.,** labeled certain garments for women as "satin riquette"; **Best & Co., Inc.,** represented robes and pajamas as being made of "crepe", and **Franklin Simon & Co.** referred to women's blouses as "silk crepe", when, in fact, the products so described in newspaper advertisements or on labels were composed of materials other than silk.

May Department Stores, Inc., St. Louis, operating branch stores in several cities, agrees that in the sale of furs and fur garments it will discontinue describing such products in any manner other than by use of the correct name of the fur as the last word of the description, and that such correct name shall be printed in type not less conspicuous than that in which the accompanying descriptive words are printed. The stipulation provides that when any dye or blend is used to simulate another fur, the true name of the fur shall be preceded immediately by the word "dyed" or "blended", compounded with the name of the simulated fur, as, for example, "Seal-dyed Muskrat" or "Seal-dyed Rabbit."

No. 2005. American Memorial Co., 2135 Piedmont Road, **Atlanta,** has entered into a stipulation to discontinue certain representations in the sale of marble monuments.

The respondent company agrees to cease representing in its advertising that its monuments are everlasting, or of the highest or finest quality; that they are the world's best genuine marble, or that, because such marble is allegedly pure, hard and solid, it will never fade, crack or disintegrate, when such are not the facts.

Nos. 2008-2014, inc. Seven companies manufacturing automobiles have entered into stipulations to cease using certain false and misleading representations in advertising in connection with the sale of passenger cars to the purchasing public.

The stipulations were signed by **Hudson Motor Car Co., Graham-Paige Motors Corporation, The Studebaker Corporation** and the **Studebaker Sales Corporation of America, Chrysler Corporation, Nash-Kelvinator Corporation, Packard Motor Car Co.,** and **Auburn Automobile Co.** The Chrysler stipulation was also signed by its subsidiaries, **Chrysler Sales Corporation** and **DeSoto, Dodge Brothers** and **Plymouth corporations.**

Certain advertisements of the companies, according to the stipulations, contained the picture of a car equipped with accessories, and featured in large, conspicuous type a purported selling price which actually was less than the price of the car complete with accessories as pictorially represented. Elsewhere in the advertisements, and appearing in much smaller type, were such words as "and up", "all prices list at factory", "f.o.b. Detroit", and "equipment extra."

According to the stipulations, the companies stated that they have already discontinued the use of such advertising.

Nos. 2440-2520. Orders closing its cases against **Apex Distilling Co., Inc., East St. Louis, Ill.,** and **California Vineyards Co., Chicago,** have been entered by the Federal Trade Commission.

The case against the Apex company, which was charged with unfair use of the word "Distilling" in its corporate name, was closed for the reason that the record in the case contains no evidence that the company engaged in interstate commerce in connection with the sale of alcoholic beverages.

In the other proceeding, the subject matter of the complaint against California Vineyards Co. was found to be covered by Federal Alcohol Administration regulations relating to labeling and advertising of wine. The respondent company was charged with advertising artificially carbonated fermented apple juice as champagne, and with representing that it owned and operated a vineyard, when such were not the facts.

No. 2411. James Clark Distilling Corporation and **D. and B. Products Corporation,** 26 Exchange Place, **Jersey City, N. J.,** have been ordered to cease and desist from representing that they are distillers of alcoholic beverages, when such is not a fact. Both companies are affiliates of Distillers and Brewers Corporation of America, a holding company. The Clark company sells its products through the agency of the D. and B. company.

The respondent companies are ordered to discontinue representing, through use of the word "Distilling" in the corporate name of the Clark company, or in advertising, on labels, or otherwise, that the Clark company distills whiskies, gins or other spirituous beverages, that it manufactures such products through the process of distillation, or that it owns or operates a distillery, until it does own or operate such a place.

Nos. 3108-3109. Orders have been entered directing **Unique Novelties, Inc.,** a dealer in candy and chewing gum, and **Winthrop Novelty Co., Inc.,** a candy dealer, both of 35-37 Claver Place, **Brooklyn,** to cease and desist from selling to dealers candy or chewing gum so packed and assembled that sales to the general public may be made by means of a lottery.

The Unique company also is ordered to discontinue furnishing dealers with display cards, either separately or with assortments of candy or chewing gum, bearing legends informing purchasers that such products are being sold to the public by lot or chance.

FTC DISMISSES CASE

No. 2792. The Federal Trade Commission has dismissed a complaint charging **Dr. Robert G. Jackson, of Buffalo, N. Y.,** trading under the name **Jackson Publishing Co.,** with unfair competition in the sale of a book allegedly used in promoting the sale of health foods. Dismissal was ordered after the Commission had heard argument by counsel for the Commission and the respondent.

NAB PRESIDENT INVITES MEMBERS TO VISIT HIM AT HEADQUARTERS

John Elmer, new NAB President, as announced last week, will spend one day (Thursday) each week at NAB headquarters; and invites members to visit him there between the hours of 10 a. m. and 4 p. m.

FCC GRANTS ELEVEN NEW STATIONS

The Federal Communications Commission has granted construction permits for eleven new broadcasting stations as follows:

To the Community Broadcasting Company, Toledo, Ohio, new station to operate on 1200 kilocycles, 100 watts, daytime, effective August 3.

To the Telegraph Herald, Dubuque, Iowa, new station to operate on 1340 kilocycles, 500 watts, daytime, effective July 27.

To the Times Publishing Company, St. Cloud, Minn., new station to operate on 1420 kilocycles, 100 watts, unlimited time, effective August 3.

To George Harm, Fresno, Cal., new station to operate on 1310 kilocycles, 100 watts, unlimited time, effective August 10.

To Hildreth & Rogers Company, Lawrence, Mass., new station to operate on 680 kilocycles, 1,000 watts, daytime, effective August 10.

To Harold Thomas, Pittsfield, Mass., new station to operate on 1310 kilocycles, 100 watts night, 250 watts day, unlimited time, effective July 20.

To the Central Broadcasting Corporation, Centralia, Wash., new station to operate on 1440 kilocycles, 500 watts, unlimited time, effective July 20.

To Frank M. Stearns, Salisbury, Md., new station to operate on 1200 kilocycles, 250 watts, daytime, effective July 27.

To the Sioux City Broadcasting Company, Sioux City, Ia., new station to operate on 1420 kilocycles, 100 watts night and 250 watts LS unlimited time, effective August 17.

To State Capitol Broadcasting Association, Austin, Texas, new station to operate on 1120 kilocycles, 1,000 watts daytime, specified hours, effective August 17.

To the Red Lands Broadcasting Association, Lufkin, Texas, new station to operate on 1310 kilocycles, 100 watts, daytime, effective September 21.

ADDITIONAL TIME RECOMMENDED FOR WBLK

Broadcasting station WBLK, Clarksburg, W. Va., operating on 1370 kilocycles, with 100 watts power, daytime, applied to the Federal Communications Commission for unlimited time.

Examiner P. W. Seward in Report No. I-456 recommended that the additional time be granted. He found that the evidence showed a need for additional nighttime service in the area proposed to be served and that granting of the application would be in the public interest.

RECOMMENDS DENIAL TRANSFER OF LICENSE

Frank P. Doherty, of Radio Broadcasters, Inc., licensee of broadcasting station KRKD, Los Angeles, Cal., applied to the Federal Communications Commission to transfer the control of the corporation to J. F. Burke, Sr., and Loyal K. King. The station operates on 1120 kilocycles, 500 watts and 2,500 watts LS, sharing time with KFSG.

Examiner P. W. Seward in Report No. I-457 recommended that the application be denied. He found that "the granting of this application would be in violation of Sections 301 and 310 of the Communications Act of 1934, and would not be in the public interest."

WHITE INTRODUCES RADIO INVESTIGATION RESOLUTION

Senator White of Maine on Tuesday introduced a resolution (S. Res. 149) calling for an investigation of the broadcasting industry by the Senate Committee on Interstate Commerce. The resolution, which has been referred to the Senate Committee on Interstate Commerce, is as follows:

Whereas the Communications Act of 1934 declared it to be the purpose of Congress—

(a) To maintain the control of the United States over all the channels of interstate and foreign radio transmission; to provide for the use of such channels, but not the ownership thereof, by persons for limited periods of time under licenses granted by Federal authority, and that no such licenses should be construed to create any right beyond the terms, conditions, and periods thereof;

(b) That no station license should be granted until the applicant therefor had signed a waiver of any claim to the use of any particular frequency or of the ether as against the regulatory power of the United States because of the previous use of such frequency;

(c) That there should be no transfer or assignment of a station license or the frequency authorized to be used without the consent in writing of the licensing authority, to the end that technical considerations, citizenship, character, the financial, and other qualifications of a transferee or assignee should be taken into account in determing whether a transferee or assignee possessed the statutory qualifications of a license holder and that his use of a frequency would be in the public interest;

(d) That the people of the different States and the communities thereof should have efficient and equitable radio service;

(e) That broadcasting licenses should not be for a longer term than 3 years, but with the right of the Commission to grant a renewal from time to time upon the same considerations which justified the original license;

(f) That the Commission should include in the license granted to a licensee engaged in foreign communication such of the terms, conditions, or restrictions which the President might impose with respect to cable licenses under the act relating to the landing and operating of submarine cables in the United States, approved May 27, 1921, as would make certain just and reasonable rates and service and that a licensee should not enjoy exclusive rights of operation;

(g) That all laws of the United States relating to unlawful restraints and monopolies and to combinations, contracts, and agreements in restraint of trade should be applicable to the manufacture and sale of and trade in radio apparatus and devices entering into or affecting interstate or foreign radio communication, and that should any licensee be guilty of any violation of such laws his license should be revoked;

(h) That a station license should be refused any person unlawfully monopolizing or attempting unlawfully to monopolize radio communication through control of the manufacture or sale of radio apparatus through exclusive traffic arrangements, or by any other means, or to any person having used unfair methods of competition;

(i) That there should be no combination between wire companies and radio companies if the purpose or effect thereof was to lessen competition in interstate or foreign communication; and

Whereas it has been charged among other things and is believed by many persons that rights in frequencies beyond the terms of licenses are being asserted by the holders thereof and recognized by the Federal Communications Commission; that licenses, though in form limited in time as provided by law, and the frequencies therein granted, are being treated by the holders and the users thereof and by the Commission as though granted for much longer terms than designated in the licenses; that the licensing authority has in effect recognized vested property rights of great value in licenses and in frequencies contrary to the letter and spirit of the law; that by various devices and means control of licenses and of frequencies have passed to others than the original licensee without the written approval of the Commission or with Commission approval given in disregard of congressional purpose; that persons and companies have been engaged in the acquisition and sale of broadcasting stations, licenses, and frequencies; that the licensing authority has permitted concentration of stations in some parts of the country and has failed to give equitable radio service to the people of the several States and the communities thereof; that with the approval of the Commission there has come about a monopolistic concentration of ownership or control of stations in the chain companies of the United States that through exclusive traffic arrangements and otherwise monopolistic control of the facilities of foreign communication by radio is being accomplished, and that the acts and attitude of the Commission are aiding and encouraging such monopoly; that the Commission in its decision of causes disregards its own rules and standards; that in the determination of matters before it the Commission has been affected and controlled by political and other influences not contemplated by statute and not entitled to consideration by a regulatory and quasi-judicial body; and that it has failed to observe and effectuate the purposes of the Congress and the laws enacted by it in the foregoing and other respects: Therefore be it

Resolved, That the Committee on Interstate Commerce is authorized and directed to make a thorough and complete investigation of the broadcasting industry in the United States and of broadcasting, and of the acts, rules, regulations, and policies of the Federal Communications Commission with respect to broadcasting and to report to the Senate the results thereof.

In particular, but not to the exclusion of other matters, the said committee is authorized and directed to make and to report to the Senate the results of an investigation and study of—

(1) The cases, if any, in which the Commission has departed from or has modified the application of its regulations and the engineering and other standards generally observed by it, together with the reasons for each such departure or modification;

(2) All acts by the Commission which recognize or seem to recognize the right of a licensee to a license or a frequency other than as specified in the terms, conditions, and time of the license;

(3) Whether the acts and decisions of the Commission in broadcasting cases have been influenced by matters not apparent in the public records;

(4) The geographical distribution of broadcasting facilities and whether there is an equitable distribution of broadcast service to all parts of the country; and if not, what steps should be taken to provide fair and equitable service throughout the United States;

(5) The extent to which broadcast stations have been concentrated in the larger communities of the country by transfer of stations from smaller communities to such centers or otherwise;

(6) The extent to which and the circumstances under which the ownership, control, management, or interest in more than a single broadcast station has passed into the hands of any person or group of persons;

(7) The circumstances surrounding and the considerations for the voluntary transfer of station licenses or construction permits;

(8) Instances of the transfer of minority interests in broadcasting-station licensees, and all transactions directly or indirectly affecting the control of such licensees, and whether said transfers have or have not been submitted to the Commission for approval and have received Commission approval or acquiescence;

(9) The sale price of any broadcasting station in any manner sold and transferred, together with a statement of the fair value of the physical assets and of other property, rights, contracts, and licenses involved in said sales, and in particular the value placed by the parties to the transaction upon the frequency licensed to be used;

(10) The sale of stock or other securities of any broadcasting stations, of any licensees, or of any person or persons directly or indirectly controlling such licensees, and the valuation put by the person transferring the same upon the station license or the frequency, the power or the hours of operation fixed in the station license, and the circumstances surrounding and the consideration for such sales and transfers and as to the participation in the negotiations for such sales and transfers by any person other than the seller and purchaser, the transferor and the transferee;

(11) The licensing of broadcast stations to persons other than the owners of the physical equipment, and in particular all cases involving the leasing of transmitting equipment;

(12) The surrender of control of facilities by licensees including all agreements to accept proffered programs with or without supervision by the licensee;

(13) All acts or assertions by broadcast station licensees which involve the claim to any right or interest beyond the terms, conditions, and periods of the license;

(14) Whether considerations have been paid or promised to any licensee or permittee for not interposing objection to an application for all or a part of his facilities or for other facilities which could not be granted without disregard for the Commission's rules or its standards except with the consent of such licensee or permittee;

(15) All cases in which persons whose applications for the renewal of a broadcasting license have been refused by the Commission, have received from persons licensed to use the facilities for which renewal of license has been refused, money or other consideration in excess of the value of the physical equipment taken off the air and sold to the new licensee;

(16) Cases in which the real parties in interest in any application for broadcast facilities have not been disclosed to the Commission;

(17) The extent to which holding or other intermediate companies or persons have been employed in the ownership or control of broadcast stations and the effect of such intermediate ownership or control upon the effective regulation of broadcasting;

(18) The investments by licensees in the stations authorized to be operated by them, including the investment in equipment and in other items of cost;

(19) The charges for the use of station facilities and the profit or loss resulting therefrom;

(20) The extent to which broadcast stations are used to build up other businesses or enterprises in which the station licensees or persons financially interested in the licensees are engaged; the extent to which the facilities of broadcast stations are refused or are granted conditionally to competitiors of such other businesses or enterprises, and the effect of the ownership and use of such radio facilities upon the businesses of those in competition with the businesses of those having the radio facilities;

(21) The extent to which broadcast stations are owned or controlled by or are affiliated with newspapers or other media of information or entertainment, and the effect of such ownership, control, or affiliation upon competing newspapers not possessing such facilities and upon the public interest;

(22) The development and present facts concerning broadcasting networks or chains, including the effects of chain association upon the licensee's control over his station;

(23) The effect of chain operations upon the financial results and status of chain-affiliated stations and independent stations, the ability of the chain-owned or affiliated station to render a local service, both sustaining and commercial and the duplication of broadcast programs; and the desirability of special regulations governing chains and stations engaged in chain broadcasting;

(24) The extent to which licensees of broadcast sta-

tions censor or refuse programs offered to them for transmission and the reasons for and the effects of such censorship or refusal;

(25) The extent to which, the basis upon which, and the times at which broadcast stations carry programs relating to public affairs, education, religion, labor, agriculture, charity, and public service generally;

(26) The extent to which and basis upon which broadcast stations carry programs offered by or on behalf of candidates for public office or programs relating to controversial subjects in the field of National, State, or local politics; and

(27) The extent to which, the basis upon which, the manner in which, and the times at which broadcast stations are used for commercial programs, including programs advertising products claimed to have medicinal or therapeutic value and programs relating to products or services, the sale or use of which may be illegal in any State in which the programs of the station carrying such programs may be received, the time given by the several classes of stations to commercial advertising or sales talk in the programs broadcast, and whether there should be control or regulation of advertising by radio and the character and extent thereof;

Said committee is further authorized and directed to make and report to the Senate the facts with respect to:

(1) Competition between wire companies in communication between the United States and foreign countries, between radio companies in such foreign communication, and between wire and radio companies in this field of foreign communication.

(2) Instances in which the Commission has granted licenses for transmission in foreign communication or has refused or withheld action upon applications for licenses and frequencies in this field of communication, and whether such action by the Commission or its nonaction, has been with the purpose or has had the effect of aiding one company in this branch of communications or of destroying or lessening competition between American companies in foreign communication.

(3) The extent to which companies engaged in radio communication between the United States and any foreign country have entered into exclusive traffic arrangements or other agreements with the purpose or effect of securing a monopoly in such communication or of lessening competition therein and the effect of such arrangements or agreements upon competing American companies.

Said committee is further authorized and directed to make a study of the policies and principles which should be declared and made effective in legislation providing for the regulation and control of the radio industry, of broadcasting, and of interstate and foreign communication by radio.

For the purposes of this resolution the committee, or any duly authorized subcommittee thereof, is authorized to hold such hearings, to sit and act at such times and places, either in the District of Columbia or elsewhere, during the sessions, recesses, and adjourned periods of the Senate in the Seventy-fifth Congress, to employ such experts, and clerical, stenographic, and other assistants, to require by subpena or otherwise the attendance of such witnesses and the production and impounding of such books, papers, and documents, to administer such oaths and to take such testimony and to make such expenditures as it deems advisable. The cost of stenographic services to report such hearings shall not be in excess of 25 cents per 100 words. The expenses of the committee, which shall not exceed   , shall be paid from the contingent fund of the Senate upon vouchers approved by the chairman.

COURT OF APPEALS DECIDES RADIO CASE

The United States Court of Appeals for the District of Columbia handed down decisions in two radio cases. Mr. Justice Stephens dissented. The opinions are as follows:

MARTIN, *Chief Justice:* These appeals are brought under sections 402 (b) and (c) of the Communications Act of 1934, 48 Stat. 1064, relating to the granting by the Federal Communications Commission of licenses for the construction and operation of radio broadcasting stations. The authority of this court in such cases is defined by subsection (e) of the Act, as follows:

"* * * that the review by the court shall be limited to questions of law, and that findings of fact by the commission, if supported by substantial evidence shall be conclusive unless it shall clearly appear that the findings of the commission are arbitrary or capricious. * * *"

The decision of the Commission in the cases now upon appeal relates to certain applications of the Portland Broadcastng System, Inc., hereinafter called the Portland System, the Eastland Company, and the Congress Square Hotel Company, as intervener, for licenses permitting the use of broadcasting frequency 640 kc. for limited time of operation.

In addition to these applications, ten others involving numerous requests and proposals relating to broadcasting frequency 640 kc., were heard and denied by the Commission concurrently with those herein appealed. No appeal, however, was taken in any of the other ten applications. The present hearing therefore is confined to the appeals wherein the Eastland Company and the Congress Square Hotel Company, respectively, are appellants, in both of which the Portland System is appellee.

On April 5, 1934, the Portland System, a Maine corporation, applied to the Commission for authorization to construct a new radio station at the city of Portland, Maine, for unlimited daytime operation upon frequency 640 kc., with 500 watts power, "call letters new".

On August 3, 1934, the Eastland Company, also a Maine corporation, applied to the Commission for authorization to construct a new radio station at the city of Portland, Maine, for unlimited daytime operation upon frequency 640 kc., power 100 watts, "call letters new".

At the time in question the Congress Square Hotel Company was the owner and licensee of an existing radio broadcasting station at Portland, Maine, known by the call letters WCSH, it being the only broadcasting station in Portland at that time. It operated upon frequency 940 kc., with power of 1 kw. nighttime, 2½ kw. daytime, and unlimited hours of operation. This station, which was owned by the Eastland Company, opposed the granting of the application of the Portland System for authority to construct a new broadcasting station at Portland, and it has appealed from the Commission's order granting such application. The appeal of station WCSH is based chiefly upon the ground that such a station would unjustly prejudice the broadcasting patronage of that station.

It may be noted that the contestants both apply for authorization to use frequency 640 kc. in the stations proposed by them. This is a clear channel under the Commission's Rule 72, that is a channel upon which only a single station is permitted to operate during night hours. During daylight hours, however, it is possible to allow duplication on such a frequency, inasmuch as (according to the theories of those learned in the art) the so-called sky-wave or ray, which is reflected in the upper atmosphere during the night hours, does not return to earth with sufficient intensity to cause interference. Such stations are designated by Rule 77 of the Commission as "limited time" stations. The frequency 640 kc. was regularly assigned by the Commission to broadcasting station KFI, located at Los Angeles, California, and accordingly the applications herein in question were for daytime operation only.

The Commission after hearing the present applications, granted that of the Portland System, denied that of the Eastland Company, and concurrently overruled the objection of the Congress Square Hotel Company. The present appeals were then taken.

The Brief of the appellants sets out four contentions in support of their appeals. The first of these reads as follows:

"1. The order and decision of the Broadcasting Division are invalid as having been made by a division of the Commission, the majority of which neither heard the evidence nor passed upon a report thereof."

Upon an examination of the record we are convinced that this contention must be overruled.

Under section 4 (a) of the Communications Act, *supra,* it is provided that the Federal Communications Commission shall be composed of seven commissioners. Under section 5 (a) it is provided that the Commission is authorized by its order to divide the members thereof into not more than three divisions each to consist of not less than three members, and that any commissioner may be assigned to and may serve upon such division as the Commission may direct; and in case of a vacancy in any division the chairman of the Commission may temporarily serve. By section 5 (b) it is provided that the Commission may assign or refer any of its work or functions to any of such divisions for action thereon. By section 5 (c) it is provided that each division so constituted shall have power and authority by a majority thereof to hear and determine as to any of the work or functions assigned to it for action by the Commission, and shall have all the jurisdiction and power conferred by law upon the Commission and be subject to the same duties and obligations, and that any decision made by such division in respect of any matter so assigned to it shall have the same force and effect as if made by the Commission.

Under Commission Order No. 1, passed July 17, 1934, Commissioners Gary, Brown, and Sykes were assigned for duty on the Broadcasting Division, and served as such when the applications involved in this case came on for hearing, to wit, from October 22 to November 2, 1934. On January 1, 1935, Commissioner Gary resigned, and was succeeded by Commissioner Prall. On March 9, 1935, Commissioner Brown was assigned to the Telegraph Division, and was succeeded as a member of the Broadcasting Division by Commissioner Case. The applications involved in this case were decided on May 1, 1936, by the Broadcasting Division composed of Commissioners Sykes, Case, and Prall.

The record discloses that oral testimony was introduced in the case beginning October 22, 1934 and that afterwards various depositions and publications were introduced as evidence in the case. Accordingly on May 1, 1936 the Division which entered the decision in the case was composed of commissioners who had not heard the oral testimony but nevertheless had been members of the Division for more than a year prior to the date of the decision, and during that time the stenographic reports of the oral testimony and copies of the written evidence were all in their possession and under consideration by them.

No question is raised by the appellants as to lack of notice, or opportunity to present evidence and file briefs or as to the manner in which the hearing itself was conducted. The appellants were accorded ample and timely notice and a full opportunity to be heard. The commissioners who entered the decision report that they had fully considered the evidence and the entire record of the case.

The contention of appellants is that they were entitled to have their case passed upon by the identical members of the Broadcasting Division who sat at the presentation of all of the evidence in the case, and that the procedure followed amounted to a denial of a lawful hearing and trial of the case, inasmuch as two members who joined in the decision did not hear the oral evidence when delivered by the witnesses in person.

In our opinion the partial change in the personnel of the Division which decided the case did not invalidate its decision, for it was nevertheless the decision of the Division which acted upon the evidence.

In section 4, subsection (j), of the Act, *supra,* it is provided that:

> "The Commission may conduct its proceedings in such manner as will best conduce to the proper dispatch of business and to the ends of justice. No commissioner shall participate in any hearing or proceeding in which he has a pecuniary interest. Any party may appear befor the Commission and be heard in person or by attorney. Every vote and official act of the Commission shall be entered of record, and its proceedings shall be public upon the request of any party interested. The Commission is authorized to withhold publication of records or proceedings containing secret information affecting the national defense."

Rule 106.8 of the Commission, provides as follows:

> "106.8 Except as otherwise provided herein, the rules of evidence governing civil proceedings in the courts of the United States shall govern formal hearings before the Commission; *Provided, however,* That the Commission reserves the right to relax such rules in any case where in its judgment the ends of justice will be better served by so doing."

It is provided by sections 409 (a) and (e) of the Act, *supra,* as follows:

> "Sec. 409 (a) Any member or examiner of the Commission, or the director of any division, when duly designated by the Commission for such purpose, may hold hearings, sign and issue subpenas, administer oaths, examine witnesses, and receive evidence at any place in the United States designated by the Commission; except that in the administration of Title III [relating to broadcasting] an examiner may not be authorized to exercise such powers with respect to a matter involving (1) a change of policy by the Commission, * * *".
>
> "(e) The testimony of any witness may be taken, at the instance of a party, in any proceeding or investigation pending before the Commission, by deposition, at any time after a cause or proceeding is at issue on petition and answer. * * *"

The testimony in the present case according to statute would have been taken by an examiner and reported to the Commission but this course was not followed inasmuch as the questions raised by the ten application not involved in this appeal concerned a "change of policy" of the Commission. It is plain that much of the testimony in such cases must be received by the Commission in stenographic reports, inasmuch as the Commission's jurisdiction extends throughout the entire country and it would often be very expensive for witnesses to come to Washington to testify orally and impossible for the Commission personally to go to various different parts of the country to hear oral evidence. See: *Garden City Feeder Co.* v. *Commissioner of Int. Rev.,* 75 F. (2d) 804; *Van Buren Water Works* v. *Van Buren,* 152 Ark. 83; *State ex rel American Telechronometer Co.* v. *Baker,* 164 Wash. 483; *Union Public Service* v. *Corporation Commission,* 140 Kan. 722.

In the *Telechronometer case, supra,* the court said:

> "The members of the department who made the order * * * were the lawfully constituted department of public works, they had before them the entire record, and it was their duty to enter such order thereon as in their opinion was proper * * * the fact that changes took place in the personnel of the department during the course of the hearing avails respondent nothing in its attack upon the order which is the basis for this proceeding."

Moreover, it is provided by section 409 (e) of the act that the Commission may grant a rehearing of any decision made by a Division, or by the Commission, if sufficient reason appear therefor.

No motion, however, was made by appellants for a rehearing before the Division, nor before the Commission. It seems therefore that no injustice has resulted to appellants because of the circumstances attending the hearing of the case.

The remaining contentions of the appellants challenge the findings of the Commission upon the facts as disclosed by the evidence. In respect to these findings it must be remembered that the court is not to be governed only by the weight of the evidence in cases of contradictions, but must affirm the decision of the Commission as to the facts, if supported by substantial evidence, unless the decision is "arbitrary or capricious."

The appellants for their second contention claim that the order and decision of the Broadcasting Division are in violation of the Commission's rule against repetition of applications. We think this contention is not well founded. The record discloses that in February 1934 the Commission denied an application of the Portland Maine Publishing Company for authorization to erect a new radio broadcasting station in Portland. In April 1934 the Commission received the application from the Portland System which is now in question. The record discloses that these are separate corporations and that the Portland and Maine Publishing Company holds less than half of the stock of the Portland System, and that the latter company is not controlled by the former one. The testimony upon this subject is made the basis of conflicting claims by the parties, but we think that it is sufficient to support the Commission's decision.

The appellants also contend that it was error for the Commission to grant the application of the Portland System without a showing that the applicant was financially able to construct and operate the proposed station. Upon this subject, however, the Commission makes the following statement in its decision:

"However in view of the fact that the applicant corporation already has paid into its treasury $25,000 in cash, and the testimony under oath of its principal witnesses that the additional $25,000 will be forthcoming, we believe any doubts which may be raised in this record as to the financial ability of the Portland Broadcasting System, or the legal or financial ability of the Portland Maine Publishing Company to pay for the stock in the applicant corporation for which it has subscribed, should be resolved in favor of the applicant and the publishing company."

We think the testimony is sufficient to support this finding.

The appellants for their fourth contention claim as follows:

"The denial of the application of the Eastland Company and the granting of that of the Portland Broadcasting System, Inc., violated the facilities-distribution section of the Communications Act of 1934 and the quota regulations of the Commission."

The act of 1934, commonly known as the "Davis Amendment", 45 Stat. 373, provides "That the people of all the zones established by this title are entitled to equality of radio broadcasting service, both of transmission and of reception, and in order to provide said equality the Commission shall as nearly as possible make and maintain an equal allocation of broadcasting licenses, of bands of frequency, of periods of time for operation, and of station power, to each of said zones when and insofar as there are applications therefor; and shall make a fair and equitable allocation of licenses, frequencies, time for operation, and station power to each of the States and the District of Columbia, within each zone, according to population. * * *"

Under this statute the Commission by paragraph 6 (g) of its Rules, has provided:

"(g) Since the act provides for the equalizing of radio facilities among zones and among States, 'as nearly as possible', the Commission may allow a slight departure, plus or minus, from an exact mathematical estimate."

It appears from the record that at the time of the hearing the State of Maine and first zone were under quota on both day and night assignments; that the grant of Portland System's application adds to the quota of the State of Maine and first zone 0.15 units night and 0.3 units day. This would make the State over quota .08 units night and leave it under quota 0.49 units day. The first zone would still be under quota 1.84 units night and 22.45 units day. The Commission was of the opinion and so found that the increase in night quota of the State occasioned by the grant of the Portland System's application, which brought its assigned quota slightly over that due, was justified in view of the need shown, and was consistent with the terms of the Davis amendment which provides for "equal" facilities "as nearly as possible".

The Commission was also of the opinion that the evidence in the record affirmatively indicated that the city of Portland, County of Cumberland, could well support an additional radio broadcasting station without affecting adversely the services of radio station WCSH or the income or revenues of the Congress Square Hotel Company, licensee thereof and intervener herein. This was the only ground upon which the intervention of the latter company was made and the finding is therefore conclusive of its contention.

The Commission concludes its decision as follows:

"This brings us to the application of the Portland Broadcasting System for a new station in Portland, Maine. It appears from the record, and we so find, that this applicant is legally, technically, financially and otherwise qualified to operate a station of the kind and class applied for; that the service proposed by this applicant appears to be meritorious and of interest to the listening public in that area; that this application may be granted without resulting in interference to the fair and efficient service of any other existing station, and that public interest, convenience and necessity will be served by the granting of this application."

The decision of the Federal Communications Commission is hereby affirmed.

STEPHENS, *Associate Justice:* I dissent. As I understand the facts the witnesses were heard and the argument had before Commissioners Gary, Brown and Sykes, but the decision was rendered by Commissioners Sykes, Case and Prall.

Two modes of procedure are available under the statute. Under Section 409 (a) [48 Stat. 1096, 47 U. S. C. A. § 409 (a) (Supp. 1936)] it is required that "In all cases heard by an examiner the Commission shall hear oral arguments on the request of either party." Under Section 309 (a) [48 Stat. 1085, 47 U. S. C. A. § 309 (a) (Supp. 1936)], where no hearing before an examiner is contemplated, it is provided that the "Commission . . . shall afford such applicant an opportunity to be heard under such rules and regulations as it may prescribe." Reading these two sections together I think it clear that Congress intended that the Commission might proceed either by examiner or by itself; that if it proceeded by examiner, while it thus need not hear the witnesses but need only read the evidence as taken by the examiner, still it must hear oral argument; that if it proceeded by itself it must hear the witnesses. And I think Congress meant that when the Commission, proceeding by examiner, and therefore merely reading the evidence, heard oral argument, at least a majority of the Commission that heard the oral argument must also decide the case. To make oral argument to those who are not to decide would be vain. And I think further that Congress meant that when the Commission proceeded by itself, and itself, therefore, heard the witnesses, at least a majority of the Commission that heard them must decide the case. To present witnesses to those who are not to decide would also be vain.

Congress is well aware of the exigencies under which administrative tribunals burdened with a great volume of public business requiring speedy disposition operate, and customarily permits them to dispense with unnecessary formalities. But I think that in the absence of language clearly permitting it, we should not conclude that Congress intended a Commission to dispense with oral argument before, or with hearing of the witnesses by, those who are to decide. Neither of these procedures is a formality. On the contrary, each is a substantial aid to correct decision.

The authorities cited in the majority opinion are, I think, not persuasive because of material differences from the instant case in the facts or statutes involved.

In respect of the cases in the United States District Court and the United States Circuit Court of Appeals relied upon by the appellee and not mentioned in the majority opinion, to wit, *Louie Lung Gooey* v. *Nagle,* 49 F. (2d) 1016; *United States ex rel. Chin Cheung Nai* v. *Corsi,* 55 F. (2d) 360; *United States ex rel. Minuto* v. *Reimer,* 83 F. (2d) 166: These three cases undoubtedly countenance discontinuity in the personnel of Boards of Special Inquiry in the Department of Labor. But while entitled to respectful consideration they are not binding here, and are moreover, I think, not highly persuasive, for the reason that the statute therein involved is not, as is that involved in the instant case, explicit as to procedure. Moreover, I am myself impressed, and for the cogent reasons which he gives, with the views expressed by District Judge Woolsey, in his first opinion in *United States ex rel. Chin Cheung Nai* v. *Corsi, supra.* He there said:

> In a judicial proceeding, the personnel of the court could not be changed during the trial, unless with the consent of the parties.
>
> The reasons for this rule, which I believe to be universally observed, are not far to seek. In the first place, a change in personnel during the trial of an issue of fact would render it impossible for the court properly to chancer questions of credibility, which depend almost wholly on subtle impressions made by witnesses on the tribunal before which they are appearing.
>
> In the second place, a change in personnel inevitably would tend to dilute the sense of individual responsibility for the decision—a feeling which should inhere as strongly in every member of an administrative board as it does in every judge.
>
> The action of administrative boards is not subject to full judicial review on the merits, yet they have to deal with issues of fact in matters of the greatest importance to the interested parties. It seems to me, therefore, necessary, in the absence of written consent of the parties involved, that such boards should be required as a *sine qua non* of a fair hearing to observe the principle of continuity of personnel which the crystallized experience of mankind recognizes as of cardinal importance especially when facts have to be determined. [55 F. (2nd) at 361.]

I think that the Supreme Court in *Quon Quon Poy* v. *Johnson,* 273 U. S. 352, does not rule on the question of the effect of discontinuity of personnel.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3163. F. W. Washburn Candy Corporation, Brockton, Mass., in a complaint is charged with unfair competition in the sale to dealers of candies so packed and assembled as to involve use of a lottery scheme when such products are resold to ultimate consumers.

The lottery element is alleged to be supplied by selling assortments of candies of uniform size and shape, some containing centers of a different color than the majority of pieces. Purchasers drawing the different colored pieces receive prizes, according to the complaint.

No. 3164. Fioret Sales Co., Inc., 312 East 32nd St., **New York,** is charged with false and misleading advertising in a complaint. This company manufactures and sells perfumes.

The principal allegation of the complaint is that the respondent company used misleading descriptions of its products on price lists, display cartons and other printed matter, particularly certain inscriptions in the French language which allegedly served to lead buyers into believing that the commodities so described were manufactured in France, when, according to the complaint, they were domestic products, compounded in the United States.

No. 3165. Alleging false and misleading representations in the sale of cosmetics, mercurochrome and other drug sundries and household notions, a complaint has been issued against **Frank Spors,** trading as **Spors Company, LeCenter, Minn.,** a distributor of such articles to retailers and peddlers, who resell them to the consuming public.

Among allegations of the complaint are that the respondent advertised and stamped on certain articles retail prices greatly in excess of the actual selling prices; that he falsely represented himself to be an importer and manufacturer, and his business as being larger and more extensive than is actually the fact, and that the respondent furnishes dealers with merchandising plans involving the operation of gift enterprises or lottery schemes.

No. 3166. Charging unfair competition in the sale of sales promotion cards for use by retail merchants, a complaint has been issued against **Mutual Printing, Inc.,** 751 East 64th St., **Chicago,** trading also as **Mutual Printing Co., Inc.,** and **Mutual Sales Promotion Service.**

Sales promotion cards sold by the respondent company were so designed and arranged as to involve use of a lottery scheme or gift enterprise when used by retail merchants in promoting the sale of their merchandise to the consuming public, according to the complaint.

Several groups of sales promotion cards are manufactured by the respondent company, but they all allegedly involve the same lottery scheme, and vary only in detail. A sample of the cards contains a series of amounts, such as 5, 10, and 15 cents, which may be punched by the merchant in the amount of purchases made by customers, and when all the amount numbers on the margin of the card are punched, a secret panel is opened and the customer is entitled to receive merchandise, free of charge, in the amount shown by the legend under the secret panel.

No. 3167. Charging a combination to eliminate price competition, resulting in increased prices for cement, a complaint has been issued against **The Cement Institute,** an unincorporated association, its officers, and 75 cement manufacturing member corporations, producing 95 per cent or more of all of the cement made in the United States. The complaint alleges violation of the Federal Trade Commission Act and Section 2 of the Clayton Act, as amended by the Robinson-Patman Act.

The complaint charges that the chief means employed for carrying the cement combination into effect is concerted use of the multiple basing point system of quoting prices. Under this system, it is alleged, identical delivered prices are made by every quoting producer entering into the combination, to any given destination in the United States. Instances of identical bids made by many producers to various Federal and State agencies are set forth in the complaint.

The Commission's complaint sets out, in effect, that each producing company knows that, when it refrains from offering competitive prices in the consuming areas where it has a natural advantage and receives its highest actual price, it will receive the same freedom from price competition when the situation is reversed. In this way there is everywhere a reciprocal waiver of natural advantages with no competition in price anywhere.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations.

No. 01788. Minnie McElroy, trading as The Worth Pharmacal Co., 74 Cortlandt St., New York, selling Hexsanol and Vi-Tonol, agrees to stop representing that these preparations, alone or in combination, are a competent treatment for kidney or bladder disorders, or that their use will have any effect upon the vitality of the user.

No. 01789. Petersime Incubator Co., Gettysburg, Ohio, stipulates that it will stop representing that its Buckeye Mineral Water acts on the liver and kidneys or aids these organs to function properly, that it is highly charged by nature with health-promoting minerals, and that it is not marketed for profit.

No. 01790. Dearborn Supply Co., 2350 Claybourn Ave., Chicago, will discontinue the following representations: That Mercolized Wax will free the skin of blemishes and discolorations that are not superficial and due to external causes; that Parker Belmont Beauty Cream is an oxygen cream which lightens and whitens dark skin two or three shades, or normalizes a skin which is dry or too oily; that Powdered Saxolite smooths out wrinkles and age lines and refines coarse pores; that Powdered Tarkroot is beneficial for almost every condition of the skin, such as wrinkles, enlarged pores, blackheads and other surface blemishes, and that Tarkroot Beauty Mask revives a fatigued, drooping face more quickly and more completely than anything else.

No. 01791. F. J. Lipinski and James E. Crampton, trading as Grant Laboratories, 1053 Grant St., Buffalo, will cease advertising that J. E. C.'s Rectal Remedy is a competent treatment for piles or hemorrhoids. The respondents also will desist from using the word "Laboratories" in their trade name until they actually operate a laboratory.

No. 01792. Frontier Asthma Co., Inc., 462 Niagara St., Buffalo, stipulated that in the sale of a treatment for asthma it will discontinue representing that such treatment is an effective remedy for or will remove the cause of asthma and prevent hay fever. Other respondents who entered into this stipulation are George H. Calkins, Ernest N. Post, Harry I. Partridge, William Stanton, B. F. Van Duzee and C. P. Bonham, all of Buffalo.

No. 01794. Selling printed instructions regarding a method of earning money, **R. R. Dixon, Jefferson City, Mo.,** has entered into a stipulation to discontinue certain misleading advertising representations.

Dixon agrees to stop advertising that he offers to prospective purchasers a business opportunity, and that purchasers of his printed instructions may expect to earn any amount which is in excess of the average amounts previously earned by purchasers of his instructions.

No. 2015. Oneida, Ltd., Oneida, N. Y., manufacturer of silver-plated ware, has entered into a stipulation to discontinue certain false and misleading advertising representations. This company distributes its products under the names of two of its subsidiary corporations, **William A. Rogers, Ltd.,** and **Simeon L. & George H. Rogers Co.**

Under the stipulation, Oneida, Ltd., agrees to desist from the use of or from suggesting or recommending to its retailer customers or from otherwise promoting any scheme or sales plan represented as a "Half Price" or a "Save $20.00" sale wherein an alleged regular retail sales price of its products does not reflect or represent the normal and usual price.

No. 2161. In a cease and desist order 10 corporations manufacturing substantially all of the viscose rayon yarn made in the United States, are directed to cease and desist from entering into and carrying out a price fixing combination held to be in violation of Section 5 of the Federal Trade Commission Act.

Respondent corporations against whom the order has been entered are:

Viscose Company, New York City, with branch offices in **Providence, R. I., Charlotte, N. C., Chicago and Philadelphia,** and factories in **Pennsylvania, Virginia and West Virginia;**

DuPont Rayon Co., Inc., with plants at **Buffalo, N. Y., Old Hickory, Tenn., and Ampthill, Va.;**

Tubize Chatillon Corporation, with plants at **Hopewell, Va.,** and **Rome, Ga.;**

Industrial Rayon Corporation, with offices in **New York City** and plant at **Cleveland, Ohio;**

North American Rayon Corporation (formerly **American Glanzstoff Corporation**), with offices and plant in **New York City;**

American Enka Corporation, with plant at **Enka, N. C.;**

Skenandoa Rayon Corporation, with plant in **Utica, N. Y.;**

Delaware Rayon Co., of **Newcastle, Del.;**

Acme Rayon Corporation, Cleveland, Ohio;

The Belamose Corporation, Rocky Hill, Conn.

In its complaint against the respondent rayon corporations, the Commission charged that they had entered into "an agreement, combination, understanding, and conspiracy among themselves," to eliminate price competition among themselves.

No. 2225. Crystaltone Radio Corporation, 44 West 18th St., **New York,** has been ordered to discontinue misleading uses of certain well known trade names in the sale of radio sets and appliances. Samuel Glick, of the same address, trading as Pontiac Radio Co., and acting as an officer and director of the Crystaltone company, is also named as a respondent.

The order directs the respondents to stop using the trade names Edison, Victor or Brunswick or other trade names or marks of which they are not the legal owners, without the permission of the lawful owners thereof, or in any other way to represent that the radio sets, devices or appliances made and sold by the respondents are made, assembled, sponsored or licensed by Thomas A. Edison, Thomas A. Edison, Inc., Radio Corporation of America, Victor Talking Machine Co., Brunswick-Balke-Collender Co., Warner Brothers Pictures, Inc., or by any other organization which in fact does not make, assemble or sell such products.

In this connection, the order also bars use of colorable imitations of the names Edison, Victor or Brunswick, such as Edison with the representation of a bell, Victor with the word International, or the word "Bronswick".

No. 2526. A modified order to cease and desist has been ordered against **Mid West Mills, Inc.,** 1726-28 Arcade Place, **Chicago,** jobber of upholstering fabrics and other furniture material.

The modified order was issued in accordance with a decision of the United States Circuit Court of Appeals, Seventh Circuit, Chicago, on June 15, 1937.

The original order to cease and desist, issued in May, 1936, directed that Mid West Mills, Inc., cease and desist from representing by use of its corporate name, in advertising literature or in any other manner, that it was a manufacturer, mill operator or mill owner. Findings were that the respondent company was not a manufacturer of the merchandise in which it dealt.

The Commission thereafter filed in the Circuit Court of Appeals an application for enforcement of its order to cease and desist. The Court, in its opinion delivered in the case, stated that if the respondent company did not voluntarily strike the word "Mills" from its name, it should clearly inform prospective customers of the true facts. The Court denied the Commission's application for enforcement, but without prejudice to an order being entered by the Commission directing the addition of appropriate words to clearly convey the fact that the respondent company neither owns nor operates a mill.

No. 2694. An order has been issued prohibiting use of the name "I. S. U. Pilot" by 17 individuals and the **Uptown Cooperative Press, Inc.,** operating a newspaper of that name in **New York.**

The respondents are directed to cease and desist from using the name "I. S. U. Pilot" or any other name for their newspaper or other publications, to indicate that they constitute an authorized committee of the International Seamen's Union, or that any publication sold by them is a publication of that Union or authorized by it.

Findings are that the respondents were not members of groups or committees of the International Seamen's Union, and that the "I. S. U. Pilot" was not that Union's publication, and that the use by the respondents of the name "I. S. U. Pilot" was without permission of that Union.

According to the findings, James L. Reamey, Joseph Curran, Louis Weinstock, Abraham Baskoff, Richard M. Kroon, John Anderson, William Allen, Elmer Johnson, Robert Brown, Harry Bridges, David Gordon, Elmer Brown, Dora Zucker, Luigi Genovese, A. W. McPherson, Albert Fleming and Charles B. Killinger, as members of I. S. U. Rank & File Group, I. S. U. Rank & File Members, Rank & File Committee of the I. S. U., and Rank & File International Seamen's Union, together with Uptown Cooperative Press, Inc., have been associated within such groups for the purpose of publishing and circulating the "I. S. U. Pilot." Uptown Cooperative Press, Inc., is said to have printed the paper for the other respondents.

Nos. 2782-3132. Two candy manufacturers, **Brown & Haley,** 110 East 26th St., **Tacoma, Wash.,** and **Miss Morris Candies, Inc.,** 517-19 Third St., North, **Minneapolis,** have been ordered to cease and desist from selling and distributing to dealers candy so packed and assembled that sales to the public are to be made, or may be made, by means of a lottery, gaming device or gift enterprise.

The order also prohibits the respondents from supplying to dealers assortments of candy together with punchboard devices which may be used in distribution of the candy to the public at retail.

No. 2786. California Packing Corporation, said to be one of the world's largest packers and distributors of dried fruits, vegetables, and fish, and its subsidiary, **Alaska Packers Association,** both having headquarters in **San Francisco,** have been served with an order to cease and desist from certain practices deemed to have the effect of suppressing competition and tending to create monopoly.

Among practices prohibited under the order, is the use of the respondent corporations' tonnage of freight shipments and their buying power to induce industrial companies and steamship lines to ship commodities through and utilize the facilities of Encinal Terminals, operating a public wharfinger business in Alameda, Calif., on the east side of San Francisco Bay, and controlled by the respondent corporations.

Other respondents named in the order are officials or former officials of the two corporations, as follows: L. E. Wood, A. M. Lester, W. H. Levy, A. K. Tichenor, H. E. Van Horn and Irving F. Lyons.

The respondents admitted all the material allegations of the Commission's complaint as setting forth facts showing the use of unfair methods of competition within the meaning of Section 5 of the Federal Trade Commission Act. They also waived the taking of further evidence and other intervening procedure, and consented to issuance of findings of fact and order to cease and desist.

No. 2775. An order has been entered directing **Helen Ardelle, Inc.,** 1401 East 41st St., **Seattle, Wash.,** a candy manufacturer and dealer, to cease and desist from selling to dealers candy so packed and assembled that sales to the public may be made by means of a lottery.

The respondent company also is ordered to discontinue furnishing dealers with "punchboard" devices which may be used in selling its candy to consumers.

No. 2799. Prohibiting certain unfair methods of competition in the sale of tissues advertised as mentholated tissue handkerchiefs, an order has been issued to cease and desist against **The Rieser Co., Inc.,** 119 West Fortieth St., **New York.**

Held to have violated Section 5 of the Federal Trade Commission Act, the respondent company is directed to cease representing that its tissue products are superior to ordinary handkerchiefs because they are santary and disposable or because they are mentholated. It is also ordered to stop advertising that use of its tissues will clear nasal passages and that these products have been recommended by doctors as a cure or remedy for sinus trouble, hay fever and head colds or that they are beneficial in the treatment of such ailments and conditions.

Findings are that the respondent company's products have not been recommended by physicians and that their use will not accomplish the results claimed.

Nos. 2861-3106-3145. Orders have been entered directing **Schwabacher Brothers & Co., Inc., Seattle,** and **George C. Miller & Co., Inc., Boston,** both candy distributors, and **Wolverine Gum, Inc., Detroit,** to cease and desist from selling to dealers candy or chewing gum so packed and assembled that sales to the general public may be made by means of a lottery.

The orders prohibit the two candy companies from furnishing dealers with "punchboard" devices for use in retailing their candy to the public.

No. 3061. Glenn Laboratories, Inc., 287 West 127th St., **New York,** has been ordered to discontinue certain false and misleading advertising representations in the sale of a treatment for overweight called "Dr. Thomas' RX 157."

In its radio, newspaper and magazine advertising, the respondent corporation is directed to cease and desist from asserting that its product, so long as it contains desiccated thyroid or other form of thyroid, is a new method of treating obesity, converting food into fuel and energy, and that it can safely be taken by laymen without medical examination or advice.

No. 3069. An order requiring **Eucathol Co., Inc., Shawnee, Okla.,** has been issued to discontinue certain misleading representations in the sale of "Eucathol", a rubbing and inhaling compound, sold also as an after-shaving cream.

Eucathol, according to the order, is not to be advertised as a preventive or cure for or as being beneficial in the treatment of insect bites, sunburn, hemorrhoids, colds, hay-fever, catarrh, scalds, skin disorders, influenza and pneumonia.

No. 3098. A modified order to cease and desist has been ordered against **George J. Nothnagel,** trading as **The Stanley Store,** 734 Haddon Ave., **Collingswood, N. J.,** a dealer in blankets and bedspreads.

Among the practices prohibited in the orginal cease and desist order issued against Nothnagel June 2, 1937, and now vacated and set aside, was that of aiding or inducing purchasers of his merchandise to resell it by means of a lottery, gift enterprise or game of chance. The modified order prohibits the same practices but contains the qualification that this provision does not apply to sales of merchandise not accompanied by any acts of the respondent aiding or inducing disposition of such goods under any plan involving a lottery, gift enterprise or game of chance.

No. 3116 Wolf Creek Soap Co., Northwestern Ave., **Dayton, Ohio,** has been ordered to discontinue certain unfair methods of competition in the sale of its products.

Representation is prohibited, directly or indirectly, through use of the word "Doctor" or the abbreviation "Dr.", or through words of similar import, that any of the respondent company's soap products is made pursuant to the formula of, or under the supervision of, a doctor.

The order bars use of the word "medicated", alone or with other words, or use of words of similar import, to represent that any of the respondent company's soaps have medicinal and therapeutic value, unless they actually contain medicinal ingredients in such quantity as to give the products substantial medicinal and therapeutic value.

FTC CLOSES CASES

Nos. 2362-3105. The Federal Trade Commission has closed without prejudice its cases against two dealers alleged to have sold merchandise by means of lottery methods.

A complaint had charged **Archie Richard Dahl, of Chicago,** trading as **Reliable Sales Co.,** with unfair competition in the sale of general merchandise by push card lottery methods. The Commission ordered the case closed after receiving information that the respondent had discontinued operating his business and was no longer engaged in the practices alleged in the complaint.

The Commission was informed that **Carl Smith,** 618 Roscoe St., **Chicago,** trading as **Fashion Silk Co.,** and formerly charged with unfair competition in the sale of hosiery through use of a lottery scheme, had discontinued the practices as alleged and that he had vacated his place of business. The case was ordered closed.

No. 2791. The Commission has also issued an order closing its case against **Remsen Corporation,** 70 Pine St., **New York,** which had been charged with unfair competition in the sale of a medicinal product advertised as "Aspirin Plus." The closing order was issued following receipt of information that the commodity in question is no longer being sold and the corporation is not operating.

FEDERAL COMMUNICATIONS COMMISSION ACTION

FCC SETS HEARING FOR ATTORNEYS

In connection with the disbarment proceedings of the Federal Communications Commission against two Washington attorneys, the Commission on Tuesday issued the following official statement:

The Commission in a General Session today, having considered the answers filed by Paul M. Segal and George S. Smith to the Order of May 19, 1937, including the motions contained in said answers that the charges contained in said Order of May 19, 1937, be dismissed, the Commission orders that said motions be overruled and denied; and,

The Commission further orders that the hearing on said charges and the answers of Paul M. Segal and George S. Smith be set before the Commission en banc on Monday, September 13, 1937, at 10:30 o'clock at the offices of the Commission in the City of Washington.

CCIR-UIR MEETINGS REPORTED

The Managing Director this week received the report of James C. McNary, who, as NAB delegate, attended the Fourth CCIR Meeting at Bucharest, Roumania, from May 21 to June 8, 1937, and the U. I. R. meeting at Lausanne, Switzerland, from June 17 to June 25, 1937.

The CCIR (Comité Consultatif Internationale Radiocommunication—International Consulting Committee on Radio Communications) holds its international conference of engineers and scientists by virtue of provisions of the international administrative conferences at Washington (1927) and Madrid (1932). The CCIR functions in an advisory capacity to the administrative conferences, the next of which is scheduled to be held at Cairo beginning February, 1938, and is charged with consideration of technical matters affecting international regulations and allocations. The last CCIR meeting, held in Lisbon in 1934, was also attended by Mr. McNary, representing the NAB.

According to custom, the American delegation to CCIR meetings comprises a government delegation accompanied by company representatives. The government delegates to the 4th CCIR meeting were: Dr. J. H. Dellinger, (chairman), National Bureau of Standards; Captain S. C. Hooper, Navy Department; Colonel D. M. Crawford, War Department; E. K. Jett and Gerald C. Gross, Federal Communications Commission; and Francis B. de Wolf, Department of State. The other company representatives were: Dr. C. B. Jolliffe, Lloyd Briggs and H. K. Chadwick, Radio Corporation of America; Carroll Bickelhaupt, Lloyd Espenschied, F. M. Ryan and G. H. Barney, American Telephone & Telegraph Company; Haraden Pratt, Mackay Radio; and E. K. Cohan, Columia Broadcasting System, Inc.

The recently-adjourned CCIR meeting was so timed that its opinions would be up-to-date and available for the forthcoming Cairo conference next year. According to the report received, it appears that some of the technical considerations affecting allocations, particularly those dealing with wave propagation, will necessarily undergo review at Cairo because of the rapidly changing state of the art and because of the demands for new frequencies certain to be made at Cairo by the aviation and high-frequency international broadcasting services. Some of the opinions of the 4th CCIR are summarized below.

While in Europe, Mr. McNary also attended the Tenth Annual Meeting of the UIR (International Broadcasting Union), devoting his time principally to the meetings of the Technical Committee. The most important item

ANOTHER WORD OF APPRECIATION

I take this means of expressing to the members my appreciation for the numerous suggestions which they have addressed to me as President of the National Association of Broadcasters. I am sure your constructive suggestions will be of great benefit in administering the affairs of the Association. The constructive ideas of all the members are solicited.

JOHN ELMER.

discussed was the present condition of chaos in the high-frequency international relay broadcasting bands, and an effort was made to find engineering basis for improvement of service in these bands. Discussion included consideration of synchronization of transmitters using directional antennas for transmission of the same program in the same wave band to different portions of the earth, limitation of maximum and minimum power, frequency separation between channels, and shared use of the same carrier frequency in various parts of the world. Plans were made for continued observations of certain factors affecting international broadcasting transmissions. Considerable data, from the UIR Control Center at Brussels, was available to show the existing situation on the high-frequency channels.

According to the report submitted to the Managing Director, Mr. McNary observed television practices in Berlin and London. Both of these cities enjoy regular television broadcasting service. He was particularly impressed with the Alexandria Palace transmitter, in London, from which regular afternoon and evening programs are furnished, and with the studio and program production technique employed for these programs.

Of the opinions adopted at the CCIR Meeting, the following appear to be of interest to the broadcasting industry:

(a) r.f. harmonics: The previous opinion of the Lisbon meeting, with respect to radio frequency harmonics of fundamental carrier frequencies of 3000 kilocycles or less, was retained, which recommends that the harmonic power not exceed 0.025 watt, or 300 microvolts at 5 kilometers, with the proviso that such harmonic radiation is to be subject to special treatment if interference is caused. In addition, an opinion was adopted to the effect that harmonic power should be 40 decibels below the fundamental, for fundamentals of 3000 kilocycles or higher, with the same proviso as to interference.

(b) Synchronization: The opinion adopted on the subject of synchronizing broadcast transmissions simply defines synchronized carriers as those whose frequency difference is less than 0.1 cycle, and the so-called quasi-synchronized carriers as those whose frequency difference is less than 10 cycles. The latter term is not applicable to American practice.

(c) Frequency separation between broadcast channels: The opinion adopted on this subject states in effect that 20 kilocycle separation is the least that can be tolerated for two carriers serving the same area with high-fidelity reproduction; that, when geographical separation of transmitters operating on adjacent channels the frequency difference may be reduced to a value of less than 20 kilocycles; and that 10 kilocycles is the minimum recommended for short wave international broadcasting which is definitely not a high fidelity service.

(d) Classification of waves: The only change of importance in the classification of waves, and a change which was opposed by the American delegation, was the classification of frequencies between 30 and 300 megacycles as "very high" and frequencies between 300 and 3000 megacycles as "ultra high." Present American practice utilizes the term "ultra high" for frequencies in excess of 30 megacycles.

(e) Anti-fading antennas: The subject of anti-fading antennas, which was of some interest in certain European quarters but which actually had little international significance, was disposed of by adopting the American opinion practically in toto, pointing out the possibilities of improvement in coverage by careful attention to details of antenna design.

(f) Frequency tolerance: For broadcasting transmitters now in operation, 50 cycles; for broadcasting transmitters installed after January 1, 1939, 20 cycles. The entire table of tolerances and instabilities was reviewed and attempts were made by the American delegation to bolster up the tolerances for other services to conform to modern practice. The success was only moderate, however, as there has always been heavy pressure from some of the more backward services, such as marine radio, for maintaining the status quo.

(g) Wave propagation: The study of wave propagation was continued with a report being due from the centralizing administration before the Cairo conference. The interim report contains reference to the material submitted by the United States, without dispute, on which U. S. allocations are based.

(h) Background noise: An opinion on tolerable background noise in broadcast transmitters recommends a value of 54 decibels below 100 per cent modulation.

Miscellaneous: The conference discussed thoroughly and adopted several opinions with reference to the subject of man-made interference to broadcast reception. This subject is largely of European origin because of the plans to control such interference by legislation. The matter is of considerable interest to American broadcasting, but the material is not so applicable in this country. Other opinions issued referred to matters principally concerning other services (point-to-point telegraph, telephone, marine radio, aviation radio, etc), and to matters of interference, field intensities required for rendering service, etc.

SENATE BILL WOULD PROHIBIT BROADCASTING GAMBLING INFORMATION

Senator Wheeler of Montana has introduced a bill in the Senate (S. 2758) which has been referred to the Committee on Interstate Commerce "to prohibit the transmission of certain gambling information in interstate commerce by communications facilities." Broadcasting is specifically mentioned in the bill which is as follows:

A BILL

To prohibit the transmission of certain gambling information in interstate commerce by communications facilities.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

That any gambler or any agent of a gambler who shall knowingly transmit or aid or assist in transmitting in interstate commerce by means of any communications facility any gambling information, and whoever shall knowingly transmit or aid or assist in transmitting in interstate commerce by means of any communications facility any gambling information to or for the use of any gambler, and whoever shall knowingly receive or aid or assist in receiving in interstate commerce by means of any communications facility any gambling information for any gambler or for transmission to any gambler, shall be fined not more than $........, or imprisoned not more than .... years, or both.

Sec. 2. Whoever shall furnish, supply, provide, maintain, or repair any communications facility knowing that such communications facility is to be used in violation of the first section of this Act shall be fined not more than $........, or imprisoned not more than ...... years, or both.

Sec. 3. As used in this Act—

(a) The term "communications facility" includes any apparatus or personnel used in the broadcast, sending, transmission, or receipt (including delivery to the point of origin, delivery from the point of receipt to the point of destination, and forwarding) of writing, signs, signals, pictures, and sounds of all kinds by means of wire, cable, or radio.

(b) The term "gambling information" includes any information previous to the occurrence of an event, the occurrence or result of which is uncertain, relating to the mathematical chances of or odds on the occurrence of or a particular result of any such event or the amount of money wagered on the occurrence of or a particular result of any such event.

(c) The term "gambler" includes any person, partnership, corporation, or association who or which is engaged in business as a bettor, gambler, bookmaker, betting commissioner, stakeholder, or in any like or similar capacity.

THREE RADIO AMENDMENTS INTRODUCED

Senator Schwellenbach of Washington has introduced three amendments to the Communications Act of 1934 all of which have been referred to the Committee on Interstate Commerce. They are as follows:

S. 2755

A BILL

To amend section 315 of the Communications Act of 1934.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 315 of the Communications Act of 1934 be, and hereby is, amended by striking out the whole of said section and by inserting in lieu thereof the following:

"Sec. 315. Each licensee of a radio-broadcasting station shall be required to set aside regular and definite periods at desirable times of the day and evening for uncensored discussion on a nonprofit basis of public, social, political, and economic problems, and for educational purposes. When any such licensee permits any speaker on any controversial, social, political, or economic issue to use its facilities during any such period, it shall afford to at least one exponent or advocate of each opposing viewpoint equivalent facilities. The licensing authority shall without any delay make rules and regulations to carry this provision into effect, and in proceeding hereunder it shall appoint and, in its discretion, act upon the recommendations of an advisory committee consisting of disinterested, representative citizens: *Provided,* That the licensing authority, the advisory committee, and licensees shall have no power of censorship of any kind, nor shall any license be revoked or renewal refused because of material so broadcast."

S. 2756

A BILL

To add section 315 (a) to the Communications Act of 1934.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Communications Act of 1934 be, and hereby is, amended by adding thereto the following:

"Sec. 315. (a) Each licensee of a radio-broadcasting station shall keep complete and accurate records open to reasonable public inspection—

"(1) of all applications for time;

"(2) of all rejected applications and the reasons for such rejections;

"(3) of all additions and changes requested in arranged programs on public, social, political, and economic issues and on educational subjects;".

S. 2757

A BILL

To amend section 326 of the Communications Act of 1934.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 326 of the Communications Act of 1934 be, and hereby is, amended by striking out the whole of said section and by inserting in lieu thereof the following:

"SEC. 326. Nothing in this Act shall be understood or construed to give the licensing authority the power of censorship over the radio communications or signals transmitted by any radio station, and no regulation or condition shall be promulgated or fixed by the licensing authority which shall interfere with the right of free speech by means of radio communication: *Provided,* That this provision shall not be understood or construed to exempt any licensee from liability for any defamatory, profane, indecent, or obscene language or action broadcast by any officer, employee, agent, or representative of such licensee."

WIL APPEALS FROM DECISION OF FCC IN STAR-TIMES CASE

Contending that the Communications Act of 1934 necessitates a finding on the question of "if public interest, convenience, or necessity will be served" as a prerequisite to a grant by the Federal Communications Commission, Radio Station WIL, St. Louis, Mo., this week filed its brief in the United States Court of Appeals for the District of Columbia. The appeal was from a denial by the Commission of an application by WIL for the facilities of 1250 kc, 1000 watts, with unlimited hours of operation, and the granting of such facilities to the Star-Times Publishing Co. of St. Louis.

The brief points out that the Commission rendered its decision and thereafter adopted certain findings in support of the ruling. It further alleges that the findings were not made by the Commission itself or by the Broadcast Division or by any board authorized to make such findings but that they were in fact made by the Law Department of the Commission and raises the contention that such findings cannot, by a minute entry of the Broadcast Division, become the findings of the Commission.

Asserting that the procedure followed in this case is contrary to established practise of other federal administrative boards, commissions and agencies, WIL asks that the Commission itself be required to determine the facts before making final decisions.

A further argument is advanced in the brief to the effect that the Commission erred in preferring a new applicant over an existing utility (WIL) and that it failed to give consideration to a prior licensee who had pioneered in the development of radio broadcasting in the St. Louis area.

The Commission has until September 20 to file its answer.

Broadcast Advertising in May

HIGHLIGHTS OF THE MONTH

Total broadcast advertising during the month of May amounted to $11,325,165, a slight increase over the volume registered for last month. This increase, due mainly to a 6.7% gain in local advertising, took the place of the usual seasonal decline. National network volume declined 2.3% and national non-network business 0.6% from the level of last month. Regional network volume gained 21.9%. Gross time sales for the month of May were 32.5% ahead of the volume recorded for the corresponding month of 1936. All portions of the medium experienced marked gains.

Compared to April, national magazine advertising increased in volume, national farm paper volume declined and newspaper lineage remained the same. Radio broadcasting continued to show the greatest gains in advertising volume of any major medium as compared to corresponding periods of last year. As against the 32.5% increase over last May registered by radio, national magazine volume increased 19.6% and national farm paper volume 4.2%. Newspaper lineage declined 1.1% from the level of last May.

Total non-network advertising rose 2.4% over the level of April and 33.6% over the volume registered during May 1936. The increase over last month was due mainly to a 4.7% gain in volume for the clear channel stations. Regional stations showed the greatest gain as compared to last May, although all sizes of stations recorded increases. The New England-Middle Atlantic Area experienced the most marked gain of any section of the country both as compared to last month and as to May 1936.

In the rendition field, live talent showed the only increase of importance as compared to April. Live talent showed the only gain in the national non-network field but transcriptions increased to a greater extent in the local field. As against last May, total live talent increased 41.7%, transcriptions 25.1%, records 9.4%, and announcements 29.1%. Announcements in the national field and live talent in the local field showed the greatest gains over May 1936.

National network clothing, regional network tobacco products, national non-network financial, and local accessory, beverage and department store sponsor groups showed the main increases in advertising volume over last month. As against last May, the most important gains were registered in national network household equipment and soap and kitchen supply advertising, regional network drug and tobacco advertising, national non-network food products and tobacco advertising, and local food products and radio set advertising sponsor groups. Retail broadcast advertising over individual stations amounted to $1,333,180, an increase of 6.4% over the level of last month and 21.8% greater than the volume recorded for May 1936.

TOTAL BROADCAST ADVERTISING

Total broadcast advertising for the month of May is found in Table I.

TABLE I

TOTAL BROADCAST ADVERTISING

Class of Business	*1937 Gross Time Sales* *April*	*May*	*Cumulative Jan.-May*
National networks....	$6,013,181	$5,875,531	$30,009,052
Regional networks....	112,938	137,734	541,167
National non-network.	2,982,200	2,962,200	13,812,100
Local................	2,201,000	2,349,700	10,452,200
Total..........	$11,309,319	$11,325,165	$54,814,519

Contrary to the usual seasonal decline, total broadcast advertising during the month of May remained at approximately the same level as was recorded in April. The slight increase was less than 1.0%. National network volume declined 2.3% and national non-network business 0.6%. Regional network volume increased 21.9% and local advertising 6.7%.

National non-network advertising showed the greatest gain over May of last year in rising 45.5% in volume. National network volume rose 32.1%, regional networks 10.4% and local business 21.1%. Total broadcast advertising for the month was 32.5% ahead of May 1936.

COMPARISON WITH OTHER MEDIA

Compared to last month, national magazine volume increased 4.5% while national farm paper volume dropped 14.9% and newspaper lineage remained at approximately the same level. As against the 32.5% gain over last year registered by radio, national magazine advertising increased 19.6% in volume and national farm paper advertising 4.2% while newspaper lineage decreased 1.1%.

Advertising volume by major media is shown in Table II.

SPONSOR TRENDS IN MAY

Declines were general in the national network field as compared to April. Clothing showed the only important increase. Compared to last May, however, many sponsor groups showed marked gains, the most important being in the automotive, accessory, foodstuff, household equipment, soap and kitchen supply, financial and tobacco groups.

As against last month, tobacco advertising showed the most important gain in the regional network field. Drug, soap and kitchen supply, and tobacco advertising increased to the greatest extent over last May. Gasoline and accessories, toilet goods, and beverage advertising declined.

Financial advertising increased 54.3% in the national non-network field. Drug, beverage, amusement, radio, department store and the miscellaneous groups showed minor declines while all other groups registered slight increases as compared to last month. Clothing, food products, soap and kitchen supply and tobacco advertising registered marked gains as compared to last May.

Gains were fairly general in the local field with the accessory, beverage and department store sponsor groups increasing to the greatest extent over April. All groups except the automotive, accessory, drug, and soap and kitchen supply groups showed increases as compared to last May.

Broadcast advertising during May by major product and sponsor groups is shown in Table VI.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them:

No. 3168. Alleging false and misleading representations in the sale of a study course intended to prepare pupils for United States Government positions, a complaint has been issued against **Clement A. DeGrace,** trading as **Social Security Counselors,** Davis Building, **Portland, Ore.**

Advertisements published in "Help Wanted" columns of newspapers are alleged to have been worded and placed so as to imply that they had been sponsored by a Government agency; that 300,000 Government positions were open and available and men and women were wanted to fill them, and that the respondent could obtain such positions for persons completing his course.

DeGrace is charged with making representations through his salesmen and through other channels, implying that the salesmen are connected with or otherwise represent the Government; that thousands of positions are available in the Social Security Board; that examinations for such positions would be held at definite times; that Government jobs are guaranteed or assured, and that money would be refunded students if no jobs were obtained.

No. 3169. Charging unfair competition in the sale of fountain pens, a complaint has been issued against **Argo Pen-Pencil Co., Inc.,** 220 Broadway, **New York,** and **Harry Sachnoff,** president and owner of practically all capital stock of the respondent company.

According to the complaint, certain fountain pens sold by the respondents were stamped in a manner simulating the stamping and marking as seen on solid gold pen points of 14 carat fineness. These markings allegedly conveyed the impression that such articles were composed of some kind of gold or gold alloy of 14 carats in fineness. "Duripoint 14 KT. Gold Plate" was imprinted on the points of certain of the respondents' pens. The words "Gold Plate" appeared below, and at such distance from the figures and letters "14 KT." that when a point was inserted to a sufficient degree within the barrel of a pen, the words "Gold Plate" were completely or almost completely concealed and the legend "Duripoint 14 KT." alone remained visible.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 01740. People's Drug Stores, Inc., Washington, D. C., in its stipulation, agrees to stop representing that Thompson's Effervescent Aspirin Compound Tablets are an effective remedy for colds, and that they will relieve pain, unless there appears in such representation an explanation of the causes of pain which can be relieved thereby. The tablets will no longer be advertised as an effective remedy for over-acidity, unless this is expressly limited to over-acidity of the stomach. The respondent admits that while its preparation would have some mild analgesic effect due to the contained aspirin, and would temporarily reduce gastric acidity through its alkaline properties, it is not a competent treatment or an effective remedy for colds, nor will it affect over-acidity, except in the stomach.

No. 01741. The Kendall Co., 2500 South Dearborn St., Chicago, trading as Bauer & Black, and engaged in selling a hand lotion called Velure Lotion, stipulates that it will no longer advertise this preparation as a recent scientific discovery containing two ingredients new to hand lotions, or as capable of softening the hands in 15 seconds, or that Velure Lotion will miraculously transform work-roughened hands into white, soft things of beauty. The respondent admits that Velure has value as a hand lotion, and that although one of its ingredients is in a form unusual in such lotions, Velure is not a preparation newly or recently discovered or possessing ingredients radically different from other hand lotions.

No. 01742. W. K. Sterline, 830 Ohio Ave., Sidney, Ohio, in the sale of an asthma treatment, will cease advertising that his preparation will remove the cause of asthma or hay fever, or that it will do any more than give temporary relief from the paroxysms of asthma and the symptoms of hay fever. The respondent agrees that in promoting the sale of his medicine as a palliative for or as a relief from asthma and hay fever symptoms, he will assert neither directly nor by inference that the preparation is safe, unless it is explained that the preparation is not intended for use by persons having tuberculosis.

No. 01743. Charles H. Birnbaum, trading as Star Book & Novelty Co., Camden, N. J., selling books, herbs, roots, curios, perfume and incense powder, agrees to stop representing that the roots or herbs sold, or any combination thereof, comprise a cure or competent treatment or remedy for some 90 listed diseases or conditions, and that the reading or studying of any book sold by the respondent will enable one to rise above his present surroundings, giving him efficiency, intellectual supremacy, or influence.

No. 01744. Phœnix-Powers Co., Haddonfield, N. J., distributor of a wheat germ oil preparation designated E-Now, stipulates that it will cease representing that E-Now is of value in cases of lack of vigor, unless this is expressly limited to lack of vigor due to Vitamin E deficiency, or that E-Now is a concentrate of Vitamin E. The respondent company admits that E-Now contains a considerable number of Vitamin E units, but that such vitamins cannot be concentrated, and that administration of Vitamin E, while producing certain specific effects, has no effect on physical vigor generally.

No. 01745. W. A. Orr, trading as Orr Health System and Orr Health Service, 2501 Glenmary St., Louisville, sells "Printed Instructions Regarding Diet and Exercises as a Relief for Constipation". In his stipulation, Orr agrees to stop asserting that his system or service provides a competent remedy in the treatment of constipation or indigestion, unless such assertions are clearly qualified to indicate that there are many cases in which beneficial results may not be expected. He will cease asserting that the system is based on natural or scientific principles, and that by following his instructions, constipation will be eliminated, and the eliminative system can be made normal or can be corrected. The respondent admits that, according to reliable medical authority, his exercises and diet, as outlined, are of benefit only in certain cases of constipation, and that in some cases harmful effects may result from following his instructions.

No. 01746. E. L. Leisenring, trading as U. S. Drug & Sales Co., 1534 Lawrence St., Denver, will discontinue the assertion that his Special Vitality Tablets are compounded from powerful glandular substances properly balanced with other active ingredients, and that the product is made by registered pharmacists. Leisenring also agrees to stop asserting that his preparation will aid in renewing the entire system, or that its use results in healthy and active glands.

No. 01747. Floratone Company, 2512 West 7th St., Los Angeles, selling Floratone, will cease advertising it as being capable of freeing one from mucous colitis, relieving gaseous stomach trouble, and making one feel like a "new man". The respondent will also cease asserting that Floratone may be used safely to "normalize" the chemistry of the colon by providing a suitable environment that invites the growth of "friendly bacteria", at the same time tending to retard disease-producing germs. Another assertion to be discontinued is that 17 cents a day or the cost of a full month's treatment of "Floratone", is the cost of better health and of freedom from constipation and mucous colitis.

No. 01748. A. B. Mueller and A. L. Trader, operating as N. R. S. Company, 4221 East 31st St., Kansas City, Mo., in the sale of Vigorsol and Conditioner, agree to stop representing that Vigorsol is a prostate remedy capable of giving quick and positive results in home treatment, and that the Conditioner is harmless, or that it will eliminate toxins, purify the blood and maintain a free intestinal tract.

No. 01749. Johnston, Holloway & Co., 1728 Spring Garden Road, Philadelphia, selling Alergene, will stop representing this product as a competent treatment for allergy, unless this is limited to indicate allergic symptoms due to a Vitamin F deficiency or a lack of unsaturated fatty acids. The respondent company admits that, according to consensus of medical opinion, although Alergene contains certain ingredients which may aid in cases involving allergic conditions, it is not indicated in the treatment of allergy generally, nor will it reach or remedy the cause of any disease not due to fatty acid deficiency.

No. 01793. Trading as **Spark Plug Service Co., Joseph** and **Mayer Krawetz,** 977 Rondo St., **St. Paul, Minn.,** have entered into a stipulation to stop certain false and misleading representations in the sale of reconditioned spark plugs for automobiles.

Representations to be discontinued are that the respondents operate the largest rebuilt spark plug factory in the world; that their rebuilt spark plugs will give perfect performance for 10,000 miles, or that their products are individually tested and perform with the efficiency of new spark plugs.

No. 01795. Agreeing to discontinue certain false and misleading representations in the sale of an electro-therapeutic device, **William K. Beyer** and **Emil R. Hahnewald,** trading as **Beyer Manufacturing Co.,** 4655 Lincoln Ave., **Chicago,** have entered into a stipulation.

The device, known as "Tropic Sun", will no longer be advertised as capable of building up resistance to colds and other winter ailments, according to the stipulation, and it will not be asserted that the rays of this lamp are deeply penetrating, or constitute a competent treatment or effective remedy for scalp disorders, psoriasis, rickets, influenza, rheumatism and arthritis.

No. 2442. An order has been issued vacating and setting aside its order to cease and desist issued July 8, 1936, against **Raritan Distillers Corporation, Perth Amboy, N. J.** The Commission also ordered that prosecution of the original complaint in this case be resumed.

The order to cease and desist of July 8, 1936, prohibited the representation, through use of the word "distillers" in the respondent company's corporate name, on stationery, in advertising or on labels, that the respondent company was a distiller of alcoholic beverages.

No. 2795. An order to cease and desist has been issued against **Harvey E. Wagley,** trading as **Federal Civil Service Training Bureau,** 508 South Dearborn St., **Chicago,** directing discontinuance of certain false and misleading representations in the sale of correspondence courses designed to prepare students for Civil Service examinations.

Wagley is ordered to stop representing, through use of the words "Federal" or "Bureau", or the term "Civil Service", or other terms with similar meaning, that his business is a part of or is connected with the United States Government or the United States Civil Service Commission.

No. 2800. Canterbury Candy Makers, Inc., 93 Marion St., **Seattle, Wash.,** has been ordered to cease and desist from selling candy so packed and assembled that sales to ultimate purchasers are to be made, or may be made, by means of a lottery, gaming device or gift enterprise.

The order prohibits the respondent company from packing in assortments boxes of candy together with punchboard devices which may be used in the sale of the candy to the public at retail.

No. 2833. Under an order the **Imperial Candy Co., Seattle, Wash.,** is directed to cease and desist from selling and distributing to dealers candy so packed and assembled that sales to the public may be made by means of a lottery, gaming device or gift enterprise.

The respondent company also is ordered to discontinue furnishing to dealers punch boards, either with assortments of candy or separately, bearing legends informing the purchasing public that the candy is being sold by lot or chance.

No. 2950. Tolpin Studios, Inc., 2129 West Van Buren St., **Chicago,** has been ordered to discontinue certain false and misleading representations in the sale of chinaware. The respondent company is a processor and decorator of foreign and domestic made undecorated chinaware.

The order prohibits the respondent company from branding, labeling, marking or otherwise causing the word "Limoges" to appear on its china or chinaware products, or causing such products to be represented as Limoges china or chinaware when they have not originated or been manufactured in the city of Limoges, France.

No. 3037. Civil Employees Training, Inc., 9th and Chestnuts Sts., **Cleveland,** and three of its officers, have entered into a stipulation to discontinue certain false and misleading representations in the sale of a correspondence course designed to prepare students for taking Civil Service examinations.

Upon the signing of the stipulation by the respondents, the Commission closed its case in which a complaint had been issued charging them with practices similar to those covered in the stipulation.

Among representations to be discontinued under the stipulation are assertions to the effect that the respondents' salesmen are in the employ of the United States Government, or are otherwise connected with it; that Civil Employees Training, Inc., is an agency of or representative of the Government or the United States Civil Service Commission; that it is necessary to take the respondents' course in order to get a Civil Service job, and other similar allegations.

FTC CASE CLOSED

No. 3099. The Federal Trade Commission has closed its case against **Biloxi Oyster Exchange,** of **Biloxi, Miss.,** and 24 member companies. The respondents were charged with entering into and maintaining a price-fixing agreement which allegedly had resulted in lessening competition in the interstate sale and distribution of canned oysters.

The case was closed for the reason that Biloxi Oyster Exchange has been dissolved and its charter surrendered.

FEDERAL COMMUNICATIONS COMMISSION ACTION

No hearings are scheduled at the Commission in connection with broadcast cases for the week beginning July 19. The Broadcast Division has taken the following action, subject to ratification at its next regular meeting:

HOOD EDUCATIONAL BROADCASTS, INC.

Members are urged to refrain from entering into any agreements with Hood Educational Broadcasts, Inc., of New York City, pending a careful investigation of the service. The NAB is requesting this organization to furnish it with full particulars concerning the offer which they have made to broadcasting stations.

INCREASED TIME AND POWER RECOMMENDED FOR WORL

Broadcasting station WORL, Boston, Mass., operating on 920 kilocycles, 500 watts, daytime, applied to the Federal Communications Commission to increase its power to 1,000 watts and its time to unlimited.

Examiner Davis G. Arnold, in Report No. I-460, recommended that the application be granted. He found that there is need for additional nighttime service in the Boston area, and states that the granting of the application would not cause objectionable interference. The Examiner states that it would be in the public interest to grant the application.

RECOMMENDS DENYING NEW STATION

The Ann Arbor Broadcasting Company, Inc., applied to the Federal Communications Commission for a construction permit for the erection of a new station at Ann Arbor, Mich., to use 1550 kilocycles, 1,000 watts, unlimited time.

Examiner George H. Hill, in Report No. I-461, recommended that the application be denied. He found that the area proposed to be served "receives satisfactory service from broadcast stations now rendering service in this area." The Examiner states that the proposed station would cause some interference and it would also be subject to interference from an engineering standpoint.

MINNESOTA STATION CHANGES RECOMMENDED

Broadcasting station WLB, Minneapolis, Minn., applied to the Federal Communications Commission to change its frequency from 1250 to 760 kilocycles, to increase its power from 1,000 to 5,000 watts and to change its hours from specified to sharing time with WCAL (⅔ daytime). Also station WCAL, Northfield, Minn., applied to the Commission to change its frequency from 1250 to 760 kilocycles, and increase its power from 1,000 and 2,500 watts LS to 5,000 watts and from specified hours to sharing with WLB (⅓ daytime). Also station WTCN, Minneapolis, Minn., now operating on 1250 kilocycles, 1,000 watts and 5,000 watts LS on specified hours, asked the Commission for unlimited time.

Examiner P. W. Seward, in Report No. I-463, made the following recommendations:

1. That the application of Station WLB, Docket No. 4147, for authority to operate on the frequency 760 kilocycles with power of 5 KW, daytime to local sunset, in accordance with the tentative time-sharing agreement heretofore entered into between Stations WLB and WCAL, be granted, subject to compliance by the applicant with the provisions of Section 303 of the Communications Act of 1934.

2. That the application of Station WCAL, Docket No. 4149, for authority to operate on the frequency 760 kilocycles with power of 5 KW, daytime to local sunset, in accordance with the tentative time-sharing agreement heretofore entered into between Stations WCAL and WLB, be granted, subject to compliance by the applicant with the provisions of Section 303 of the Communications Act of 1934, and the approval by the Commission of the transmitter site.

3. That the application of Station WTCN, Docket No. 4148, for authority to operate unlimited time on the frequency 1250 kilocycles, be granted if the applications of Stations WLB and WCAL are granted. In the event the applications of Stations WLB and WCAL be denied, it is recommended that the application of Station WTCN be denied.

RECOMMENDS NEW INTERNATIONAL BROADCAST STATION

The General Electric Company has applied to the Federal Communications Commission for a construction permit for the erection of a new international broadcast station to be located at Belmont, Calif., to use 9530 and 15330 kilocycles, 20,000 watts power and to operate unlimited time on the air.

Examiner George H. Hill, in Report No. I-462, recommends that the application be granted, "subject to compliance with Rule 983." He found that the company will render an international broadcast service and states that "the applicant has a program of research and experimentation which indicates reasonable promise of substantial contributions to the development of international broadcast service."

FREQUENCY CHANGE RECOMMENDED FOR WIOD-WMBF

Broadcasting station WIOD-WMBF, Miami, Florida, operating with 1,000 watts, unlimited time, applied to the Federal Communications Commission to change its frequency from 1300 to 610 kilocycles.

Examiner R. H. Hyde, in Report No. I-464, recommended that the application be granted. He states that the changed frequency would not cause any interference and also that "the use of the new frequency assignment applied for herein would contribute substantially toward an extension and improvement of the present service of the applicant's station, which the Commission has heretofore found to be in the public interest in licensing the station."

RECOMMENDS NEW CLEVELAND STATION

The Food Terminal Broadcasting Company applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Cleveland, Ohio, to use 1500 kilocycles, 100 watts and daytime operation.

Examiner John P. Bramhall, in Report No. I-458, recommended that the application be granted. He found that there is a need for additional service of the type proposed by the applicant in the area proposed to be served. The Examiner states that the interests of Station WJBK "will not be adversely affected by reason of interference, should this application be granted" and that the granting would be in the public interest.

INCREASED POWER RECOMMENDED FOR WBCM

Broadcasting Station WBCM, Bay City, Mich., operating full time on 1410 kilocycles with 500 watts power, applied to the Federal Communications Commission to have its power increased to 500 watts night and 1,000 watts day.

Examiner Robert L. Irwin, in Report No. I-459, recommended that the application be granted. He states that there is need for additional daytime service in the area proposed to be served and that "the daytime operation of Station WBCM with the power of 1,000 watts would not cause objectionable interference to the normally protected good service areas of Stations WROK, WELL, and WMBC, or any other licensed stations."

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3171. Charging unfair competition in the sale of sales promotion cards for use by retail merchants, a complaint has been issued against **Edward** and **Dorothy Harris,** 417 South Dearborn St., **Chicago,** trading as **Ace Business Builders.**

Sales promotion cards sold by the respondents were so designed and arranged as to involve use of a lottery scheme or gift enterprise when used by retail merchants in promoting the sale of merchandise to the consuming public, according to the complaint. Several groups of such cards are manufactured by the respondents, all allegedly involving the same lottery scheme.

No. 3172. Charging unfair competition in the sale and distribution of hosiery, a complaint has been issued against **May Hosiery Mills, Inc., Burlington, N. C.**

Hosiery manufactured and sold by the respondent company is alleged to have been advertised as Pure Thread Silk and Rayon, the first three words appearing in a line of large capital letters with the words "and rayon" below and in small capital letters. Similarly, certain products were allegedly advertised as Creptone with Silk Wrap and as Genuine Wrap Pure Thread Silk and Rayon, the words "and rayon" appearing in inconspicuous letters beneath a line reading in large letters: Genuine Wrap Pure Thread Silk.

Nos. 3173-3174. Complaints have been issued charging **General Motors Corporation** and **Ford Motor Company** with using false and misleading representations in advertising the prices at which certain of their passenger cars are sold to the public. General Motors Sales Corporation also is named as a respondent.

Advertisements of the respondent companies, it is alleged, contain illustrations or descriptions of motor cars, and feature, usually in large numerals, a designated F.O.B. price. The complaints charge the advertisements are arranged in such a manner as to create the impression that fully-equipped cars so illustrated and described may be purchased at the F.O.B. or delivery point complete and ready for operation for the prices featured, or at other points for the featured prices plus the cost of transportation.

The passenger cars so advertised, the complaints aver, are not the models usually sold for the featured price, which generally is the price charged by the respondent companies for their less expensive cars. It is alleged that the cars so illustrated or described cannot be purchased at retail for the featured price at the F.O.B. or delivery point, or at the ultimate destination for such price plus transportation charges, without the payment of additional charges for added equipment and accessories constituting part of what the public understands to be a complete car ready for operation.

No. 3175. A complaint has been issued charging **H. G. Payne,** trading as **H. G. Payne Company,** 312-314 Broadway, **Nashville, Tenn.,** with the use of unfair competitive methods in the sale of merchandise.

The respondent is alleged to furnish to dealers to whom he sells his products certain devices such as punchboards and pushcards which may be used in selling the merchandise to the ultimate consumer by means of a lottery, gaming device, or gift enterprise.

No. 3176. Bloomingdale Brothers, Inc., operating a department store at Lexington Ave. and 59th St., **New York,** is charged in a complaint with misrepresenting certain wearing apparel for women.

In newspaper advertisements, the respondent corporation allegedly designated and referred to certain dresses and blouses as Windsor Crepe and as Heim Crepe, respectively. These designations, it is alleged, served as representations to the purchasing public that the garments so advertised and offered for sale were silk products, when, according to the complaint, they were not composed of silk but of other materials.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations.

No. 01108. Under a stipulation entered into with **French Clinical Laboratory and Supply Depot,** 203 College St., **San Antonio, Texas,** that corporation will abandon certain advertising representations in the sale of its preparation, FFP, French's Foot Powder, sold as a treatment for athlete's foot.

The respondent will no longer advertise that this product will cure athlete's foot and other infections at once, within a few days, or at all; that it will assure quick and permanent relief in treating this ailment and all foot odors, or that it is a sure remedy for these conditions.

No. 01750. Roman Cleanser Company, 9101 Delmar St., Detroit, will cease representing that Roman Cleanser sterilizes combs, brushes and other articles; disinfects or deodorizes, unless this assertion is accompanied by directions that the article to be disinfected or deodorized must first be washed or thoroughly cleaned, and kills germs, unless this representation is limited to oxidizable germs, or qualified by the statement that Roman Cleanser will not kill all germs, including their spores.

No. 01751. Bakon-Yeast, Inc., 4 Staple St., **New York;** Bakon-Yeast, a vitamin concentrate, for restoring vitamin deficiency.

No. 01753. Ellaline W. Chilvers and **Beatrix R. Hoyt,** trading as **May Medicine Company,** formerly **W. H. May Laboratory,** 546 Pearl St., **New York;** Dr. May's Formulas, for nervous diseases.

No. 01754. Little & Co., 612 N. Michigan Ave., **Chicago;** garlic and parsley tablets, for intestinal, kidney, liver and skin disorders.

No. 01755. Shuptrine Company, 31 Barnard St., **Savannah, Ga.;** Tetterine, for skin disorders.

No. 01756. Food Balance Corporation, 519 N. Central Ave., **Chicago;** Sil-Tea and Beverly Hall Cereal Beverage, for digestive disturbances.

No. 01758. Paul Case, trading as Cape Cod Cleaner, Brockton, Mass., stipulated that in the sale of his Cape Cod Cleaner, described as a sanitary cleaning device, he will stop advertising that any ambitious man or woman can average a dozen sales of his product daily in almost any territory, and will discontinue making unmodified claims of earnings in excess of the average earnings achieved by his full-time sales persons or dealers under normal business conditions.

No. 01759. J. E. Gessner, trading as **J. E. Gessner Company,** 207 N. Michigan Ave., **Chicago;** a preparation offered as a treatment for piles.

No. 01760. Albert N. Reay and **Fraser S. Reay,** trading as **The Reay Laboratories,** P. O. Box 1786, **San Francisco;** alcoholic extracts of the active principle of the leaves of poison oak, designated Otox and Okatox, for treatment of ivy poisoning. The respondents also agree to cease using the word "laboratories" in their trade name or otherwise representing that they own or control a laboratory or laboratories.

No. 01761. The Knox Company, Chamber of Commerce Building, **Los Angeles;** Buroids, for anemia, nervousness and constipation.

No. 01762. The Murine Company, Inc., 9 East Ohio St., **Chicago;** Murine, an eye treatment. The respondent company also agrees to stop using as an endorsement or recommendation of its product any statement of any person connected with its organization, unless the connection of such person with The Murine Company is clearly disclosed.

No. 01764. E. A. Rush, trading as **Beeman's Laboratory,** 154 Edgewood Ave., **Atlanta;** Beeman's Quick Relief (B. Q. R.), for colds, coughs, asthma and influenza.

No. 01765. The Hydrosal Company, 333 East 8th St., **Cincinnati;** Hydrosal Liquid and Hydrosal Ointment, for skin ailments.

No. 01768. M. L. Durham, Carthage, Mo.; Silver Seal Treatments, for women's ailments.

No. 01769. Gardiner Manufacturing Company, Inc., 160 Van Rensselaer St., Buffalo, selling a washing fluid designated "101", agreed to discontinue representing that the product is a sterilizer and kills germs; that it causes ivy and oak poisoning to disappear and will heal eczema and open sores, and that it deodorizes and disinfects, unless in connection with this latter claim users are directed to first thoroughly cleanse the surface to be deodorized or disinfected.

No. 01773. Royal Mfg. Co. of Duquesne, 2632 S. Dearborn St., **Chicago;** trading as Double "D" Laboratories; Vita-Min-Ol, for digestive disturbances.

No. 01774. Dr. Van Vleck Company, Jackson, Mich.; Muco Cones, Absorptive Plasma and Herb Tablets, for digestive disturbances, colds, rheumatism and piles.

No. 01775. Thornton & Minor Clinic, 926 McGee St., **Kansas City, Mo.;** Private Formula Rectal Ointment, for piles.

No. 01777. F. D. Telling, trading as **The K-Lindy Products Company,** 5713 Euclid Ave., **Cleveland;** Lindy Lotion, for skin ailments.

No. 01778. Schering Corporation, Bloomfield, N. J.; Saraka, a laxative.

No. 01779. The Hood-Lax Corporation, 132 W. 31st St., **New York;** Hood-Lax, a laxative.

No. 01797. Affiliated Products, Inc., 4316 North Kilpatrick Ave., Chicago, agreed to cease advertising that Outdoor Girl Face Powder has an olive oil base and is the only face powder containing olive oil; that it prevents or overcomes drying, wrinkling or aging of the skin, and has been ordered by Hollywood make-up experts as standard cosmetic equipment in the dressing rooms of stars in the Warner Bros.–First National Studios. The respondent company also will stop representing that the product is pure and safe "beyond question" or that it is safe for the most delicate skin.

No. 01798. Tinytone Radio Co., Kearney, Nebr., has entered into a stipulation to discontinue certain unfair representations in the sale of Tinytone Pocket Radios and Tinytone Midget Portable Radios.

Among representations used in advertising which are to be abandoned by the respondent company are: That the pocket radios have a range of 50 miles or greater under favorable conditions; that they are all-wave sets capable of being used everywhere and of working without aerials, and that they may be used to tune in on all short waves for all police or all airplane calls and may be employed while walking or while riding in cars or on bicycles, unless this latter representation is qualified to indicate the equipment and conditions necessary to produce these results.

No. 01799. Hoffman-La Roche, Inc., Nutley, N. J., in the sale of Cal-C-Malt, will discontinue advertising that the product is the only nutritive preparation which contains chemically pure vitamin C and that scientists have found vitamin C to be all important in the building of strong teeth and in keeping them and the gums sound and healthy. Representations that Cal-C-Malt is a safeguard against dental caries, diseased gums or pyorrhea and protects against infection, colds, sore throat, or anemia, will be stopped, unless such claims are limited to conditions due to or associated with vitamin C deficiency.

No. 01800. C. A. Montgomery and C. F. Aldrich, trading as **Aldrich & Montgomery,** 492 Otis Ave., **St. Paul, Minn.,** have entered into a stipulation to cease false and misleading representations in promoting the sale of photographs and frames by means of contests.

The respondents agree to stop representing that an answer to a "scrambled name" puzzle contained in contact advertisements or in radio broadcasts is alone sufficient to qualify a person to participate in any of their contests, and that neither payment of money nor the purchase of any article is necessary in order to qualify a person for participation in the contests, unless such is a fact.

No. 2016. Roy J. Troutman, Shamokin, Pa., trading as **G. E. Laboratories** and as **Great Eastern Laboratories,** has entered into a stipulation to discontinue certain unfair methods of competition in connection with the sale of Dr. Bayer's Horehound Cough Balsam.

Troutman agreed to cease using the name "Dr. Bayer's" in his trade name, and the abbreviation "Dr." or the word "Bayer's" in advertising or in labeling his product so as to imply that such product is made by The Bayer Company, Inc., of New York City, which for many years has manufactured and sold "Bayer Genuine Aspirin".

No. 2542. An order prohibiting certain unfair methods of competition, including false disparagement of competitors' products, has been entered against **Robert C. Hoffman, York, Pa.,** trading as **York Bar Bell Co., Strength & Health Publishing Co.,** and **York Athletic Supply Co.** Hoffman deals in athletic goods, sells a course of lessons in physical training and publishes a magazine entitled "Strength and Health".

In advertising his athletic apparatus and course of training, the respondent, it was found, used two portraits of himself, one of which was a photograph taken just after a serious illness which had reduced his weight by about 40 pounds, and the other taken some 20 weeks later, together with the assertion that he had increased his weight from 210 to 250 pounds by use of York bar bell exercises. According to the findings, a substantial part of the gain in weight and in physical development was due to his recovery from the illness caused by an automobile accident.

It was found that the respondent also used pictures of certain well-developed individuals in such a manner as to mislead prospective purchasers of physical training courses into the belief that such individuals attained their development through use of the respondent's system, when such was not a fact.

No. 2770. **The Coolerator Company, Duluth, Minn.,** engaged in the sale of refrigerators in which natural or artificial ice is used as the cooling element, has been ordered to cease and desist from unfairly disparaging mechanical or electrical refrigerators sold by competitors.

Findings in the case are that certain representations made by the respondent corporation in its advertising matter were either false, misleading or insufficiently qualified, and have had a tendency to mislead the public into the erroneous belief that mechanical refrigerators are undesirable and ineffective in use and harmful and dangerous to users.

No. 2801. An order to cease and desist has been issued against **The Times Sales Co., Inc.,** 1524 Chestnut St., **Philadelphia,** prohibiting certain unfair methods of competition in the sale of encyclopedias, revision and research services and magazine subscriptions.

The Commission's order prohibits the respondents' practice of effecting sales by holding or attempting to hold signers to the printed terms of contracts signed by them, irrespective of the alterations made in such printed terms by the respondents' selling agents pursuant to understandings between the agents and purchasers and by which the purchasers are induced to sign.

Findings are that certain of the respondents' agents represented to purchasers that they had authority to alter the printed terms and provisions of the contract with respect to time and terms of payment and with respect to substitution of magazines for those named in print in the contract. Pursuant to such representations, such alterations were made, but in these instances, the respondents, upon receipt of the signed contract, proceeded to its performance and enforcement the same as if binding only in accordance with the printed terms and provisions and as unaffected by the changes by which the purchaser's signature was induced. In line with this practice, the respondents, it was found, threatened signers to such contracts with suit and otherwise falsely represented that the contracts were performable and enforcible according to the printed terms, regardless of the alterations made in writing over such printed terms.

No. 2834. Rogers Candy Co., 4547 University Way, **Seattle, Wash.,** has been ordered to cease and desist from selling candy so packed and assembled that sales to ultimate purchasers may be made by means of a lottery, gaming device or gift enterprise.

The order prohibits the respondent company from packing in the same assortments for sale to the public at retail, boxes of candy together with punchboard devices which may be used in the retail sale of candy to the public.

Nos. 2935-2937-3020-3032. Disposition of four cases involving alleged violations of the Robinson-Patman Act has been announced. In two cases, orders to cease and desist were entered, and are the first such orders entered by the Commission under that Act. The two other cases were dismissed.

An order to cease and desist was entered against the **Biddle Purchasing Company, New York City,** and a group of sellers who pay brokerage fees to that company and a group of buyers who receive such fees from it. The other order to cease and desist was entered against the **Hollywood Hat Company, Inc., New York City.**

Respondents in one of the cases dismissed were **Bird & Son, Inc.,** and the **Bird Floor Covering Sales Corporation,** both of **East Walpole, Mass.,** and **Montgomery Ward & Co., Inc., Chicago.** The second case dismissed was against **Kraft-Phenix Cheese Corporation, Chicago.**

The complaint in the Biddle case charged the respondents with violation of the so-called brokerage section of the Robinson-Patman Act. The order requires the sellers to discontinue paying to the Biddle Purchasing Company any commissions on sales of commodities as brokerage, or as an allowance in lieu thereof, which commission is intended to be paid over by Biddle to any purchaser of such commodities. The buyers are ordered to cease accepting from the Biddle company any commission which has been paid to it as brokerage, or as an allowance in lieu thereof, by a seller of commodities on sales made by such seller to the buyers.

The Biddle company is directed to cease and desist from receiving from any seller any brokerage commissions if such commissions are intended to be paid over to the buyer or to be applied for his use and benefit; and also from paying to any purchaser of commodities any commission received as brokerage from the seller.

FTC DISMISSES CASE

No. 2758. The Federal Trade Commission has dismissed its complaint charging **William Freihofer Baking Co.,** 20th St. and Indiana Ave., **Philadelphia,** with unfair competition through false representations in the sale of bread.

Certain of the methods of competition alleged in the complaint as being unfair were found to have been voluntarily discontinued by the respondent, and there was lack of evidence to show that the other methods of competition alleged to be unfair were actually deceptive or misleading.

FLORIDA BROADCASTERS MEET

The Florida Association of Broadcasters held their second annual convention in Jacksonville on Sunday, July 25, in the George Washington Hotel. Every station in the state was represented at the meeting. The newly elected officers are: W. Walter Tison, WFLA, President; L. S. Mitchell, WDAE, Secretary-Treasurer; Harold P. Danforth, WDBO, First Vice President; Executive Committeemen—John R. Beechem, WJNO, and Henry G. Wells, WCOA.

FLORIDA MEETING ATTENDED BY BALDWIN

James W. Baldwin, managing director of the NAB, attended the meeting of the Florida Association of Broadcasters held in Jacksonville, Sunday, July 25.

FCC CHAIRMAN PRALL DEAD

Anning S. Prall, chairman of the Federal Communications Commission and member of that body since January, 1935, died on July 23, of heart trouble at his summer home in Maine following a brief illness.

Funeral services were held on Tuesday at the Port Richmond Dutch Reformed Church, Port Richmond, Staten Island, N. Y. As a mark of respect the Commission was closed during the funeral and for the remainder of the day on Tuesday.

As a tribute to Mr. Prall the 700 broadcasting stations of the country were asked by NAB to remain silent for a period of one minute at 12 o'clock noon, eastern daylight time, Monday.

James W. Baldwin, managing director of NAB, attended the funeral on behalf of the association.

Mr. Prall entered on duty at the Commission on January 17, 1935, having been appointed by President Roosevelt to succeed Hampson Gary who resigned.

Mr. Prall was confirmed by the Senate without opposition on January 15, and after taking the oath of office his colleagues named him chairman of the Broadcast Division of the Communications Commission.

He was appointed a member of the Federal Radio Commission by President Roosevelt on February 22, 1934, but because of responsibilities in the House of Representatives, of which he was then a member, he did not qualify.

His services in the House covered a period of 12 years. He was elected first to the 68th Congress in 1923, and re-elected to each succeeding Congress including the 73rd. He retired from membership in the House on January 3, 1935.

Prior to becoming a member of the Congress of the United States, Mr. Prall served as a member of the Board of Taxes and Assessments of the City of New York, and for three times was elected President of the Board of Education of New York City.

Mr. Prall was of Dutch ancestry. His progenitors settled on Staten Island (now the Borough of Richmond, New York City), in 1653, being the fourth family of Dutch immigrants to settle there. He was married and the father of two sons, Anning Mortimer and Bryan William. He was a member of the Holland Society in New York; a governor of the Downtown Athletic Club; a member of the Fox Hills Golf Club; Columbia Country Club of Chevy Chase, Maryland, Chamber of Commerce, Board of Trade Transportation, and other fraternal, social and civic organizations.

The Communications Commission adopted the following resolution:

WHEREAS, The Federal Communications Commission has in the death of its Chairman, Anning S. Prall, lost a wise and valuable public servant, devoted to the interest of the people of the United States, an indefatigable worker, and a courteous comrade, be it therefore resolved:

That the Federal Communications Commission hereby places on its permanent records this memorial:

"In memory of Anning S. Prall, Chairman of the Federal Communications Commission from March 11, 1935, to the time of his death, July 23, 1937. He made valuable contributions to the work of this Commission and to the art of communication in all its phases."

BALDWIN AT A. F. OF M. MEETING

James W. Baldwin, Managing Director of the NAB, is attending the meetings of the American Federation of Musicians being held in New York this week.

CHANGES RECOMMENDED FOR WBOW

Broadcasting station WBOW, Terre Haute, Ind., operating unlimited time on 1310 kilocycles, 100 watts and 250 watts LS, applied to the Federal Communications Commission to change its frequency to 1290 kilocycles, with 500 watts and 1,000 watts LS. At the same time Glenn E. Webster applied to the Commission for a construction permit for a new station at Decatur, Ill., to use 1290 kilocycles, 250 watts and daytime operation.

Examiner Melvin H. Dalberg in Report No. I-465 recommended that the application of WBOW be granted and that of Glenn E. Webster be denied. He states that there appears to be a definite need for additional service of WBOW while the need for the other application is in a much lesser degree. The Examiner stated also that "the financial showing of the applicant, Glenn E. Webster, is extremely meagre and obviously insufficient to operate the station he proposed over any substantial period of time."

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

Nos. 3182-3184. Two **Chicago** dealers in merchandise are charged with use of unfair competitive methods through promotion of sales by means of lotteries or gift enterprises, in complaints against **Joseph W. Graff**, 4224 Lincoln Ave., trading as **The Sylvan Co.**, and **Theodore H. Koolish**, 538 South Dearborn St., trading as **Universal Specialties Co.**

The respondent companies sell various items of merchandise, including clocks, radios, pen and pencil sets, food mixers and cameras.

Customers of the two dealers were furnished with pushcard devices, permitting the drawing of prizes by chance through selection of certain feminine names, according to the complaint, and such devices were allegedly used in the sale of products to ultimate consumers.

No. 3183. Alleging the use of false and misleading representations in the sale of soap, in violation of Section 5 of the Federal Trade Commission Act, a complaint has been issued against **Richard I. Stewart, Anaheim, Calif.**, trading as **Avocado Soap Products Co.**

Stewart's advertising literature is alleged to have contained representations tending to create the impression that the soap he makes and sells contains a substantial amount of avocado oil; that this soap is nature's aid to beauty and is highly recommended by beauty specialists.

No. 3185. Charging false and misleading representations in the sale of **Cal-A-Mo Reducing Bath**, a complaint has been issued against **Guy J. Banta**, 706 South Hill St., **Los Angeles**, trading as **Cal-A-Mo Laboratories.**

In newspaper and periodical advertising and radio announcements, the respondent is alleged to have made representations tending to deceive buyers into believing that he is a manufacturer of a reducing preparation, maintaining a laboratory for that purpose, and that his product, Cal-A-Mo Reducing Bath, is in fact a safe, efficient and harmless preparation for effectively reducing weight and excess fat.

No. 3186. An unlawful conspiracy to fix and maintain uniform minimum prices and uniform maximum discounts is alleged in a complaint issued against **Covered Button and Buckle Creators, Inc.**, its officers and directors, and approximately 150 member companies engaged in manufacturing and selling upwards of 90 per cent of all the covered buttons, buckles and novelties produced in the United States.

The complaint charges that the respondents falsely represented, in a widely-circulated advertisement, that their uniform price and discount policy was initiated and enforced by and through the means of trade practice rules approved by the Federal Trade Commission for the covered button and buckle manufacturing industry promulgated April 9, 1937.

The respondents are located principally in New York City, and their acts and practices as set out in the complaint are said to constitute unfair methods of competition, in violation of Section 5 of the Federal Trade Commission Act.

No. 3187. Alleging the use of unfair methods of competition in the sale of women's leather purses and gloves, a complaint has been served upon the **Elite Glove Company, Inc., Gloversville, New York.**

Imprinted upon certain of the respondent company's purses and gloves and the containers thereof, according to the complaint, are the words, in Old English type, "Lady Daphne—A British Doeskin" or "Lady Daphne—A British Suede," together with the words "Made in U. S. A." in much smaller type. These words, purporting to be descriptive of the respondent company's products, also are said to appear in newspaper and magazine advertisements and in catalogs.

The complaint alleges that use of the name "Lady Daphne" said to be indicative of British royalty, in connection with the words "A British Doeskin" or "A British Suede," and the disparity of the size of the letters used therein as compared with the size of the type in the phrase "Made in U.S.A.", serve as representations and lead customers into the belief that the leather used in the manufacture of the respondent company's products is processed into a finished leather in England and imported into the United States, where it is made into gloves and purses.

No. 3188. Misrepresentation of the properties and therapeutic value of Lavoptik Eye Wash is alleged in a complaint issued against **Lavoptik Company, Inc.**, Michigan Ave. and 7th St., **St. Paul, Minnesota.**

Advertising in newspapers, magazines, booklets, and by radio, the respondent company is alleged to have falsely represented that its preparation has been endorsed by 6,000 medical doctor eyesight specialists, and falsely implied that it is a cure for diseases of the eye or impaired vision; that it strengthens the nerves of the eye, relieves eye strain, and makes the eyes healthier and more efficient.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 01752. Ann J. MacHale, Inc., 101 Fifth Ave., will discontinue advertising that MacHale's Hair Color Restorer is not a dye and has been used by men and women for many years with excellent results in bringing back color to faded, gray hair. The respondent corporation agreed not to designate its product as "Hair Color Restorer."

No. 01757. H. E. Curtiss, trading as C. E. Curtiss and as The Enterprise Press, 41 Alleghany St., Corfu, N. Y., in his stipulation, agrees to cease representing that his book, the Showman's Guide, exposes and lays bare the black art and that any of his books provides insight into a mystic secret writing system, or constitutes a rare collection of golden secrets or is a gypsy oracle fortune teller.

No. 01763. The R. L. Watkins Company, 170 Varick St., will cease representing that its Mulsified Cocoanut Oil Shampoo cannot possibly injure the most tender scalp; that scientists say it is the safe and best preparation to use for healthy, beautiful hair, and that it restores to the hair natural oils and youthful beauty.

No. 01767. Segal Safety Razor Corporation, 270 Broadway, selling shaving sets consisting of a case, a Segal unitary razor, a brush, and blades, will desist from advertising that the brush is germ-proof and the razor rust or tarnish-proof.

No. 01771. Arthur Abrhams Navello, trading as Navello System, 105 W. Madison St., Chicago, selling a correspondence course in singing and crooning, agrees to cease advertising that his booklet of instructions will enable one to learn to sing or croon and to have a trained singing voice or become an accomplished singer or crooner in 10 easy home lessons. He will also stop asserting that his course enables one to acquire the secrets of easy, natural singing without learning musical terms or engaging in tedious study.

No. 01772. Winslow W. Chase, trading as The Taxley Co., 450 Randolph St., N. W., Washington, D. C., selling a device designated "Don't Snore", agrees to stop representing that use of the device prevents or overcomes snoring, mouth-breathing or attendant ills, unless this is properly qualified. The respondent admits in his stipulation that, according to reliable medical authority, there are many pathological and anatomical causes of snoring which could not be remotely affected by such a device as he sells. He also will not assert that the product is invaluable in cases of asthma, catarrh, hay fever, common colds and insomnia, and that benefits may be derived from its use by singers, public speakers and athletes.

No. 01776. Mrs. J. G. Morris, trading as Morris Orthopedic Institute, 7th St. and Broadway, Los Angeles, sells a device designated Morris Limb Straightener, and agrees to stop representing it as such unless the reference is limited to the limbs of children or young people. In her stipulation, the respondent admits that, according to reliable scientific opinion, the value of her product is limited in its use to aiding in straightening the limbs of children or young people.

No. 01780. Chester Miller, trading as Goldentone Radio Co., 8780 Grand River Ave., Dearborn, Mich., agrees to abandon the assertion in advertising that any of the radio receiving sets he sells will afford world-wide reception and that this can be guaranteed. In his stipulation, he admits that while radios are being sold which will afford reception of programs emanating from foreign stations, consistent world-wide reception is still unaccomplished in radio development. Miller also agrees to stop asserting that his sets are used by the United States Forestry Service.

No. 01809. Certain false and misleading advertising practices in connection with the sale of a hair tonic and a shampoo will be discontinued by **Wildroot Company, Inc.,** 1490 Jefferson Ave., **Buffalo,** under a stipulation entered into.

The company will cease representing that Wildroot Hair Tonic cleans up dandruff completely, unless qualified by the explanation that repeated and continued use is necessary to obtain this result; that it is an effective treatment for falling hair, unless limited to those cases of falling hair due to seborrheal eczema, and that it regulates the flow of oil, thereby stimulating the growth of hair.

No. 2017. New Method File Grinders, Inc., 609 Fulton St., **Chicago,** has entered into a stipulation to discontinue unfair methods of competition in the sale of files.

According to the stipulation, the company purchased old, worn files from large manufacturing concerns, resharpened and reconditioned them, and sold them in interstate commerce without disclosing that they were not new or that they were second-hand files which had been reconditioned.

Nos. 2447-2454. Fairfield Distilling Company and **Byrd Distilling Company,** both of **Louisville, Ky.,** have been ordered to cease and desist from representing that they are distillers of alcoholic beverages, when such is not a fact.

The respondent companies are ordered to discontinue representing through use of the word "Distilling" in their corporate names, in advertising matter, on labels, or otherwise, that they distill whiskies, gins or other spirituous beverages; that they manufacture such products through the process of distillation, or that they own or operate distilleries, unless they do own or operate such places.

No. 2948. Eastern Pharmacal Company, Inc., 1 Herriot St., **Yonkers, N. Y.,** selling a liquid pharmaceutical product under the name "Aspiral," has been ordered to discontinue using that name or any word containing the letters "Aspir" as a trade name or designation, unless at the time of its sale the product is acetyl salicylic acid, commonly known to the public as aspirin.

The respondent company also is directed to cease and desist from representing that Aspiral is aspirin and that Elixir Aspiral offers the better way of prescribing aspirin.

No. 3121. Joe Anderson, New Bern, North Carolina, trading as **The A. & O. Co.,** has been ordered to cease and desist from making certain deceptive, misleading and exaggerated representations in connection with the sale of a pharmaceutical preparation designated "A. & O.", advertised in newspapers, magazines, catalogs and by radio as an adequate treatment for colds.

Among the representations ordered discontinued are that the preparation relieves and cures the most stubborn colds when other treatments fail, and gives instant, guaranteed or effective relief from the first dose; that it protects one from influenza, pneumonia or serious lung trouble, clears the digestive tract, restores the system to normal, and is quicker and safer than pills and salve.

Nos. 3177-3178-3179-3180-3181. Five dealers in merchandise are charged with use of unfair competitive methods through promotion of sales by means of lotteries or gift enterprises under complaints. Four of the respondents have headquarters in **Chicago** and one in **Jersey City, N. J.**

Complaints have been served against the following **Chicago** dealers: **Frieda Wolchin,** 418 South Wells St., trading as **Wright Manufacturers Distributing Co.,** and **J. C. Robertson,** 117 West Harrison St., trading as **Novelty Distributing Co.,** both dealers in clocks; **E. I. Donahue,** 407 South Dearborn St., trading as **Donahue Advertising Co.,** dealing in electric clocks, kitchen cutlery sets and other articles; and **Carlton, Inc.,** 17 North Wabash Ave., trading as **Carlton Sales Co.,** dealer in men's and women's wearing apparel. The **Jersey City** dealer named as respondent is **Hyman Mendels,** 113 Hudson St., a clock dealer trading as **J. J. Henderson.**

Customers of the five dealers were furnished with pushcard devices, permitting the drawing of prizes by chance through selection of certain feminine names, according to the complaints, and such devices were allegedly used in the sale of products to ultimate consumers.

FTC CLOSES CASE

No. 2965. The Federal Trade Commission has closed its case against **Shuford Hosiery Mills, Inc., Hickory, N. C.,** for the reason that the objectionable practices complained of have been discontinued and it does not appear that the respondent company will resume them.

The company was charged with labeling certain hosiery in a manner tending to cause purchasers to believe it was composed substantially of silk when such was not a fact.

The Commission reserved its right to reopen the case, should the facts warrant, and resume prosecution of the complaint in accordance with its regular procedure.

FEDERAL COMMUNICATIONS COMMISSION ACTION

No hearings are scheduled at the Commission in broadcast cases during the week beginning August 2.

The Broadcast Division took the following actions subject to ratification at the next regular meeting of the Division:

ASKS FUNDS FOR HAVANA RADIO CONFERENCE

On Tuesday, President Roosevelt sent a communication to the Speaker of the House of Representatives in which he asked for favorable action on a request of the Secretary of State for an appropriation of $15,000 to defray the expenses of the United States in its participation in the Inter-American Radio Conference to convene at Havana, Cuba, November 1. The communication was referred to the House Committee on Foreign Affairs.

P. J. LEROY

Members are advised to communicate with NAB Headquarters before contracting with P. J. LeRoy who furnishes fifteen minute transcriptions advertising piano lessons by mail.

DENIAL OF NEW STATION RECOMMENDED

John C. Hughes filed an application with the Federal Communications Commission asking for a construction permit for a new station to be erected at Phenix City, Ala., to use 1310 kilocycles, 100 watts and daytime operation.

Examiner Robert L. Irwin, in Report No. I-469, recommended that the application be denied. The Examiner states that the applicant "has not shown that he is financially able to operate it (the proposed station)." The granting of the application, he states, will not be in the public interest.

OFFICIAL ANNOUNCEMENT ON CCIR CONFERENCE

The State Department has made an official announcement concerning the return of the American delegation from the CCIR conference at Bucharest, the subjects discussed, and recommendations adopted at the meeting. This information was previously covered in the report of Mr. McNary, NAB delegate, in NAB Reports for July 15, 1937.

RECOMMENDS DENYING CHANGES FOR WSPA

Broadcasting station WSPA applied to the Federal Communications Commission to change its frequency from 920 to 880 kilocycles, and to increase its power from 1,000 to 5,000 watts. It operates daytime and did not ask for any change of time.

Examiner Melvin H. Dalberg, in Report No. I-468, recommended that the application be denied. He found that "it is highly questionable whether there is any need for additional service in the area sought to be served." The Examiner states also that most of the territory the station wishes to serve is already served satisfactorily by radio and "the result of the granting of this application would cause overlapping of much of the present service now available to listeners."

DENIAL RECOMMENDED FOR OHIO STATION

WRBC, Inc., applied to the Federal Communications Commission for a construction permit for the erection of a new station at Cleveland, Ohio, to use 880 kilocycles, 1,000 watts and unlimited operation.

Examiner Melvin H. Dalberg, in Report No. I-470, recommended that the application be denied. He states that the financial showing of the applicant "from a strictly legal standpoint, is somewhat indefinite and confusing and not sufficiently substantial in view of the proposed expense of construction involved herein and the estimated operating costs disclosed by the evidence. This is especially manifest because of the obvious inadequacy of the proof with respect to financial support."

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause

why cease and desist orders should not be issued against them.

No. 3189. A chewing gum dealer is charged with use of unfair competitive methods through promotion of sales by means of lotteries or gift enterprises, in a complaint issued against **Dietz Gum Company of Chicago,** 1734 West Hubbard St., **Chicago,** trading also under the names **Novelty Gum Company, Specialty Gum Company,** and **Yankee Doodle Gum Company.** The complaint also names as respondents, **Sol S. Leaf,** president and treasurer, and **Harry Leaf,** secretary of the Dietz company.

Dealer customers of the respondents are furnished with assortments of gum so arranged that purchasers procuring a stick bearing a certain wrapper may receive a prize, or purchasers saving a sufficient number of certain wrappers may send them in to the company and receive a prize such as a baseball suit or gymnasium outfit, according to the complaint.

No. 3190. Abraham Starr, 16-20 East 12th St., **New York,** trading as **Superior Textile Mill,** is charged in a complaint with using certain unfair methods of competition in the sale of haberdashery direct to consumer-purchasers.

Price lists and other printed matter circulated by the respondent allegedly advertised a specified date as the last day for a "free merchandise sale" and contained such offers as four shirts for the price of three, seven pairs of hose for the price of six, and three sweaters for the price of two.

These representations, the complaint charges, serve to lead purchasers into the mistaken belief that for the price they pay for the stated number of articles of haberdashery, they will receive an additional article free. According to the complaint, they do not receive an article of merchandise absolutely free, and the price purportedly charged for the stated number of articles actually covers the total sale price for the entire number.

No. 3191. Alleging use of unfair methods of competition in the sale of salve and miscellaneous merchandise a complaint has been issued against **Morris R., Charles, Mary** and **Mrs. Robert Shapiro,** having a place of business at 836 West Roosevelt Road, **Chicago.** The respondents are co-partners and trade as **Uca Manufacturing Company, Uca Mentho Company, Uca-Mentho Laboratories,** and **Robert More Company.**

The respondents are said to advertise in newspapers, magazines and form letters that their salves constitute effective and reliable remedies or treatments for colds, cuts, burns, catarrh, eczema, and various other ailments and diseases. According to the complaint, such representations are false and tend to lead purchasers into the erroneous belief that they can diagnose and determine the cause of and the remedy or treatment for the ailments and diseases from which they are suffering.

None of the respondents is a physician, nor is a physician connected with their business, the complaint charges, and purchasers of the respondents' salves are not being given a medical examination for the purpose of determining the particular ailment or disease from which they are suffering and the cure, if any, therefor.

No. 3192. Croxonol Sales Corporation, 142 West 24th Street, **New York,** and its president, **Alfred W. Lublin,** are named respondents in a complaint alleging use of certain unfair competitive practices in advertising and selling Croxon Method, a preparation for the treatment of superfluous hair.

The complaint charges that the respondents falsely represented in advertising that their preparation will remove superfluous hair when first applied; will keep the user well groomed and free from hair; will completely stop the growth of superfluous hair; is guaranteed to remove it, and that no odor will result from use of the product. According to the complaint, these representations are misleading and exaggerated, and the preparation will not accomplish the results claimed for it.

Stipulations and Orders

The Commission has issued the following cease and desist orders and stipulations:

No. 2018. Trading as **Lincoln Lace & Braid Mfg. Co., Benjamin Gittleman,** Ponagansett Ave. and Barbara St., **Providence, R. I.,** has entered into a stipulation to discontinue certain unfair methods of competition in connection with the sale of shoe laces.

Gittleman agreed to cease using the abbreviation "Mfg." in his trade name and to discontinue employing that abbreviation or the word "Manufacturers" on his stationery, in printed matter, or otherwise, so as to imply that he makes the shoe laces he sells or that he owns or operates a factory in which such products are manufactured, when such is not a fact.

No. 2020. Agreeing to cease certain false and misleading assertions in the advertisement and sale of correspondence courses in civil service subjects, **Civilian Preparatory Service, Inc.,** and **Homer Bruce Crone,** formerly trading as **Economic Research Bureau,** both of **Huntington, W. Va.,** have entered into a stipulation.

Among representations to be discontinued are assertions to the effect that jobs are offered, that men and women are wanted to fill such jobs and that such positions are to be filled through the respondents.

The respondents agree no longer to advertise that the school as operated is representative of or connected with the United States Government or that civil service examinations are held or will be held at frequent intervals in the classifications for which the respondents offer training, or that government positions in such classifications are or will be available and that appointments therein will be made.

No. 2021. Certain unfair methods of competition in the sale of books will be abandoned by **Garden City Publishing Co., Inc., Garden City, N. Y.,** under a stipulation.

The company will stop advertising or selling any book under a name or title different from that under which it previously had been published and sold. The stipulation provides that if the company sells a book under a title other than the original, proper notice of the name previously used shall be printed on the title page and jacket in type as equally conspicuous as that in which the new name appears.

No. 2022. Samuel A. Roth, 328 West Superior Ave., **Cleveland,** trading as **Samuel A. Roth & Co.,** has entered into a stipulation to discontinue representing, without proper qualification, that certain wearing apparel for women is composed of silk.

In his advertising matter, the respondent agrees to stop using the word "silk," either alone or in connection with the word "pure," without qualification, to designate products not made entirely of silk but containing substantial quantities of mineral salts or substances other than silk, such articles being known as weighted silks.

The stipulation provides that if these articles are in fact composed of silk but are weighted to an amount exceeding 15 per cent in black goods or to an amount exceeding 10 per cent in goods other than black, the word "silk," if used to designate them, shall be immediately accompanied by the word "weighted" or other words printed in equally conspicuous type to indicate clearly that the articles are weighted with mineral salts or other weighting substances.

No. 2353. An order has been issued directing discontinuance of certain false and misleading representations in the sale of Kelpe'Koe, an alleged medicinal preparation mined from what are claimed to be crystallized deposits of kelp or seaweed. The order was issued against **Kelpe'Koe, Inc.,** of **Seattle, Wash.,** and **C. C. Hanson,** agent of the **Seattle** firm, with headquarters in **Memphis, Tenn.**

Under the order, the respondents are directed to cease and desist from asserting that the use of their preparation will cure, or will be of substantial benefit in the treatment of nervous disorders, undue fatigue, asthma, neuritis and other ailments, and that the preparation provides the elements required to harmonize glandular activity during childhood or will supply vital elements required in the formation of bone, tissue and cell structures.

No. 2840. An order has been entered directing **NoDoz Laboratories, Inc.,** 307 Mitau Building, **Sacramento, Calif.,** to discontinue representing in advertisments or radio broadcasts that NoDoz Awakeners will counteract or overcome the effect of drinking alcoholic beverages or have any beneficial effects on persons using alcoholic liquors.

The respondent company also is ordered to cease and desist from advertising that its product is manufactured under a formula approved by the United States Pure Food and Drug Administration, and that more than a million automobile drivers, or any other number not established by competent evidence, take the preparation to keep awake during long hours of driving, or approve it as the safe, sure way to stay awake while driving.

Findings are that caffein, which is the active ingredient in the product, will not counteract or overcome the effects of alcoholism, as represented by the respondent company, nor will it sober an intoxicated person.

No. 3115. Certain false and misleading representations made in advertising and selling Lechler 569 Instantaneous Hair Lightener are prohibited under an order to cease and desist entered against **Lechler Laboratories, Inc.,** 334 Audubon Ave., **New York.**

The order directs the respondent company to discontinue representing through price lists, circulars, labels, or any other form of printed matter, or in radio broadcasts, that its preparation does not require or contain peroxide, is superior to products containing peroxide, and that the bleaching agent of the preparation is not similar to peroxide. Findings are that the product contains peroxide and its bleaching action is not chemically different from preparations which include peroxide of like strength as an ingredient.

CASE CLOSED BY FTC

No. 2698. An order has been entered by the Federal Trade Commission closing, without prejudice, its case against **Avalon Candy Corporation, Los Angeles,** which was charged with use of a lottery scheme in connection with the sale of candy.

The case was closed for the reason that the respondent company has neither manufactured nor sold candy since March, 1936; its physical assets have been dismantled and sold, its corporate charter surrendered for non-payment of California State taxes, and it appears that the company is not likely to resume the violations of law alleged in the Commission's complaint.

WARNING NOT TO SELL OR RENT FAN MAIL

Members are urged not to sell or rent letters received from radio fans. The uses which might be made of the addresses in fan mail are too many and too unethical. The results can be injurious to radio broadcasting. Once released the broadcaster cannot control the use made of such lists but he must be prepared nevertheless to accept his share of the responsibility for uses made of his mail. Of particular significance are the following words appearing in a letter received a few days ago by one of our members—

"Right now, for example, we are trying to get hold of over a million juvenile names—of the type who respond to broadcasts appealing to the ten and fifteen year old group."

We must not allow this type of business in radio broadcasting.

James W. Baldwin.

TO NAME FCC MEMBERS SOON

In answer to an inquiry at his press conference on Tuesday, President Roosevelt said that he hoped to be able to send his nominations for the two existing vacancies on the Federal Communications Commission to the Senate before adjournment.

WHITE RADIO RESOLUTION REPORTED

The Senate Committee on Interstate Commerce on Wednesday made a favorable report on the White radio resolution (S. Res. 149), which was introduced on July 6.

Complete copy of the resolution was contained in Vol. 5, No. 29, of NAB Reports. It calls for a full investigation of radio and broadcasting by the Senate Committee on Interstate Commerce, headed by Senator Wheeler, of Montana.

Members of the committee feel that if the Senate should pass the Resolution at the present session, which appears doubtful, that no actual hearings will be called until the January session of Congress. It is possible, if the resolution should be passed, one of the members of the committee stated, that some "spadework" might be done, by which he meant that an investigator might start work for the committee.

POWER INCREASE RECOMMENDED FOR WEAN

Broadcasting station WEAN, Providence, R. I., operating unlimited time on 780 kilocycles applied to the Federal Communications Commission to increase its power from 1,000 watts to 1,000 watts night and 5,000 watts LS.

Examiner John P. Bramhall in Report No. I-472 recommended that the application be granted. He states that "a need for additional daytime service in the area proposed to be served has been established." The Examiner states further that the interests of Stations WGY, WJZ and WHEB will not be adversely affected by reason of interference. He says that granting of the application will be in the public interest.

ASKS APPROPRIATION FOR RADIO CONFERENCE

Representative McReynolds, of Tennessee, has introduced a joint resolution in the House (H. J. Res. 476) "authorizing participation by the United States in the Inter-American Radio Conference to convene at Habana, Cuba, November 1, 1937." It calls for an appropriation of $15,000 for expenses as suggested by the Secretary of State. The resolution, which has been referred to the House Committee on Foreign Affairs, is as follows:

"That there is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, the sum of $15,000, or so much thereof as may be necessary, for the expenses of participation by the United States in the Inter-American Radio Conference

An identical resolution (S. J. Res. 197) has been introduced in the Senate by Senator Pittman, of Nevada, which has been referred to the Senate Committee on Foreign Relations.

A favorable report has been made on the House resolution.

No. 64232—Black River Valley Broadcasts, Inc., vs. Anning S. Prall et al.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3193. Alleging use of unfair methods of competition in the sale of men's ready-made suits, overcoats and top coats, a complaint has been issued against **Joseph Cominsky**, 678 Broadway, **New York City**, trading as **Waverley Tailors, Mayfair Clothing Company**, and **Barclay Clothing Company**.

The respondent is said to sell direct to customers through sales agents whom he furnishes with order blanks which contain directions for taking measurements usually regarded as essential to the tailoring of a garment.

In soliciting customers through his agents, the complaint charges that the respondent represents that he is a tailor or manufacturer; that the ready-made wearing apparel sold and distributed by him is tailored to fit, made to measure, custom-made, or made to order, and that such garments are made in accordance with measurements submitted by his agents and of a cloth having the same grade and texture as the samples displayed and as selected by customers.

No. 3194. A complaint has been issued charging **Franklin Knitting Mills, Inc.**, 180 Madison Ave., **New York**, with use of certain unfair methods of competition in violation of Section 5 of the Federal Trade Commission Act.

Through use of the words "knitting mills" in its corporate name which appears in advertising matter and on letterheads and invoices, the respondent company allegedly represents itself to be the manufacturer of the knitted-wear products it sells in interstate commerce. According to the complaint, the company does not manufacture the knitted-wear merchandise it sells, and does not own, operate or control a mill in which such products are made.

No. 3195. Confectioners Trading Corporation, 380 Throop Ave., **Brooklyn**, is named respondent in a complaint alleging use of certain unfair methods of competition in the interstate sale of candy.

It is charged that the respondent company represents, through its salesmen and on its business stationery and in other printed matter, that it is the direct agent of the concerns manufacturing the candy it sells and also the agent for certain customers and as such manufactures candy to their order.

The complaint avers that the respondent company neither owns nor operates a factory, does not make candy, is not a manufacturer's agent, but only purchases and repacks the candy it sells.

No. 3196. Alleging a combination and conspiracy tending to suppress competition and create monopoly in the sale of paper fasteners, a complaint has been issued against **Daniel A. Brennan**, 10 South LaSalle St., **Chicago**, an inventor, and **Acco Products, Inc.**, 39th Ave. and 24th St., **Long Island City, N. Y.**, said to be the principal paper fastener manufacturer in the United States.

Brennan is said to have invented and obtained patents for certain paper fasteners and to have licensed Acco Products, Inc., to manufacture and sell them, although, according to the complaint, the company has not manufactured any of the fasteners patented by Brennan.

Under an agreement alleged to have been entered into by Brennan and Acco Products, Inc., other paper fastener manufacturers and retailers of these products generally were allegedly circularized by means of letters in Brennan's name threatening suit for infringement of patents owned by Brennan. Such letters were not mailed in good faith, it is charged, and the respondents allegedly had no intention of bringing nor did they institute any such infringement suits. The purpose of the letters, according to the complaint, was to enhance the sale of the Acco company's products and to harass Acco's competitors.

No. 3197. Alleging use of unfair methods of competition in the sale of a bookkeeping system designed primarily for the use of farmers, a complaint has been issued against **Waldo W. Townsley**, P. O. Box 3005, **Kansas City, Mo.**, trading as **Serval-System.**

As an inducement to prospects to enter into contracts to become territorial sales supervisors and to purchase a specified number of Serval-System sets for resale, the respondent allegedly represents that the systems are easy to sell and that he has sold a large number in a community. In support of these representations, the respondent is said to display the signed orders of a number of farmers with whom the prospect is acquainted.

The complaint charges that the systems are not easy to sell, and that sales to local farmers have been made at prices substantially lower than the regular or special prices marked on the sets, a fact which is not made known to the prospective supervisor.

Cease and Desist Orders

The Commission has issued the following cease and desist orders:

No. 2479. Sunnyland Distilling Co., 2119 West Main St., **Louisville, Ky.,** has been ordered to cease and desist from representing that it is a distiller of alcoholic beverages, when such is not a fact.

The respondent company is ordered to discontinue representing through use of the word "Distilling" in its corporate name, in advertising matter, on labels, or otherwise, that it distills whiskies, gins or other spirituous beverages; that it manufactures such products through the process of distillation, or that it owns or operates a distillery, unless it does own or operate such a place.

No. 2740. Under an order to cease and desist, **W. H. Bonifield, Warren, Ind.,** trading as **Chicopee Medicine Co.,** is directed to cease and desist from misrepresenting the therapeutic properties and effects of a medicinal preparation sold in interstate commerce as Chicopee Native Indian Herbs.

The respondent is directed to discontinue advertising that the medicine is composed of native Indian herbs, or entirely of herbs or other vegetable products; that it will relieve any ailment at once, and is the oldest and most reliable medicine known.

Nos. 2814-2815-2816. Three corporations have been ordered to cease and desist from representing as containing gold certain tableware and other articles which are made from an alloy of metals containing no gold and sold in interstate commerce under the designation of "Dirigold."

The respondent corporations, found to have engaged in such unfair methods of competition in violation of Section 5 of the Federal Trade Commission Act, are **The American Dirigold Corporation,** 1142 South Main St., **Kokomo, Ind.; Dirigold Metals Corporation, Barrington, Ill.,** and **Dirigold Distributors, Inc.,** 70 East Jackson Blvd., **Chicago.**

Dirigold and the products made therefrom, according to the findings, do not contain gold, but are composed chiefly of aluminum and copper, such products being highly polished and so finished that they are of the color, luster and appearance of 14-karat or 18-karat gold. The name "Dirigold," it is said, is stamped on the respondents' ware, forms a prominent part of their trademarks, and is used on their letterheads and in other printed matter as a general descriptive term for such ware.

Findings are that advertising matter used in promoting the sale of the ware contained, in connection with the word "Dirigold", such descriptive phrases as "Solid not plated"; "Like the precious metals—Dirigold is solid clear through", and "No home need be denied the rare luxury and beauty of gold on the table and in the home."

No. 2955. Prohibiting certain unfair methods of competition in the sale of aspirin, an order to cease and desist has been issued against **Silver Rod Stores Supply Co., Inc.,** 60 Broadway, **Brooklyn, N. Y.,** and its subsidiary, **Dale Drug Co., Inc.,** of the same address. Both companies sell Dale's Aspirin.

The respondents are directed to stop representing that they are, or that either of them was, the first or original manufacturer of or dealer in aspirin. They are also ordered to desist from the assertion that prices marked or stamped on their products or on the containers thereof, are the regular or customary retail prices, when in fact such amounts as marked are fictitious and greatly in excess of the regular prices at which the products are sold at retail.

The respondents' product was sold as the Original Dale's Aspirin, when, according to findings, the respondents were not the first or original manufacturers of or dealers in aspirin, this product having been introduced in the United States in 1899 by a German company.

No. 3110. Reliable Typewriter & Adding Machine Co., Chicago, has been ordered to cease and desist from using certain unfair trade practices in connection with the interstate sale of a so-called vest pocket type of adding machine designated "Ve-Po-Ad".

The respondent company is ordered to discontinue representing in advertising matter, or otherwise, that its products will perform the same work as adding machines possessing features which its machines lack; that they have many of the features of more expensive adding machines, such as permanent records, sub-totals, or release devices for the correction of errors, or that they are to be considered the equal of machines possessing such features.

No. 3117. An order to cease and desist has been issued against **Adolph Wein,** 41 East 11th St., **New York,** trading as **American Toy Works.**

The order directs the respondent to cease representing through price lists, labels, circulars, containers or other printed matter, or by radio broadcasting, that any of the toys he sells which are made in Japan or another foreign country are manufactured in the United States.

No. 3147. An order has been issued to cease and desist against **H. E. Wagley,** trading as **National Sales** and as **Paramount Sales,** 508 South Dearborn St., **Chicago.** The order prohibits certain unfair competitive methods in the sale of clocks and other merchandise by means of lottery schemes.

Wagley is directed to cease supplying dealers or others with pushcards or similar devices for use in the sale of clocks or other merchandise, and to cease selling or otherwise disposing of clocks and other merchandise by use of such devices.

Stipulations

The Commission has entered into the following stipulations:

No. 01825. Joseph Breyer, P. O. Box 39, Grand Central Annex, New York, trading as Nanta Company, agrees that in the sale of Nanta, a reducing preparation, he will cease representing that the product is an effective remedy for obesity, unless such claim is qualified by a statement to the effect that it is recommended only in cases of excess weight due to overeating, drinking, indiscretion in diet, or toxic condition. The respondent also will stop representing that users of Nanta may expect to reduce weight in any specific amount within a definite period of time. The respondent is not to be prevented from using truthful testimonials properly verified before publication.

No. 01826. James McCreery & Co., 5th Ave. at 34th St., New York, stipulated that in advertising a perfume designated Parfum de Toilette, it will discontinue using the phrase "of France" in connection with the name of the product, so as to imply that the perfume is manufactured or compounded in France.

No. 01827. Prosperity Publishers, Inc., 697 East 219th St., New York, and its president, Albert G. Illich, trading as Prosperity Institute and engaged in the sale of books designated Library of Business Opportunities, will cease representing that their books enable one to operate immediately a producing mail order business without previous experience in such business and to increase his income to $100,000, or any definite or fabulous sum. The respondents will stop advertising that their books contain any scheme or plan whereby one may start making money within a week, or any other definite specified time. They also stipulated that they will desist from using any trade name containing the word "Institute".

No. 01828. G. Knewitz, 1509 Broadway, East St. Louis, Ill., selling medicinal preparations, will discontinue representing that Stopake is a competent treatment for pain, irrespective of its cause, and enables one to avoid misery, suffering or distress. He also will cease using the name Oilax for a laxative remedy he sells, and will stop advertising that such product will prevent constipation and relieve rheumatism, high blood pressure or stomach, kidney or liver disorders.

No. 01829. A stipulation to stop certain false and misleading representations in advertising cosmetics and skin preparations has been entered into by **Muriel Maxwell Harvey,** 233 Grant Ave., **San Francisco,** trading as **Vahrah Beverly.**

The respondent will cease representing that any of her preparations, sold under various designations, will free the neck of double chin or heavy lines or restore its youthful contour; banish wrinkles, crows' feet or sagging muscles; rid the skin of blackheads, or revitalize or rebuild the tissues.

No. 01830. Frank L. Miller and **Alfred C. Schmidt,** trading as **Artists and Models Studio,** Manhattan Bank Building, **Memphis, Tenn.,** have entered into a stipulation to discontinue using false and misleading advertising in connection with the sale of art studies and a correspondence course of instruction in art.

The respondents agreed to cease representing that their so-called sight-correcting art course enables the student instantly to correct mistakes in drawing and to make "big money"; that all necessary materials are included with the course, and that the price charged for the course is a limited offer, unless a definite time limit for the expiration of such offer is determined.

No. 01831. H. Birnbaum, 154 Nassau St., New York, trading as Fashion Jewelry Company, agrees to cease advertising that certain rings and watches sold by him are hand-engraved or chased, unless such is a fact. According to the stipulation, Birnbaum advertised that he would give a watch free to persons purchasing a ring on an installment plan. Admitting that the initial payment entitles the purchaser to the ring only and that the watch is not delivered until the total purchase price is received, the respondent agreed to stop representing that any article or group of articles is sold on an installment plan, unless at the time of the initial payment he delivers to the purchaser such article or group of articles.

No. 01832. Youthful Face & Figure, Inc., 853 Seventh Ave., New York, will discontinue advertising that through use of Dr. Hatch's Formula Massage Cream excess weight can be removed, unless it is clearly shown that the cream is to be used with massage for the removal of superficial fat, and will cease representing that users may lose weight without limiting their diets or while eating what they like.

No. 01833. Louis Tillery, M. D., 4546 South State St., Chicago, selling Vitality Tablets, Laxative Pills, and Diuretic Pills, will stop advertising that these preparations constitute a competent treatment for lost vitality, or will overcome fatigue, eliminate poison from the system, or stimulate all glands. He also agreed to cease representing that any goods are given free, so long as they are given only to reimburse agents for shipping costs on merchandise purchased, or on any other condition whereby the recipient is expected to make any payment or perform any service before qualifying to receive the goods.

No. 01834. Solomon Michelson, 74 Bowery, New York City, trading as The New York Jobbers, will cease representing that the rebuilt watches he sells are new, and, in advertising such watches, will publish in conspicuous type a statement to the effect that they are not new, but are rebuilt. The respondent also will stop asserting that any of the watches he offers for sale are engraved, unless such is a fact.

No. 2023. Samuel Friedman, 121 East 24th St., New York, trading as Brite Specialty Company, will cease stamping or branding wrist watch buckles with the words "gold filled," when such products do not contain a coating of gold of such substantial thickness as to be properly and accurately designated or referred to as gold filled.

No. 2024. Roselux Chemical Company, Inc., 1100 Rockaway Ave., Brooklyn, selling Rose-X, a cleaning compound, agrees to stop using on labels or in any other manner the words "removes stains" so as to imply that the product will remove stains of all types, when such is not a fact. The company also will refrain from using the words "excellent for the hands," as descriptive of Rose-X, so as to imply that the product possesses properties or value of special merit or benefit to the hands, when such is not a fact.

No. 2025. Peter J. Bough, 268 14th Ave., North, Clinton, Iowa, in his stipulation, agrees to stop using in advertising matter or in any other way the phrase "water-proof cement burial vault that endures forever." He will stop employing these or any other words of similar meaning implying that the products to which they refer will remain water-proof for all time, or any fixed period of time, regardless of varying climatic conditions and of chemical and other conditions of the soil in which the products are placed for burial.

No. 2026. A. E. Halperin Company, Inc., 267 Atlantic Ave., Boston, will discontinue representing or advertising that certain bandages it sells are sterilized or sanitary, unless they are sterilized and free from bacteria after they have been packaged and while contained in their original package.

No. 2027. National Plywood Co., Inc., 441 East 19th St., New York, agrees to cease using the words "white pine," either independently or in connection with "California" or other words, as descriptive of products not made of wood derived from trees of the botanical species from which white pine is known to be derived. The respondent company also stipulates that it will similarly stop using the word "walnut" alone or in connection with the word "Oriental," or with other words, as descriptive of products not made of wood derived from trees of the walnut tree family.

No. 2028. Saks & Co., operating two department stores in New York and one in Chicago, agrees to stop certain misrepresentations in the sale of merchandise. The respondent company will no longer use the expression "custom-made" to designate clothing not made to order or to the measure of an individual customer; will cease representations to the effect that certain shirts have a regular or customary retail selling price of a designated amount, when in fact such designated amount is in excess of the prices for which the shirts are regularly sold, and will cease using the word "silk" without qualification to describe products not made entirely of silk, but containing substantial quantities of mineral salts or substances other than silk, such articles being known as "weighted" silks. The stipulation provides for certain qualifications if the products advertised are composed of silk weighted to an amount exceeding 15 per cent in black goods, or to an amount exceeding 10 per cent in goods other than black. The words "silk", "satin", and "crepe", according to the stipulation, will not be used either alone or in connection with other words so as to imply that the products to which they refer are made of silk, when such is not a fact.

No. 2029. Under a stipulation entered into, **Alfred Rugeti,** 606 Maple Ave., **Los Angeles,** trading as **Mission Manufacturing Company,** will discontinue misbranding certain shoe laces he manufactures and sells in interstate commerce.

According to the stipulation, Rugeti used the designation "Art Silk" on shoe laces which were not composed of silk. He agrees to cease using the word "silk" either alone or in connection with the letters "Art," or with any words, so as to imply that the products so branded are composed of silk.

SOCIETY OF EUROPEAN STAGE AUTHORS AND COMPOSERS, INC. (SESAC)

To All Members:

Frequently we have been asked, "What about the Society of European Stage Authors and Composers, Incorporated?" (SESAC).

In several conversations beginning in January, 1936, we endeavored to obtain from the SESAC a list of the musical selections it owns or controls. The information was not furnished us.

Because of the equivocal terms and phrases contained in the SESAC's license agreements (copies of which marked Exhibits 1 and 2 are attached to and made a part of this report), we were unable to determine from that instrument specifically what the SESAC had to offer.

For these reasons and in order that we might be fully informed, we addressed a letter interrogatory to the SESAC. A copy of this letter dated October 14, 1936, marked Exhibit 3, is attached to and made a part of this report. A copy of this letter was sent to all member stations.

It was our belief that clear and unequivocal answers to the questions contained in our letter to the SESAC were necessary before members could decide whether they need the SESAC music, and whether the price asked is reasonable for such SESAC music as is available to them, and which is usable in building radio programs for American radio listeners.

The SESAC's reply to our letter dated November 19, 1936, was received by us on December 11, 1936. A copy of this letter, marked Exhibit 4, is attached to and made a part of this report.

Previously there had been an exchange of correspondence concerning questions which had arisen from an examination of the SESAC brochure dated June 1, 1936. These letters will be referred to hereafter in this report, and for this reason, copies, marked Exhibit 5 and Exhibit 6, are attached to and made a part of this report.

The reply which we received from the SESAC (Exhibit 4) seemed to us to display a lack of cooperation in supplying to the members necessary information. We believe also that the SESAC's reply was unduly evasive.

Our next step was to make an examination of the musical copyright entries in the United States Library of Congress for the purpose of determining what musical copyright entries, if any, had been entered by or on behalf of the several publishers or organizations identified in the SESAC brochure dated June 1, 1936. A copy of this brochure marked Exhibit 7 is attached to and made a part of this report.

"Me Me Stelnis Manna Stin Amerike"
Don't Send Me Mother to America

During the early days of our investigation of the musical copyright entries in the United States Library of Congress, we discovered the Greek title, which according to the translation contained in the copyright entries reads: "Don't Send Me Mother To America". This selection found accredited to the Apollo Music Company proved to us the correctness of our theory that the broadcaster is entitled to inspect the package he is asked to buy.

The SESAC brochure dated June 1, 1936, contains the names of what appear to be 76 publishers or organizations. Duplications in the items contained in this brochure reduce the number of publishers or organizations to 52. In addition, 17 publishers or organizations were eliminated from consideration by the SESAC's admission (see Exhibits 5 and 6) that these have to do only with "grand rights" or other rights not included in the SESAC license agreement with stations. In other words, broadcasters who entered into license agreements with the SESAC as of about June 1, 1936, apparently acquired the right to perform musical selections of 35 publishers or organizations instead of 76, as displayed in their June 1, 1936 brochure. In this connection broadcasters will observe the statement appearing at the head of the June 1, 1936 brochure, "The following enumeration is the list contained in SESAC's Regular Performance Licenses as supplemented by recent acquisitions".

Under date of January 1, 1937, the SESAC distributed a new brochure, a copy of which, marked Exhibit 8, is attached to and made a part of this report. With the appearance of this January 1, 1937 brochure, which added and deleted certain firms, and subsequent announcements of newly acquired catalogues since that date, the total number of publishers or organizations to be considered in this report aggregate 62 as of April 1, 1937. The broadcasters will observe that in this brochure the SESAC noted certain exceptions to the general statement appearing at the head of their brochure.

We find, on examination of the musical copyright entries in the Library of Congress, that a total of approximately 5,500 unexpired musical copyright entries are credited to these 62 publishers or organizations. The distribution of these musical copyright entries are shown in a statement marked Exhibit 9, which is attached to and made a part of this report.

It will be observed (Exhibit 9), according to our finding, that of these 62 publishers or organizations, 13 were not credited with any musical copyright entries, 3 had not been credited with any musical copyright entries during the last 10 years; and 35 had been credited with a total of less than 50 entries each during the last 10 years. The remaining 11 publishers and the number of musical copyright entries which we found credited to each, as of April 1, 1937, follow:

APOLLO MUSIC PUBLISHING CO. (Greek) a total of 151 entries.
ARCT, M. (Polish) a total of 169 entries.
CALUMET PUBLISHING COMPANY (American) a total of 283 entries.
COLE, M. M. PUBLISHING CO. (American) a total of 104 entries.
GEHRMANS, CARL MUSIKFORLAG (Scandinavian) a total of 147 entries.
GEBETHNER AND WOLFF (Polish) a total of 73 entries.
NOWA SCENA (Polish) a total of 163 entries.
PAGANI, O. AND BROTHERS (Italian) a total of 517 entries.
RONDO VERLAG (German) a total of 291 entries.
SCHUBERTH, EDWARD AND CO. (American) a total of 1283 entries.
VITAK ELSNIC CO. (Polish) a total of 287 entries.

RENEWAL OF COPYRIGHTS

An examination of the catalogues referred to in this report requires that careful consideration be given to the questions which arise in connection with the renewal of copyrights. The copyright in a musical selection protects the owner of the copyright for a period of 28 years. The copyright law of the United States also permits a renewal of the copyright for an additional period of 28 years. The law specifically provides that a renewal of copyright can be made only by the author or composer, his heirs or next of kin (Sections 23 and 24 of the Copyright Act of 1909 as amended). We are confronted with some serious problems in this report because in numerous instances we found that the renewals had been made by persons or firms other than the author or composer, his heirs or next of kin, and there is no information available at the United States Library of Congress to show whether these persons were acting as the authorized agents of the author or composer, or of his heirs or next of kin; and more important whether, if he was duly authorized to make the renewal, he acquired the right to dispense the performing rights in the music.

As indicated in our letter to the ASCAP (Exhibit 10), it is our belief that the performance rights in the composition "Badinage", one of the most popular and best known compositions of Victor Herbert, are controlled only by the ASCAP. Victor Herbert, on August 9, 1895, "sold and assigned for all times and for all countries to Edward Schuberth & Company all my right, title and interest in my composition, bearing in the manuscript the title of 'Badinage'—for orchestra, arrangement for piano by Alex Rihm". A copy of this assignment, marked Exhibit 106, is attached to and made a part of this report. Our search disclosed that "Badinage" was first registered for copyright on September 4, 1895, by Edward Schuberth & Company.

It will be observed that the assignment of "Badinage" was for "all times". The United States Supreme Court established the principle that no assignment of copyright or of the right to copyright can anticipate or assign away the right of renewal which is conferred upon the author, widow, children, next of kin, or executor by statute (Paige v. Banks, 80 U. S. 608).

Our examination of the renewal records in the Copyright Office of the United States Library of Congress disclosed that the only application for renewal of the composition "Badinage" was made by Nathan Burkan, late general counsel of the ASCAP, in the name of Victor Herbert, on September 12, 1922. A copy of this renewal, marked Exhibit 107, is attached to and made a part of this report.

In 1921, 1922 and 1923 Victor Herbert was a member of the ASCAP (since his death his estate has been identified as a member of the ASCAP) and was subject to the clause in the ASCAP contract with each of its members which provides that such member (composer or author) agrees irrevocably to sell, assign, transfer and set over to the Society the entire exclusive right of public performance in each musical composition which he may during the life of the agreement, write, etc., alone, jointly, etc., or in which he may thereafter have any right, title or interest whatsoever, in whole or in part.

Consequently the fact that the assignment of "Badinage" to Edward Schuberth & Company was valid only during the period of the original copyright (1895-1923) and because of the terms of the contract existing between the ASCAP and Victor Herbert it is our belief that the entire and exclusive right of public performance automatically vested in the ASCAP immediately upon the commencement of the second 28-year copyright period, from September 4, 1923. It would appear therefore that only those broadcasters who are licensees of the ASCAP have the right to use "Badinage".

Based on a preliminary investigation, it is our belief that a great many renewals are made by persons without authority who hope to secure subsequent authorization from the rightful owner to dispense the performing and publishing rights in the music.

We have not yet exhausted all means of obtaining information concerning renewals. To do so, we must communicate with the author or composer, or his heirs or next of kin, in the case of each musical selection which has been renewed. This we hope to do, but checking the number of selections involved and ascertaining the correct address of the persons concerned would consume so much time as to destroy the value of this report in all other respects.

WORKS OF ASCAP MEMBERS

It will be observed that some of the musical selections referred to in this report were composed by (a) persons who are identified as members of the ASCAP, and (b) a member of the ASCAP, and a non-member of the ASCAP jointly. These circumstances require an examination of the contract between the ASCAP and its members. Our interpretation of the contract between the ASCAP and its member is that such member (composer or author) agrees irrevocably to sell, assign, transfer and set over to the Society the entire *exclusive* right of public performance in each musical work which he may, during the term of the agreement, write, etc., alone, jointly, etc., or in which he may have any right, title or interest whatsoever. It is our understanding that the exclusive and irrevocable terms of ASCAP contracts with composers and authors were introduced in 1921, are in effect now, and were in effect in the period from January 1, 1931 to December 31, 1935, the period in which the SESAC selections here in question were copyrighted or renewed. It is our belief, therefore, that the musical selections contained in this report which were written either by a member of the ASCAP, or by a member of the ASCAP jointly with a non-member can be performed under an ASCAP license.

This general conclusion was submitted to the ASCAP under date of January 26, 1937, and in reply we were advised by the ASCAP that it was unwilling to take any definite general position, but expressed the willingness to answer the question as to any specific composition by title, and added "but would prefer to answer these questions upon inquiry direct from a licensee". A copy of this letter to the ASCAP and its reply thereto, marked Exhibit 10 and Exhibit 11, are attached to and made a part of this report.

Thereafter, and on February 15, 1937, a similar letter was addressed to the ASCAP by a member station. A copy of this letter and its reply thereto, dated February 16, 1937, marked Exhibit 12 and Exhibit 13, are attached to and made a part of this report. It will be observed by reference to the ASCAP's letter dated February 16, 1937 (Exhibit 13) that it declined to give the member station any general ruling, but stated it would be very glad to analyze any list of works which the member might send them, and would inform the member specifically as to which of them may be considered in the ASCAP repertory and "embraced in its license". Pursuant to this suggestion, the member station addressed a detailed letter to the ASCAP under date of March 1, 1937. A copy of this letter (marked Exhibit 14) is attached to and made a part of this report. So far, this letter, as well as follow-up letters dated April 30, and May 29, have not been answered. These letters should indicate to the members some of the problems involved in a study of this character.

Also, these problems show the urgent need for remedial copyright legislation. In fairness both to the creators of music and to the users of music, the law should prescribe some form of registration which will make known to all concerned the true owners and their authorized agents in all copyrights. *In the absence of complete and authoritative information from each musical licensing society concerning its repertory the user has only the remedy of avoiding the use of any music in question.*

The SESAC in its reply dated November 19, 1936 (Exhibit 4) said, "As you know, the U. S. District Court in the case of Penn Broadcasting Corporation vs. American Society of Composers, Authors and Publishers, ruled, as a matter of law, that such catalogs are not required to be furnished, and that if desired, the purchaser should pay the expense of compilation". In this connection, there is attached hereto and made a part of this report, Exhibit 15 which shows that the Court found that the defendant (ASCAP) must "State the number of musical compositions copyrighted under the laws of the United States the public performance rights to which have been acquired by said Society", and that it must "State the title and composer's name of all copyrighted compositions, copyrighted under the laws of the United States, the public performance rights to which have been acquired by said Society during the period from January 1, 1933, to December 31, 1933". The Court did hold that the cost of compilation should be borne by the plaintiff, and required the defendant to furnish plaintiff an estimate of the cost of making such compilation within ten days; and gave the plaintiff the right to contest the reasonableness of the charges.

MUSICAL SELECTIONS COPYRIGHTED BY SESAC PUBLISHERS

The following chapters, which deal with individual catalogues, under the SESAC, are designed to show to the broadcasters by title, name of author, composer, and publisher, all of the musical selections which we could find credited to these "publishers or organizations" in the musical copyright entries of the United States Library of Congress, as of April 1, 1937. These data should enable the broadcasters to evaluate the need for the music in all these catalogues with the possible exception of the Spanish catalogues. According to popular opinion the tango is Spanish. However, according to a reliable Spanish authority, the tango originated in Argentina. Therefore, to assist the broadcasters in evaluating the need or worth of the approximately 71 selections contained in the eight Spanish catalogues, we offer the information contained in Exhibit 16 which is attached to and made a part of this report.

Some broadcasters may be confused by the fact that the names of many of the Polish composers sometimes have the suffix "iego" or "a" added thereto. These suffixes, "iego" and "a" indicate the possessive. Thus "Z. Bialostocki" and "Z. Bialostockiego" appearing in items 73 and 87 on page 98 are one and the same person. Also "A. Wlast" and "A. Wlasta" appearing in items 87 and 92 are one and the same person.

In addition to searching the musical copyright entries we examined also the assignment records. Copies of all assignments found related to the subject of this report are attached hereto as exhibits. These exhibits are furnished to show the character of the assignment and the names of the persons executing the same. Of unusual interest are those assignments to the SESAC which read for example (Exhibits 59-65 inclusive):

> "Signed A.—B. Carl Gehrmans Musikforlag
>
> By—Society of European Stage Authors and Composers, Inc., Attorneys.
>
> KURT A. JADASSOHN,
> *Vice President.*"

It will be observed that these assignments appear to convey to the SESAC all title and interest in the music named. We have no explanation for the discrepancies between the musical copyright entries and the assignments. In this connection we would point out that of the 1283 musical copyright entries credited to Edward Schuberth and Company, twelve have been assigned to the SESAC and that it was one of these twelve, "As We Part", which was the basis of the suit by the SESAC against the Pennsylvania Hotel in New York City.

The information in this report respecting names of authors, composers and publishers and dates, titles, assignments, etc., was compiled from the records of the United States Library of Congress.

The Managing Director has been assisted in the preparation of this report by Edward J. Fitzgerald, Director of the Bureau of Copyrights and Leonard D. Callahan, Assistant to the Managing Director. It is submitted as of April 1, 1937. Additional data concerning new entries or new catalogues will be made from time to time.

We express our sincere appreciation for the cooperation and courtesies extended to us during the course of this investigation by the officials and employees of the Office of the Register of Copyrights and of the Music Division of the United States Library of Congress and of the Bureau of Foreign and Domestic Commerce of the United States Department of Commerce.

An examination of the assignment records in the United States Library of Congress shows that of the above, thirty have been assigned to the SESAC and eight have been assigned to Nathan Burkan, late general counsel of the ASCAP. Copies of these assignments marked Exhibits 17 to 19 inclusive, are attached to and made a part of this report. The assignments made to Mr. Burkan in 1931 are shown here to enable broadcasters to evaluate the statement contained in Item 14 of the SESAC letter dated November 19, 1936 (Exhibit 4) that "*as to all the following (and this embraces some 50 repertories), we control the complete body of radio performing rights: Ahn u Simrock Buhnenverlag, Berlin* * * *."

From a reliable source we are informed "this firm does not handle orchestral, classical or popular sheet music. It publishes (and acts as jobber for) theater plays."

Of further interest to broadcasters should be the statement contained in a letter received from AHN AND SIMROCK BUHNENVERLAG dated September 22, 1936 that after December 31, 1937, AHN AND SIMROCK BUHNENVERLAG would be represented by the ASCAP. A copy of this letter marked Exhibit 20, is attached to and made a part of this report.

This catalogue may be of value to those broadcasters who cannot operate in the public interest, convenience and necessity without the use of German music taken largely from German theater plays written prior to 1927.

J. Altschuler

Warsaw, Poland

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entry under the name of J. ALTSCHULER, Warsaw, Poland, listed in the SESAC brochure dated January 1, 1937 as a publisher or organization included under its license.

1870–1934

The 146 selections represented in the above 151 entries are divided as follows: 71 original published selections; 52 unpublished selections; 23 republished musical selections, (Public Domain) the copyrights in which are based either on translations of the original English words into the Greek language or on the basis of new arrangements. Of the entire list, only 3 selections are arranged for orchestra.

Except in 2 or 3 instances, the copyright entries are in the Greek language.

The extent to which the music contained in the APOLLO MUSIC COMPANY catalogue is usable in building radio programs for American radio listeners, is indicated by the following 3 samples which give both the Greek and English titles of the selections:

Greek Title Phonetically	*English Translation*
Me Me Stelnis Manna Stin Amerike..	Don't Send Me Mother to America
Mparmpa Liannes	Uncle John's Birthday.
Pantreuon Tbn Agape Mou.........	They Are Giving My Sweetheart Away

The need for a license to perform all of the musical selections contained in the APOLLO MUSIC COMPANY catalogue is indicated by the following 4 selections, the copyrights in which the APOLLO MUSIC COMPANY has obtained on the basis of a new arrangement and a translation into the Greek language:

"Dark Eyes"
"La Paloma"
"Home Sweet Home"
"Old Folks At Home"

Each of these is available in English under an ASCAP license.

Samples of the catalogues contained in the APOLLO MUSIC COMPANY repertory are marked Exhibit 21 and Exhibit 22 and are attached to and made a part of this report. These can be used by the broadcasters to determine the availability of the music in these catalogues.

An examination of the assignment records of the United States Library of Congress disclosed certain assignments which have been made by M. ARCT to the SESAC. Copies of these assignments, marked Exhibits 23 to 34 inclusive, are attached to and made a part of this report.

The musical selections controlled by M. ARCT which have been assigned to the SESAC represent Polish music, the titles of which are in the Polish language.

From a reliable source we are informed that M. ARCT, Warsaw, Poland, is one of the leading book stores in Poland engaged as an importer and wholesaler of books, music and magazines; publisher and wholesaler of classical and popular sheet music, symphonic music and chamber music; has been in existence since 1836; and employs 200 traveling salesmen. It is interesting to note that the United States completed reciprocal agreements with Poland on February 14, 1927 and, notwithstanding the availability of a new market in 1927, the copyrighting by M. ARCT of these Polish selections here under consideration was deferred until 1934—the year in which SESAC began to license American broadcasting stations for the public performance of music.

These selections probably have a certain performance value to those radio broadcasters who cannot operate in the public interest, convenience and necessity without using this type of Polish music.

32. WHISPERING SAGE (song, guitar) by Gene Bone. c. Apr. 7, 1936.
33. WHISP'RIN' WIND (E2) (song) by Vern Spencer. c. Mar. 3, 1936.
34. YODEL LADY (song, guitar) by Clare Hartman, Hilda Bilow, and Sylvester Long Cross. c. Dec. 1, 1936.

The broadcaster's attention is called to the selections: “Those Good Old Horse and Buggy Days” by Nat Goldstein and Maurice Gunsky, “Mother's Little Sweetheart, Daddy's Little Pal” by Chas. Rosoff and Harry Tobias; “Darling Ella May” by G. S. Piermont, Jo Trent and Jules Le Mare, and “Rocky Mountain Express” by Charles Tobias, Harry Tobias and Albert Von Tilzer. It will be observed that all of these selections were copyrighted in 1935. The ASCAP directory covering the period 1931 to 1936 lists Maurice Gunsky, Charles Rosoff, Harry Tobias, Jo Trent, Charles Tobias and Albert Von Tilzer as members of the ASCAP. By reason of the nature of the contract existing between the ASCAP and its composer members, we believe that the ASCAP and the SESAC probably have an equal right to represent the performing rights in "Darling Ella May." In the case of "Rocky Mountain Express" which, according to our findings, was composed by Harry Tobias, Charles Tobias and Albert Von Tilzer, and "Mother's Little Sweetheart, Daddy's Little Pal," composed by Chas. Rosoff and Harry Tobias, every one of whom is a member of the ASCAP, we believe the performing rights can be obtained only from the ASCAP.

It is our understanding that the electrically transcribed programs entitled "Sons of the Pioneers," use music that is controlled by CROSS & WINGE. It is also our understanding that the subscribers to this electrical transcription service containing "Sons Of The Pioneers," are permitted to use the selections contained therein without a SESAC license by virtue of the agreement existing between the transcription company and the SESAC. This is a matter that should be inquired into by each station interested in the use of this music in order that its own files will be complete, and in order that the right to continue the use of such music may not be withdrawn without notice.

Sylvester Long Cross of the firm of CROSS AND WINGE is also identified with Master Music Makers, a member of the SESAC located at the same address as that of CROSS AND WINGE. Sylvester Long Cross also, according to our best information, is identified with the following organizations not included in the SESAC repertory: MMM Publishers and Cross Publishing Company; and the information contained in Exhibit 37 together with our investigation at the copyright office in the Library of Congress, is the basis for our belief that Sylvester Long Cross is the melody writer and arranger for amateur "song poem" writers. This Exhibit 37 should be studied in connection with Exhibit 38, which was received by a member of our staff.

An examination of the assignment records of the United States Library of Congress disclosed certain assignments which have been made by EDITION ADLER to the SESAC. Copies of these assignments, marked Exhibits 40 to 41 inclusive, are attached to and made a part of this report.

An appraisal of the above musical selections requires consideration of these points:

1. At least a substantial number of these compositions involve "grand rights," as indicated in the printed pamphlet furnished by the SESAC, a copy of which, marked Exhibit 42, is attached to and made a part of this report. The license agreements between the SESAC and broadcasting stations generally does not convey to the broadcaster the right to perform musical selections which involve "grand rights." (See Section 2 of the SESAC license, Exhibit No. 1.)

2. According to data supplied by the SESAC, EDITION ADLER has been succeeded by HEINRICHSHOFEN'S VERLAG, MAGDEBURG. From an independent source, we have learned also that the firm of EDITION ADLER has been liquidated and that the owner has emigrated to the United States.

3. HEINRICHSHOFEN'S VERLAG, MAGDEBURG, is recorded as an affiliate of the ASCAP in the January 1, 1936 edition of the ASCAP directory. It should follow, therefore, that any "small rights" contained in this catalogue may be performed only by those broadcasters who hold a license from the ASCAP.

4. A broadcaster desiring to obtain the grand performing rights in any of the works of the EDITION ADLER catalogue may find Societies other than the SESAC have at least an equal right to grant such a license. To illustrate, it will be observed that in copyright entry No. 2 above, the overture to the opera "Cassandra" composed by Vittorio Gnecchi of Italy, was assigned by EDITION ADLER to the SESAC on February 23, 1933. (See Exhibit 41.) The records of assignment in the Library of Congress show also that Vittorio Gnecchi, under date of March 6, 1933, assigned "all title and interest" in "Cassandra" to the SESAC. A copy of this assignment, marked Exhibit 43 is attached to and made a part of this report.

The records of assignment in the Library of Congress further show that previously on December 9, 1913, Vittorio Gnecchi "assigned, ceded, sold and transferred" to the Messrs. G. Ricordi & Co. of Milan and New York, the "full, entire and exclusive rights with the exceptions of Germany, Austria-Hungary and Russia Tedesca," the rights in his opera "Cassandra." A copy of this assignment, marked Exhibit 44 is attached to and made a part of this report.

Gnecchi, in his assignment to G. Ricordi & Co. of Milan and New York, also declares that he had registered the opera "Cassandra" with the Register of Copyrights at Washington as follows:

> "In the year 1905—The edition which has been arranged for voice and piano.
> In the year 1910—A new edition which has been arranged for voice and piano.
> In the year 1911—The orchestra score of the prologue of the opera."

Due to Gnecchi's previous assignment to Ricordi, EDITION ADLER'S performing rights in this opera must be limited to Germany, Austria-Hungary and Russia Tedesca only.

We have found no record of renewal of the *original opera* under the name of "Cassandra", or under the name of Gnecchi, the composer of the opera, or under the name of Illica, the author of the libretto of the opera. In this connection, it should be observed that renewals of copyright can be made only in the name of the author or his heirs.

It will be observed that the assignments which Gnecchi made to Ricordi and to SESAC in respect to the opera "Cassandra" are in conflict; and that by the terms of the prior assignment by Gnecchi to G. Ricordi & Co., EDITION ADLER could not represent "Cassandra" outside Germany, Austria-Hungary and Russia Tedesca.

The new arrangement registered in 1910 and the orchestra score of the prologue of the opera registered in 1911, appear to us to be available to broadcasters through G. Ricordi & Co. of Milan and New York; and it is our belief that the vocal score edition which was arranged for voice and piano (C 108145) and which was registered with the Register of Copyrights in Washington, November 25, 1905 and not renewed, can be performed without license from anyone.

An examination of the assignment records of the United States Library of Congress disclosed certain assignments which were made by EDITIONS FERMATA to the SESAC. Copies of these assignments, marked Exhibit 45 and Exhibit 46 are attached to and made a part of this report.

These selections probably have a certain performance value to those radio broadcasters who cannot operate in the public interest, convenience and necessity without using this type of Polish music.

Ediciones Rodoch (C. Rodriguez)

Bilbao, Spain

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of EDICIONES RODOCH (C. RODRIGUEZ), Bilbao, Spain, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

Period 1870–1928

No copyright entries found.

Period 1929–April 1, 1937

The following list:

1. CAFE CON LECHE
   Rumba, (orch.) by C. Rodriguez. c. Nov. 27, 1935.
2. ECHATE JUERA
   pasodoble, (orch.) by C. Rodoch y Asune. c. June 20, 1935.
3. HEMBRAS Y CANAS
   pasodoble, (orch.) by C. Rodoch. c. Sept. 1, 1935.
4. PAVADAS
   tango, (pf.) by C. Rodriguez. c. Oct. 21, 1929.
5. YERNO (EL)
   pasodoble (pf.) by C. Rodriguez. c. Nov. 4, 1929.

An examination of the assignment records of the United States Library of Congress disclosed an assignment which was made by EDICIONES RODOCH to the SESAC. A copy of this assignment, marked Exhibit 47, is attached to and made a part of this report.

Although we found only 5 copyrighted musical compositions credited to this "publisher or organization," the SESAC has used this catalog to expand its brochure by including in the June 1, 1936 and January 1, 1937 brochures, the following entries:

> "EDICIONES RODOCH (C. RODRIGUEZ); Bilbao
> (compositions as per list issued)
> RODOCH (See EDICIONES RODOCH)
> RODRIGUEZ (See EDICIONES RODOCH)"

We suggest that an appraisal of the worth of these five compositions requires an examination into the origin of the Tango, as shown in Exhibit 16.

S. Fischer Verlag

Berlin, Germany

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, failed to disclose any musical copyright entries in the name of S. FISCHER VERLAG, who is listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

Broadcasters have observed that the SESAC, in its letter to the NAB dated September 10, 1936 (Exhibit No. 6) said, "It is also important to note that the following foreign publishers affiliated with SESAC are nowhere listed by ASCAP:

BECK VERLAG, MAX, Leipzig
BECKER, ALFRED, Berlin (included under Rondo Verlag)
CULLA, ANTONIO, Barcelona
FISCHER VERLAG

* * * * * * *

* * * * * * *"

From a reliable source, we are informed that S. FISCHER VERLAG is a publisher and exporter of books. Moreover, in a subsequent SESAC brochure dated January 1, 1937, the SESAC limits their representation of S. FISCHER VERLAG to radio plays. We call the broadcaster's attention to the fact that the license between the SESAC and broadcasting stations and the ASCAP and broadcasting stations covers "small rights" and not the right to perform plays.

Robert Forberg

Leipzig, Germany

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, in respect of ROBERT FORBERG, LEIPZIG, who is listed in the SESAC brochure of June 1, 1936, as a publisher or organization included under its license, disclosed the following information.

It was found that in the period of 1870 to 1909, approximately 730 copyright entries had been recorded in the name of ROBERT FORBERG. We do not list these compositions individually because of the fact that the original copyright period of 28 years' copyright protection has expired, and, except in the case of nine musical works (see Schedule A), we failed to find any record of renewal by the composers and authors or their agents.

Of the nine renewals made for a second term of 28 years' copyright protection none of them have been renewed by the firm of ROBERT FORBERG in the name of the composer or author. Six of them have been renewed in the name of the composer by Theodore Presser, as agent, and three in the name of the composer by C. F. Peters of Leipzig. Theodore Presser of Philadelphia, Pa., is a member of the ASCAP and C. F. Peters of Leipzig, Germany, is a member of STAGMA, the German affiliate of ASCAP. However, we cannot accept and therefore do not offer this as proof that either Theodore Presser or C. F. Peters is authorized to dispense the performing rights in these numbers. Also we are without any information to show that the SESAC has the right to dispense the performing rights in any of these nine selections. These nine renewals are described in Schedule A below. In Schedules B and C below are listed those selections which we found had been entered in the periods 1909-1927 and 1927-1937, respectively. (See the discussion in the Foreword relative to renewals.)

Schedule A

An examination of the assignment records of the United States Library of Congress disclosed certain assignments which were made by ROBERT FORBERG to the SESAC. Copies of these assignments, marked Exhibit 48 and Exhibit 49, are attached to and made a part of this report.

It will be observed that all but 34 of the musical copyrights above enumerated were entered at the Library of Congress before 1915. We have accepted the works of this later period assigned to the SESAC (Exhibit 48-p. 1) as typical of the entire catalog and for the benefit of broadcasters have endeavored to classify these as to character so that some fair appraisal may be made of the value and the need of the type of music here under discussion for building radio programs for American radio listeners. That classification follows:

1. SYMPHONIE PATHETIQUE
   an arrangement by Otto Singer for piano.
2. 24 MELODISCHE ETUDEN FUR FLOTE
   a flute student's practice material.

An examination of the assignment records of the United States Library of Congress disclosed certain assignments which were made by GEBETHNER & WOLFF to the SESAC. Copies of these assignments, marked Exhibits 50 to 58 inclusive, are attached to and made a part of this report.

Reciprocal copyright agreements between the United States and Poland were completed on February 14, 1927. The first copyright entries of GEBETHNER & WOLFF recorded in the Library of Congress appear in the year 1934, the year during which the SESAC began to license broadcasting stations for the performance of music.

The selections contained in the catalog of GEBETHNER & WOLFF probably have a certain performance value to those radio broadcasters who cannot operate in the public interest, convenience and necessity without using this type of Polish music.

An examination of the assignment records of the United States Library of Congress disclosed certain assignments which were made by CARL GEHRMANS to the SESAC. Copies of these assignments, marked Exhibits 59 to 65 inclusive, are attached to and made a part of this report.

This firm is described by a reliable source as an "importer, exporter, wholesaler and publisher of all kinds of sheet music, such as orchestral, classical and popular sheet music. *Republisher of popular American music.*"

The musical selections contained in this catalog probably have a certain performance value to those radio broadcasters who cannot operate in the public interest, convenience, and necessity without using this type of Scandinavian and German music.

Paul Gordon

Berlin, Germany

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, failed to disclose any musical copyright entries in the name of PAUL GORDON, Berlin, who is listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

Broadcasters have observed that the SESAC, in its letter to the NAB dated September 10, 1936 (Exhibit No. 6) said, "It is also important to note that the following foreign publishers affiliated with SESAC are nowhere listed by ASCAP:

BECK VERLAG, MAX, Leipzig
BECKER, ALFRED, Berlin (included under Rondo Verlag)
CULLA, ANTONIO, Barcelona
FISCHER VERLAG
GORDON, PAUL, Berlin
* * * * * * * * * *
* * * * * * * * * * "

This information is furnished to show the degree of cooperation which has been extended by the SESAC in our endeavors to identify for the broadcasters the musical selections contained in the SESAC repertory.

From a reliable source, we are informed that PAUL GORDON publishes plays for theaters and that "No music of any kind is handled or published." Moreover, since our investigation started, in a subsequent SESAC brochure dated January 1, 1937, the SESAC limits their representation of PAUL GORDON to dramatics. We call the broadcaster's attention to the fact that the license between the SESAC and broadcasting stations and between the ASCAP and broadcasting stations covers "small rights" and not the right to perform plays.

From a reliable source, we are advised that F. GRABCZEWSKI is an "importer and retailer of classical music; wholesaler and retailer and jobber of folklore music, orchestration and classical sheet music; commission merchant handling choir music."

The selections in the GRABCZEWSKI catalogue probably have a certain performance value to those radio broadcasters who cannot operate in the public interest, convenience and necessity without using this type of Polish music.

Herman Haberer-Helasco

Berlin, Germany

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of HERMAN HABERER-HELASCO, Berlin, Germany, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

Period 1870–1927

No copyright entries found.

Period 1927–April 1, 1937

7. TIO CHUPITO
   (orch.) by A. Urmeneta. c. Oct. 22, 1932.

An examination of the assignment records of the United States Library of Congress disclosed certain assignments which were made by HERMAN HABERER-HELASCO to the SESAC. Copies of these assignments, marked Exhibits 70 to 73 inclusive, are attached to and made a part of this report.

This firm is described by the SESAC brochure as having addresses in Berlin, Madrid and Lisbon. According to advices received from a reliable source, "This firm has been out of existence since some time" in Berlin, and the firm is unknown in Lisbon. Due to present conditions in Spain it was not possible to conduct an investigation of the Spanish publishers and have no information with respect to this firm's business in Madrid. It will be observed that the assignments hereinabove referred to were executed in Berlin and Lisbon. Also, it will be noted that the certification of the Vice Consul of Lisbon contains the phrase, "For the contents of the annexed document I assume no responsibility." (Exhibit No. 73-p. 2.)

An examination of an orchestration of one of the numbers above, deposited for copyright in the Library of Congress, showed that it is a six-part orchestration for piano, violin, clarinet, saxaphone, trumpet and drum, and except for the drum is merely the transposition of the melody line into the respective keys of each of these instruments.

For a discussion of the relative value to American radio broadcasters of the tango numbers found in this and other Spanish publishers' catalogues, see Exhibit No. 16.

Happy Chappies

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, failed to disclose any copyright entries under the name of HAPPY CHAPPIES, listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

We call attention to the assignment of "The Happy Chappies Ltd." to M. M. Cole Publishing Company by Nat Vincent, President as shown by Exhibit 74, which is attached to and made a part of this report. It should be noted that there are no specific compositions mentioned in the assignment.

Harmonie Verlag

Berlin, Germany

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, under the name of HARMONIE VERLAG, Berlin, Germany, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license, disclosed the following information.

It was found that it the period 1870 to 1909, approximately 150 copyright entries had been recorded in the name of HARMONIE VERLAG. We do not list these compositions individually because of the fact that the original copyright period of 28 years' copyright protection has expired and, except in the case of 17 musical works, we failed to find any record of renewal in the name of the composers and authors.

Of the 17 renewals made for a second term of 28 years' copyright protection, as prescribed by the laws of the United States, none of them have been renewed by HARMONIE VERLAG in the name of the composer or author. We list below the 17 copyright entries which have been renewed in the name of the author or composer or his heirs, and specify in parentheses by whom the renewals were made.

Renewals of compositions originally copyrighted by Harmonie Verlag. It should be noted that of the 17 renewals only 2 (items No. 2 and No. 16 below) have been made in the name of the composer by the SESAC, the remainder having been renewed in the name of the composer or his heirs, either by the heirs of the composer directly or by E. B. Marks, a member of the ASCAP.

16. WALZER
    aus "Der Fidele Bauer" (orch.) by Leo Fall. c. Aug. 24, 1907 by Harmonie Verlag. r. June 3, 1935 by Sesac.
17. WIR SIND DIE MACS, DIE EDLEN MACS
    (lied) aus "Miss Dudelsack" by Fritz Grunbaum, Heinz Reichert and Rudolph Nelson. c. Sept. 3, 1909 by Harmonie Verlag. r. Dec. 3, 1936 by E. B. Marks.

As reported elsewhere in this report, numerous complications arise in connection with all renewals. It is impossible to determine from the information available at the Library of Congress who is authorized to dispense the performing rights in these numbers. It will be observed, for example, that in only 2 cases (items 2 and 16) were the renewals entered by the SESAC, and that in no case was the renewal made by HARMONIE VERLAG. The only safe course for the broadcasters to follow, in the absence of specific and authoritative information from licensing societies, is to avoid the use of these selections.

The musical copyright entries which we found recorded in the period 1909 to 1927 follow:

An examination of the assignment records of the United States Library of Congress disclosed certain assignments which were made by HARMONIE VERLAG to the SESAC, and which are recorded in the United States Library of Congress. Copies of these assignments, marked Exhibits 75 to 78 inclusive, are attached to and made a part of this report.

It will be observed that only 3 copyright entries have been recorded during the last 10 years and none since 1931.

The music contained in this catalogue may be described as German popular music, light operatic and musical comedy selections of the world-war and pre-world-war periods.

The demand for popular music is created by constant repetition, and the ability of the listener to associate the words and the music. The value of the German popular music contained in this catalogue, therefore, may be appraised by reference to the titles of the selections among which will be found the following:

"HOCH! PRINZ LEOPOLD"
"HINDENBURG, DER BEFREIER" (The Liberator)
"SUFFRAGETTEN MARSCH"
"DIE PREUSSISCHE DISCIPLIN"
"HURRAH DER KAISER KOMMT"

The HEARST MUSIC PUBLISHING COMPANY OF CANADA, LTD., is owned by the M. M. Cole Publishing Company. The acquisition of the HEARST MUSIC PUBLISHING COMPANY OF CANADA, LTD., by the M. M. Cole Publishing Company involves numerous assignments which we found of record in the United States Library of Congress. These assignments, marked Exhibits 79 to 82 inclusive, are attached to and made a part of this report.

Included in the above list of musical selections which were copyrighted in the period 1922 to 1924 are the following: Broken Dreams by Frank Westphal, In the Land of Sweet Sixteen by George W. Meyer, In a Wonderful World of Our Own, Lovers Lane is a Lonesome Trail and You Can Take Me Away from Dixie But You Can't Take Dixie from Me, by Roger Lewis, My Dream Moon by Dan A. Russo, Poor Little Mame and Tallahassee by Sam Goold, Someone Else Took Your Place in My Heart by Roger Lewis and Erwin R. Schmidt, and Some One Like You by Clay Smith. The composers or authors mentioned in this listing are all identified as members of the ASCAP in the June 1, 1925 ASCAP directory. It is important to note that these individuals are also named as members of the ASCAP in the January 1, 1936 ASCAP directory.

The complications arising out of the fact that several of the authors and composers of selections in this catalogue are members of the ASCAP are discussed in the foreword of this report.

An examination of the assignment records of the United States Library of Congress disclosed certain assignments which were made by LEON IDZIKOWSKI to the SESAC. Copies of these assignments, marked Exhibits 83 to 87 inclusive, are attached to and made a part of this report.

The vocal compositions contained in this catalog are in the Polish language and, therefore, probably have a certain performance value to those radio broadcasters who cannot operate in the public interest, convenience and necessity without using Polish music.

International Edition Musikverlag

Leipzig, Germany

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of INTERNATIONAL EDITION MUSIKVERLAG, Leipzig, Germany, listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

Period 1931–April 1, 1937

No copyright entries found.

It will be observed that we failed to find any copyright entries subsequent to 1930.

An examination of the assignment records of the United States Library of Congress disclosed an assignment which was made by INTERNATIONAL EDITION MUSIKVERLAG to the SESAC. A copy of this assignment, marked Exhibit 88, is attached to and made a part of this report.

It will be observed that the assignment made by INTERNATIONAL EDITION MUSIKVERLAG to the SESAC does not include the title "Meine Konigin."

All of the compositions contained in this catalog are of the "popular music" classification, and the lyrics of the vocal compositions are in German.

The demand for popular music is created by constant repetition, and the ability of the listener to associate the words and the music. On this basis, broadcasters may refer to the musical compositions contained in this catalog, and appraise their value for use in building radio programs for American radio listeners.

Information from a reliable source shows that this firm has been dissolved and taken over by the firm of ROBERT FORBERG. The repertory of ROBERT FORBERG, as represented in this country by the SESAC, is discussed in this report.

Jastrzab

Warsaw, Poland

An examination of the musical copyright entries in the United States Library of Congress credited to JASTRZAB required an examination also of the copyright entries credited to EDITION JASTRZAB (I. Rzepecki) and Walery Rudnicki. The association of Walery Rudnicki results not from any information from the SESAC, but from information received from a reliable source to the effect that the "Sales rights in Poland for the publication of 'Edition Jastrzab' and 'Edition W. J. R.' are in the hands of Mr. Rzepecki; the publisher of the above being Mr. Walery Rudnicki."

This examination, as of April 1, 1937, disclosed the following entries under the name of JASTRZAB, 1 Krak. Przedmiescie, Warsaw, Poland, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

Period 1870–1933

No copyright entries found.

Period 1934–April 1, 1937

The following list:

9. TO GRZECH
   Tango (piesn) by D. Beigelman and Walerego Jastrzebca. c. Dec. 20, 1934.
10. TYLKO CIEBIE MAM NA SWIECIE
   (piesn) by Z. Bialostocki and W. Jastrzeba. c. Dec. 23, 1935.
11. ZAKOCHANE OCZY
   tango (piesn) by Z. Bialostocki and L. Starski. c. Dec. 20, 1934.
12. ZAL
   tango (piesn) by J. Front, St. Ferszko and Walerego Jastrzebca. c. Dec. 30, 1933.

This examination disclosed also, as of April 1, 1937, the following copyright entries under the name of I. Rzepecki, 1 Krak. Przedmiescie, Warsaw, Poland, listed in the SESAC brochure dated June 1, 1936 as a part of JASTRZAB.

Period 1870–1934

No copyright entries found.

Period 1935–April 1, 1937

The following list:

5. KOCHAM TWOJE USTA
   tango (ork strony) by J. Kagan and Zb. Maciejowski. c. Oct. 5, 1936.
6. OTWARTE KARTY
   tango (ork strony) by Artur Gold and Zbigniew Maciejowski. c. Oct. 5, 1936.
7. PRZESTAN
   tango (ork strony) by Fanny Gordon and Zb. Maciejowski. c. Oct. 5, 1936.
8. SZKODA NASZEJ MILOSCI
   tango (ork strony) by Zygmunt Lewandowski and Zbigniew Maciejowski. c. Oct. 5, 1936.
9. TY BYLAS SNEM
   tango (ork strony) by Fred Scher and Zenon Friedwald. c. Oct. 5, 1936.

An examination of the assignment records of the United States Library of Congress disclosed an assignment which was made by I. Rzepecki to the SESAC. A copy of this assignment, marked Exhibit 89, is attached to and made a part of this report.

The musical selections contained in this catalogue probably have a certain value to those broadcasters who cannot operate in the public interest, convenience and necessity without the use of this type of Polish music.

Jewel Music Publishing Co.

New York, N. Y.

An examination of the musical copyright entries of the United States Library of Congress as of April 1, 1937 disclosed the following entries in the name of the JEWEL MUSIC PUBLISHING CO., New York City, which is listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license:

Period 1870–1935

No copyright entries found.

Period 1936–April 1, 1937

The following list:

1. CARNIVAL IN COTTON TOWN
   song (guitar) by Louis Ricca and J. Loman. c. Dec. 30, 1936.
2. GEE I WISH I KNEW
   song (uke and guitar) by L. Ricca, W. Lackenbauer, and R. Sterling. c. Sept. 3, 1935.
3. GOOD OLD MOON
   (song) by L. Ricca, W. Lackenbauer, A. B. and R. Sterling. c. Feb. 13, 1936.
4. I LIKE TO SING THE OPERY
   song (guitar) by Mike Mikita and Mac Benoit. c. Feb. 27, 1936.
5. I'LL FOLLOW MY HEART STRINGS
   song (guitar) by Harold Fonville and Aaron Foster, c. Feb. 27, 1936.
6. I'M HOLDING THE WORLD IN MY ARMS
   song (uke) by A. B. and R. Sterling, L. Ricca and W. Lackenbauer. c. Feb. 13, 1936.
7. In OLD HOLLAND
   song (guitar) by Charles J. Sinning, Nat Brusiloff, and Raymond Leveen. c. Dec. 30, 1936.
8. IS THAT GRATITUDE
   song (guitar) by Marjorie Harper, Kay Twomey and Bill Livingston. c. Feb. 27, 1936.
9. MILLION DREAMS FROM NOW
   song (uke) by R. Sterling and Wm. Lackenbauer. c. Feb. 13, 1936.
10. MY HEARTS ON STRIKE
    song (guitar) by W. J. Kastor, Fred Patten, and Gerald Marqusee. c. June 18, 1936.
11. NEVER
    song (guitar) by L. Ricca and Jules Loman. c. Dec. 30, 1936.

We call attention to the fact that in the case of the selections entitled "I'm Holding the World in My Arms," and "Good Old Moon," one of the composers, namely A. B. Sterling, is listed in the ASCAP Directory (1931 and 1936 Editions) as a member of the ASCAP. A discussion of this complication appears in the foreword of this report.

Henryk Lebendiger

Warsaw, Poland and Buenos Aires, Argentina

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, failed to disclose any copyrights in the name of HENRYK LEBENDIGER, Warsaw and Buenos Aires, who is listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

The identity of HENRYK LEBENDIGER was disclosed to us in our investigation of EDITIONS FERMATA. Information obtained from a reliable source shows that the firm of HENRYK LEBENDIGER and EDITIONS FERMATA are one and the same firm.

A report dated February 5, 1937, shows that Mr. Lebendiger moved to Buenos Aires, Argentina, about the middle of 1936 and set himself up there as a publisher of local orchestral and popular sheet music. Also, according to advices, he republishes American music, and is in contact with European music houses as well.

Since EDITIONS FERMATA and HENRYK LEBENDIGER are one and the same, and since we failed to find any copyright entries credited to LEBENDIGER, the inclusion of LEBENDIGER in the SESAC brochure should not be construed as a separate publisher or organization.

Master Music Makers

Portland, Oregon

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of MASTER MUSIC MAKERS, Portland, Oregon, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

The melodies to practically all of the musical selections contained in this catalogue were written by Sylvester Long Cross; and it is our belief, based on the information contained in Exhibit 37, which is attached to and made a part of this report, that the lyrics of this music are the works of amateur "song poem" writers.

An examination of the musical copyright entries of the Library of Congress also disclosed more than 1300 entries in the name of Sylvester Long Cross, each identifying an unpublished work. In almost all cases, the melody has been written by Sylvester Long Cross and, in most instances the words are credited to a different person.

Moreover, the copyright entries of the Library of Congress are the basis for our belief that Sylvester Long Cross is identified also with Cross & Winge, Inc., MASTER MUSIC MAKERS, and Cross Publishing Company, as the address of each of these is given as 607 Studio Building, Portland, Oregon; and the information contained in Exhibit 38 is the basis for our belief that Sylvester Long Cross is identified with the MMM Publishing Company of the same address.

Period 1870–1933

No copyright entries found.

Period 1933–April 1, 1937

The following list:

1. ALBUM OF NEW RADIO FAVORITES NO. 2

Moderne Edition and Moderne Publications

Chicago, Illinois

An examination of the musical copyright entries in the United States Library of Congress as of April 1, 1937 failed to disclose any copyright entries in the name of MODERNE EDITION listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license. However, such examination disclosed 21 musical copyright entries in the name of MODERNE PUBLICATIONS, 2611 Indiana Avenue, Chicago, Illinois (Moderne Publications is listed as a publisher or organization in the SESAC brochure dated January 1, 1937). These entries were copyrighted in the name of Moissaye Boguslawski. A comparison of these copyright entries with MODERNE EDITION, a pamphlet, published by the M. M. Cole Publishing Company of 2611 Indiana Avenue, Chicago, Illinois and supplied to us by the SESAC, indicates they are one and the same.

The 21 musical copyright entries were all recorded in the calendar year 1936 as follows:

1. ARABIAN NIGHTS (SCHEHERAZADE) (pf. solo) by Moissaye Boguslawski. c. Aug. 18, 1936.
2. THE BALLET DANCER (pf. solo) by Moissaye Boguslawski. c. July 10, 1936.
3. CHATTER BOX (pf. solo) by Moissaye Boguslawski. c. July 15, 1936.
4. CIRCUS DAYS (pf. solo) by Moissaye Boguslawski. c. Aug. 18, 1936.
5. DONKEY RIDE (pf. solo) by Moissaye Boguslawski. c. July 31, 1936.
6. DUBLIN DEVILS (pf. solo) by Moissaye Boguslawski. c. Aug. 18, 1936.
7. EIGHTY DELIGHTFUL TUNES (pf. solo) by Moissaye Boguslawski. c. Sept. 14, 1936.
8. FIRST HUNGARIAN RHAPSODY (pf. solo) by Moissaye Boguslawski. c. July 30, 1936.
9. FRENCH SOLDIERS' MARCH (pf. solo) by Moissaye Boguslawski. c. July 10, 1936.
10. FROG'S FROLIC (pf. solo) by Moissaye Boguslawski. c. Aug. 18, 1936.
11. GOLDEN ORIOLE MINUET (pf. solo) by Moissaye Boguslawski. c. July 30, 1936.
12. OLD TICK TOCK (pf. solo) by Moissaye Boguslawski. c. Aug. 18, 1936.
13. LITTLE JUMBO (pf. solo) by Moissaye Boguslawski. c. July 27, 1936.
14. PARADE OF THE BUNNIES (pf. solo) by Moissaye Boguslawski. c. July 9, 1936.
15. PICANINNY PICNIC (pf. solo) by Moissaye Boguslawski. c. Aug. 18, 1936.
16. RUSSIAN DANCER (pf. solo) by Moissaye Boguslawski. c. July 9, 1936.
17. SPANISH COQUETTE (tango) (pf. solo) by Moissaye Boguslawski. c. July 30, 1936.
18. SUNNY ITALY (pf. solo) by Moissaye Boguslawski. c. Aug. 18, 1936.
19. TAMBOURINES AND CASTANETS (pf. solo) by Moissaye Boguslawski. c. July 24, 1936.
20. VALSE RUSSE (pf. solo) by Moissaye Boguslawski. c. Aug. 18, 1936.
21. VENETIAN BOAT SONG (pf. solo) by Moissaye Boguslawski. c. July 10, 1936.

A copy of the MODERNE EDITION pamphlet published by the M. M. Cole Publishing Company of Chicago, Illinois and supplied to us by the SESAC, marked Exhibit 90, is attached to and made a part of this report.

Twenty of the twenty-one copyright entries above referred to are described in Exhibit 90-p. 2 as Grade One and Grade Two original compositions, as follows:

GRADE ONE

DONKEY RIDE
FRENCH SOLDIERS' MARCH.
FROG'S FROLIC.
OLD TICK TOCK.

To summarize, our examination shows that the 20 individual numbers entered in the United States Library of Congress have been composed, arranged and edited for primary pupils of piano. As such, it does not seem possible that they hold any special value for radio performance; and the "Eighty Delightful Tunes" edited, fingered and arranged by Moissaye Boguslawski can be found in the same type of muscial arrangements in the catalog of ASCAP publishers.

Although 33 of the 43 selections enumerated above are classified in the records of the Library of Congress as being in unpublished form, 19 of the 33 do appear in a publication of NATTRASS-SCHENCK, INC., entitled "Radio Rubes Collection of Hill Country Ballads and Comic Songs." The 19 selections contained in "Radio Rubes Collection of Hill Country Ballads and Comic Songs" are as follows:

I'M SO HAPPY WHEN THE SUN IS SHINING
A PUMPKIN HAS NO PUMP
WHERE THE ARIZONA MOON IS SHINING
OLD BILL SMITH
LAST NIGHT
BY THE MOSS COVERED GRAVE ON THE HILL
THE MORE I GREW TOMATOES
HE KISSED HER GOODNIGHT UNTIL MORNING
'NEATH THE OLD HANGIN' LAMP IN THE PARLOR
THE FIDDLE DOESN'T FIT HIS CHIN
HE JUST KEPT BITIN' HIS NAILS
LONESOME VALLEY SALLY
DOWN AT THE GENERAL STORE
RED RIVER LULLABY
THERE AIN'T MUCH GOOD IN A WOMAN
DOWN AT THE OLD RED BARN
WHEN IT'S HARVEST TIME IN OLD NEW HAMPSHIRE
CORN COB WILLIE
I'M GONNA' GO BACK TO THE MOUNTAINS
I'M A RUNAWAY FROM THE CHAIN GANG

Of the remaining 6 selections contained in "Radio Rubes Collection of Hill Country Ballads and Comic Songs", one, "Lonesome Valley Sally" is published in separate form; and 5, namely "Red River Valley," "She'll Be Comin' Round the Mountain," "A Home On the Range," "Hand Me Down My Walking Cane," and "O Dem Golden Slippers" are published also by one or more of the publisher members of the ASCAP.

We call attention to the fact that except in the cases of the musical selections entitled "Boom Tarara Boom," "Neath the Moon of Old Manhattan," and "Who Besides Me Sits Beside you?," one or more of the composers of each of the remaining musical selections which we found of record as of April 1, 1937, is listed in the ASCAP directory (1931 edition) as a member of the ASCAP. We refer to the following:

Joe Goodwin
Louis Herscher
Nick Kenny
Ray Klages
Al Lewis
George Little
George B. McConnell
Jack Meskill
Charles Newman
Andy Razaff
Vincent Rose
Ben Ryan
Larry Shay
Al Sherman
Ted Snyder
Nat Vincent
Tom Waller
George Whiting

The complications arising out of the fact that several of the authors and composers of selections in this catalogue are members of the ASCAP are discussed in the foreword of this report.

An examination of the assignment records of the United States Library of Congress disclosed certain assignments which were made by NOWA SCENA to the SESAC. Copies of these assignments, marked Exhibits 94 to 102 inclusive, are attached to and made a part of this report.

The lyrics of the vocal selections contained in this catalogue are in the Polish language, and these compositions probably have a certain performance value to those radio broadcasters who cannot operate in the public interest, convenience and necessity without using this type of Polish music.

"PWP"

Przedstawicielstwo Wydawnictw Polskich

(Society of Polish Publishers)

Warsaw, Poland

An examination of the musical copyright entries in the United States Library of Congress as of April 1, 1937, failed to disclose any entries under the name of "PWP" PRZEDSTAWICIELSTWO WYDAWNICTW POLSKICH (SOCIETY OF POLISH PUBLISHERS), listed in the SESAC brochure dated January 1, 1937 as a publisher or organization included under its license.

The catalogue furnished by the SESAC indicates the publisher members of P. W. P. are as follows:

J. Altschuler
M. Arct
K. T. Barwicki
Do-Re-Mi-Fa
Gebethner & Wolff
F. Grabczewski
M. Idzikowski
Polskie Towarzystwo Muzyki Wspolczesnej
Pro Arte
Jastrzebiec Rudnicki
Rzepecki
G. Seyfarth

With the exception of DO-RE-MI-FA, under which name no musical copyright entries were found as of April 1, 1937, the list is composed of firms listed in the SESAC brochure as individual publishers and in each instance they are dealt with separately in our report.

In our discussion here, we shall disregard the *catalogue* of O. PAGANI & BROTHERS submitted to us by the SESAC for the reason that a great many of the selections contained therein were not found in the musical copyright entries of the United States Library of Congress as having been copyrighted by O. PAGANI & BROTHERS. It should be sufficient, therefore, to point out the necessity of examining with great care whether the music published by O. PAGANI & BROTHERS is also copyrighted by them.

It will be observed that much of the music copyrighted by O. PAGANI & BROTHERS has been arranged for (a) accordion, (b) two mandolins and guitar, (c) guitar solos, (d) Italian band music, and (e) piano and vocal parts of Italian music. These selections probably have a certain performance value to those radio broadcasters who cannot operate in the public interest, convenience and necessity without using this type of Italian music.

It also will be observed that a great number of the above arrangements were made by Pietro Deiro who several years ago performed for phonograph recording companies.

Period 1933–April 1, 1937

We call attention to the fact that in the list of entries recorded in the period from 1922 to 1926, are included such numbers as "Tea For Two", "Take A Little One-Step", "No, No Nanette", and "I Want To Be Happy", all by Vincent Youmans; "Rose-Marie", and "Indian Love Call" by Rudolph Friml; "Somebody Loves Me" by George Gershwin; "Memory Lane" by Larry Spier, and "Annabelle" by Ray Henderson. *None of these are found either in the assignment by RONDO VERLAG to Kurt Alexander Jadassohn or the assignment by Mr. Jadassohn to the SESAC. Moreover, the authors of these particular selections, according to the ASCAP directory, are members of the ASCAP.* Here again it should be noted that the SESAC in its letter of November 19, 1936 (Item 14 of Exhibit 4) represents that "we control the complete body of radio performing rights."

An examination of the assignment records in the Library of Congress was made, and it was found that on the 18th of March, 1931, certain copyrights were assigned by RONDO VERLAG to Kurt Alexander Jadassohn, as evidenced by Exhibit No. 103 attached to and made a part of this report. Also, this examination disclosed that under date of January 10, 1933, Kurt Alexander Jadassohn transferred and assigned the identical copyrights to the SESAC, as evidenced by Exhibit No. 104 attached to and made a part of this report. Kurt Alexander Jadassohn is an officer of the SESAC.

According to information received from a reliable source "This firm does not exist any longer."

RONDO VERLAG was a "popular music" publishing house in Germany. The lyrics of the music contained in RONDO VERLAG are in the German language, and, therefore, probably have some value to those stations that cannot operate in the public interest, convenience and necessity without using this type of German "popular songs" copyrighted prior to 1932.

Period 1930–April 1, 1937

No copyright entries found.

An examination of the assignment records of the Library of Congress, as of April 1, 1937, failed to disclose any assignments having been made by ROBERT RUEHLE to the SESAC.

As a further point of interest, the brochure dated January 1, 1937 published by the SESAC since our investigation was begun, omits the name of ROBERT RUEHLE.

ROBERT RUEHLE is included in the January 1, 1936 edition of the ASCAP directory as a member of STAGMA, the German affiliate of the ASCAP.

Broadcasters will recall that we made inquiry concerning ROBERT RUEHLE in our letter to the SESAC dated October 14, 1936 (Exhibit No. 3); and that the SESAC in their reply dated November 19, 1936 (received by us on December 11, 1936) states, in Item 10 a: "We have the same body of rights in the catalog of Robert Ruehle, Berlin as we presently have in the catalog of Gebrueder Reinecke. Were any changes to occur with regard to the status of any compositions published or to be published by any of the aforesaid, affecting the industry in respect of our licensed subject matter, due notification of same would be made." A clear and unequivocal answer would have indicated that the only rights which SESAC has in GEBRUEDER REINECKE are "Grand Rights", and as has been pointed out elsewhere in this report, the license agreement between the SESAC and broadcasters does not cover "Grand Rights".

NAB LIBRARY

Walery Rudnicki

Warsaw, Poland

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, failed to disclose any musical copyright entries in the name of WALERY RUDNICKI, listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

An examination also was made of the assignment records in the Library of Congress and we failed to find any record of assignments by this firm to the SESAC.

See also "Jastrzab" and "W. J. R." in this report.

Edward Schuberth & Company, Inc.

New York, N. Y.

We have examined the musical copyright entries in the United States Library of Congress to determine what entries have been recorded in the name of EDWARD SCHUBERTH & COMPANY, INC., New York City, which is listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license. This examination disclosed more than 800 entries recorded in the period from 1897 to 1909; 354 entries recorded in the period from 1909 to 1927; and 184 entries recorded in the period from 1927 to April 1, 1937.

An examination of the assignment records in the United States Library of Congress disclosed that under date of July 13, 1933, EDWARD SCHUBERTH & COMPANY, INC., "granted, sold, assigned, and transferred" to the SESAC *twelve* certain musical compositions, the titles of which are described in Exhibit 105 which is attached hereto and made a part of this report.

We do not list herein all of the musical compositions copyrighted by EDWARD SCHUBERTH & COMPANY, INC., in the period from 1897 to 1909 for the reason that the original copyright period of 28 years has expired. However, we made an examination of the musical copyright renewal entries of the Library of Congress to determine whether the copyrights in these compositions had been renewed, and in Schedule A, below, we set forth in detail the 802 musical compositions in which we found the copyrights had been extended in the name of the composer by EDWARD SCHUBERTH AND COMPANY for an additional period of 28 years. Attention is invited particularly to the names of the organizations which acted as agent for the composer in effecting renewals of certain compositions which were originally copyrighted by EDWARD SCHUBERTH AND COMPANY.

In Schedule B below, we list the 354 musical compositions which we found were copyrighted in the period from 1909 to 1927, and in Schedule C we list 184 musical compositions which we found were copyrighted in the period from 1927 to April 1, 1937.

The SESAC in its letter dated November 19, 1936 (Exhibit 4) states that it has supplied the NAB with catalogues of all the publishers and organizations included in its brochure. The catalogues supplied by it from EDWARD SCHUBERTH & CO., INC., may be described as follows:

1. "Graded Thematics of Attractive Piano Music" (this music is evidently for students of piano)
2. "Piano Albums and Collections" published and imported by Edward Schuberth & Co., Inc. (contains a note under it "when ordering mention from Schuberth's catalogue")
3. "Compositions For Violin and Piano"
4. "Vocal-Albums, Song Cycles" (children's songs, duets, studies, operas-cantatas, Masses, etc.). (Note below it says "when ordering mention from Schuberth's catalogue")
5. "Choruses for Mixed Voices"—(headed "Sacred")
6. "New and Select Musical Publications No. 55" (contains a note, "when ordering from this bulletin mention from Schuberth's catalogue")
7. "Second Grade Piano Pieces"
8. "Second and Third Grade Pieces"
9. "Easy Characteristic Pieces"
10. "First and Second Grade Pieces"
11. "Four Easy Piano Pieces"

It will be observed that Schuberth has registered for copyright only 184 musical selections in the past 10 years.

This catalogue differs from the others referred to in this report in that it is primarily involved with the question of the renewal of copyrights, and that a substantial number of the selections were composed by persons who are prominent members of the ASCAP.

It will be observed that 747 selections have been renewed through the offices of EDWARD SCHUBERTH AND COMPANY (Schedule A). Frankly, great confusion exists in the matter of the renewal of copyrights. It appears that until recently, it has been possible for more than one person to file a renewal of copyright in a single musical selection. Some notable instances may be cited. For example:

> "Serenade," a comic opera *originally copyrighted* on April 26, 1897 (c. #25779) by Edward Schuberth and Company.

At the time of renewal, two separate applications for an extension of the above original copyright were entered within three weeks of each other:

1. "Serenade," a comic opera (c. #25779) renewed *Dec. 8, 1924* (renewal #29915) by Mrs. Victor Herbert.
2. "Serenade," a comic opera (c. #25779) renewed *Dec. 31, 1924* (renewal #29011) by Edward Schuberth and Company in the name of Mrs. Victor Herbert.

As another example:

> "Lafitte," a comic opera *originally copyrighted* on April 14, 1897 (c. #23315) by Edward Schuberth and Company.

At the time of renewal, two separate applications for an extension of the above original copyright were entered within three weeks of each other:

1. "Lafitte," a comic opera (c. #23315) renewed *Dec. 8, 1924* (renewal #29914) by Mrs. Victor Herbert.
2. "Lafitte," a comic opera (c. #23315) renewed *Dec. 31, 1924* (renewal #29009) by Edward Schuberth and Company in the name of Mrs. Victor Herbert.

It is difficult to understand why Mrs. Herbert would renew these copyrights one day and authorize Schuberth to renew the same copyrights the next day. These circumstances tend to illustrate how archaic is the copyright law and how urgently remedial legislation is needed to the end that users of music may be informed of the true copyright owners and representatives of copyright owners. The only defense the broadcaster has in these cases is to avoid the use of such music until authentic information is obtainable from Licensing Societies.

On the whole, this catalogue, while it involves a large number of musical selections may be evaluated on the basis of the classification described at the beginning of this chapter.

Sesac Publications

New York, N. Y.

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries in the name of SESAC PUBLICATIONS, New York, which is listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

Period 1879–1930

No copyright entries found.

Period 1931–April 1, 1937

The following list:

1. BEZ S LADU TWA WIELKA MILOSC MINIE
   (Tango) by W. Stepien and J. Petersburski, c. July 2, 1936.
2. BEZ S LADU TWA WIELKA MILOSC MINIE (and) MILCZ SERCE, MILCZ
   (orch.) 1. By W. Stepien and J. Petersburski, arr. by J. Wesby. 2. By B. Kuron and T. Kwiecinski, arr. by J. Gert. c. July 2, 1936.
3. JUST SAY THAT YOU LOVE ME (SAG 'JA)
   From "Student Sein" (pf. with uke arr.) by Josef Buckhorn, Ernst Erich Buder, and Franz Baumann, Eng. version by Harry Gilder, arr. by May Singhi Breen. c. April 18, 1931.
4. MILCZ SERCE, MILCZ
   (Tango) by T. Kwiecinskiego and B. Kurona. c. July 2, 1936.
5. PAN'S PIPER
   (violin and pf.) by A. W. Reynolds. c. April 17, 1934.
6. REFLECTION
   (violin and pf.) by A. W. Reynolds. c. April 17, 1934.
7. RIP VAN WINKLE
   (violin and pf.) by A. W. Reynolds. c. April 17, 1934.

The above list should enable the broadcasters to appraise the true worth of this catalogue.

Herman Seeman (Nachfolger or Successor)

Leipzig, Germany

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed only five entries under the name of HERMAN SEEMAN, Leipzig, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license. According to the latest SESAC brochures, HERMAN SEEMAN is included under Harmonie Verlag. The five copyrights entered in the name of HERMAN SEEMAN included: 1, ten piano exercises; 2, five German songs; 3, one piano number; 4, one opera in three acts (ZENOBIA); and 5, one group of children's songs. These copyrights were all entered on May 13, 1901.

Further examination of the musical copyright records of the Library of Congress failed to disclose any renewals having been entered on any of the above selections. This music, therefore, appears to be in the Public Domain.

Information from a reliable source states that: "The firm of Herman Seeman was dissolved before the war. The remaining stocks of books were taken over by about 5 different book dealing firms, while the printed music department went over to the firm of Universal Edition, Karlsplatz 6, Wien I, Austria. This above firm is stated to be still in existence at the above indicated address. It maintains in Leipzig only a selling agency in the hands of Friedrich Hofmeister, 10 Karlstrasse, Leipzig C.1." The address given is 6 Karlsplatz, Wien I, Austria.

Universal Edition, referred to in the above quotation as having taken over the music department of HERMAN SEEMAN, we understand is represented in the United States by the Associated Music Publishers, Inc., New York City. Broadcasters desiring to use musical selections copyrighted by Universal Edition, therefore, must acquire the radio performing rights in such music from the Associated Music Publishers, Inc.

It is possible that the SESAC, through its representation of HARMONIE VERLAG, has certain rights in books which at one time were owned and controlled by HERMAN SEEMAN, since the information quoted above shows "* * * * The remaining stocks of books were taken over by about 5 different book dealing firms. * * * *" But all the information we are able to obtain makes it appear that the inclusion of HERMAN SEEMAN in the SESAC brochure is misleading insofar as performing rights in music are concerned.

G. Seyfarth

Lwow, Poland

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of G. SEYFARTH, Lwow, Poland, listed in the SESAC brochure dated January 1, 1937, as a publisher or organization included under its license:

Period 1870–1935

No copyright entries found.

Period 1936–April 1, 1937

The following list:

1. CHLOPCA MEGO MI ZABRALI (piesn) by St. Niewiadomski. c. Oct. 8, 1936.
2. HUMORESKI (piesn) by St. Niewiadomski. c. Sept. 29, 1936.
3. JASKOWA DOLA (9 piesni) by St. Niewiadomski. c. Sept. 29, 1936.
4. KLATWA (piesn) by St. Niewiadomski. c. Oct. 8, 1936.
5. NIE BEDE CIE RWALA KONWALIJKO BIALA (piesn) by St. Niewiadomski. c. Oct. 8, 1936.
6. OTWORZ JANKU (piesn) by St. Niewiadomski. c. Oct. 8, 1936.
7. PIEKNE TULIPANY (piosnki starodawne) by St. Niewiadomski. c. Sept. 29, 1936.
8. PIOSNKI (z. roznak stron) by St. Niewiadomski. c. Sept. 29, 1936.
9. PRZYKRO, PRZYKRO JEST DEBOWI (piesn) by St. Niewiadomski. c. Oct. 8, 1936.
10. SIEDZI PTASZEK NA DRZEWIE (piesn) by St. Niewiadomski. c. Oct. 8, 1936.
11. SIWY KONIU (piesn) by St. Niewiadomski. c. Oct. 8, 1936.
12. SLICZNE GWOZDZIKI (piosnki starodawne) by St. Niewiadomski. c. Sept. 29, 1936.
13. SZUMI W GAJU KRZEZINA (piesn) by St. Niewiadomski. c. Oct. 8, 1936.
14. Z WIOSENNYCH TCHNIEN (12 piesni) by St. Niewiadomski. c. Sept. 29, 1936.
15. Z. WYSOKICH PARNASOW (16 piesni) by St. Niewiadomski. c. Sept. 29, 1936.

An examination of the assignment records of the United States Library of Congress disclosed an assignment which was made by G. SEYFARTH to the SESAC. A copy of this assignment, marked Exhibit 108, is attached to and made a part of this report.

The 15 compositions contained in this catalogue, all written by the same composer, probably have a certain performance value to those broadcasters who cannot operate in the public interest, convenience and necessity without using this type of Polish music.

Solunastra

Berlin, Germany—Lisbon, Portugal

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, failed to disclose any musical copyright entries in the name of SOLUNASTRA, Berlin, Lisbon, listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

An examination also was made of the assignment records in the Library of Congress and we failed to find any record of assignments by this firm to the SESAC.

An investigation concerning this firm has been made both in Berlin and Lisbon, and we are advised as follows: "It has not been possible to locate this firm in Berlin. It is unknown among sheet music publishers" and, "This firm is unknown in Lisbon. * * * Not listed in telephone or commercial directories."

We have not been able to locate any catalogue material concerning this organization, as referred to in Item 14 of the SESAC letter dated November 19, 1936 (Exhibit No. 4).

The absence of any musical copyright entries in the name of this organization, our failure to find any records of assignment made by this organization to the SESAC, and the absence of any catalogue material among the data which has been supplied to us by the SESAC is the basis for our belief that the inclusion of SOLUNASTRA in the SESAC brochure is misleading insofar as radio performing rights in music are concerned.

An examination of the assignment records of the United States Library of Congress disclosed an assignment which was made by ALFRED THORSINGS MUSIKFORLAG to the SESAC. A copy of this assignment, marked Exhibit 109, is attached to and made a part of this report.

On the basis of an investigation made in Denmark, we are advised as follows with regard to this firm:

> "Alfred Thorsings Musikforlag, 13 Vesterbrogade, Copenhagen, Denmark. * * * Importer and retailer of music. Publisher and jobber, orchestral, classical and popular 'sheet' music. Republishing popular American music. * * *"

The 41 musical compositions copyrighted in the United States by this organization are in the Danish language, and probably have a certain performance value to those radio broadcasters who cannot operate in the public interest, convenience and necessity without using Danish music.

The right to represent this organization in the United States is in dispute. The SESAC, in its letter dated November 19, 1936 (Exhibit No. 4) in Item 7a, states: "* * * In indicating that our 'performing rights' in the catalogs of the following * * * Alfred Thorsings Musikforlag, Copenhagen * * * cover 'all rights' therein, we naturally mean such rights for all publications published and controlled by each of the aforementioned firms."

The ASCAP, on page 3 of its January 1, 1936 directory, states that: "ASCAP does have reciprocal agreements whereunder it represents in the United States of America such rights as their members have in this country, with the following foreign societies: Denmark, KODA, International Forbund Til Beskyttelse af Komponistrettigheder I Danmark, Kronprinsessegade 26, Copenhagen, Denmark." Also, on page T-5 in the same directory, the ASCAP identifies ALFRED THORSINGS MUSIKFORLAG as a publisher member of KODA.

Union de Compositores

Barcelona, Spain

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of UNION DE COMPOSITORES, Barcelona, Spain, listed in an announcement by the SESAC dated February 3, 1937, as a publisher or organization included under its license:

Period 1870–1935

No copyright entries found.

Period 1936–April 1, 1937

The following entries:

1. MENTISTE (orch.) by N. Suris. c. Sept. 1, 1936.
2. AMOR DE ESCLAVO (orch.) by Gil Luano. c. Sept. 1, 1936.

An examination of the assignment records of the United States Library of Congress disclosed an assignment which was made by UNION DE COMPOSITORES to the SESAC. A copy of this assignment, marked Exhibit 110, is attached to and made a part of this report.

As an aid in appraising the value of these two compositions in building radio programs for American radio listeners, we again invite your attention to Exhibit 16.

J. Urgelles

Barcelona, Spain

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of J. URGELLES, Barcelona, Spain, listed in the SESAC brochure dated June 1, 1936 as a publisher or organization included under its license.

An examination of the records of assignments in the Library of Congress disclosed the following assignment by VINCENT & HOWARD, LTD., Los Angeles, California, to M. M. COLE PUBLISHING COMPANY, Chicago, Illinois, a copy of which marked Exhibit 123 is attached to and made a part of this report. It will be observed that 34 entries are listed above and 29 titles appear in the assignment. Twenty-seven of the titles appear in one or the other of the three lists set forth above and two, namely, "Sweet Dreams, Sweetheart" and "In the Little Old Green Valley School" were subsequently copyrighted on February 12, 1935 by M. M. Cole Publishing Co.

We call attention to the fact that Nat Vincent, composer of a majority of the above compositions, is listed in the 1925, 1931 and 1936 editions of the ASCAP Directory as a member of the ASCAP. The complications arising from the fact that a composer is a member of the ASCAP are discussed in the foreword of this report.

It will be observed that with one exception all of the entries were made not later than 1931.

These musical compositions are made up exclusively of Polish music, and include band parts, orchestrations, dance collections, concertina arrangements, polkas, etc. VITAK-ELSNIC COMPANY is an important source for such music in the United States, and these selections probably have a certain performance value to those radio broadcasters who cannot operate in the public interest, convenience and necessity without using this type of Polish music.

Warzawskie Towarzystwo Muzycne

(Warsaw Music Society)

Warsaw, Poland

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, failed to disclose any musical copyright entries in the name of WARZAWSKIE TOWARZYSTWO MUZYCNE (WARSAW MUSIC SOCIETY), Warsaw, Poland, listed in the SESAC brochure dated June 1, 1936, as a publisher or organization included under its license.

Moreover, an examination of the assignment records in the Library of Congress failed to disclose any assignments by the WARZAWSKIE TOWARZYSTWO MUZYCNE (WARSAW MUSIC SOCIETY) to the SESAC.

Based on an investigation made in Poland, we are advised as follows:

> "The Warsaw Music Society publishes classical music almost entirely for music schools and conservatories in Poland. Music is sent free of charge to the Society of European Stage Authors and Composers, Inc., New York, in order to acquaint the American public with Polish classical music. The Society maintains an Academy of music in Poland composed of five (5) branches. The publishing section of the Society is not a commercial enterprise."

W. J. R.

Warsaw, Poland

An examination of the musical copyright entries in the United States Library of Congress, as of April 1, 1937, disclosed the following entries under the name of W. J. R., Warsaw, Poland, listed in the SESAC brochure dated January 1, 1937, as a publisher or organization included under its license.

Krentzlin, Berlin; Nowa Scena, Warsaw; O. Pagani & Bro., New York; Gebrueder Reinecke, Leipzig, incl. Joh. Foerster, Pirna, Gustav Haushahn, Magdeburg, J. Loebel, Zittau, Rich. Noske, Borna; Rondo-Verlag, Berlin, incl. Alfred Becker, Berlin; Robert Ruehle, Berlin; Edward Schuberth & Co., Inc., New York; Sesac Publications, New York; "Solunastra" Musik-Verlag, Madrid-Berlin; Steingraeber Verlag, Leipzig; Chr. Friedrich Vieweg, Berlin.

Licensor is empowered, subject to the various terms and conditions in said agreements, and to rights assigned to it, to authorize, prohibit, supervise and control performances in the United States of America of musical compositions, musical-dramatical works, and dramatic works.

Licensee is engaged in space radio broadcasting over the station(s) licensed by the Federal Communications Commission as follows:

Station(s)	*Wattage*	*Location*

The parties hereto accordingly hereby mutually agree as follows:

1. Licensor hereby grants and Licensee accepts, a non-exclusive license for the period hereof to broadcast (excluding television) from the space radio station(s) mentioned hereinabove such musical compositions as may now be, or during the period hereof shall be, owned or controlled by Licensor, and the performance of which for space radio broadcasting, Licensor may under its divers agreements authorize, prohibit, supervise and control. Such musical compositions shall be covered by this license throughout the time of Licensor's ownership or control thereof as aforesaid during the period hereof.

2. It is understood that so-called "Grand Rights", namely dramatic renditions in whole or part, of dramatico-musical and dramatic works owned or controlled by Licensor (e. g., dramas, plays, operas, operettas, revues, musical comedies, sketches and like productions), and renditions of symphonic works, cantatas, oratorios, etc., owned or controlled by Licensor, require a special permission in advance, in each instance, from Licensor, and special broadcasting performance fees and rental fees shall be arranged for in advance, in each instance, by Licensor.

3. All musical compositions broadcast by Licensee under this license shall be announced by the title and composer, and in the event that same shall be taken from a musical production or sound film, the name of the production or sound film shall also be announced in said broadcast. Licensee hereby agrees to furnish to Licensor, upon request, copies of its program records and furthermore agrees to permit Licensor, upon request, to examine at Licensee's offices, during business hours, the original program records.

4. Licensor reserves the right, at any time, from time to time, to restrict the performance by Licensee unless Licensor's written consent be first obtained, of any musical compositions covered by the license herein granted.

5. Licensee hereby agrees to pay to Licensor for this license an annual fee of $..

....

....

which shall be payable in advance in twelve equal monthly installments of $...............................

....

....

on the ....day of each month for a license period of Five (5) years from..............................

193...., to ....19...

6. In event that Licensee is in arrears of any monthly payment, as stipulated herein, for more than 30 days, or in event that Licensee is adjudicated bankrupt, or declared, or becomes, insolvent, Licensor has the right to demand payment at once, or file a claim for, the balance of all monthly payments due or to become due under this license, or Licensor may in the alternative cancel this license.

7. The right to broadcast any musical compositions granted under this license extends only to Licensee broadcasting from the station(s) licensed under this agreement or from any other place(s) of origin duly licensed by Licensor, and Licensee may not relay and/or transmit in any manner whatsoever for re-transmission and/or re-broadcasting or otherwise, performances of said musical compositions, to any stations in a hook-up or network, or otherwise, unless such stations have duly procured licenses from Licensor. Nothing herein contained shall be construed as permitting Licensee to grant to others the right to broadcast, televise, reproduce or perform publicly for profit or otherwise, by any means, method or process whatsoever, any of the musical compositions so broadcast, or as permitting any receiver of the broadcast of any musical compositions to publicly rebroadcast, televise, perform or reproduce the same for profit or otherwise, by any means, method or process whatsoever, without first obtaining a written license from Licensor. Licensee shall have no right to perform or otherwise utilize any musical compositions covered under this agreement except as herein specified.

8. If at any time during the term of this agreement the power wattage, location, wave length, or allotted time be changed, or if the call signals or letters of Licensee's station(s) be changed (whether as a consequence of combination, consolidation or merger with any other broadcasting station(s) whatsoever, or otherwise) Licensee shall immediately notify Licensor thereof by United States registered mail and this license shall continue, subject to all the conditions, restrictions and limitations therein, except that the license fee shall thereafter be at the rate charged by Licensor in accordance with its Prevailing Schedule.

9. This agreement is to be and remain in full force and effect until ...., 19.... and will automatically continue in force thereafter from year to year subject to the right of either party hereto to terminate this agreement on ...., 19...., or on................................ in any year thereafter by giving written notice of its election so to terminate by United States registered mail to the other party at least ninety days prior to the date fixed for termination.

10. This license is personal to Licensee and is non-assignable, non-transferable, and non-divisible by operation of law, judicial proceedings or sale, devolution, or otherwise; this agreement shall inure to the benefit of and be binding upon Licensor, its successors and assigns.

IN WITNESS WHEREOF the parties hereto have caused this agreement to be duly executed in quadruplicate as of the day and year first above written.

Society of European Stage Authors and Composers, Inc.
113 West 42nd Street
New York, New York

Attention: Mr. Paul Heinecke, President

Gentlemen:

A great many questions have arisen with reference to the Society of European Stage Authors and Composers, Inc., (hereinafter referred to as SESAC) and the license agreements which have been entered into between SESAC and members of the National Association of Broadcasters (hereinafter referred to as NAB); and it seems desirable to record some of these questions here, with the request that you furnish us with as complete information thereon as you possibly can.

You will recall that as early as last January we requested a list of the musical selections owned or controlled by the SESAC in order that member stations might have the opportunity of inspecting the package they were urged to buy under an implied threat of prosecution.

(1) Does the name of your corporation, that is "Society of European Stage Authors and Composers, Inc." correctly describe the organization? In other words, does the SESAC contain among its members (a) European Stage Authors and (b) European Composers? If so, please furnish the names of such European Stage Authors and European Composers, separately.

(2) In the second paragraph of your license agreement you state: "LICENSOR has entered into various agreements whereby small and/or grand rights vested in, and controlled by, the following foreign and American publishers and organizations have been assigned to it. EDITION ADLER, Berlin (Successor, Heinrichshofen Verlag, Magdeburg); AHN u. SIMROCK, Berlin; APOLLO MUSIC COMPANY, New York; M. ARCT, Warsaw; MAX BECK VERLAG, Leipzig; BRYANT MUSIC COMPANY, New York; M. M. COLE PUBLISHING CO., Chicago, Incl. CALUMET MUSIC CO., Chicago, and "Happy Chappies" (Vincent, Howard and Freeman, Ltd., Los Angeles); ERNST EULENBURG, Leipzig; S. FISCHER VERLAG, Berlin; ROB. FORBERG, Leipzig; GEBETHNER & WOLFF, Warsaw; CARL GEHRMANS MUSIKFORLAG, Stockholm; PAUL GORDON, Berlin; F. GRABCZEWSKI, Warsaw; HERMANN HABERER-HELASCO, Madrid-Berlin; HARMONIE-VERLAG, Berlin, incl. HERMANN SEEMAN, Nachfolger, Leipzig; LEON IDZIKOWSKI, Warsaw; INTERNATIONAL EDITION, Leipzig; RICHARD KAUN-VERLAG, Berlin; LIENAU'SCHE MUSIKVERLAGE, Berlin, incl. SCHLESINGER'SCHE B.u.M., Berlin, OTTO WERNTHAL, Berlin, CARL TOBIAS HASLINGER, Vienna, MUSIKVERLAG HASLINGER, Vienna, MUSIKVERLAG ADOLF KOESTER, Berlin, H. R. KRENTZLIN, Berlin; NOWA SCENA, Warsaw; O. PAGANI & BRO., New York; GEBRUEDER REINECKE, Leipzig, incl. JOH. FOERSTER, Pirna, GUSTAV HAUSHAHN, Magdeburg, J. LOEBEL, Zittau, RICH. NOSKE, Borna; RONDO-VERLAG, Berlin, incl. ALFRED BECKER, Berlin; ROBERT RUEHLE, Berlin; EDWARD SCHUBERTH & CO., INC., New York; SESAC PUBLICATIONS, New York; "SOLUNASTRA" MUSIK-VERLAG, Madrid-Berlin; STEINGRAEBER VERLAG, Leipzig; CHR. FRIEDRICH VIEWEG, Berlin."

(a) What period of time is covered by your agreements with these publishers and organizations?

(3) In your letter of September 10, addressed to Mr. Fitzgerald, you state that you control the performing rights in the "musical dramatical works and symphonic

orchestral works" of Gebrueder Reinecke, Leipzig, including Gustav Haushahn, Magdeburg and Joh. Foerster, Pirna; and Kaun, Richard, Verlag, Berlin. Will you answer in detail the following questions as they apply to each publisher listed in the previous sentence?

(a) In what "musical dramatical works", published or controlled by each, do you control the radio performing rights?

(b) Do you have authority to license for radio performance such "musical dramatical works" solely as complete "musical dramatical works"?

(c) Do you have authority to license for radio performance extracts from all of these "musical dramatical works" or from any of them? Please specify.

(d) In what "symphonic orchestral works", published or controlled by each, do you control the radio performing rights?

(e) Do you have authority to license for radio performance such "symphonic orchestral works" solely as complete "symphonic orchestral works"?

(f) Do you have authority to license for radio performance extracts from all of these "symphonic orchestral works" or from any of them? Please specify.

(g) Is a radio station licensee of the SESAC required, by any stipulation in his contract with you, to obtain special permission from the SESAC to perform (1) these "musical dramatical works" and (2) these "symphonic orchestral works", either as complete works or for the playing of extracts from the complete works. Please specify.

(h) Why do you say in your letter of September 10 that you control the "indicated performing rights" in the "musical dramatical works and symphonic orchestral works" of Gebrueder Reinecke, Leipzig, when in a direct communication to us, signed by Gebrueder Reinecke, we are informed that the SESAC represents "the non-dramatic performing rights of our musical publications in the United States"? Please explain fully.

(4) In the same letter of September 10 you state that you control the performing rights in the "Serious Music and Symphonic Orchestral Works and Musical Dramatical Works" of Lienau'sche Musikverlage, Berlin, including Carl Tobias Haslinger, Vienna; Musikverlag Haslinger, Vienna; Otto Wernthal, Berlin; and Schlesinger'sche Buch and Musikhdlg, Berlin. Will you answer in detail the following questions as they apply to each publisher listed in the previous sentence?

(a) In what "serious music", published or controlled by each, do you control the radio performing rights?

(b) Do you have authority to license for radio performance such "serious music" solely as complete works of serious music?

(c) Do you have authority to license for radio performance extracts from all of these works of "serious music", or from any of them? Please specify.

(d) In what "musical dramatical works", published or controlled by each, do you control the radio performing rights?

(e) Do you have authority to license for radio performance such "musical dramatical works" solely as complete musical dramatical works?

(f) Do you have authority to license for radio performance extracts from all of these "musical dramatical works" or from any of them? Please specify.

(g) In what "symphonic orchestral works", published or controlled by each, do you control the radio performing rights?

(h) Do you have authority to license for radio performance such "symphonic orchestral works" solely as complete symphonic orchestral works?

(i) Do you have authority to license for radio performance extracts from all of these "symphonic orchestral works" or from any of them? Please specify.

(j) Is a radio station licensee of the SESAC required, by any stipulation in his contract with you, to obtain special permission from the SESAC to perform these works of "serious music", "musical dramatical works", and "symphonic orchestral works"; either as complete works or for the playing of extracts from the complete works? Please specify.

(5) Proceeding further in the same letter of September 10, you state that you control the performing rights in the "Orchestral Works and Chamber Music" of Steingraeber Verlag, Leipzig.

(a) In what "orchestral works", published or controlled by Steingraeber Verlag, Leipzig, do you control the radio performing rights?

(b) In what "chamber music", published or controlled by Steingraeber Verlag, Leipzig, do you control the radio performing rights?

(c) Is a radio station licensee of the SESAC required, by any stipulation in its contract with you, to obtain special permission from the SESAC to perform any of these "orchestra works" or "chamber music"? Please specify.

(d) Does the SESAC regard all of the catalogued numbers published by Steingraeber Verlag, Leipzig, under the title "Edition Steingraeber 1933 - 1934" to be included under the indicated performing rights" stated in the letter of September 10?

(e) Does any Society, other than the SESAC, control the performing rights in any of the musical selections contained in the catalogue of Steingraeber Verlag, Leipzig?

(6) In your letter of September 10, you state that you control the performing rights in the "orchestra works, chamber music, and musical dramatical works," of Vieweg, Chr. Friedr., Berlin.

(a) In what "orchestra works", published or controlled by Vieweg, Chr. Friedr., Berlin, do you control the radio performing rights?

(b) In what "chamber music", published or controlled by Vieweg, Chr. Friedr., Berlin, do you control the radio performing rights?

(c) In what "musical dramatical works", published or controlled by Vieweg, Chr., Friedr., Berlin, do you control the radio performing rights?

(d) Do you have authority to license for radio performance such "musical dramatical works" solely as complete musical dramatical works?

(e) Do you have authority to license for radio performance extracts from all of these "musical dramatical works" or from any of them? Please specify.

(f) Is a radio station licensee of the SESAC required, by any stipulation in its contract with you, to obtain special permission from the SESAC to perform any of these musical dramatical works? Please specify.

(7) Your letter of September 10 further states that you control "all rights" in the musical works of the following publishers:

International Edition, Leipzig
Gehrmans, Carl, Musikforlag, Stockholm
Ahn and Simrock Buehnenverlag, Berlin
Alfred Thorsings Musikforlag, Copenhagen
Edition Adler, Berlin
  (Successor Heinrichshofen, Magdeburg)
Heinrichshofen's Verlag, Magdeburg

(a) Does "all rights" mean all rights for public performance of each and every musical selection published or controlled by each of the above named firms, If not,

(b) In what musical selections published or controlled by each of the above named firms do you control the radio performing rights?

(c) Why do you say in your letter of September 10 that you control "all rights" in the music controlled by Heinrichshofen's Verlag, Magdeburg, when in a direct communication to us signed "Heinrichshofen's Verlag" we are informed:

> "Auf Ihre Anfrage von. 1. 9. teilem wir hoflichst mit, dass unsere Auf Fuhrungsrechte, soweit Unterhaltungsmusik in Frage kommt, durch die Stagma der American Society of Composers, Authors and Publishers, New York, zur Verwaltung "ubertragen sind." (Our translation: "In reply to your inquiry of September 1, we are pleased to advise you that in so far as entertainment music is concerned our performing rights are represented by the American Society of Composers, Authors and Publishers, New York.")

(8) From your catalogue of June 1, 1936, and subsequent releases, we are given to understand that the following named American firms are members of the SESAC:

Braun, Hubert J. - Chicago
Braun Organization, The - Chicago
Bryant Music Company - New York
Calumet Music Company - Chicago
Cole, M. M., Publishing Co. - Chicago
(including Happy Chappies; Vincent, Howard and Preeman, Ltd. - Los Angeles)
Cross and Winge, Inc. - Portland, Ore.
Master Music Makers - Portland, Ore.
Moderne Edition - Chicago
Music Products Corp. - Chicago
Moderne Publications - Chicago
Nattrass-Schenck, Inc. - Chicago
Hearst Music Publishing Co., Ltd., of Canada

All of your communications to member stations re: "Recent additional American Repertory Acquired by the Society" state that

> "SESAC now controls exclusively, in addition to the musical catalogues already licensed for performance, the copyright and performing rights to all musical compositions and publications included in the catalogues of, and copyrighted by (name of firm); and that these compositions and publications are henceforth authorized for performance by the stations exclusively pursuant to their license with SESAC."

(a) In what musical selections owned or controlled by these music publishers or firms do you control the radio performing rights?

(b) Do any of these music publishers or firms reserve the right to grant to a radio station or stations the radio performing rights in their music whether the station holds a license with the SESAC or not. Please specify.

(c) Does the SESAC have the right to sue a radio station for infringement growing out of a radio performance of all the musical selections owned or controlled by these firms? Please explain fully.

(9) In your December 12, 1934, answer to a letter of Philip G. Loucks formerly Managing Director of the NAB, asking the question

> "In your agreement you list certain publishers with which you have agreements, and you state that you have the right subject to various terms and conditions contained in these agreements, to authorize, prohibit, supervise, and control performances in this country of certain musical compositions, dramatico-musical works and dramatic works. Do you distinguish between the works you have authority to license and those you do not. Do you have the exclusive right to these works?"

you answered:

> "All of SESAC's contracts are exclusive, and generally speaking, cover all the compositions included in the catalogues of the particular publisher, but cognizance must be taken of the universal trade practice of music publishers, who from time to time, prior to entering into such an agreement as SESAC's, have sold to others the rights to certain compositions and single numbers from their catalogues. In such instances, of course, the exceptions are usually written into the contract. However, these exceptions are proportionately negligible in the case of SESAC's contracts."

Now, let us take Gebreuder Reinecke in Leipzig as an example of the purpose of this quotation from your letter of December 13, 1934. In your letter of September 10, 1936, you state that you control the "musical dramatical works and the symphonic orchestral works" of Gebreuder Reinecke, Leipzig. Yet direct communication with Reinecke brings out his understanding that you represent "the non-dramatic rights in our (Reinecke's) musical publications in the United States." The Reinecke catalogue which you supplied to the NAB contains piano music, well known songs, vocal music, harmonium with piano music, organ music, zither music, mandolin music, wood instrument music, string solos, string orchestra music, and general instrumental music. The classified index of this catalogue lists neither "dramatico-musical works" nor "symphonic orchestral works." This example, picked at random from your catalogues, shows conflicting and misleading information. Please explain fully.

(10) According to the SESAC catalogue you control the performing rights for the United States for the following named publishing firms:

Apollo Music Co. - New York
Arct, M. - Warsaw
Beck Verlag, Max - Leipzig
Becker (Rondo-Verlag)
Culla Antonio - Barcelona
Ediciones Rodock (C. Rodriguez) - Bilboa
Ediciones A. Urmaneta - Barcelona
Edition "Jastrzab" (J. Rzepecki) - Warsaw
Editions Fermata - Warsaw, Buenos Aires
Fischer, Verlag, S. - Berlin
Forberg, Rob. - Leipzig
Gebethner and Wolff- Warsaw
Gordon, Paul - Berlin
Grabczewski, F. - Warsaw
Haberer-Helasco, Hermann - Madrid, Berlin, Lisbon
Harmonie, Verlag - Berlin
  including Hermann Seemann, Nachfolger, Leipzig
Idzikowski, Leon - Warsaw
Koester, Adolf, Musikverlag - Berlin
Krentzlin, H. R. - Berlin
Lebendiger, Henryk - Warsaw, Buenos Aires
Loebel, J. - Zittau
Mora, Jose - Barcelona
Noske, Rich. - Borna
Nowa Scena - Warsaw
Pagani, O., and Bro. - New York
Rondo Verlag - Berlin
Rudnicki, Walery - Berlin
Ruehle, Robert - Berlin
Schuberth, Edward, & Co., Inc. - New York
SESAC Publications - New York
Solunastra - Lisbon, Berlin
Vitak-Elsnic Co. - Chicago
Warsaw Music Society - Warsaw
"W. J. R." - Warsaw

(a) In what musical selections owned or controlled by each of the above publishers or firms does the SESAC control the radio performing rights? Please give separate answer for each publisher or firm named.

(b) Is a radio station licensee of the SESAC required, by any stipulation in its contract with you, to obtain special permission from the SESAC to perform any of the musical selections owned or controlled by the above named publishers or firms either as complete works, or for the playing of

EXHIBIT 3-p. 7

extracts from the complete works? Please specify, and for each publisher or firm, separately.

A separate, full and complete answer to each of the questions contained in items 3, 4, 5. 6, 7, 8, 9, and 10, including each sub-question thereunder, is necessary in order that a clear and definite understanding may be had of the meaning of the third paragraph of your license agreement which reads as follows:

> "Licensor is empowered, subject to the various terms and conditions in said agreements, and to rights assigned to it, to authorize, prohibit, supervise and control performances in the United States of America of musical compositions, musical dramatical works and dramatic works."

(11.) Section I of the License agreement reads as follows:

> "LICENSOR hereby grants and LICENSEE accepts, a non-exclusive license for the period hereof to broadcast (excluding television) from the space radio station(s), mentioned hereinabove, such musical compositions as may now be, or during the period hereof shall be, owned or controlled by LICENSOR, and the performances of which for space radio broadcasting, LICENSOR may, under its divers agreements authorize, prohibit, supervise and control. Such musical compositions shall be covered by this license throughout the time of LICENSOR's ownership or control thereof, as aforesaid, during the period hereof."

(a) What is the true meaning of the words "a non-exclusive license" appearing in line one of the section numbered one in your printed license agreement? Do these words mean that some other firm or person may have the right or is able to acquire the right to also authorize radio performances of any part or all the works of the publishers and organizations named in your contract?

(b) To what extent, if any, do you intend to qualify your powers and authority by the words "and the performance of which for space radio broadcasting, LICENSOR may under its divers agreements authorize, prohibit, supervise and control?"

(12) Why is it that the SESAC does not agree, in its license agreements with stations, to indemnify the station against damages that might be sustained as a result of a claim by another that he has the right to license the musical selections allegedly contained in the SESAC repertory; and why does not the SESAC agree in its license agreements to defend its licensees against any such suits?

(13) Now let us examine the letterhead which you use for the purpose of communicating with member stations. You have been asked, above, to justify the use of the title "Society of European Stage Authors and Composers, Inc." which appears also at the top of your letterhead. On the left hand margin of your letterhead you have a column entitled "World Famous Authors and Composers in our Repertory" and you list the following named persons:

(a) Why did you change the title of this column?

(b) In what manner did the SESAC represent these authors and composers?

(c) In what manner does the SESAC now represent these authors and composers?

(d) Specifically what radio performing rights does the SESAC control in the musical works of each of these authors and composers?

(14) Why, in the absence of the specific information herein requested, do you permit your agents, when they are endeavoring to negotiate a license agreement with a radio station, to say that you have supplied the NAB with catalogues showing the musical selections you own or control?

(15) Clear and unequivocal answers to the questions contained in this letter are necessary before radio stations can decide whether they need your music and whether the price asked is reasonable for such of your music as is available to them and which is usable in building radio programs for American radio listeners.

An early reply will be greatly appreciated.

A copy of this letter is being sent to each of our members.

Cordially yours,

COPY OF SESAC LETTER IN REPLY TO NAB CIRCULAR LETTER OF OCTOBER 14th, 1936

(Copies of SESAC—NAB correspondence referred to in the instant letter will be gladly furnished by SESAC upon request.)

New York, November 19, 1936

National Association of Broadcasters
National Press Building
Washington, D. C.

Gentlemen:

Att. Mr. James W. Baldwin,
Managing Director

With reference to a circular letter of October 14th distributed by you among your members, and referring to our organization, we call to your attention that we concluded our recent letter of September 10th, 1936 on the subject matter, as follows:

> "Should you wish any further data for dissemination to your members, please communicate with us and we shall be pleased to assist you as fully as we can."

and this was reiterated in our succeeding letter prior to the receipt of your circular letter of October 14th.

As you have already, therefore, been advised, it is our desire to assist you in procuring whatever data may be necessary for the better understanding of the music problem by your members and it occurred to us that before you would wish to dispatch any writing to them, you would desire to have the benefit of referring to whatever helpful and useful information, if any, could be further supplied.

The general subject matter hereof has already been covered by the exchange of correspondence dated Dec. 8-12, 1934 between SESAC and the NAB, and published in the NAB reports. And it would appear from the foregoing that our organization has already given the members and you all the information which could be required or used with some degree of assistance and understanding.

The matter of catalogs and lists has already been explained to you. At your request some time ago, we sent sets of catalogs to you in Washington, D. C. From time to time since then we have sent you supplementary catalog material. Nevertheless, the utter lack of utility for the station in the procurement of a catalog, available from a publisher, is quite manifest. The lists of titles found therein offer no guide to the station. It is prohibitive, **as a practical matter**, to search catalog after catalog in order to determine whether a composition is performable. This is likely to mislead in checking programs. The only guiding criterion for checking musical compositions is copyright ownership. It is common knowledge that many **different** musical compositions bear the same title, and that many of the same compositions with the same title are published in **different copyrighted arrangements**, the rights to which are held by various and different owners. As you very well pointed out by way of example in your bulletin of June 18th, 1936, there are 117 different compositions of "Blue Eyes" alone. Checking by the copyright ownership of the publishers and organizations affiliated with SESAC, the musical nature and value of whose catalogs are only too well known, is the obvious practice. SESAC's program checking form, in general use among the stations, carries out this principle. A compilation would certainly saddle the industry with another useless expense. As you know the U. S. District Court in the case of Penn Broadcasting Corporation vs. American Society of Composers, Authors and Publishers, ruled, as a matter of law, that such catalogs are not required to be furnished, and that if desired, the purchaser should pay the expense of compilation.

As regards musical content of catalogs, qualified employees of radio stations whose duties appertain to music—and most all have already expressed the need for, and have endorsed the SESAC license—are thoroughly acquainted with the musical status of the SESAC catalogs and examining thousands of compositions, title by title could add nothing. That, indeed, it tends to confuse is clearly evidenced by your statement that the "classified index" of the well known Gebrueder Reinecke, Leipzig catalog which you have examined (see question 9 of your letter on page 11) lists neither "dramatico-musical works nor symphonic works." As a matter of fact this statement is clearly erroneous because such compositions are listed in said catalog. As our answer to question 9 specifically shows, a substantial number of works which are set out in the classified index, do fall within the aforesaid category, the rights in which are controlled by SESAC.

Furthermore, the contracts and assignments pursuant to which SESAC has acquired the rights in the various catalogs are now and have always been open to examination and inspection by you or your representatives.

The legal staffs of the National Broadcasting Company and the Columbia Broadcasting System, prior to advising their respective organizations, some years ago, to conclude very substantial and extensive license arrangements with SESAC, thoroughly scrutinized these contracts and satisfied themselves. If it could serve any useful purpose to have the average station examining a series of technical, and in many instances, foreign documents extensively detailing the intricacies of copyright relationship, in such event same would have been made available for consideration by each of the several hundred stations, but that, as you doubtlessly perceive, is not only unnecessary but would complicate matters tremendously.

Moreover, in view of our continued amicable and cooperative relationship with the radio stations, we resent paragraph second of your letter, which suggests that stations have been procuring their licenses "under an implied threat of prosecution." Not only do our representatives carry, for reference purposes, the catalog material which they make available for examination by the stations but moreover, we have time and again issued temporary licenses for part or all of the entire repertory without cost in order that stations might avoid infringing. And the industry, besides procuring the SESAC license, has responded by expressing its appreciation of our cooperation in numerous letters to us. Such endorsements and testimonials from the stations are in ample evidence in our files.

Notwithstanding that virtually all the information which is the subject of your repetitions inquiries does not appear to serve any practical purpose, the SESAC staff has compiled and we herewith make presentation of the details and technicalities, of necessity, elicited by your letter.

1. The "Society of European Stage Authors and Composers, Inc" (known in the trade as SESAC) represents the works of numerous such stage authors and composers. (See for example your question 13 on page 14, 15 and 16 in which you list the names of many of these composers taken from our letterhead wherein the specified names are mentioned with reference to "our repertory" or "represented in our catalog"). It is the purpose of the oranization to represent, administer and control the performance of these works, among other mediums, through radio and television. The relationship is acquired by contracts with, and assignments from, publishers and organizations controlling the works of these parties, and in some instances by direct contract where the works individually controlled by the respective party approximate a sizeable repertory or catalog in themselves) with the parties themselves. For the names of the parties and their respective works, consult the catalogs supplied to the NAB.

2. It would appear to be well understood, as a matter of business practice, that dates of termination of private contracts of a business organization are hardly matter for publicity. We will state, however, that SESAC's contracts are long term ones usually. It is sufficient that the station is licensed for the use of specified catalogs in accordance as the rights therein have been acquired for licensing by SESAC. Obviously, SESAC would not issue a license to a repertory for a period of time if it had not rights for such period. As you are aware, the stations have been constantly and regularly notified during the past, of SESAC's current acquisitions. Any change in catalogs which should be called to the attention of the station will be called to the attention of the station.

3. As we advised you in our letter of September 10, 1936, we have the performing rights in the musical dramatical works and symphonic orchestral works of Gehrueder Reinecke, Leipzig, including Gustav Haushahn, Magdeburg and Joh. Foerster, Pirna, and of Kaun, Richard, Verlag, Berlin.

PLEASE UNDERSTAND THAT SESAC CONTROLS ALL RIGHTS IN CONNECTION WITH SOME FIFTY (50) CATALOGS AND **ADDITIONALLY** CONTROLS THE SPECIFIED RIGHTS IN A FEW OTHER CATALOGS OF WHICH THIS IS ONE. THE WORKS EMBRACED BY THE ADDITIONALLY SPECIFIED RIGHTS IN THESE FEW CATALOGS ARE ALSO AVAILABLE FOR PERFORMANCE BY THE STATION SUBJECT TO THE UNIFORM TRADE CONDITION THAT "GRAND RIGHTS" REQUIRE A SPECIAL PERMIT.

(a) We have the radio performing rights as well as other rights in all musical dramatical works and symphonic orchestral works which are published and controlled by the following publishers:

Gebrueder Reinecke, Leipzig
including Gustav Haushahn, Magdeburg and Joh. Foerster, Pirna
Kaun, Richard, Verlag, Berlin

This would appear to be self evident from our letter to you of September 10th, 1936.

(b) Not only may SESAC license for radio performance complete musical dramatical works of the aforementoned publishers, but SESAC may also license dramatic renditions therefrom in whole or part. Your reference to our license contract would show this.

(c) Non-dramatic renditions of excerpts of musical dramatical works or those not amounting to "grand right" renditions from the catalogs of the aforementioned publishers are not understood to be licensed for radio performance by SESAC.

(d) We have the radio performing rights as well as other rights in all symphonic orchestral works which are published and controlled by the aforementioned publishers. This would likewise appear to be self evident from our letter to you of September 10th, 1936.

(e) Not only may SESAC license for radio performance such symphonic orchestral works when rendered in their entirety, but it may also license for radio performance their rendition in separate parts or "separate movements." So long as the rendition herein is one by "grand orchestra" as contrasted to "small" or "petit orchestra," it may be licensed by SESAC. For your information, most, if not all, of these works have been published for "grand orchestra" only and this would also appear to be true of all SESAC publishers of symphonic orchestral works.

(f) See (e).

(g) If you will consult the standard SESAC Broadcasting Performance License you will observe that paragraph 2 thereof reads as follows:

> "2. It is understood that so-called "Grand Rights," namely dramatic renditions in whole or part, of dramatico-musical and dramatic works owned or controlled by LICENSOR (e.g. dramas, plays, operas, operettas, revues, musical comedies, sketches and like productions), and renditions of symphonic works, cantatas, oratories, etc., owned or

EXHIBIT 4-p. 2

> controlled by LICENSOR, require a special permission in advance, in each instance, from LICENSOR, and special broadcasting performance fees and rental fees shall be arranged for in advance, in each instance, by LICENSOR."

The above is in accordance with the established trade practice governing "Grand Rights." A station or any organization desiring to produce or broadcast a "grand right" performance of the above works would require this special permission. For the performance of excerpts see 3 (a) through 3 (e) inclusive.

(h) Although we have not seen the communication to you from Gebrueder Reinecke to which you refer, and therefore cannot comment upon whether that firm correctly understood your inquiry or whether you correctly interpret its answer, we wish to reiterate most emphatically, and ask you to please note for your records, that we control the performing rights in the musical dramatical works and symphonic orchestral works of Gebrueder Reinecke, Leipzig, including Gustav Haushahn, Magdeburg and Joh. Foerster, Pirna, as to which we further refer you to our preceding answers to this question. Should Gebrueder Reinecke have in mind to have SESAC **in addition to the aforementioned rights**, control and administer in the American territory the **nondramatic performing rights**, we will take the matter up further. Should it be that such administration of these **additional** rights by SESAC for the American territory may also be brought about—as to which SESAC will be in communication with the writer—we would be glad to announce same to the radio industry upon the consummation of such an enlargement of SESAC's supervision in this catalog. In such event then, for this publisher's catalogs too, in addition to some fifty (50) others, SESAC will administer a full body of performing rights.

4. (a) We have the radio performing rights to all "serious music" published and controlled by the following publishers:

Lienau'sche Musikverlage, Berlin
  including
    Carl Tobias Haslinger, Vienna
    Musikverlag Haslinger, Vienna
    Otto Wernthal, Berlin
    Schlesinger'sche Buch und Musikhdlg, Berlin

There is, however, a series called "Kinothek" issued by Lienau'sche Musikverlage, Berlin, in which we do not control any rights. By way of information most, if not all of the music in these catalogs which is not otherwise controlled by us falls into the SESAC repertory through inclusion in the "serious music" classification.

(b) Not only may SESAC license for radio performance such "serious music" as complete works, but SESAC may also license excerpts from same in whole or part.

Of course, if the particular rendition of the serious music work were to amount to a "grand right" performance, as the term "Grand Right" is defined in our contract and in our exchange of correspondence with the NAB previously referred to, then a special permit would be required. Please note, however, that the great preponderance of "serious music" would be of the "small right" variety. For the most part the "serious music" which would not fall in the latter category would be presumably symphonic orchestral works or cantatas or oratorios.

(c) See 4 (b).

(d) We have the radio performing rights as well as other rights in all musical dramatical works which are published and controlled by each of the following publishers:

Lienau'sche Musikverlage, Berlin
  including
    Carl Tobias Haslinger, Vienna
    Musikverlag Haslinger, Vienna
    Otto Wernthal, Berlin
    Schlesinger'sche Buch und Musikhdlg, Berlin

(e) Not only may SESAC license for radio performance complete musical dramatical works of the foregoing, but SESAC may also license dramatic renditions in whole or part therefrom. Your reference to our license contract would show this.

(f) Non-dramatic renditions or excerpts of musical dramatical works or those not amounting to "grand right" renditions from the aforesaid catalogs, are not understood to be licensed for radio performance by SESAC. For such extracts, however, which constitute "serious music," see 4 (a) through (c) inclusive.

(g) We have the radio performing rights as well as other rights in all symphonic orchestral works which are published and controlled by the aforesaid publishers. This too would appear to be self evident from our letter to you of September 10th, 1936.

(h) Not only may SESAC license for radio performance such symphonic orchestral works when rendered in their entirety, but it may also license for radio performance their rendition in separate parts or "separate movements." So long as the rendition herein is one by "grand orchestra" as contrasted to "small" or "petit orchestre," it may be licensed by SESAC. For your information most, if not all of these works have been published for "grand orchestra" only and this would also appear to be true of all SESAC publishers of symphonic orchestral works.

(i) See 4 (h).

(j) If you will consult the standard SESAC broadcasting Performance License you will observe that paragraph 2 thereof reads as follows:

> "2. It is understood that so-called "Grand Rights," namely dramatic renditions in whole or part, of dramatico-musical and dramatic works owned or controlled by LICENSOR (e. g. dramas, plays, operas, operettas, revues, musical comedies, sketches and like productions), and renditions of symphonic works, cantatas, oratorios, etc., owned or controlled by LICENSOR, require a special permission in advance, in each instance, from LICENSOR, and special broadcasting performance fees and rental fees shall be arranged for in advance, in each instance, by LICENSOR."

The above is in accordance with the established trade practice governing "Grand Rights." A station or any organization desiring to produce or broadcast a "grand right" performance of the above works would require this special permission. Thus if the contemplated performance of the "serious music" or musical dramatical work or symphonic orchestral work amounted to a "Grand Right," the station would require special permission. For the performance of excerpts see 4 (a) through 4 (i) inclusive.

5. (a) We have the radio performing rights in all orchestral music published and controlled by Steingraeber Verlag, **Leipzig**. This likewise would appear to be self evident from our letter to you of September 10th, 1936.

(b) We have the radio performing rights in all chamber music published and controlled by Steingraeber Verlag, Leipzig. This too seems quite apparent from our letter to you of September 10th, 1936.

(c) See 3 (g) with reference to SESAC's standard provision and the trade practice governing "Grand Rights." If the performance is of the "grand right" rather than the "small right" variety, special permission would be required. Inasmuch as most all orchestral works and chamber music works typically fall into the "small right" category, no special permission would generally be required for the performance of such works. For "small" and "grand rights" in connection with orchestral works, see further 3 (e).

(d) Inasmuch as the rights in the Steingraeber Verlag, Leipzig, catalog, which SESAC controls, are as specified in connection with "orchestral works and chamber music," SESAC would control as aforesaid, all rights in such music in the "Edition Steingraeber 1933-1934" catalog as well as in any other catalogs of this firm. The works therein which do not fall within such classification are not understood to be licensed for radio performance by SESAC.

(e) As mentioned in 5 (d), SESAC knows and can speak only of its own rights and does not wish to surmise or guess in matters of which it has no definite or firsthand knowledge. Obviously though, whatever rights SESAC controls, others could not and would not have.

6. (a) We have the radio performing rights in all orchestral music published and controlled by Vieweg, Chr. Friedr., Berlin. This would appear to be clear from our letter to you of September 10th, 1936.

(b) We have the radio performing rights in all chamber music published and controlled by Vieweg, Chr. Friedr., Berlin. This again would appear to be self evident from our letter to you of September 10th, 1936.

(c) We have the radio performing rights in all musical dramatical works published and controlled by Vieweg, Chr. Friedr., Berlin. And this too seems plain from our letter to you of September 10th, 1936.

(d) Not only may SESAC license for radio performance complete musical dramatical works of the foregoing, but SESAC may also license dramatic renditions therefrom in whole or part. As mentioned before in a similar connection as respects other publishers, your reference to our license contract would show this.

(e) Non-dramatic renditions of excerpts of musical dramatical works or those not amounting to "grand right" renditions from the aforesaid catalog, are not understood to be licensed for radio performance by SESAC.

(f) Your consultation with the standard SESAC license provision as well as our exchange of correspondence to which you are again referred will show that when a "grand right" performance is contemplated, special permission is required. See further 3 (g) and 4 (j).

7. (a) In indicating that our "performing rights" in the catalogs of the following:

International Edition, Leipzig
Gebrmans, Carl, Musikforlag, Stockholm
Ahn u. Simrock Buehnenverlag, Berlin
Alfred Thorsings Musikforlag, Copenhagen
Edition Adler, Berlin

cover "all rights" therein, we naturally mean such rights for all publications published and controlled by each of the aforementioned firms. (See 7 (c) infra, with reference to Heinrichshofen's Verlag, Magdeburg).

(b) It is well understood that public performance rights include radio performing rights. This branch of performing rights is therefore one class of such rights among the others which we control. (Television rights are another branch likewise controlled by us.)

(c) The meaning of our letter of September 10th, 1936, with regard to Heinrichshofen's Verlag, Magdeburg and Edition Adler, Berlin, seems perfectly clear. You have apparently misread same. There is no statement that we control all rights in Heinrichshofen's Verlag, Magdeburg. But the statement is:

Edition Adler, Berlin, Successor Heinrichshofen
Magdeburg (All Rights)

This signifies quite clearly that we control all rights in the catalog of Edition Adler, Berlin, which firm has been succeeded by Heinrichshofen's Verlag, Magdeburg. The rights **therein** to which Heinrichshofen has succeeded are still controlled by SESAC. If you will consult our pamphlet listing publishers and organizations affiliated with SESAC, you will find our listing of Edition Adler, Berlin set out identically as above, and you will notice that there is no listing for Heinrichshofen's Verlag, Magdeburg.

8. (a) In respect of the following American affiliates of SESAC listed by you:

Braun, Hubert J.—Chicago
Braun Organization, The—Chicago
Bryant Music Company—New York
Calumet Music Company—Chicago
Cole, M. M., Publishing Co.—Chicago
  including
    Happy Chappies; Vincent, Howard
    and Preeman, Ltd.—Los Angeles
Cross & Winge, Inc.—Portland, Ore.
Master Music Makers—Portland, Ore.
Moderne Edition—Chicago
Music Products Corp.—Chicago
Moderne Publications—Chicago
Nattrass-Schenck, Inc.—New York
Hearst Music Publishing Co., Ltd. of Canada

we have the radio performing rights to all compositions and works published and controlled by them. As we have already pointed out, the term "performing rights" covers "radio performing rights" which is merely one subdivision thereof. The notice to which you refer clearly indicates the fact that we control all performing rights in the abovenamed.

(b) The said notice is furthermore very clear and definite to the effect that such rights are controlled by us "exclusively," and that the performance of any compositions controlled by any of the aforesaid publishers is licensable exclusively by SESAC. Obviously, therefore, there is no such reservation by any of the aforementioned firms of the right to authorize a radio station to perform music out of their catalogs. In assigning their performing rights to SESAC, the publishers completely divest themselves of same. It is immaterial whether

EXHIBIT 4—p. 3

or not the station holds a license with SESAC. Any authority or license to perform the copyrighted compositions of the publisher which are thus controlled by SESAC comes from SESAC only. Whatever temporary licenses were issued by publishers and organizations prior to their affiliation with SESAC continue only through authority or license from SESAC. As you know, the great bulk of radio stations throughout the country are already licensed. As regards any unlicensed stations which have not yet been contacted by our representatives, we have no intention of interrupting any such usages pursuant to such temporary permit pending the consummation of negotiations for the SESAC license. This is in accord with our policy of cooperating and extending every possible courtesy to radio stations whom we wish to consider as clients and patrons. We feel that their continuation of usage under authority granted by us, pending their acquisition of the SESAC license, performs a valuable service in enabling the station to make use of SESAC music in accordance with its untrammeled wishes without being concerned or confronted with the legal problem of copyright infringement.

(c) **Very definitely, SESAC has the right to sue a radio station for infringement growing out of a radio performance of any copyrighted musical selection published and controlled by any one of the aforesaid firms.** As you are aware, SESAC, as a matter of good will and cooperation to the stations, has quite consistently refrained from bringing infringement suits even where infringements have taken place. Rather, it has been felt that a cooperative policy will obviate the necessity for legal proceedings and bring about the entirely voluntary subscription to the SESAC license. And this policy appears to have been eminently successful. We are confident that the reciprocation by the stations will commend the continuance of this policy to us in the future.

9. With regard to the inquiry and reply in the exchange of correspondence between SESAC and the NAB which you quote as follows:

> "In your agreement you list certain publishers with which you have agreements, and you state that you have the right subject to various terms and conditions contained in these agreements, to authorize, prohibit, supervise and control performances in this country of certain musical compositions, dramatico-musical works and dramatic works. Do you distinguish between the works you have authority to license and those you do not? Do you have the exclusive right to these works?"
>
> "All of SESAC's contracts are exclusive, and generally speaking, cover all the compositions included in the catalogues of the particular publisher, but cognizance must be taken of the universal trade practice of music publishers, who from time to time, prior to entering into such an agreement as SESAC's, have sold to others the rights to certain compositions and single numbers from their catalogues. In such instances, of course, the exceptions are usually written into the contract. However, these exceptions are proportionately negligible in the case of SESAC's contracts."

and your reference to the firm of Gebrüeder Reinecke in this connection, we have already commented in the introductory part of our letter upon your failure to use the catalog material correctly and your consequent errors arising therefrom. It is surprising to us that you should make such a statement as the one that "the classified index of this catalogue lists neither 'dramatico-musical works' nor 'symphonic orchestral works'." Certainly the requisite musical background and knowledge in connection with catalogs would have indicated the character of these works in this catalog which are symphonic and orchestral. This is almost too obvious to have been the subject of error. Such listings, for example, as:

"Bd. VII. **Sinfonie F-dur.**
  Partitur
  Orchesterstimmen
Bd. VIII. **Sinfonie Es-dur.**
  Partitur
  Orchesterstimmen
Bd. XI. **Grande Sinfonia:**
  "Le carneval ou la redoute"
  (Carnevalssinfonie.....................)
  Part............................
  Orchesterstimmen

and many more clearly show the symphonic character of the work. Likewise, the use in connection with other listed works of the term "partitur," which is an international and American trade expression indicating the conductor's parts for symphonic works, and therefore designating the work as symphonic, should not have escaped your attention. Furthermore, many other words in the titles of the works, and the titles themselves, as listed in the classified and alphabetical indices to this catalog denote a substantial number of works which fall into the classification controlled by SESAC. Moreover, other catalog material of this publisher would show works falling into the symphonic orchestral and dramatico-musical classifications.

With regard to the communication to Gebrueder Reinecke to which you allude, we refer you to 3 (h).

10. (a) Referring further to 9, please be advised that we have the radio performing rights to all musical works published and controlled by the following publishers and organizations listed by you:

"Apollo Music Co.—New York
Arct, M.—Warsaw
Beck Verlag, Max—Leipzig
Becker (Rondo-Verlag)
Edition "Jastrzab" (J. Rzepecki)—Warsaw
Editions Fermata—Warsaw, Buenos Aires
Forberg, Rob.—Leipzig
Gebethner and Wolff—Warsaw
Grabczewski, F.—Warsaw
Haberer-Helasco, Hermann—Madrid, Berlin, Lisbon
Harmonie, Verlag—Berlin
  including
    Herman Seemann, Nachfolger, Leipzig
Idzikowski, Leon—Warsaw
Lebendiger, Henryk—Warsaw, Buenos Aires
Nowa Scena—Warsaw
Pagani, O., and Bro.—New York
Rondo Verlag—Berlin
Rudnicki, Walery—Warsaw (your listing erroneously indicates Berlin instead of Warsaw)
Schuberth, Edward & Co., Inc.—New York
Sesac Publications—New York
Solunastra—Lisbon, Berlin
Vitak-Elsnic Co.—Chicago
Warsaw Music Society—Warsaw
"W.J.R."—Warsaw"

In addition, we have the radio performing rights to the specified publications of the following:

"Fischer Verlag, S.—Berlin (radio plays)
Gordon, Paul—Berlin (radio plays, one act plays, sketches, scenes, skits, short stage plays and short operettas)"

In addition SESAC has such rights in the works of the following as specifically listed in notices and bulletins sent to the station of which you too have received copies. The listed works on said notices and bulletins may constitute all of the copyrighted publications of the respective firms:

"Culla, Antonio—Barcelona
Ediciones Rodoch (C. Rodriguez)—Bilbao
Ediciones A. Urmeneta—Barcelona
Mora, Jose—Barcelona"

Our pamphlet listing SESAC affiliates specifies with regard to the above "compositions as per list issued."

Regarding "Koester, Adolf, Musikverlag—Berlin Krentzlin, H. R.—Berlin." our aforesaid pamphlet indicates that these catalogs are included under Lienau'sche Musikverlage—Berlin, and we refer you to our replies to 4 (a) through 4 (e) inclusive, supra.

Similarly, regarding Rich. Noske—Borna and J. Loehel, Zittau, our aforesaid pamphlet indicates that these catalogs are included under Gebrueder Reinecke, and we refer you to our replies to 3 (a) through 3 (h) inclusive, supra. We have the same body of rights in the catalog of Robert Ruehle, Berlin as we presently have in the catalog of Gebrueder Reinecke.

Were any changes to occur with regard to the status of any compositions published or to be published by any of the aforesaid, affecting the industry in respect of our licensed subject matter, due notification of same would be made.

(b) We refer you again to the SESAC-NAB correspondence of December 8-12, 1934, with regard to the special permission requirement for "grand right" as contrasted to "small right" renditions. And again, by way of further discussion, in this connection, we refer you to 3. (c), (e), (g) (setting out our standard "grand rights" provision incorporating the usages of the trade), 4 (b), (f), (h), (i), (j), 5 (c), 6 (e), (f).

With reference to the third paragraph of the SESAC license agreement which you quote, please be advised that same is a correct statement of incorporation with respect to the rights exactly and completely as controlled by SESAC. We obviously would not license for what we do not control and which is not warranted to us by our publishers and organizations, and therefore in all cases, use as our definite, documentary and legal base, the rights procured pursuant to the contracts and assignments from said publishers and organizations. As we have already stated in the introductory part of this letter, these documents are available for your examination.

11. Here too the paragraph you question is an accurate embodiment of rights licensed by us specifically in accordance with the rights controlled. This has been thoroughly defined by us before, both by way of indicating the nature of our rights controlled in the various catalogs, or where our control relates only to specific works, by issuing lists of the specific works controlled. See, for example, 10 (a) and (b) supra.

(a) The term "a non-exclusive license" employed by us has a fixed and definite meaning, and we would presume that this is almost too clear to require discussion. The term **obviously** does **not** mean that another party may have the right or is able to acquire the right to also authorize radio performances of any part or all the works of the publishers and organizations named in this contract. It has no such connotation legally, as a business term, or otherwise. Its very precise meaning is that the particular station is not the only one in receipt of a license or, in other words, that the license is not exclusive in favor of the particular station. The contrary term "an exclusive license" signifies that only the particular station licensed is the recipient of the authority or privilege conferred. The latter occurs occasionally in connection with special licenses or contracts issued by SESAC for single works typically, of the "grand right" variety. For example, SESAC has licensed the broadcast performance of an important operetta exclusively to a particular station during a defined period of time. The purpose of such exclusive license for the operatic work during the period, is to assure the station that there will be no competitive performance of the same work by a second station (thereby detracting from the value of the first station's performance) during a short fixed time before and after its own performance. This should clearly illustrate to you the meaning of a "non-exclusive license" as contrasted to an "exclusive license" when applied to radio stations.

(b) As already explained in the forepart of 11, SESAC is licensing on the definite, documentary and legal base, fixed by its contracts and assignments with its publishers and organizations affiliated with it, and licenses are issued in full accordance with the rights assigned and conferred, no more, no less.

12. This matter of indemnity was covered in the SESAC-NAB correspondence of almost two years ago, wherein we wrote in our letter of December 12th, as follows:

> "We note that in your letter you inquire hypothetically about the possibility of a demand or claim being made on a licensee by another in connection with the rendition of a composition covered by our license. While this inquiry, we would respectfully point out, is entirely academic, inasmuch as during the five years of our existence no such claim or demand against any station or performer has been made, nevertheless, be assured that if such a contingency were to occur, both from our own standpoint in protecting our rights, as well as from the desire to cooperate with, and relieve the NAB member of the annoyance and inconvenience which would be occasioned thereby, we would, legally and otherwise, upon ten days' notice to us in writing by United States Reistered Mail, after the making of such claim or demand, personally defend and thereafter, if necessary, hold harmless and indemnify the NAB member from loss through such possible situation occurring by reason of the member's performance of musical

EXHIBIT 4-p. 4

compositions licensed for performance by us according to the terms
and conditions of the standard license."

(Incidentally, it is still true today that no such claim or demand has yet been made.) This indemnity is and has been in existence for almost two years and hence there is no necessity for additionally incorporating it in the license contract. You have supplied all stations with the SESAC-NAB correspondence containing same, and any stations which have written to us requesting additional copies, have been gladly supplied with same.

13. (a) Although your question 13 seems rather picayune and pointless in that you should purport to inquire why the matter on our letterhead which originally read "world famous authors and composers **represented in our catalogues**" (underscoring ours) was changed to "world famous authors and composers **in our repertory**" (underscoring ours), nevertheless if this concerns you, please be advised, that what was effected, and intended to be effcted, was merely a change in phraseology but not in meaning and for your further advice, if this is considered to be of interest to you, the purpose was to achieve a more symmetrical appearance on the letterhead.

(b) As already explained in question 1, SESAC represents and controls the original copyrighted works and arrangements of these authors and composers through indirect and direct contracts.

(c) SESAC now continues this representation and control in the same manner.

(d) In connection with the data supplied in this letter, please check and consult with the catalog material which has already been supplied you, and you will ascertain the works of these parties which are controlled by SESAC. You will appreciate that, should you wish to compile this information, you will find this to be a sizeable task and almost prohibitive from the standpoint of utility. As you are also well aware, it is not unusual that the representation and control of the performing rights in the works of various authors and composers will be found to be divided up among different organizations.

14. We have supplied the NAB with catalog material of our publishers which was collected especially for the NAB and have, as you know, supplemented this material from time to time. These catalogs are sufficient to apprise the station referring to them of their musical content. As to all the following (and this embraces some 50 repertories), we control the complete body of radio performing rights:

Ahn u. Simrock Buehnenverlag; Berlin
Apollo Music Company; New York
Arct, M.; Warsaw
Beck Verlag, Max; Leipzig
Braun Organization, The; Chicago
Bryant Music Company; New York
Calumet Music Co.; Chicago
Cole, M. M., Publishing Co.; Chicago
  including:
    "Happy Chappies"
    Vincent, Howard & Preeman, Ltd.; Los Angeles

Culla, Antonio; Barcelona (compositions as per list issued)
Ediciones Rodoch (C. Rodriguez); Bilbao (compositions as per list issued)
Ediciones A. Urmeneta; Barcelona (compositions as per list issued)
Edition Adler; Berlin (Succesor, Heinrichshofen's Verlag; Magdeburg)
Edition "Jastrzab" (J. Rzepecki); Warsaw
Editions Fermata; Warsaw—Buenos Aires
Forberg, Rob.; Leipzig
Gebethner & Wolff; Warsaw
Gehrmans Musikforlag, Carl; Stockholm
Grabczewski, F.: Warsaw
Haberer-Helasco, Hermann; Madrid-Berlin-Lisbon
Harmonie-Verlag; Berlin
  including:
    Hermann Seemann, Nachfolger; Leipzig
Hearst Music Publishing Co. Ltd. of Canada
Idzikowski, Leon; Warsaw
International Edition; Leipzig
Jewel Music Publishing Co.; New York
Lebendiger, Henryk; Warsaw—Buenos Aires
Master Music Makers; Portland, Ore.
Moderne Edition; Chicago
Mora, Jose; Barcelona (compositions as per list issued)
Music Products Corporation; Chicago
Nattrass-Schenck, Inc.; New York
Nowa Scena; Warsaw
Pagani O., & Bro.; New York
Radio City Guitar Studio; New York
Rialto Music Publishing Co.; New York
Rondo-Verlag; Berlin
  including:
    Alfred Becker; Berlin
Rudnicki, Walery; Warsaw
Schuberth, Edward & Co., Inc.; New York
Sesac Publications; New York
Solunastra; Lisbon—Berlin
Thorsings Musikforlag, Alfred; Copenhagen
Urgelles, J.; Barcelona (compositions as per list issued)
Vitak-Elsnic Co.; Chicago
Warsaw Music Society; Warsaw
"W.J.R."; Warsaw
Yanguas, Mariano; Madrid (compositions as per list issued)

The above list includes six (6) additional repertories acquired during the past few months.

In addition, SESAC controls the performing rights as already specified in correspondence with the NAB, of the following:

Eulenburg, Ernst; Leipzig
Fischer Verlag, S.; Berlin
Gordon, Paul; Berlin
Kaun-Verlag, Richard; Berlin
Lienau'sche Musikverlage; Berlin
  including:
    Carl Tobias Haslinger; Vienna
    H. R. Krentzlin; Berlin
    Musikverlag Haslinger; Vienna
    Schlesinger'sche Buch & Musikhdlg; Berlin
    Otto Wernthal; Berlin
Reinecke, Gebrueder; Leipzig
  including:
    Joh. Foerster; Pirna
    Gustav Haushahn; Magdeburg
    J. Loebel; Zittau
    Rich. Noske; Borna
Ruehle, Robert; Berlin
Steingraeber Verlag; Leipzig
Vieweg, Chr. Friedrich; Berlin

The data as specified and simply given heretofore in connection with the above would appear to be all that could be required. Where further inquiry has been made, stations have been correctly and expeditiously advised in accordance with our prior correspondence and thus far, there has been no lack of understanding in the matter. Through this means it has been our purpose to avoid and we believe we have avoided the distribution of data not alone destitute of usefulness, but replete with inevitably confusing technicality. We presume you are conversant with the complexity of the music situation, and the cooperation which SESAC has evidenced. Although, as we have mentioned before, the Federal Court has ruled that it is unnecessary to compile **such** listings and data unless the asking party bear the very substantial burden of costs in connection with such compilation, we have clearly endeavored to serve the NAB in behalf of its members, to obviate such unnecessary and essentially useless expense.

We reiterate that for purposes of copyright checking, the copyright owner's name must of necessity be the criterion. The musical qualities of the particular catalog are known by any qualified music man conversant with his trade. (See further the forepart of this letter.)

15. The great majority of radio stations throughout the country and virtually all stations contacted by our representatives have already shown their desire and need for the music covered by a SESAC license by procuring same at rates and fees mutually satisfactory. Furthermore, as already stated, all music covered by our license is available for performance pursuant to the license and this reservoir is constantly being augmented by the acquisition of additional catalogs. Not only is an extensive coverage thus granted but practical assistance is given to the stations, by making physically available to them, through our voluntary and cooperative efforts, a large source of music maintained in stock for such purposes. Constant shipments of this music are made to broadcasting stations who find it, together with our practical suggestions, a most valuable service. Indeed for our general cooperation and helpfulness in this and other matters, the industry has been constantly expressing its appreciation to us. Their testimonials and letters of gratification more than justify the continuance of SESAC's cooperative policy.

A copy of this letter is being simultaneously sent to all of your members.

Faithfully yours,

Mr. Paul Heinecke, Director
Society of European Stage Authors and Composers, Inc.
113 W. 42nd Street
New York, N. Y.

Dear Mr. Heinecke:

I am enclosing a list of the duplications between your catalog of June 1, 1936, and the ASCAP directory as of January 1, 1936. Please assist me in clearing up this confusing situation by letting me know if all of these duplications have become members of SESAC since January 1, 1936, and whether they were correctly listed by the ASCAP directory, at that time.

Would you tell me if the Apollo Music Company of New York is in any way connected with either the Apollo Musikforlag, or with Apollo Verlag, both of which are listed as ASCAP affiliates. If the Apollo Music Company of New York is connected with neither of these firms would you send me a catalog of their music. In addition I would like to receive lists of the music catalog by SESAC, on

CULLA, ANTONIO, Barcelona
EDICIONES RODOCH (C. RODRIGUEZ), Bilboa
EDICIONES A. URMENETA, Barcelona

Being in a requesting mood today, I wish you would have sent to me the catalogs of the Calumet Music Company, Chicago; Cross & Winge, Inc., Portland, Oregon; the Bryant Music Company of New York; the Braun Organization, Chicago; Hubert J. Braun, Chicago; and the Moderne Edition, of Chicago.

With my kindest regards,

Very truly yours,

Mr. Edward J. Fitzgerald, Director
Bureau of Copyrights
National Association of Broadcasters
National Press Building
Washington, D. C.

Dear Mr. Fitzgerald:-

In reply to your letter of August 28th, please be advised that prior to January 1st, 1936, SESAC controlled and still controls the indicated performing rights of the following publishers listed by you as appearing in the ASCAP directory of January 1, 1936.

ERNST EULENBURG, Leipzig (Symphonic Orchestral Works)
GEBRUEDER REINECKE, Leipzig (Musical dramatical Works and Symphonic Orchestral Works)
GEHRMANS, CARL, MUSIKFORLAG, Stockholm (All Rights)
GUSTAV HAUSHAHN, Magdeburg (Included under GEBRUEDER REINECKE)
INTERNATIONAL EDITION, Leipzig (All Rights)
KAUN, RICHARD, VERLAG, Berlin (Musical dramatical Works and Symphonic Orchestral Works)
CARL TOBIAS HASLINGER, Vienna (Included under LIENAU'SCHE MUSIKVERLAGE)
MUSIKVERLAG HASLINGER, Vienna (Included under LIENAU'SCHE MUSIKVERLAGE)
OTTO WERNTHAL, Berlin (Included under LIENAU'SCHE MUSIKVERLAGE)
JOH. FOERSTER, Pirna (Included under GEBRUEDER REINECKE)
STEINGRAEBER VERLAG, Leipzig (Orchestra Works and Chamber Music)
VIEWEG, CHR. FRIEDR., Berlin (Orchestra Works, Chamber Music and Musical Dramatical Works,
SCHLESINGER'SCHE BUCH & MUSIKHDLG., Berlin (Included under LIENAU'SCHE MUSIKVERLAGE)
AHN & SIMROCK BUEHNENVERLAG, Berlin (All Rights)
LIENAU'SCHE MUSIKVERLAGE, Berlin (Serious Music and Symphonic Orchestral Works and Musical Dramatical Works)
ALFRED THORSINGS MUSIKFORLAG, Copenhagen (All Rights)
EDITION ADLER, Berlin, Successor Heinrichshofen, Magdeburg (All Rights)
HEINRICHSHOFEN'S VERLAG, Magdeburg (See EDITION ADLER)

Of those listed by you in your letter, only the publishing house of

ALFRED THORSINGS MUSIKFORLAG, Copenhagen, Denmark

became affiliated with SESAC since January 1st, 1936. Please note, however, that during the period between January 1st, 1936 and June 1st, 1936, SESAC acquired additional affiliations and rights in respect of the following:

CROSS & WINGE, INC., Portland, Oregon
THE BRAUN ORGANIZATION, Chicago, Ill. (Also known under the name of Hubert J. Braun Publications)
MASTER MUSIC MAKERS, Portland, Oregon
EDICIONES A. URMENETA, Barcelona, Spain
EDICIONES RODOCH, Bilbao, Spain
JOSE MORA, Barcelona, Spain
ANTONIO CULLA, Barcelona, Spain
C. RODRIGUEZ, Bilbao, Spain
NATTRASS-SCHENCK, INC., New York, N. Y.
EDITIONS FERMATA, Warsaw, Poland - Buenos Aires, Argentina
HENRYK LEBENDIGER, Warsaw, Poland - Buenos Aires, Argentina
MODERNE PUBLICATIONS, Chicago, Illinois (also known as MODERNE EDITION)
MARIANO YANGUAS, Madrid, Spain
J. URGELLES, Barcelona, Spain

Extra copies of SESAC bulletins to radio stations announcing these additional affiliations during this period are being forwarded under separate cover.

From your letter we observe that you have already noted the confusion that this incomplete and misleading ASCAP listing entails. Manifestly there is no definite indication regarding specified rights as being vested in ASCAP. The listing purports to be based on whatever information, irrespective of factual adequacy or correctness, was possessed by those issuing the directory.

(1)Conspicuously, all American publishers not affiliated with ASCAP are omitted from the listing. We refer to the following American SESAC affiliated publishers whose names are nowhere to be found therein:

APOLLO MUSIC COMPANY, New York, N. Y.
BRAUN ORGANIZATION, THE, Chicago, Illinois (Also known under the name of Hubert J. Braun Publications)
BRYANT MUSIC COMPANY, New York, N. Y.
CALUMET MUSIC CO., Chicago, Illinois
COLE, M. M., PUBLISHING CO., Chicago, Illinois, including "HAPPY CHAPPIES", VINCENT, HOWARD & PREEMAN, LTD., Los Angeles, Calif.
CROSS & WINGE, INC., Portland, Oregon
MASTER MUSIC MAKERS, Portland, Oregon
MODERNE PUBLICATIONS, Chicago, Illinois (Also known as MODERNE EDITION)
MUSIC PRODUCTS CORPORATION, Chicago, Illinois
NATTRASS-SCHENCK, INC., New York, N. Y.
PAGANI, O., & BRO., New York, N. Y.
SCHUBERTH, EDWARD, & CO., INC., New York, N. Y.
SESAC PUBLICATIONS, New York, N. Y.
VITAK-ELSNIC CO., Chicago, Illinois

(2) It is also important to note that the following foreign publishers affiliated with SESAC are nowhere listed by ASCAP:

BECK VERLAG, MAX, Leipzig
BECKER, ALFRED, Berlin (Included under RONDO-VERLAG)
CULLA, ANTONIO, Barcelona
FISCHER VERLAG, S., Berlin
FORBERG, ROB., Leipzig
GORDON, PAUL, Berlin
HABERER-HELASCO, HERMANN, Madrid - Berlin - Lisbon
KOESTER, ADOLF, MUSIKVERLAG, Berlin (Included under LIENAU'SCHE MUSIKVERLAGE)
KRENTZLIN, H. R., Berlin (Included under LIENAU'SCHE MUSIKVERLAGE)
LOEBEL, J., Zittau (Included under GEBRUEDER REINECKE)
NOSKE, RICH., Borna (Included under GEBRUEDER REINECKE)
RONDO-VERLAG, Berlin
RUEHLE, ROBERT, Berlin
SEEMANN, HERMANN, Nachfolger, Leipzig (Included under HARMONIE-VERLAG, Berlin)
SOLUNASTRA, Lisbon - Berlin
WARSAW MUSIC SOCIETY, Warsaw

(3) Furthermore, ASCAP lists the following foreign publishers and acknowledges that none of their rights are vested in it (owing to the absence of a reciprocal arrangement), but fails to indicate their affiliation with SESAC:

ARCT, M., Warsaw
EDICIONES RODOCH, Bilboa
EDICIONES A. URMENETA, Barcelona
EDITION "JASTRZAB" (J. RZEPECKI) Warsaw
EDITIONS FERMATA, Warsaw - Buenos Aires
GEBETHNER & WOLFF, Warsaw
GRABCZEWSKI, F., Warsaw

EXHIBIT 6-p. 3

IDZIKOWSKI, LEON, Warsaw
LEBENDIGER, HENRYK, Warsaw - Buenos Aires
MORA, JOSE, Barcelona
NOWA SCENA, Warsaw
RODRIGUEZ, C., Bilbao
RUDNICKI, WALERY, Warsaw
"W. J. R.", Warsaw

Indeed it is singular to observe that the directory fails to specify and classify the some sixty odd publishers which are affiliated with SESAC, but on the contrary in an obviously misleading fashion recites at the outset that the performing rights to a certain publisher named HARMONIE-VERLAG, Berlin, are controlled by SESAC.

Of course, the directory acknowledges that errors may exist and disclaims responsibility for faulty listing. As above indicated, gross error and confusion, both by omission and commission, have been created with regard to the listing of the SESAC affiliated publishers.

In answer to your further inquiry, please be advised that the APOLLO MUSIC COMPANY of New York, is affiliated exclusively with SESAC and has no relationship whatsoever to any other firms bearing similar names. This also applies with regard to the firm of EDWARD SCHUBERTH & CO., INC., of New York (publisher of numerous Victor Herbert compositions).

The additional catalog material which you request has been collected by us for your attention and is also being forwarded under the separate cover. Should you wish any further data for dissemination to your members, please communicate with us and we shall be pleased to assist you as fully as we can.

With best wishes,

Sincerely yours,

Gentlemen:

In the course of an investigation we are making it has been noted that certain composers and authors listed in your 1931 and 1936 directories as members of the ASCAP have composed a number of compositions which were published in the period 1931 to 1936 inclusive by music publishers who have not been identified as members of the ASCAP. Further, it has been noted that these publishers have registered the compositions in question with the Register of Copyrights and list themselves as copyright claimants. The performing rights society of which these publishers are claimed to be members asserts that it controls the complete body of radio performing rights of these specific publishers.

Our interpretation of the contract between the ASCAP and its members is that such member (composer or author) agrees irrevocably to sell, assign, transfer and set over to the Society the entire exclusive right of public performance in each musical work which he may, during the term of the agreement, write, etc., alone, jointly, etc., or in which he may have any right, title or interest whatsoever. It is our understanding that the exclusive and irrevocable terms of ASCAP contracts with composers and authors were introduced in 1921 and were in effect in the period from January 1, 1931 to December 31, 1935.

In these circumstances it is our conclusion that only your Society (ASCAP) has the right to license for public performances the copyrighted musical selections of each and every of your author and composer members for the period January 1, 1931 to December 31, 1935.

In the interest of accuracy, I will appreciate your verification of this general conclusion and, more specifically, whether any public performance rights in compositions by the following authors and composers can be licensed by any person, firm or society other than the ASCAP:

Again, in the case of "Badinage" by Victor Herbert, originally assigned to Edward J. This fact together with the exclusive and irrevocable contract which we understand was entered into between Herbert and the ASCAP in 1921, gives us the basis for our conclusion that the performance rights in this composition are controlled only by the ASCAP. I will appreciate also your verification of this conclusion.

Att: Mr. James W. Baldwin

Gentlemen:

Answering yours of the 15th stating your interpretation of the agreements between ASCAP and its members, and your conclusion that under certain circumstances, only this Society has the right to license their respective compositions for public performance, and requesting us to inform you definitely as to the status of works of certain writer-members published by non-member publishers:

We are unable to state a definite general rule of practice as it might not meet a particular individual situation, and thus either claim rights that legally we may not own or subject our licensee to the hazard of infringements. In other words, title to performing rights in certain compositions cannot be cleared under any general broad rule.

I think your interpretation is entirely accurate as a generalization, but in specific instances it might not be. For instance, Jones, a lyric writer is a member of ASCAP in 1931. Smith, a composer is not a member. The two of them collaborate in writing a composition entitled "SUNSET", which is placed for publication with Brown, a non-member of ASCAP, who copyrights it in the year it was written.

Brown's contract with both the writers conveys to him all rights of whatever nature under the copyright. Obviously, Jones makes his conveyance to the publisher subject to the previous conveyance to ASCAP of the exclusive right to license non-dramatic performances. Equally obviously, Smith, not a member of ASCAP, makes a complete conveyance.

In such a situation, it seems to me that the

EXHIBIT 13-p2

only right ASCAP would have would be that of licensing the non-dramatic performance of the lyrics only. Yet this line of reasoning might very well be upset under decisions that a musical work (words and music) represents the collective effort of a partnership, and the whole goes together. For all I know, the courts might hold that Smith, the non-member was bound by Jones, the member, and the final result might be that ASCAP had an equal but non-exclusive right with the non-member publisher to license public performances of the work.

I must therefore decline to give you any general ruling on this point, but will be very glad to analyze any list of works you may send us, and inform you specifically as to which of them may be considered as included in the ASCAP repertoire and embraced by its license.

Attention: Mr. E. C. Mills

Gentlemen:

Reference is made to your letter of the 16th in reply to ours of February 15th. It would be extremely unfortunate, in view of the unequivocal terms of the ASCAP agreement with authors and composers, if as an ASCAP licensee we cannot rely on collateral information contained in the ASCAP publications and thereby identify the musical selections we are permitted to use in pursuance of the license we have with you.

As stated in our letter of February 15th, it has been noted that certain composers and authors listed in your 1931 and 1936 directories as members of the ASCAP have composed a number of compositions which were published in the period 1931 to 1936 inclusive by music publishers who have not been identified as members of the ASCAP. Further, it has been noted that these publishers have registered the compositions in question with the Register of Copyrights and list themselves as copyright claimants. The performing rights society of which these publishers are claimed to be members asserts that it controls the complete body of radio performing rights of these specific publishers.

Our interpretation of the contract between the ASCAP and its members is that such member (composer or author) agrees irrevocably to sell, assign, transfer and set over to the Society the entire exclusive right of public performance in each musical work which he may, during the term of the agreement, write, etc., alone, jointly, etc., or in which he may have any right, title or interest whatsoever. It is our understanding that the exclusive and irrevocable terms of ASCAP contracts with composers and authors were introduced in 1921 and were in effect in the period from January 1, 1931 to December 31, 1935.

In these circumstances it is our conclusion that only your Society (ASCAP) has the right to license for public performances the copyrighted musical selections of each and every of your author and composer members for the period January 1, 1931 to December 31, 1935.

Now to return to your letter of the 16th - you say:

> "I think your interpretation is entirely accurate as a generalization, but in specific instances it might not be. For instance, Jones, a lyric writer is a member of ASCAP in 1931. Smith, a composer is not a member. The two of them collaborate in writing a composition entitled "SUNSET" which is placed for publication with Brown, a non-member of ASCAP, who copyrights it in the year it was written.

For all I know, the courts might hold that Smith, the non-member was bound by Jones, the member, and the final result might be that ASCAP had an equal but non-exclusive right with the non-member publisher to license public performances of the work."

You then conclude by saying:

"I must therefore decline to give you any general ruling on this point, but will be very glad to analyze any list of works you may send us, and inform you specifically as to which of them may be considered as included in the ASCAP repertoire and embraced by its license."

We are accepting your offer and hereinafter indicate by publisher, composer and title the musical selections in which we are presently, particularly interested. However, in this connection we would advise that it is our belief that if we are in error in our interpretation, supra, and if your example of the composition entitled, "SUNSET", supra, typifies our error, then, it is our claim that the contract between the ASCAP and its members, at least, gives to the ASCAP a non-exclusive right to license us to perform "SUNSET". We request advice whether under such circumstances the ASCAP as licensor will protect us as licensee against claims which might be made by another.

Specifically the musical selections by publisher, composer and title in which we are presently interested are as follows: (Unless indicated by "N.M." all composers and authors are listed as members of the ASCAP in both the 1931 and 1936 ASCAP directories. It is noted that STAGMA and AKM are performing rights societies of Germany and Austria respectively, with whom ASCAP does have reciprocal agreements whereunder it represents in the United States of America such rights as their members have in this country.)

You neglected to express any opinion in your reply with respect to "Badinage" by Victor Herbert. "Badinage" by Victor Herbert was originally assigned by him to the Edward J. Schuberth Company, August 9, 1895, for "all times". This assignment was effective only as one for 28 years from September 12, 1895, the date of the original copyright, as no assignment of copyright can anticipate or assign away the right of renewal. (Paige v. Banks, 80 U. S. 608), Accordingly, Schuberth's rights to "Badinage" expired at the termination of the 28 year period in 1923. In view of the customary exclusive and irrevocable contract which we understand was entered into between Herbert and ASCAP in 1921, we believe that the instant the second 28 year period commenced to run after renewal, the performance rights to "Badinage" automatically vested in ASCAP. This together with the fact that the renewal was made through Nathan Burkan on September 12, 1922, and that the ASCAP program listings credits the performance rights of "Badinage" to M. Witmark and Company, an ASCAP publisher, is the basis for our conclusion that the performance rights in this composition are controlled only by the ASCAP. Do you agree with this conclusion? If not, wherein do you disagree?

Thanking you in advance for the information herein requested, we are,

SUPPLEMENTARY OPINION

MACK, Circuit Judge:

In the opinion filed December 19, 1934, after the reargument, I passed only on the objection of self-incrimination, because I assumed that defendant Mills would take advantage of the opportunity personally to raise that objection. He has not done so. A stenographic error in that opinion is to be corrected. I had originally over-ruled the objection to interrogatory 6 and not 5, as therein stated.

On the merits of the re-argument, I cannot concur in plaintiff's contentions as to the relevancy of defendants' other activities on the radio broadcasting situation, in which alone plaintiff is interested and in respect to which it may be able to show that it has been and will be injuriously affected unless the injunction be granted. Therefore, the original ruling is confirmed except that on further consideration I conclude that interrogatories 42 and 44 should be answered, but that the expense of gathering and compiling the information be paid by plaintiff. Defendants shall furnish plaintiff an estimate thereof within ten days, plaintiff may then pay the same or, on three days' notice to defendants, contest the reasonableness thereof, or consent that the interrogatories need not be answered.

Gene Buck, Louis Bernstein, Jerome Kern, E. C. Mills
(U.S. District Court for the Southern District of N.Y.)

In Equity No. E70-273 - December 19, 1934.

Defendant Mills filed objections to the following forty-four interrogatories propounded by plaintiff:

1. State and names of all members of the American Society of Composers, Authors and Publishers on January 1st of each of the following years, 1915, 1918, 1921, 1924, 1927, 1930, 1934.

2. State the number of licenses granted by said Society to proprietors of motion picture theatres in the United States during each of the calendar years from 1917 to 1933, inclusive.

On objection to the interrogatories, MACK, Circuit Judge, rendered the following opinion:

At the original hearing on the objections, defendants consented to answer numbers 1, 12 to 16 inclusive, 38 and 41, to furnish the names requested in 17 to 23 inclusive, and the Court directed answer to number 5 and number 43. The objections to the others of the forty-four interrogatories were sustained.

On application, re-argument was granted and subsequently briefs were filed.

Defendants urged as a general objection to answering any interrogatories that the charges in the present proceeding, a suit for an injunction, could be made the basis of criminal proceedings or of a penal action for triple damages and that as the interrogated defendant could not be called in a criminal proceeding as a witness for the prosecution, for like reasons he cannot be called to answer interrogatories in this civil suit. There is, however, no such general exemption. His privilege in this suit is only that of any witness, a privilege not to answer questions which may tend to incriminate him.

Plaintiffs, however, contend that inasmuch as a witness when called in a trial must personally claim the privilege against incrimination, so here the interrogated defendant must personally make a like claim, and that as he has not done so, the objection asserted by his attorneys should be overruled.

The only case directly in point is one in this district, In Re Knickerbocker Steamboat Co., 136 Fed. 956 (1905). The decision does not seem to have been cited in this aspect and I have found no other case in which this specific point now made appears to have been raised. There are, however, numerous cases in which demurrers and objections to answering interrogatories, apparently interposed only by counsel, have been sustained on the ground of their tendency to incriminate.

If the Knickerbocker case were in another district I should, in these circumstances, not follow it. I prefer, however, if it be feasible, to avoid deciding the point.

Leave will, therefore, be given to the interrogated defendant, Mills, personally, instead of by counsel, to file objections to such of the interrogatories the answers to which he may be advised would tend to incriminate him, such objections to be filed on or before December 24th.

If the answers to interrogatories 2 to 7 inclusive as to the number of licenses and the gross receipts from licenses to moving picture theatres, hotels, restaurants, cabarets and radio broadcasting stations for a number of years down to 1933 could be deemed at all relevant to the proof of plaintiff's case as tending to show a monopoly by defendants, they would be equally relevant as tending to show a crime and thus as tending to incriminate the interrogated defendant. This same reasoning is applicable to interrogatories 8 to 11 inclusive as to the names of all licensees holding "operators broadcasting licenses" and the income received therefrom or from certain broadcasting systems; likewise as to numbers 39 and 40 as to the gross payments made by the society to its members and publisher members for each of the years 1917 to 1933 inclusive; so too as to 42 and 43, the number of United States copyrighted and of foreign copyrighted musical compositions, the public performance rights to which have been acquired by the society; and 44, the title and composer's name of all United States copyrighted compositions, the public performance rights to which have been acquired by the society for the year 1933.

I adhere to the ruling sustaining the objections to 17 to 23 inclusive as to the compensations or salaries paid to the president, secretary, and general manager of the society for each of the years from 1927 to 1933 as in any event entirely immaterial to plaintiff's case; likewise for the same reason I sustain the objections to interrogatories 24 to 37 inclusive as to the operating expenses of the society exclusive of legal expenses, and separately as to attorneys' fees paid; all of these as to each of the years 1927 to 1933 inclusive.

TANGO CHITO

Festival and dance of village folk in America. Society dance imported from the Republic of Argentina, in the first years of the present century.

The music for these dances: (Hond.) A musical instrument used by the natives, in the firm of a cylinder made from a hollow log, one end of which is covered with leather and which is beaten upon.

TANGO MUS.

An American dance, according to some of Mexican origin, but Cuban according to general opinion. From the point of view of rhythm, it is similar to the Habanera (viz. this word). It is in 2/4 time and its movement is increasingly rapid until the end. Adopted for the style called Flemish, and with a hundred variations of rhythm and adornments, it is one of the most characteristic dances. In the good times of the zarzuela it frequently appears to be popular in character and was often used in variety shows and cafés chantants. It finally became almost extinct. Several Spanish composers have written tangos for Solo instruments, and one of them, Fernândez Arbos, wrote one for violin with orchestra accompaniment. A few years ago, a couple of Argentine dancers and singers introduced the tangos of their country into Spain, where they are now admitted as Society dances. This dance has a somewhat slower movement than the Cuban tango, is likewise written in 2/4 time, and that being its characterstic melody, it frequently uses syncope.

However, although we have already indicated the probable origin of this dance, we consider it curious, that according to the French publication L'Intermédiaire des Chercheurs et Des Curierx, it is derived from France, and this supposition attributes its origin to La Degognade des Auvernieuses, an unbridled dance movement. In effect, in the Memoires de Fléchier, in the second half of the 17th century, there are mentioned one hundred classes of bourree and of goignade as being prohibited in Auvergne. "The goignade", writes Fléchier, "has as foundation the agility of the bourrée, and takes pleasure in delineating the most indecorous figures, so much so that it may be called the dance of the libertines. The movements of the head, of the feet, of the shoulders, and of all the parts of the body are highly improper. The dancers approach one another, touch each other, embrace each other, in a manner so indecorous, that there is no doubt that it is a matter of imitating the dance of the Bacchantes."

Mme. De Sévigné also mentions in her letters from Vichy the dances of the bourrée at which she assisted, and which she found extremely licentious.

Tango - A slow, graceful dance in 2/4 time. It probably originated with the African negroes; in 1911 it became popular in a modified form in America and subsequently in Europe. It has much in common with the Cuban Habanera.

Even more popular (in the U. S.) proved the tango (Tango Argentina), a dance of doubtful character from the Argentine Republic, which being expurgated, created a dansomania on the Eastern and Western Continents.

A FEW OF THE ROYALTY EARNING SONGS RECENTLY CO-WRITTEN OR ARRANGED FOR PIANO by SYLVESTER L. CROSS

Make This 7 *Point Test*

Before Selecting a Collaborator

Your Success is My Success

FROM SUITE 605-6-7-7A STUDIO BLDG.
PORTLAND, ORE.

EXHIBIT 38-p. 2

Knowing that the SUCCESS OF A SONG depends in no small measure upon the catchiness and correct commercial form of the music as well as the manner in which the completed song is presented to the public, a wise writer will:

Make this Seven Point Test—Before Selecting a Collaborator

Seven Questions you have a right to ask of anyone offering collaboration services:

		Others ?
1. Has he connections with music publishers through which he can assist his co-writers secure advantageous publishing contracts on suitable songs?	Sylvester L. Cross has a substantial interest in several music publishing houses. His active contacts in the publishing field are at the disposal of each of his co-writers.	
2. Is special publishing consideration given to songs co-written or arranged by him?	Every month of the year publishers are accepting songs co-written or arranged by Sylvester L. Cross. At the present time over 200 popular songs and standard numbers serviced by him are earning royalties for their writers, with publishers steadily demanding more songs.	
3. Is he experienced in the requirements of theme songs for talking pictures?	Sylvester L. Cross is constantly arranging songs introduced on the screen. He made the commercial piano arrangements for songs featured in such current picture successes as "WESTWARD HO!", "RIDE, RANGER, RIDE", "THE BIG SHOW", "THE OLD CORRAL", etc.	
4. Are his compositions solicited and used by the radio stations and networks?	Songs composed or arranged by Sylvester L. Cross are featured daily and nightly on the air waves of the nation, reaching millions of listeners whose contact with the world of music and entertainment depends upon the family radio.	
5. Can he assist various of his co-writers in the recording of their songs?	Dozens of songs recently arranged or co-written by Sylvester L. Cross are featured on phonograph records and electrical transcriptions. If you buy records, send for descriptive list of these recordings.	
6. Has he an organization competent and prepared to present suitable completed songs to motion picture producers, recording companies, radio artists and music directors of radio stations?	Sylvester L. Cross has the benefit of an experienced organization of well-known music men, with years of success in the employ of major publishers. Offices are maintained at San Francisco and Hollywood-Los Angeles and representation at Chicago and New York.	
7. Is he a recognized figure in the song writing and music publishing field or is he (1) a "Has-Been" living on past connections or reputation or (2) an unknown operating from his home address or, as is often the case, from desk space in an office building *tenanted by legitimate publishers*, who outside of his magazine advertising and mail solicitation of amateur writers, is unheard of in the professional popular song writing and publishing field?	Sylvester L. Cross is nationally known and recognized in the legitimate song writing and popular music publishing field and offers a service based upon present achievements. It was Sylvester Cross who introduced the Golden Rule into the field of song service collaboration and TODAY HE IS THE LEADER IN THAT FIELD!	

PLEASE NOTE

In giving herewith the professional qualifications of Sylvester L. Cross, in contrast with those of "song bureaus", "services" and self-styled composers and arrangers who in times past have been the only available source of collaboration for most new writers, it is desired to make clear that Sylvester Cross is offering a **Professional Collaboration Service.** He cannot and does not guarantee publication or success for any song.

His contacts in the publishing, recording and motion picture fields, established thru years of concentrated activity, are used advantageously for suitable songs, when opportunity arises, but he cannot and does not imply or guarantee any success for any song in these connections.

Sylvester L. Cross is proud to be publicly identified with each new song he composes or arranges and his name appears as composer or arranger with that of his co-writer, on each manuscript copy.

You will find the above test both interesting and educational. In making it you will protect your pocketbook and will greatly increase your chances for success in this fascinating field. And having made this test, you will understand why *the published, royalty earning songs of the clients of Sylvester L. Cross outnumber those of the clients of all other composers, song bureaus and "services" combined,* offering a similar service.

(NAB TRANSLATION)

"With the present act, Mr. Vittorio Gnecchi, for himself and his heirs, declares that he has ceded, sold, and transferred to the Messrs. G. Ricordi & Company of Milan, Italy and 14 East 43rd Street, New York, the full and entire, absolute and exclusive rights for all countries, with the exception of Germany, Austria-Hungary and Russia Tedesca, in his opera "Cassandra" and the libretto of Luigi Illica.

Mr. Vittorio Gnecchi declares that he understands in this secession, that all the rights of publication, public performance, translation and reproduction by all forms and in any methods, of the present and of the future, are surrendered in their entirety to the Messrs. G. Ricordi & Company by Vittorio Gnecchi.

Mr.. Vittorio Gnecchi declares that he holds no additional rights in the opera "Cassandra" in disposing of it to Messrs. G. Ricordi & Company at the time of this deed.

Mr. Vittorio Gnecchi declares also that he has registered the opera "Cassandra" with the Register of Copyrights in Washington as follows:

In the year 1905 - The edition which has been arranged for voice and piano.

In the year 1910 - A new edition which has been arranged for voice and piano.

In the year 1911 - The orchestra score of the prologue of the opera.

The said Vittorio Gnecchi authorizes G. Ricordi & Company to inquire of the Register of Copyrights in Washington regarding the registration of the opera "Cassandra", actually existing there under the name of Mr. Vittorio Gnecchi and which is now entered under the name of G. Ricordi & Company, who is the proprietor (owner) of the opera under the terms of the present act.

In faith,

(Signed) Vittorio Gnecchi"

MOISSAYE BOGUSLAWSKI

FOR the first time in the annals of music publishing the Moderne Edition brings to the teacher and student, piano music with markings for pedaling, fingering and phrasing unsurpassed in completeness. The Moderne Edition not only includes the well-known classics, but also twenty new compositions by the celebrated pianist, Moissaye Boguslawski. His music is replete with richness of character as well as melodic charm and few masters of the keyboard know better the requirements of the student than this artist, for his renown as a famous pedagogue is well known to all the musical world. Mr. Boguslawski has modernized harmonically numerous of the well known classics.

McNinch, Craven Appointed To FCC Vacancies

On Tuesday, President Roosevelt sent the names of Frank R. McNinch and T. A. M. Craven to the Senate to fill the vacancies on the Federal Communications Commission created by the death of Anning S. Prall, chairman of the Commission, and Irvin Stewart, who resigned to enter private work.

At the time of the appointment Mr. McNinch was chairman of the Federal Power Commission and Mr. Craven was chief engineer of the Commission. Up to this time the chairman had not been appointed by the President but it is understood that it will be Mr. McNinch.

While nothing official has been made public, the general impression is that McNinch will only remain on the Communications Commission long enough to get some of the present difficulties straightened out.

Mr. McNinch, who was born at Charlotte, N. C., April 27, 1873, was originally appointed to the Power Commission in 1930 by President Hoover and has been chairman since 1933.

He was educated in the high schools of Charlotte and the Barriers Military Institute of the same place and began the practice of law in Charlotte in 1900. He was a member of the House of Representatives of North Carolina in 1905 and was mayor and commissioner of finance of Charlotte for two terms from 1917-1921.

Mr. Craven, who is a retired Lieutenant-Commander in the Navy, was appointed chief engineer of the Commission in November, 1935. He was born January 31, 1893, in Philadelphia and after completing his academic training, he was appointed to the U. S. Naval Academy, where he graduated with the class of 1913.

His first assignment after graduation was as Radio Officer on the U. S. S. *Delaware,* 1913-1915 during the Mexican Campaign. His professional duties since then follow:

Fleet Radio Officer, U. S. Asiatic Fleet, 1915-1917.

In charge U. S. Naval Coastal and Transoceanic Radio Operations, 1917-1920.

U. S. Naval Representative at Provisional Inter-allied Communication Conference at Paris, France, 1919.

Naval Representative on U. S. Government Inter-Departmental Board to arrange for collection and distribution of meteorological data in 1919.

U. S. Naval Radio Technical Adviser at International Conference on electrical communication at Washington, 1920.

Chairman of sub-committee on wave-length allocation at International Conference at Washington, D. C., in 1920.

Battleship Force Radio Officer, 1921.

U. S. Naval Representative at conference of Radio Technical Committee on International Radio Communication at Paris, France, in 1921.

Fleet Radio Officer, U. S. Atlantic Fleet, 1921-1922.

Fleet Radio Officer, United States Fleet, 1922-1923.

In charge of Radio Research and Design Section, Bureau of Engineering, 1923-1926.

Member of Inter-Departmental Radio Advisory Committee.

Radio Technical Adviser for radio frequency allocation at International Radio Conference, Washington, D. C., 1927.

Represented Navy Department on various national conferences (frequency allocation).

He resigned from the Navy in 1930 to engage in private radio practice as a consulting engineer.

His work as an author:

Commander Craven has made notable contributions to radio development in his writings. Among other things he collaborated with Captain Hooper in writing Robinson's Manual of Radio Telegraphy and Radio Telephony.

SESAC REPORT

The report on the Society of European Stage Authors and Composers (SESAC) is being mailed to members this week.

WORKING DATE OF RULE 981 EXTENDED

The Broadcast Division of the Federal Communications Commission has further extended the working date of Rule 981 for six months from September 15, 1937. This rule requires all relay, international, television, facsimile high frequency and experimental broadcast stations to have a frequency monitor in operation by September 15, 1936. This monitor does not have to be approved by the Commission but must have an accuracy of one half the allowed tolerance of the class of station with which it is to be used. The unavailability of commercial monitors on the market has necessitated this the third extension of the effective date of Rule 981.

NEW WIGGLESWORTH RESOLUTION

Representative Wigglesworth of Massachusetts, who has had so much to say recently on the floor of the House concerning radio and broadcasting, on Wednesday introduced a resolution (H. Res. 321) which has been referred to the House Committee on Interstate and Foreign Commerce, calling on the Federal Communications Commission for information in connection with possible holdings of its employees in any radio company. The resolution is as follows:

Whereas "no member of the Commission or person in its employ shall be financially interested in the manufacture or sale of radio apparatus or of apparatus for wire or radio communication; in communication by wire or radio or in radio transmission of energy; in any company furnishing services or such apparatus to any company engaged in communication by wire or radio or to any company manufacturing or selling apparatus used for communication by wire or radio; or in any company owning stocks, bonds, or other securities of any such company; nor be in the employ of or hold any official relation to any person subject to any of the provisions of this Act, nor own stocks, bonds, or other securities of any corporation subject to any of the provisions of this Act. Such commissioners shall not engage in any other business, vocation or employment. Not more than four commissioners shall be members of the same political party" (the Federal Communications Act of 1934, sec. 4b); and

Whereas addresses have recently been made by members of Congress in both the House and the Senate emphasizing the apparent failure to eliminate the evils of monopoly in the field of communications and more particularly in the radio-broadcasting field despite the intent of Congress manifest in the Communications Act of 1934; and

Whereas it appears possible that television may be added to the virtual monopoly apparently existing in this field; and

Whereas the apparent existence of trafficking in licenses, capitalization of Federal licenses at the expense of the public and other matters referred to, suggest the lack of proper administration, raising squarely the question of whether or not the Federal Communications Commission or the Broadcasting Division of the Commission is being conducted or is in a position to be conducted in accordance with the intent of Congress under the Communications Act of 1934; and

Whereas resolutions are now pending before both the House and the Senate with a view to a thorough-going investigation into the apparent monopoly in the radio-broadcasting field: Therefore be it

Resolved, That the Federal Communications Commission be required to furnish under oath the following information:

1. The name or names, if any, of any member, agent, or employee of the Commission financially interested in the manufacture or sale of radio apparatus or of apparatus for wire or radio communication; in communication by wire or radio or in radio transmission of energy; in any other company furnishing services or such apparatus to any company engaged in communication by wire or radio or to any company manufacturing or selling apparatus used for communication by wire or radio or in any company owning stocks, bonds, or in any other securities of such company.

2. The name or names, if any, of any member, agent, or employee of the Commission in the employ of or holding any official relation to any person subject to any provision of the Communications Act of 1934.

3. The name or names, if any, of any member, agent, or employee of the Commission holding, directly or indirectly, stocks, bonds, or other securities of any corporation subject to any provisions of the Communications Act of 1934; or having other interests profiting such member, agent, or employee, if any, through the action of the Commission in the field of communications; be it further

Resolved, That the above information be furnished the House of Representatives immediately.

RADIO CONFERENCE APPROPRIATION

The Senate has passed the resolution (S. Jt. Res. 197) providing an appropriation of $15,000 for the use of American delegates to the Inter-American Radio Conference to be held at Habana, Cuba, in November.

FORMAL WHITE REPORT

The Senate Committee on Interstate Commerce in making its formal report on the White radio resolution calling for a full survey of the broadcasting and radio situation had the following to say:

"Your committee, having had under consideration Senate Resolution 149, report the same to the Senate with the recommendation that the resolution do pass with an amendment fixing a limit of $25,000 on the expenditures of the committee.

"This resolution contemplates and authorizes a serious study of wireless communication problems with a view to recommendations to the Congress as to the principles and policies to be observed in the regulation of the industry and of radio communications. It directs such fact-finding investigation as is necessary if there is to be an intelligent consideration of these problems.

"In 1912, when the first act to regulate radio communications was enacted by the Congress, the only practical use of radio was for communication between ships and between ship and shore. At that time on the oceans of the world there were about 600 vessels equipped with radio. Transoceanic communication was in its very infancy. Broadcasting was unborn. Amazing developments have come in the intervening years. Wave lengths unknown in 1912 have become of common use. Power undreamed of when Congress first legislated is now projecting energy across the oceans and over continents. We now have facsimile transmission of writing, of printing, and of pictures. Beacon signals and the radio compass are new aids to navigation. Radiotelephony, television, and transmission of power are knocking at our doors.

"In the air hundreds of planes are signaling to and talking with each other and with the earth. Upon the oceans many thousands of ships are warned of ice, storms, and of other dangers. In the United States alone we have 666 broadcasting stations, 47,500 amateur stations, and 6,704 commercial stations. These commercial stations include some 26 different uses to which radio is put. No man knows of other refinements and uses soon to be here.

"This amazing growth has brought problems for the industry and for the Government of the greatest complexity and difficulty. The resolution suggests many of them, and it is unnecessary here to restate them. Except for such study as was given when the 1927 act was passed, there has been no serious study of radio communication by any committee of the Congress in the 25 years which elapsed since the act of 1912 became law. Your committee feel that the situation demands thorough study and that it should be immediately undertaken. The committee express the earnest hope that the resolution may have speedy passage to the end that this important work may be undertaken at the earliest possible moment."

The resolution has been referred to the Senate Committee on Audit and Control because of the provision for a $25,000 appropriation to carry on the investigation.

McFARLANE RADIO RESOLUTION

Representative McFarlane of Texas has introduced a resolution in the House (H. Res. 313) calling for an investigation of radio and broadcasting. It has been referred to the House Committee on Rules and is as follows:

Whereas the Congress, in creating the Federal Radio Commission and in enacting the Communications Act of 1934, expressly reserves to the people of the United States control of all radio frequencies; and

Whereas despite the restriction through the leasing of, the purchase of, the affiliating of, the operation of, or through the possession of contracts giving to a select few the exclusive right to use the more desirable time of these radio-broadcasting stations, there is reason to believe that, contrary to the intent and the spirit, as well as the language, of laws in force, one or more monopolies exist in radio broadcasting, which radio-broadcasting monopolies are believed to be profiting illegally at the expense and to the detriment of the people through the monopolistic control and operation of all clear-channel and other highly desirable radio-broadcasting stations, such as the Columbia Broadcasting System, the National Broadcasting Company, and the Mutual Broadcasting System, or other existing groups; and

Whereas it is believed that neither public interest, convenience, nor necessity is served by permitting virtual radio-broadcasting monopolies to control this property which has been reserved to the control of the American people; and

Whereas it is contrary to public policy, convenience, or necessity to allow any private groups to monopolize the use of a property reserved to and for the people; and

Whereas it has just become publicly known that stock racketeering exists in the sale of radio securities to the possible detriment of the innocent investing public, and wide-open trafficking in the sale and lease of radio licensing is and has taken place contrary to law; and

Whereas it has just become known that the three large radio chains above-mentioned and their lessees own and control 93 per centum of the broadcasting power of the Nation and that some two hundred of the largest radio stations are owned and operated in this chain system by the large daily newspapers of the communities in which said stations are located, thereby forming a combine of radio, motion picture, and press through cross-licensing and patent pooling, which largely control the molding of public opinion in this country; and

Whereas, under a consent decree approved by the Hoover administration and entered as an order of the Federal court in Wilmington, Delaware, November 21, 1932, a monopoly in radio manufacturing, sale, and distribution of all radio equipment was illegally authorized and the said consent decree also is credited with defrauding the stockholders of one corporation of more than $200,000,000: Therefore be it

Resolved, That a committee of seven Members of the House of Representatives shall be appointed by the Speaker, which committee is hereby directed to inquire into and investigate the allegations and charges that a monopoly or monopolies exist in radio broadcasting alleged to be held by the Columbia Broadcasting System, National Broadcasting Company, Mutual Broadcasting System, or others; be it further

Resolved, That the said committee shall make a thorough and exhaustive investigation of all charges and allegations of the existence of a monopoly or monopolies in radio broadcasting, sound motion-picture industry, and radio-newspaper broadcasting combinations and rates charged advertisers, and generally the effect of such monopoly or monopolies on the public, and said committee shall report in whole or in part at any time to the House of Representatives during the Seventy-fifth Congress, together with such recommendations for legislation or otherwise as it deems advisable; and be it further

Resolved, That said committee or any subcommittee thereof is authorized to sit and act during the present Congress at such times and places within the United States whether or not the House is sitting, has recessed, or adjourned; to hold such hearings; to require the attendance of such witnesses and the production of such books, papers, and documents by subpena or otherwise; and to take such testimony as it deems necessary with respect to such monopoly or monopolies and the management and operation of any company or companies being so investigated. Subpenas shall be issued under the signature of the chairman of said committee or any member designated by him and shall be served by any person designated by them or either of them. The chairman of the committee or any member thereof may administer oaths to witnesses. Every person who, having been summoned as a witness by authority of said committee, or subcommittee thereof, willfully makes default, or who, having appeared, refuses to answer any questions pertinent to the matter herein authorized to be investigated, shall be held to the penalties provided in sections 102 103, and 104 of the Revised Statutes of the United States, as amended (U. S. C., title 2, secs. 192, 193, and 194).

BILLY TRUEHART

A number of members have forwarded to NAB headquarters copies of a form letter from Billy Truehart requesting time on broadcasting stations on a per inquiry or percentage basis. Mr. Truehart has been advised that such a proposition is in violation of paragraph 6 of the NAB Code of Ethics and he has been requested to cease and desist from further attempts to obtain radio advertising on this basis.

JERSEY STATION RECOMMENDED

The Press-Union Publishing Company applied to the Federal Communications Commission for a construction permit for the erection of a new station at Atlantic City, N. J., to use 1200 kilocycles, 100 watts and 250 watts LS, and unlimited time on the air.

Examiner John P. Bramhall, in Report No. I-475, recommended that the application be granted. He found that a need for additional service in the area proposed to be served "has been clearly established." The proposed station, the Examiner found, would not cause objectionable interference with Stations WEST, WKBO, WCAU or WSNJ. He states that the granting of the application would be in the public interest.

G. RICHARD HIGHAM—MARK TYME—BOB WHITE

Anyone knowing the whereabouts of G. Richard Higham, often known as Mark Tyme and also as Bob White, please communicate with NAB Headquarters.

RECOMMENDS GEORGIA STATION

Several persons operating as J. K. Patrick & Company applied to the Federal Communications Commission for a construction permit for the erection of a new station at Athens, Ga., to use 1310 kilocycles, 100 watts and 250 watts LS, with unlimited time.

Examiner George H. Hill, in Report No. I-474, recommended that the application be granted, "subject to the selection of an approved transmitter site." He states that "there will be a definite need for radio services such as proposed, in the Athens area, when Station WRFI is removed to Atlanta, Ga., and adequate talent is available to supply the needs of the proposed station." The Examiner states further that the granting of the application would not result in any substantial interference with any existing station "but such interference as would be caused would be only slight."

NEW MONTANA STATION RECOMMENDED

The Roberts-McNab Company and the Gallatin Radio Forum both applied to the Federal Communications Commission for a construction permit for the erection of new stations at Bozeman, Mont., both asking for 1420 kilocycles. The first applicant asked for unlimited time to use 100 watts and 250 watts LS, while the second applicant asked for daytime operation, 250 watts.

Examiner Melvin H. Dalberg, in Report No. 473, recommended that the application of the first named be granted but that of the Gallatin Radio Forum be denied. There is an obvious need for a station at Bozeman, the Examiner states, there being no radio station at that place. He says that the Roberts-McNab Company "by reason of its business interests, is apparently more closely allied and familiar with the broadcasting needs of the population of Bozeman and its surrounding area. These matters, in conjunction with the unlimited hours of operation proposed by the latter applicant, lead the Examiner to the conclusion that it is better qualified to operate such a station in the public interest, convenience and necessity."

RECOMMENDS ON SOUTH DAKOTA STATIONS

Broadcasting station KWTN, Watertown, N. Dak., applied to the Federal Communications Commission to change its frequency from 1210 to 1340 kilocycles, and to increase its power from 100 to 250 watts and 500 watts LS. Also KGDY, Huron, S. Dak., asked the Commission to change its frequency from 1340 to 1210 kilocycles, and to change its power from 250 watts to 100 watts and 250 watts LS. Also station KGDY applied to the Commission for authority to transfer its control.

Examiner Tyler Berry, in Report No. I-471, made the following recommendations:

1. That the application of the Greater Kampeska Radio Corporation (KWTN) for renewal of license be granted subject to compliance, as a condition precedent, with Rules 131, 132, and 139;
2. That the application of the Greater Kampeska Radio Corporation (KWTN) for construction permit be denied;
3. That the application of the Voice of South Dakota for a renewal of license be granted subject to compliance with Rules 131, 132, and 139;
4. That the application of Voice of South Dakota for construction permit be denied; and
5. That the application of Dr. Finn Koren, Robert J. Dean, and M. W. Plowman, Transferors, for authority to transfer control of the Voice of South Dakota, licensee of Radio Station KGDY at Huron, S. Dak., to Greater Kampeska Radio Corporation, Transferee, be granted.

NEW OHIO STATION RECOMMENDED

The Summit Radio Corporation applied to the Federal Communications Commission for a construction permit for the erection of a new station at Akron, Ohio, to use 1530 kilocycles, 1,000 watts, and unlimited time.

Examiner John P. Bramhall, in Report No. I-476, recommended that the application be granted. He states that the need for additional service was established at the hearing and he stated further that the interests of stations WBRY and KXBY "will not be adversely affected by reason of interference should this application be granted." The Examiner states further that the granting of the application will serve the public interest.

BROADCAST ADVERTISING FOR THE FIRST HALF OF 1937 AND FOR JUNE

BROADCAST ADVERTISING FOR THE FIRST HALF OF 1937

PRINCIPAL DEVELOPMENTS

Broadcast advertising for the first six months of the current year amounted to $65,426,432, as compared to $50,802,179 for the corresponding period of 1936, a gain of 28.7%. All portions of the medium showed gains in gross time sales. National non-network volume increased to the greatest extent, rising 43.3% over the level recorded for the first half of 1936.

Radio broadcasting for the first half of this year showed the greatest relative increase of any major medium. Compared to the 28.7% rise on the part of radio broadcasting, national magazine advertising increased 16.2% in volume, national farm paper volume 13.6%, and newspaper lineage 2.9%.

Total non-network advertising exceeded the gross time sales for the first half of last year by 32.8%. The regional station group showed the greatest gain by rising 45.6%. Non-network advertising in the New England-Middle Atlantic Area increased to a greater extent than that in other portions of the country.

Live talent programs enjoyed the principal increase among the types of rendition. Live talent programs increased 37.1%, transcriptions 24.4%, records 25.1%, and announcements 34.0%.

Gross time sales for the first half of the year showed an increase in tobacco and foodstuff advertising in all portions of the medium. National network automotive advertising enjoyed a marked increase, as did regional and national non-network clothing advertising. The other principal gains were in the following groups: National non-network cosmetics and beverages, national network and local household equipment, national network and national non-network soap and kitchen supplies, national and regional network financial, national network and local radio set, and local department store advertising.

TOTAL BROADCAST ADVERTISING

Total broadcast advertising over various portions of the radio broadcasting medium for the first half of the current year as compared to the corresponding period of the preceding year is set forth in Table I.

TABLE I

TOTAL BROADCAST ADVERTISING

Class of Business	*Gross Time Sales First Half* 1936	1937
National networks	$28,181,976	$35,564,039

BROADCAST ADVERTISING IN JUNE

HIGHLIGHTS OF THE MONTH

Total broadcast advertising during the month of June amounted to $10,611,913, a decline of 6.2% from the volume recorded for last month. This decline, a usual seasonal tendency, was much less than the usual downward summer trend. Declines were general throughout the broadcast field, all portions of the medium declining at approximately the same rate. Gross time sales for the month were 34.0% ahead of the level of last June. National non-network volume showed the greatest gain of any portion of the medium, rising 44.2%. National network volume rose 39.5%, regional network volume 21.0%, and local advertising 13.5%.

Although all major media declined in advertising volume as against May, radio broadcasting declined to the least extent. Radio gross time sales declined 6.2%, while national magazine volume dropped 18.0%, national farm papers 13.1%, and newspaper lineage 6.9%. Radio also showed the greatest increase in advertising volume as compared to last June.

Non-network advertising for the month declined 7.2% compared to May but showed a 28.6% gain in volume over last June. Local station volume showed the only gain over last month. While all sizes of stations increased their gross time sales over June 1936, the greatest gain occurred in the clear channel and high-powered regional station group. Among the geographical districts of the country the Pacific and Mountain Area alone showed a gain as compared to last month, while the New England-Middle Atlantic Area continued to show the greatest gains in volume as compared to corresponding periods of last year.

All types of rendition, with the exception of records, showed declines in volume in both the national non-network and local fields as compared to last month. Live talent registered the most important gains in both the national non-network and local fields as compared to last June.

The principal gains over last month occurred in the following groups: national network clothing and financial, regional network beverage and toilet goods, national non-network automotive and financial, and local toilet goods and soap and kitchen supplies. Retail broadcast advertising over individual stations amounted to $1,260,370, a decline of 5.4% from the volume recorded in May but 20.0% greater than that of June 1936.

TOTAL BROADCAST ADVERTISING

Total broadcast advertising for the month of June is found in Table I.

TABLE I

NON-NETWORK ADVERTISING BY TYPE OF RENDITION

Among the various types of rendition, only records showed a gain in volume compared to last month. Total record volume increased 16.2% over May, while total transcription volume declined 8.9%, live talent 5.7%, and announcements 10.1%. However, as against last June all types showed increases in volume. Total transcriptions rose 23.4%, live talent 38.8%, records 20.4%, and announcements 15.6%.

In the local field, transcriptions declined 1.7%, live talent 7.7%, and announcements 4.8% compared to May. Record volume increased 2.4%. As compared to last June, transcriptions rose 3.9%, live talent 20.8%, records 12.3%, and announcements 6.5%.

In the national non-network field, transcription volume declined 10.6%, live talent volume 3.8%, and announcements 17.9% as against last month. Records tripled in volume. Live talent showed the most important gain in the national non-network field as compared to last June in rising 59.9% in volume. Transcriptions rose 29.8%, records 81.1%, and announcements 35.1%.

Non-network broadcast advertising by type of rendition is found in Table V.

SPONSOR TRENDS IN JUNE

Declines were general in the national network field as compared with last month. Clothing and financial advertising showed the only gains of importance, while automotive and household equipment advertising showed the most marked declines. In the other portions of the medium, national non-network automotive, regional network and local toilet goods, regional network beverage volume, local soap and kitchen supplies, and national non-network financial advertising showed the most pronounced increases. Regional network household goods, national non-network and local confectionery volume, and national non-network and local radio set advertising declined to the greatest extent.

Compared to the preceding June, increases were fairly general, with the following outstanding gains: national network household equipment, financial and tobacco advertising; regional network toilet goods, soap and kitchen supplies and financial advertising; national non-network clothing, foodstuffs and tobacco advertising; and local tobacco and department store advertising.

Broadcast advertising by major sponsor groups is found in Table VI.

Details as to trends in the various product and service groups sponsoring radio advertising are as follows:

1a. ***Amusements.*** National non-network business two and one-half times as great as last month. Local volume up 6.2%. Compared to last June, national non-network down 49.1% and local business up 17.1%.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3198. Unfair methods of competition in connection with the sale of silverware and earthenware or chinaware are alleged in a complaint issued against **Matthew A. Willis,** 419-427 Lumber Exchange Building, **Minneapolis,** trading as **Rogers Redemption Bureau.**

Willis is said to market his silverware by selling to merchants gift cards, in minimum lots of 10,000, which he redeems in such wares when they are returned by customers of the merchants distributing the cards.

In certain contracts which merchants sign, the complaint alleges, appear the words "Wm. A. Rogers Silverware" and "Wm. A. Rogers, Ltd.", while the gift cards bear the advertisement of the merchant and the words "Wm. A. Rogers silverware to our customers".

It is charged that use of these words is false and misleading in that prospective purchasers are led into the erroneous belief that Rogers Redemption Bureau is connected with Oneida Ltd., manufacturer of the genuine Wm. A. Rogers silverware. According to the complaint, no such connection exists, except that the respondent purchases Oneida, Ltd., products through a jobber.

Among other representations which the respondent allegedly makes, and which the complaint charges are false, are that a 26-piece set of silverware is furnished free to every merchant purchasing the minimum quantity of cards; that merchants will be refunded the money paid for gift cards when a certain number has been redeemed, and that customers of such merchants will receive articles of silverware without any additional cost upon sending to the respondent a designated number of cards for redemption.

No. 3199. Use of unfair methods of competition in the sale of mattresses is alleged in a complaint issued against **Abraham** and **Benjamin Sohn,** trading as **Sohn Bros.,** 1320 Roosevelt Road, **Chicago.**

It is charged that the respondents manufacture mattresses from materials obtained from old, second-hand, and discarded mattresses, and from other sources. Such mattresses, the complaint alleges, are covered by the respondents with new material and have the appearance of being new, but are not labeled or marked to indicate that they are made from old, used, and secondhand materials.

No. 3200. Misrepresentation of the character and quality of wrist watch buckles is alleged in a complaint issued against **Algren Manufacturing Company, Inc.,** 8 Washington Place, **New York.**

Buckles sold by the respondent company to jobbers and retailers, and resold to the purchasing public, allegedly are branded "Gold-Filled", when, the complaint charges, they do not contain a layer or coating of gold of such substantial thickness as to be properly and accurately represented or designated as "Gold-Filled".

No. 3201. Chenille Corporation of America, 3945 North Western Ave., **Chicago,** is named respondent in a complaint charging use of unfair methods of competition in connection with the interstate sale of rugs.

The respondent company allegedly represents to retail store customers that its rugs are hand-hooked or hand-made, and pursuant to such representations certain stores also advertise the rugs as being hand-hooked and hand-made, using such assertions as "Every rug is a work of art, hand-hooked, requiring hours and hours to produce."

According to the complaint, the respondent company's rugs are not made by hand so as to be properly represented and designated as hand-hooked, hand-made, or as hooked rugs, but are produced by machine and are of lower cost than rugs which actually are hand-made or hand-hooked.

No. 3202. In a complaint, **Fee & Stemwedel, Inc.,** 4949 Pulaski Road, **Chicago,** is charged with representing that certain weather-indicating instruments it sells in interstate commerce are manufactured in the United States, when such is not a fact.

The respondent company, it is alleged, assembles various models of weather-indicating instruments, some being a combination of thermometer, hygrometer and barometer, and others being merely barometers. According to the complaint, the complete barometer mechanism, to which the respondent company adds a dial and indicator, is enclosed in a case bearing the words "Made in U. S. A. by Fee & Stemwedel, Inc., Chi."

No. 3203. A complaint alleging use of certain unfair methods of competition in violation of Section 5 of the Federal Trade Commission Act has been issued against **Joy Package Company, Inc.,** 37 East 12th St., **New York,** engaged in the sale and distribution of candy.

Representations made by the respondent company in advertising literature and by its agents allegedly are to the effect that it controls and operates factories and manufactures the merchandise in which it deals. According to the complaint, the respondent company is not a manufacturer but only purchases and repacks the candy and other merchandise which it sells.

No. 3204. Misrepresentation of the merit of certain life preservers is alleged in a complaint issued against **Acme Products Company,** 152 Brewery St., **New Haven, Conn.**

Certain of the respondent company's life preservers, of the cushion type, allegedly are branded as follows: "Guaranteed to comply with the rules and regulations of the Steamboat Inspection Service; allowing cushions as life preservers on pleasure boats."

Rules and regulations of the United States Steamboat Inspection Service are that a life preserver must be capable of sustaining afloat for a continuous period of 24 hours a weight so arranged as to provide a continuous downward gravitation pull of 20 pounds.

Stipulations

The Commission has entered in the following stipulations:

No. 01835. D. Borovitz, 1612 Summit Lake Blvd., Akron, Ohio, trading as Puritan Laboratories, will stop representing that Kwik-Silver is a preparation which will plate pure silver on silver articles, that it contains no injurious ingredients, and that the plating is permanent. The respondent also will eliminate the word "Laboratories" from his trade name, and cease making unmodified representations of earnings in excess of the average earnings achieved by his active, full-time salesmen or dealers under normal business conditions.

No. 01836. The House of Gurney, Inc., Yankton, S. Dak., engaged in selling baby chickens, agreed to discontinue advertising that it owns or controls a hatchery, incubators, a chick nursery, or laying flocks which supply eggs for hatching purposes.

No. 01837. Howard D. and Robert B. Blackburn, 316 College St., Dayton, Ohio, operating under the firm name of The Sulfex Company, stipulated that they will cease advertising that Sulfex, said to contain sulphur as one of its ingredients, is a competent treatment or an effective remedy for pimples, acne, or any other skin condition, unless such representation is limited to those conditions which actually are relieved by the use of the preparation. The respondent also will cease representing that every physician approves Sulfex, and that lack of sulphur in the diet will "wreck" a complexion and cause certain skin ailments.

No. 01838. False and misleading representations in advertising Silvercote Insulation Fabric will be discontinued by **Silvercote Products, Inc.,** 161 East Erie St., **Chicago,** under a stipulation.

The respondent company will refrain from advertising that its product represents 100 per cent more insulation value than other insulating materials and that one layer of Silvercote Fabric equals the efficiency of two commercial thicknesses of ordinary insulation board.

No. 01839. Sego Milk Products Company, 159 West First South St., Salt Lake City, stipulated that it will cease advertising that Sego milk will prevent rickets, unless this representation is limited to indicate that it will prevent rickets only when the product is used by normal babies; that it will insure alertness, vigor, or physical fitness in infants, and that its vitamin D content is "the same as sun's rays".

No. 01840. Quisenberry-Hobbs Company, Third and Washington Streets, Kansas City, Kans., selling Gold Bond Chick Starter Feed, agreed to stop representing that such product will cause chicks to grow quicker and make chickens lay earlier than any other feed; that it supplies every need for bones, body, health or quick maturity; that through use of the feed the egg yield will be doubled, and that no other feed will produce equal results.

No. 01841. Pictorial Statues of America, Inc., Janesville, Wis., has entered into a stipulation to discontinue false and misleading advertising in connection with the sale of photographs which it designates as statues.

The respondent corporation will cease representing that its photographs are statues or statuettes unless qualified by the word "pictorial" or other words of like import, or that they are fade-proof and everlasting.

No. 01842. Trading as **The Nu Lac Yeaston Company, Mrs. W. J. Johnson** and **M. J. Maystadt, Jefferson, Iowa,** have entered into a stipulation to cease making false and misleading representations in advertising certain poultry and livestock feeds which they sell in interstate commerce. Their feeds are known as Nu Lac for Cattle, Horses and Sheep, Special Necro Treatment, and Nu Lac Poultry Mixture.

No. 2030. Charles Mostow, 2333 Chicago Ave., **Chicago,** trading as **Majestic Electric Supply Company,** has entered into a stipulation to discontinue certain unfair methods of competition in the interstate sale of radio sets branded with the name "Majesco".

The respondent agreed to stop using as a trade name or brand for radio sets the word "Majesco", or any other simulation of the name "Majestic", so as to imply that such sets are made by Grigsby-Grunow Company, the original manufacturer of Majestic sets, or by its successor in business, Majestic Radio and Television Corporation of Chicago, when such is not a fact.

No. 2032. City of Paris, Ltd., 878 Broadway, New York City, selling toilet powders and perfumes, will discontinue the use in its corporate name of the word "City" printed in script so as to simulate the word "Coty," thus tending to cause customers to believe that its products are those of a competitor, Les Parfums Coty. The company also stipulated that it will desist from use of the words "London," "Sydney," and "Paris" in any manner so as to imply that it has offices or business connections in those foreign cities named, and from use of the word "Paris" in its corporate name, or otherwise, implying that its products are of French origin, when such are not the facts.

Cease and Desist Orders

The Commission has issued the following cease and desist orders:

Nos. 2417-2446. Orders to cease and desist from representing that they are distillers of spirituous beverages, when such is not a fact, have been entered against two **Chicago** corporations, **Lionel Distilled Products, Inc.,** 1919-1927 West Pershing Road, and **Paramount Distilling Corporation,** 512 South Peoria St.

The respondent companies are ordered to discontinue representing, through use of some form of the word "distilling" in their corporate names, in advertising matter, on labels, or otherwise, that they distill whiskies, gins or other spirituous beverages; that they manufacture such products through the process of distillation, or that they own or operate distilleries, unless and until they do own or operate such places.

No. 2607. An order to cease and desist from the use of certain methods of unfair competition in the interstate sale of radio sets, pen and pencil sets, cameras and similar merchandise has been entered against **J. K. Levy,** alias **J. K. Lee** and **David Levy,** both of 130 North Wells St., **Chicago,** trading as **Levore Company,** or otherwise.

Selling or otherwise disposing of merchandise by the use of punch, push or pull cards, or by means of any device involving the use of a lottery scheme or game of chance, is ordered discontinued. The respondents are prohibited from shipping to their agents or to members of the public lottery devices, through the use of which such persons are enabled to sell the respondent's merchandise.

No. 2748. Arpaul Company, Inc., 333 West 52nd St., **New York,** has been ordered to cease and desist from certain unfair methods of competition in connection with the sale of Ortosan, recommended as a facial treatment preparation.

Prohibited by the order are representations that the product is five creams in one and the most highly praised skin cream in the world, having the endorsements of leading medical authorities and beauty specialists; and that its use will restore youthful contours to the face, chin and neck, erase wrinkles and blemishes, banish large pores and fine lines, and immediately produce a fresh, healthy skin.

No. 2887. Trading as **Everlast Suit Case & Bag Co.,** 130 West Bleeker St., **New York, Israel Zaveloff** and **Harry Bernstein** have been ordered to cease and desist from misbranding certain leather luggage they sell in interstate commerce.

The respondents are ordered to discontinue representing, through use of the words "Genuine Leather" or "Leather," or any other words of similar import and effect, stamped on labels or on the luggage itself, that luggage manufactured in whole or in part from the underlayers or flesh side of the hide, known as split leather, is made from the outside layer of the hide.

No. 2889. Misbranding of certain leather luggage sold in interstate commerce is prohibited under an order entered against **Mutual Brief Case Company,** 133-135 Kossuth St., **Newark, N. J.**

Findings are that the two general types of leather employed in the manufacture of luggage are top grain leather and split leather, and that the purchasing public generally has a pronounced preference for leather goods manufactured from the former type.

Nos. 3180-3181. Orders to cease and desist from the use of lottery schemes to promote the sale of merchandise have been entered against two **Chicago** dealers, **E. I. Donahue,** trading as **Donahue Advertising Company,** 407 South Dearborn St., and **Carlton, Inc.,** trading as **Carlton Sales Company,** 17 North Wabash Ave., **Chicago.**

The orders direct the respondents to discontinue selling or otherwise disposing of merchandise by the use of push cards or similar devices, and to stop shipping such devices so prepared and printed as to enable others to sell merchandise by the use thereof. The respondents are further prohibited from disposing of merchandise free of charge or at varying prices, depending upon lot or chance.

NEW FCC COMMISSIONERS CONFIRMED

The Senate before adjournment confirmed Frank R. McNinch and T. A. M. Craven as members of the Federal Communications Commission to fill the vacancies left by the death of Chairman Anning S. Prall, and Dr. Irvin Stewart, resigned.

Mr. Craven was sworn in as a member of the Commission on Wednesday. It is reported that Mr. McNinch will not take the oath of office for a short time owing to the fact that he has some matters at the Federal Power Commission which he wishes to clear up first.

NEBRASKA BROADCASTERS ELECT OFFICERS

The Nebraska Broadcasters Association held its annual meeting at Grand Island on August 9. The officers and directors elected for the ensuing year are: John M. Henry, KFAB-KFOR-KOIL, President; Clark Standiford, KGFW, Vice-President; Art Thomas, WJAG, Secretary-Treasurer; Frank Manchester, WAAW, and L. L. Hilliard, KGKY, Directors.

CHANGE IN POWER AND FREQUENCY RECOMMENDED

Broadcasting Station KABR, Aberdeen, S. Dak., applied to the Federal Communications Commission for a construction permit to change its frequency from 1420 kilocycles to 1390 kilocycles and to increase its power from 100 watts, unlimited hours to 500 watts night-time and 1,000 watts LS, with unlimited hours of operation.

Examiner R. H. Hyde, in Report No. I-481, recommended that the application be granted. He stated that due to the unusually large geographical area and the long distances between larger communities, the additional facilities applied for are needed to improve the service now available in Aberdeen and to extend it to a greater area and he added that the proposed changes would not cause interference to other stations on the same or adjacent frequencies.

STATUS OF FEDERAL RADIO LEGISLATION

The resolution of Senator White of Maine calling for an investigation of the radio industry was not passed during the closing hours of the first session of the Seventy-Fifth Congress which adjourned Saturday, August 21.

A Special Bulletin concerning the A. F. of M. situation will be issued later this week following a meeting of the NAB Executive Committee.

The White resolution was favorably reported by the Senate Committee on Interstate Commerce but an appropriation of $25,000 was added to defray the expenses of the investigation which necessitated its reference to the Senate Audit and Control Committee. As the session ended the resolution had not been reported out by the latter committee.

All bills introduced during the present session will retain their status when Congress reconvenes for the second session of the Seventy-Fifth Congress.

There follows a tabulation of the status of all federal bills of importance to broadcasters, separated as to Senate and House of Representatives.

RECOMMENDS POWER INCREASE FOR WMMN

Broadcasting station WMMN, Fairmont, W. Va., operating unlimited time on 890 kilocycles, applied to the Federal Communications Commission for an increase in power from 500 watts night, 1,000 watts LS, to 1,000 watts night, 5,000 watts LS.

Examiner Robert L. Irwin recommended that the application be granted. He stated that there is a need for additional service in the area, that the increase will not cause interference with any existing or proposed stations and that the granting of the application will be in the public interest, convenience and necessity.

ANTENNA TOWER MARKING

The Federal Communications Commission has issued the following in connection with the marking of antenna towers.

It has come to the attention of the Commission that the effectiveness of the antenna marking of many radio stations is considerably below normal, due to employing improper lamps and covers, failure to keep covers clean and deterioration of the tower paint.

In order to increase the effectiveness of this marking, thereby reducing the hazard to air navigation, the following instructions are issued:

(a) All antenna marking fixtures now equipped with lamps of 100 watts or less shall be equipped with 100 watt traffic signal lamps, Type A-21 clear, medium screw base. All lamps must be enclosed in aviation red prismatic obstruction light globes.

(b) All 200 watt code beacons shall be equipped with 200 watt general lighting service lamps, Type PS-30, clear, mogul prefocus base (where mogul prefocus base sockets are not now installed, these shall be installed).

(c) All 500 watt code beacons shall be equipped with 500 watt general lighting service lamps, Type PS-40, clear, mogul prefocus base (where mogul prefocus base sockets are not now installed, these shall be installed).

(d) All 500 watt rotating beacons shall be equipped with 500 watt aviation lighting service lamps, Type T-24 clear, mogul bi-post base.

(e) All 1000 watt rotating beacons shall be equipped with 1000 watt aviation lighting service lamps, Type T-20 clear, mogul bi-post base.

Attention is invited to the fact that these lamps which are particularly designed for the services specified, having considerably longer life than ordinary lamps of similar wattage, and in addition are much more efficient for these services. The use of the proper lamps as above stated, should materially increase the effectiveness and reduce the cost and inconvenience of maintenance.

(f) The tower paint shall be kept in good condition and repainted as often as necessary to maintain this condition. Towers now painted black and yellow shall when repainting is necessary, be painted in accordance with the present standards as follows:

"Each tower shall be painted throughout its height with alternate bands of international orange (orange yellow No. 5 of Color Card Supplement to the United States Army Quartermaster Corps Specifications No. 3-1) (see color card attached) and white, terminating with international orange bands at both top and bottom. The width of the international orange bands shall be one-seventh the height of the structure (if towers are over 250 feet, bands should be from 30 to 40 feet). The white bands shall be one-half the width of the international orange bands."

These instructions are effective immediately and the licensees of all stations where antenna marking is required shall proceed immediately to comply therewith.

WGL POWER INCREASE RECOMMENDED

Radio sation WGL, Fort Wayne, Ind., operating unlimited time on 1370 kilocycles applied to the Federal Communications Commission to increase its power from 100 watts to 100 watts night and 250 L. S.

Examiner Tyler Berry, in Report I-477, recommended that the application be granted. He states that there is a need for additional service in that area and that no objectionable interference will be caused by the proposed increase in day power.

APPROPRIATION FOR RADIO CONFERENCE

Just before adjournment the House of Representatives passed S. J. Res. 197, providing for an appropriation of $15,000 for the use of the American delegation to the Inter-American Radio Conference to be held at Habana, Cuba, beginning in November. The resolution had already passed the Senate.

RECOMMENDS AGAINST NEW ILLINOIS STATION

Robert Raymond McCulla applied to the Federal Communications Commission for a construction permit for a new broadcasting station at Oak Park, Ill., to be operated on 1500 kilocycles, 100 watts power and daytime operation.

Examiner Tyler Berry, in Report No. I-480, recommended that the application be denied. He found that the applicant was not technically or financially qualified to construct and operate the proposed station, that the area is now receiving satisfactory primary service and that the site selected for the station was not satisfactory from an engineering standpoint.

DENIAL RECOMMENDED ON ILLINOIS APPLICATION

The Key City Broadcasting Company applied to the Federal Communications Commission for a construction permit for the erection of a new broadcasting station at Kankakee, Ill., to operate on 1500 kilocycles, 100 watts power, unlimited time.

Examiner Tyler Berry, in Report No. I-479, recommended that the application be denied. He stated that the applicants were not financially and technically qualified to construct and operate the proposed station, that the area now receives primary service from a number of stations, and the proposed station would cause objectionable interference with Station WHIP.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

No. 3205. A complaint has been issued against **S. C. Ross,** 64 West Randolph St., **Chicago,** trading as **Ideal Gift Company,** alleging unfair methods of competition in promoting the sale of rotary clocks, fountain pen and pencil sets, and other merchandise through use of lotteries or gift enterprises.

The complaint alleges that the respondent furnishes customers with pushcards, the use of which involves the distribution of merchandise to ultimate consumers wholly by lot or chance. The pushcard, it is alleged, permits the drawing of prizes by chance through selection of a certain name from among a number of feminine names appearing on the cards.

No. 3206. Misrepresentation of certain piece-goods as silk, when in fact they are composed of other materials, is alleged in a complaint issued against **H. Kluger, Inc.,** 180 Madison Ave., **New York.**

On labels and in advertising matter, the respondent allegedly describes and refers to products not composed of silk as "Pur'Di", "100% pure dye", "pure silk filled", "100% pure dye crepe" and "crepe".

Dress goods and other items of wearing apparel to which such descriptive words and phrases are applied, the complaint charges, have for a long time been associated in the public mind with a fabric commonly known as and understood generally to be silk.

No. 3207. Use of lotteries or gift enterprises to promote the sale of bed and table linen, silverware, wearing apparel and other merchandise is alleged in a complaint against **John C. Merritt,** 1321 South 22nd St., **Birmingham, Ala.,** trading as **Merco Sales Company.**

The respondent is charged with furnishing customers with pushcards, the use of which involves the distribution of merchandise to ultimate consumers wholly by lot or chance. The pushcard, it is alleged, permits the drawing of prizes by chance through selection of a certain name from among a number of feminine names appearing on the card.

No. 3208. Corrugated Container Corporation, 230 Third Ave., **Brooklyn,** is respondent in a complaint alleging use of unfair methods of competition in the sale of corrugated paper fiber boxes.

The case involves the company's alleged improper stamping of its products in violation of rules on file with the Interstate Commerce Commission relating to the construction requirements of corrugated paper boxes used in shipments by rail.

No. 3209. The William M. Hardie Company, 1584 East 19th St., **Cleveland,** is charged in a complaint with unfair competition in the sale to dealers of candies so packed and assembled as to involve use of a lottery scheme when such products are resold to ultimate consumers.

No. 3120. Charging false and misleading representations in the sale of men's and women's wearing apparel, a complaint has been issued against **Samuel Stores, Incorporated,** 460 Fourth Ave., **New York.**

In advertisements and sales talks, the respondent company is alleged to have represented that with purchases amounting to $25, certain gifts would be awarded, consisting of a choice of a $6.95 dress, an all-weather sport coat, or a pair of men's shoes.

Stipulations

The Commission has entered into the following stipulations:

No. 2031. The Stetson Pants Company, 212 East 8th St., Cincinnati, selling men's clothing, agreed to discontinue use of the word "free" as descriptive of garments which actually are not given free but are given as a consideration to persons for services performed by obtaining new customers. The company also will cease using the phrase "tailored-to-fit" or words of similar meaning so as to imply that the garments to which such words refer are made to the individual measure or order of customers, when this is not true. The Stetson Pants Company also trades as The Manhattan Neckwear Company, Gibson Sweater Company and The Burton Pants & Garment Co.

No. 2033. Silverman & Grean, Inc., 231 West 29th St., New York, selling fur coats, will stop using in advertising matter as a brand or label for its products, the word "seal" or the word "Bioseal" alone or in connection with the explanatory phrase "the aristocrat of dyed coney," so as to imply that such coats are made from seal. The company also will discontinue employing such descriptive words or phrase in any manner tending to confuse purchasers as to the kind of fur from which its coats are manufactured.

No. 2034. False and misleading advertising will be discontinued under a stipulation entered into by **Samuel T.** and **Dora Schwartz,** trading as **Chas. Schwartz & Son.,** 708 Seventh St., N. W., **Washington, D. C.,** dealers in jewelry and other merchandise.

The firm agreed to desist from the use in advertising matter of the word "free" as descriptive of merchandise represented to be given away with the purchase of other merchandise, when, in fact, the so-called "free" article is included in the price asked for the goods sold.

No. 2035. Les Parfums Marly, Inc., 525 Broadway, New York, agreed to cease using the word "Paris" or "France" or the phrase "Made in France", alone or in connection with each other on its packaged perfume products, or otherwise, so as to directly assert or imply that such perfumes are of French origin and imported from France as finished perfumes. Use of the word "Paris" or of the address "Paris, 24 Rue Caumartin" on packaged products or in any manner implying that the company has an office at such place, when this is not a fact, will be discontinued. According to the stipulation, the company is engaged in compounding perfumes in this country from imported essential oil and essences, to which is added denatured alcohol as a diluting agent.

No. 2036. Busch Jewelry Company, Inc., 35 West 14th St., New York, stipulated that in advertising certain radio sets it sells it will stop employing the word "General" in connection with the statement "Headquarters for General Electric Radios", and will no longer use the word "General" as a trade name so as to imply that the sets so branded are manufactured by General Electric Company, Schenectady, N. Y., when such is not a fact.

No. 2037. M. Milstone, trading as Acme Liquor Store, 927 Pennsylvania Ave., N. W., Washington, D. C., will desist from representing in advertising matter of otherwise that rum produced in the Virgin Islands and which he sells under the name "Three Saints" is either distilled, aged or bottled under the supervision of the United States Government, when such is not a fact.

No. 01843. Under a stipulation entered into, **The R. L. Watkins Company,** 170 Varick St., **New York,** engaged in the interstate sale of Dr. Lyon's Tooth Powder, will discontinue certain false and misleading representations in advertising such dentifrice.

The respondent company stipulated that it will stop advertising that Dr. Lyon's Tooth Powder has twice the cleansing properties of tooth paste, is doubly efficient, and costs only half as much to use; that there is nothing known that will clean, whiten or polish teeth so quickly or effectively as powder; that dentists everywhere recommend Dr. Lyon's, and that people by the thousands or millions are discarding other methods of teeth cleansing and are using powder instead.

No. 01844. A stipulation to cease the use of false and misleading advertising in the sale of bunion and arch appliances, medicated soaps and preparations for the relief of foot trouble, has been entered by **The Scholl Manufacturing Company, Inc.,** 211 West Schiller St., **Chicago.**

Among the representations to be discontinued are that the respondent company's bunion appliances build up crippled structures and tissues, or are recognized by orthopedic surgeons as practical in every detail, and that by use of any of Dr. Scholl's products one may obtain permanent or immediate relief from whatever foot trouble one has, or that any or all of such products tone up the feet or enable one to wear smaller shoes.

No. 01845. Desider Rosenberg, trading as **Seboline Co.,** Post Office Box 2408, **Kansas City, Mo.,** has entered into a stipulation to discontinue false and misleading advertising in connection with the sale of his New Improved Seboline Treatment, a preparation for the skin consisting of a facial cleanser, an over-night application and a soothing powder.

Cease and Desist Orders

The Commission has issued the following cease and desist orders:

No. 2293. Prohibiting unfair competition through certain misrepresentations in the sale of cigars, an order has been issued to cease and desist against **John F. Bolon,** 89½ South Summit St., **Bethesda, Ohio,** trading as **John F. Bolon Cigar Co.**

Bolon is directed to discontinue representing, through use of the words "Vuelta Abajo" or other words of similar meaning, as descriptive of cigars, that they are made from tobacco grown in and imported from Cuba and the Cuban Province of Pinar Del Rio, unless this is a fact. Vuelta Abajo is the name of a district in Pinar Del Rio Province, Cuba.

Use of the phrase "cured in rum", or other words of similar meaning to represent that cigars have been cured, flavored or sweetened with rum, unless such is a fact, is also barred by the order.

No. 2998. An order to cease and desist from certain false representations concerning Birconjel, a feminine hygiene preparation sold with a patented appliance, has been entered against **Birconjel Corporation, Inc.,** having places of business at 420 Lexington Ave. and 37 East 28th St., **New York.**

The representations ordered discontinued are that use of the preparation will prevent conception; that it is a scientific prophylactic and a protection against disease, and that it may be used with safety and without deleterious effects in all cases.

No. 2390. An order to cease and desist from representing that it is a distiller of spirituous beverages, when such is not a fact, has been entered against **Distillers Brands, Inc.,** formerly of **Cincinnati** but now of **Jacksonville, Fla.**

The respondent company is ordered to discontinue representing, through use of the word "distillers" in its corporate name, in advertising matter, on labels, or otherwise, that it distills whiskies, gins or other spirituous beverages; that it manufactures such products through a process of distillation, or that it owns or operates a distillery, unless and until it does own or operate such a place.

No. 3043. Prohibiting certain misrepresentations in the sale of correspondence courses designed to prepare students for civil service examinations, an order to cease and desist has been entered against **Public Service Institute, Inc.,** 425 DeBaliviere Ave., **St. Louis.**

Among representations prohibited by the order are those to the effect that enrollment for the respondent's courses constitutes enrollment for a civil service examination or position; that the respondent is connected with or represents the United States Government; that it conducts a residence school, and that the number of its students who have successfully passed civil service examinations or obtained government positions and the number of instructors on its staff are greater than the facts warrant.

No. 3053. An order to cease and desist has been issued against **Maryland Baking Co.,** 1200 South Eutaw St., **Baltimore,** directing discontinuance of certain lottery methods in the sale of ice cream cones.

The respondent is ordered to stop selling to wholesalers and retailers cones so packed and assembled that their sale to ultimate purchasers may be made by means of a gaming device.

Packages or assortments of ice cream cones are not to be supplied dealers when, without alternation or rearrangement of their contents, they may be used to conduct a game of chance in the sale of cones to the public.

No. 3082. The Solvotone Co., 4303 Cottage Grove Ave., **Chicago,** and its president, **Jessie Rogers,** have been ordered to cease and desist from misrepresenting the therapeutic effects and properties of Solvotone, a medicine consisting of three preparations which users are directed to take together in the treatment of conditions for which they are recommended.

Prohibited by the order are representations that the preparations constitute a cure, remedy or competent and adequate treatment for gall-stones, ailments of the gall-bladder, or for diseases of the stomach or liver; that they are useful or effective in the treatment of gall-stones, ulcers or cancer of the stomach, or any other serious pathological condition, or will prevent an operation when any such condition exists; and that their use will end suffering and relieve tightness around the waist or pain in the right side, regardless of the cause thereof, or when such symptoms are due to any serious pathological condition.

No. 3097. An order to cease and desist from certain unfair competitive practices has been entered against **Wesleyan Diesel Service, Inc.,** 2906 Leavenworth St., **Omaha, Nebr.,** engaged in selling correspondence courses of instruction in the installation, care and maintenance of Diesel engines.

The order prohibits the respondent from representing that students finishing the course are qualified to install, maintain and service Diesel engines and that a free employment service is operated for the benefit of such students; that a limited number of students are to be selected and trained in Diesel engine work and that the demand for such trained men is greater than it actually is; and that the tuition fee paid by a student will be refunded if he is not satisfied with the results obtained after completing the course.

No. 3112. Keeley's, Inc., 258 South State St., **Salt Lake City, Utah,** has been ordered to cease and desist from selling candy so packed and assembled that sales to ultimate purchasers may be made by means of a lottery, gaming device or gift enterprise.

The order prohibits the respondent company from packing in the same assortments for sale to the public at retail, boxes of candy together with punchboard devices which may be used in the retail sale of candy to the public.

No. 3160. Oppenheim, Collins & Co., Inc., 33 West 34th St., **New York,** has been ordered to discontinue using the words "silk", "crepe", "taffeta" or "satin", as descriptive of women's garments which are not composed of silk, but of other materials.

The respondent company, which operates department stores, was found to have falsely represented in newspaper advertisements, through use of the words mentioned, that certain articles of wearing apparel were made of silk, when such was not a fact.

No. 3163. F. B. Washburn Candy Corporation, Forest St., **Brockton, Mass.,** has been ordered to cease and desist from selling and distributing to dealers candy so packed and assembled that sales of such candy to the general public are to be made, or may be made, by means of a lottery, gaming device or gift enterprise.

FTC CASES DISMISSED

Nos. 2592 and **2601.** Complaints against **Harford Frocks, Inc.,** and **Fashion Frocks, Inc., Cincinnati** concerns selling women's wearing apparel, have been dismissed by the Federal Trade Commission.

Harford Frocks, Inc., was charged with misrepresenting the conditions of employment and the earnings of agents who sell its goods. The complaint in the other case also alleged misrepresentation of earnings, and that **Fashion Frocks, Inc.,** contrary to its representations, did not give free dresses to sales persons, except when they had earned a certain commission.

NAB REPORTS

Vol. 5 - - No. 37
SEPT. 2, 1937

Copyright, 1937. The National Association of Broadcasters

SITTIN' BULL

Broadcasting stations are warned about a potential infringement suit contained in Brunswick Record No. 7378. One side of this record (LA 318) is entitled "Sittin' Bull", and "Shine" by Mack-Brown-Dabney.

The LA 318 side of the record begins with an eight bar introduction of "Indian Love Call" which *is* included under an ASCAP license, followed by "Sittin' Bull" which is *not* included under an ASCAP license, and ending with "Shine" which *is* included under an ASCAP license.

The NAB has been informed that suits for infringement have been instituted in connection with the playing of this record containing the musical selection "Sittin' Bull". The NAB has conducted an investigation into the copyrights involved and any member station now engaged in controversy concerning this composition may obtain the results of the investigation upon request.

POWER INCREASE FOR KFNF RECOMMENDED

Station KFNF, Shenandoah, Iowa, which shares time with Station KUSD on 890 kilocycles, applied to the Federal Communications Commission for an increase in power from 500 watts, 1000 watts LS to 1000 watts, 5000 watts LS.

Examiner John P. Bramhall in Report No. I-486 recommended that the application be granted. He stated that there was a definite need for additional service in the area and that the interests of other existing stations will not be adversely affected by reason of interference.

POWER INCREASE RECOMMENDED FOR KGKO

Broadcasting station KGKO, Wichita Falls, Texas, which had previously been granted authority by the Federal Communications Commission to move the station to a site near Fort Worth, Texas, applied to the Commission for a modification of the construction permit to allow them to change their operation from 570 kilocycles with 250 watts, 1000 watts LS, unlimited hours, to 570 kilocycles with 1000 watts, 5000 watts LS and unlimited hours.

Examiner George H. Hill in Report No. I-485 recommends that the application be granted. He points out that the granting of the present request will be consistent with the prior decision, that the proposed increase in power will cause no interference in the daytime and that at night it will not be the predominant cause of interference to other existing stations. The examiner concludes that the added power will result in an increased service to the city of Dallas as well as Fort Worth without injury to any Dallas station as it is not proposed to solicit any local advertising in that city.

50 KW FOR KGO RECOMMENDED

Broadcasting Station KGO, San Francisco, Calif., operating on 790 kilocycles, unlimited time applied to the Federal Communications Commission for an increase from its present power of 7500 watts to 50,000 watts.

Examiner John P. Bramhall, in Report No. I-488, recommended that the application be granted. He found that there is a need for additional service proposed to be rendered and that although a slight increase in interference to Station KEHE will result, it is not sufficiently serious to warrant the denial of the application.

WBNS POWER INCREASE RECOMMENDED

Radio Station WBNS, Columbus, Ohio, operating on 1430 kilocycles, unlimited time, applied to the Federal Communications Commission for a construction permit for an increase in power from 500 watts, 1000 watts LS to 1000 watts, 5000 watts LS.

Examiner Robert L. Irwin, in Report No. I-489, recommended that the application be granted. He stated that there is a need for additional service in the area, that the increased power will not cause increased interference to existing stations nor result in objectionable

RECOMMENDS AGAINST NEW WEST VIRGINIA STATION

George W. Taylor Company, Inc., applied to the Federal Communications Commission for a construction permit for a new station at Williamson, W. Va., to operate on 1370 kilocycles, daytime, with 100 watts power.

Examiner Robert L. Irwin, in Report No. I-487, recommended that the application be denied. He based his adverse recommendation mainly on the ground that the record indicated that the application was filed with the intention of transferring control of any license or permit that might be acquired to parties who were not applicants and who did not appear at the hearing and he added that the granting of the application would not serve the public interest, convenience and necessity.

RECOMMENDS NEW MISSOURI STATION

Don M. Lidenton and A. L. McCarthy applied to the Federal Communications Commission for a construction permit for a new station at Poplar Bluff, Missouri, to operate on 1310 kilocycles, 100 watts power and daytime operation.

Examiner Robert L. Irwin, in Report No. I-482, recommended that the application be granted. He found that the applicants were qualified to construct and operate the proposed station, that there is a need for daytime service in the area, that the site and equipment are satisfactory and that the granting of the application will serve the public interest, convenience and necessity.

NEW NORTH CAROLINA STATION

The Hickory Broadcasting Company has applied to the Federal Communications Commission for a construction permit for a new station at Hickory, North Carolina, to be operated on 1370 kilocycles, with 100 watts power and daytime operation.

Examiner Robert L. Irwin, in Report No. I-483, recommended that the application be granted, subject to the approval by the Commission of a satisfactory transmitter site. He stated that there was need for daytime service in that area, that there would be no objectionable interference with existing stations during the greater part of the day, that the applicants are in all respects qualified to construct and operate the proposed station and that they have indicated their willingness to locate the transmitter at an approved site.

NEW MASSACHUSETTS STATION RECOMMENDED

John W. Haigis applied to the Federal Communications Commission for a construction permit for a new station at Greenfield, Mass., of 250 watts power to operate daytime on 1210 kilocycles.

Examiner Tyler Berry in Report No. I-484 recommended that the application be granted. He found that the applicant is qualified to construct and operate the proposed station, that there is need for daytime service in the area and that no objectionable interference is expected to the service of existing stations.

APPELLATE COURT UPHOLDS FCC GRANT

The United States Court of Appeals for the District of Columbia affirmed the action of the Federal Communications Commission which had on May 1, 1936, granted a construction permit to the Portland Broadcasting System, Inc. for a new station at Portland, Maine, to operate on 640 kilocycles, with 500 watts, limited time, using directional antenna. Pursuant to the mandate of the Court, the Commission directed that the C. P. be issued to the Portland Broadcasting System, Inc.

FEDERAL TRADE COMMISSION ACTION

Complaints

The Federal Trade Commission has alleged unfair competition in complaints against the following firms. The respondents will be given an opportunity to show cause why cease and desist orders should not be issued against them.

Nos. 3211 and 3212. Use of lottery methods in the sale of miscellaneous merchandise is alleged in two complaints, one against **Jack Rosenfeld,** 2316 Locust St., **St. Louis,** trading as **J. Rose & Co.,** and the other against **James I. Silver,** 2868 Elston Ave., **Chicago,** trading as **Silver Manufacturing Company, Silver Sales Company,** and **World-Wide Radio Company.**

Rosenfeld sells candy, radios, lamps, clocks and watches. Silver deals in the same articles, and also in silverware, fountain pen and pencil sets, bedding, luggage, dishes, electric fans and cameras.

The complaints allege that both respondents employ various merchandising plans, in accordance with which they furnish customers with pushcards, punchboards or pullcards which enable purchasers of chances to win prizes by selecting certain numbers or feminine names appearing on the devices. It is alleged that distribution of merchandise in this manner is made wholly by lot or chance, and constitutes a practice long deemed contrary to public policy.

The complaint against Silver charges that through use of his trade name, Silver Manufacturing Company, and by other means, he represents that he is a manufacturer, when, in fact, he neither owns nor operates a factory and does not make the merchandise sold by him.

In newspapers and magazines, Silver allegedly advertises that certain of his radios are free, that salesmen make money giving them away, and that persons purchasing them save 50 per cent, when according to the complaint, these representations are false.

No. 3213. A complaint has been issued charging **The Paradise Company,** 325 West Ohio St., **Chicago,** with certain unfair methods of competition in promoting the sale of cosmetics and toilet preparations by conducting prize contests.

Other respondents named in the complaint are Albert L. Bisson, president of the corporation; Sylvan B. Heininger, secretary-treasurer; Martha A. Boeing, a director, and Leta M. Clanton and G. G. Grant, stockholders.

The complaint alleges that the prize contests are not bona fide contests calculated to promote the taking of orders for the respondent company's merchandise and to reward those who have taken the most orders. The contests allegedly are merely sales promotion schemes by which contestants are induced, through alleged misleading representations, to make outright purchases of merchandise, with the result that, in many cases, they have goods on hand which they cannot use or resell.

No. 3215. Cherry Specialty Company, 4722 Augusta Boulevard, **Chicago,** is charged in a complaint with selling to dealers assortments of candy so packed as to involve the use of a lottery scheme when resold to ultimate consumers.

According to the complaint, the assortments are composed of 24 one-pound boxes of candy, together with an electric lamp and a display circular.

It is alleged that the lamp is to be given as a prize to the purchaser of one of the boxes of candy, while the circular is for use of the retail dealer in disposing of boxes of candy by a sales plan involving a game of chance, lottery scheme or gift enterprise.

No. 3216. J. W. Pincus and **J. Dan Silver,** copartners trading as **The Novelcrafts Company,** 1534 Center Ave., **Pittsburgh,** are charged in a complaint with using lottery methods to promote the sale of candy and chewing gum. Lou Roth, manager of the business conducted by the partnership, also is named as a respondent.

The respondents allegedly sell to dealers for resale, assortments composed of a number of pieces of candy of uniform shape and size, together with other merchandise. According to the complaint, an ultimate purchaser who selects a piece of candy with a center colored differently from the centers of the majority of pieces wins an article of merchandise as a prize.

Substantially the same method is used in the sale of chewing gum, the complaint alleges, except that pennants are specified as the prizes to be awarded purchasers who select a stick of gum having a color different from that of the majority of sticks.

No. 3217. Use of certain false and misleading representations in connection with the sale of Kondi Worm Specific and Conditioner, a medicine for dogs, is alleged in a complaint issued against **J. E. Miller, Atlanta, Ga.,** trading as **Kondi Company.**

Advertising in newspapers and magazines, on labels, and otherwise, the respondent, the complaint alleges, falsely represents that his preparation is "doing wonders" as a conditioner for dogs and will positively expel or destroy all intestinal parasites, including hook, tape and round worms, in from 5 to 30 minutes; that it is an effective and safe treatment for distemper and is effective in treating dogs for barking or fright fits and a run-down state, which conditions, the respondent represents, are indicated by dull eyes, pale mouth membranes, rough coat, and other symptoms.

Cease and Desist Orders

The Commission has issued the following cease and desist orders:

No. 1772. An order to cease and desist entered against **Heidelberger Confectionery Company,** 1720 North Second St., **Philadelphia,** has been vacated and set aside and an amended and supplemental complaint has been issued. The company is engaged in the manufacture and sale of candy.

The original complaint charged the respondent company with use of the so-called "break and take" lottery method in promoting the sale of candy, and the order, now vacated and set aside, prohibited such practice as constituting unfair competition in violation of Section 5 of the Federal Trade Commission Act.

The amended and supplemental complaint contains the same allegation, and, in addition, charges the respondent company with employing other lottery schemes in connection with the sale of its products, among which is the use of pushcards.
